TABLE OF CONTENTS

Volume 1

BUILDING ENVELOPE 1

Synthetic Stone Veneer—Why Problems Occur and How to Avoid Them ........................................ 1
Edward L. Fronapfel, Brian Erickson

Transparent Shading Device as Daylighting System .................................................................. 16
Svetlana Olbina, Yvan Beliveau

Thermal Behavior of Precast Prestressed Concrete Three-Wythe Sandwich Wall Panels ................................................................. 31
Byoung-Jun Lee, Stephen Pessiki

To Apply Numerical Simulation to Assist Drying Capacity Experiment of Light-Frame Wall Systems ......................................................... 46
Qinru Li, Paul Fazio, Jiwu Rao

BUILDING ENVELOPE 2

Digital Form-Finding: A Case Study in Complex Geometry ..................................................... 61
M. Elnahas, K. Nassar

Development of Failure Prediction Models for Structural Sealant Glazing Systems under Cyclic Racking Displacement Conditions ............................................................... 68
A. M. Memari, X. Chen, P. A. Kremer, R. A. Behr

Feasibility of a Unique Skylight Design for Day and Night Illumination of a Large Volume Room ........................................................................... 83
Mark E. Snyder, Ahmed Megri

COMPOSITE AND INNOVATIVE NEW MATERIALS

The Use of Clay as Pozzolana for Building Purposes in Ghana ............................................ 98
Afua O. Adu-Boateng, M. Bediako

Creep Induced Deflections of Concrete Elements Reinforced with Polymer Composite Bars ........................................................................ 108
F. Aguiñiga, H. Estrada

Structural Properties of a New Material Made of Waste Paper .................................................. 119
B. Fuller, A. Fafitis, J. Santamaria

CURTAIN WALLS

AISI Codes, Standards, and Design Guides on Cold-Formed Steel Framing ......................... 135
J. W. Larson
Industry-Wide Innovative Steel Framing Products for Curtain Walls ...................................................... 146
  Nabil A. Rahman

Functional Isolation Concept in Curtain Wall Design ................................................................. 159
  Raymond Ting

MECHANICAL/ELECTRICAL SYSTEMS

Innovative Design Solutions for Burn Intensive Care Units .............................................................. 171
  Isabelle A. Lavedrine, Patric Thomas

Using Construction, Operations, and Maintenance Knowledge to Better Coordinate Mechanical, Electrical, and Plumbing Systems in Buildings .................................................. 185
  Thomas M. Korman, C. B. Tatum

Office Lighting for Lighting Education .............................................................................................. 194
  Chrysanthis Mishek, Clarence Waters

NOISE AND VIBRATION CONTROL 1

Improved Methodologies for the Prediction of Footfall-Induced Vibration .............................................. 206
  Michael Willford, Caroline Field, Peter Young

Effects of Noise on Productivity: Does Performance Decrease over Time? ........................................ 221
  Jessica Errett, Erica E. Bowden, Marc Choiniere, Lily M. Wang

  Steven R. Ryherd, Lily M. Wang

Appropriate Characterization of Background Noise Levels in the Workplace ....................................... 234
  Erica E. Bowden, Lily M. Wang

NOISE AND VIBRATION CONTROL 2

Steady-State Diffuse Acoustic Radiosity for Sound Level Prediction in Rooms ....................................... 243
  Ralph T. Muehleisen, C. Walter Beamer IV

Room Acoustics Computer Modeling: Study of the Effect of Source Directivity on Auralizations ............................................................................................................................. 257
  Michelle C. Vigeant, Lily M. Wang, Jens Holger Rindel

A Review of Diffuse Reflections in Architectural Acoustics .................................................................. 266
  Jonathan Rathsam, Lily M. Wang

Room Acoustics in Coupled Volume Spaces ....................................................................................... 273
  David T. Bradley, Lily M. Wang

PANEL DISCUSSION

CASE STUDIES AND ARCHITECTURAL ENGINEERING

Two Case Studies in Architecture, Engineering, and Construction: The First National Bank Tower in Omaha, and the Durham Research Center, University of Nebraska Medical Center, Omaha .................................................................................................... 279
  William Borner, Bruce Anderson
STRUCTURES: DIAGNOSTICS AND MATERIALS

Assessment of Significances of Building Failure Induced by Foundation Failure, Façade Failure, and Moisture Problem ................................................................. 297
Jun Lin, D. Scott

Dual-Purpose Hollow Structural Sections for Building Slab Construction .................. 310
Indrajit Ghosh

Influence of Concrete Creep on Durability and Reliability Characteristics of Prestressed Composite Slabs .......................................................... 317
G. Sossou

Fabric-Formed Concrete Panel Design ........................................................................ 332
Robert P. Schmitz

STRUCTURAL ANALYSIS AND BEHAVIOR

Experimental Evaluation of a Sacrificial System for Masonry Infill Walls .................. 347
Mohammad Aliaari, Ali M. Memari

Rational Analysis of Prying Action in Tension Bolted Connections .......................... 362
H. Estrada, J. L. Huang

STRUCTURAL DESIGN OF BUILDINGS FOR SERVICEABILITY

Simulation of the Alfred P. Murrah Federal Building Collapse Due to Blast Loads .......... 368
Hatem Tagel-Din, Nabil A. Rahman

A Unique Vibration Serviceability Case Study of a Complex Structure ........................ 383
Kelly A. Salyards, Linda M. Hanagan, Christopher A. Kim

State-of-the-Art Protection against Severe Storms ...................................................... 391
H. Estrada, E. Kiesling

Volume 2

Drainage: The Essential Ingredient in Basic Parking Structure Durability Design .......... 400
Robert C. McConnell

QA/QC Testing for Concrete in Harsh Environments ................................................. 414
Karthik Obla, Colin Lobo, Lionel Lemay

A Whole Building Cost Perspective to Floor Vibration Serviceability .......................... 425
Linda M. Hanagan, Melissa C. Chattoraj

Deflection Control for Serviceability of Reinforced Concrete Floor Systems ................. 431
Young Hak Lee, Andrew Scanlon

PLANNING; METHODS AND APPLICATIONS

A Multi-Disciplinary Approach to Conceptual Design of Innovative Infrastructure Systems ............................................................................................................. 438
Joseph P. Hanus, Lawrence C. Bank, Gerardo I. Velazquez, James C. Ray
Practice-Facilities Development and Ideas Management—Implications on Education
Kolialum Devanathan, Pushpa Devanathan

Front End Planning for Buildings
G. Edward Gibson, Jr., Kyle T. Irons, Michael P. Ray

A Study on the New Design Theory for an Age of New Paradigms
Motoyuki Minakami

Means of Egress Building Code Compliance Diagrams
Khaled Nassar, Mohamed El-Nahas

CODES AND STANDARDS

Assessment of Shoring System for Safety of Elevated Slab Formwork Using Nested Factor Designs
Jin-Lee Kim

Performance-Based Specifications for Concrete
Colin Lobo, Lionel Lemay, Karthik Obla

The Perception of Risk in Performance-Based Design of Buildings
Benjamin Thompson, Lawrence Bank

EDUCATION AND ETHICS

Development of a New Architectural Engineering Program at Texas A&M University-Kingsville
H. Estrada, W. Heenan

Integrating Architecture and Structural Design in the Comprehensive Design Studio
J. M. Homer

Enhancing Architectural Engineering Capstone Design Courses through Web-Based Technologies
Jonathan U. Dougherty, M. Kevin Parfitt

Engaging All Disciplines within the Education Process
Shannon Sanders McDonald

Architectural Detailing: A Teaching Methodology
X. Cheng, G. G. Schierle

LIFE-CYCLE COSTS OF BUILDING/INFRASTRUCTURES

Service Life Prediction of Low-Slope Roofing Components in Buildings
G. Morcous, H. Rivard

Cost Analysis in the Design of Open-Web Castellated Beams
H. Estrada, J. J. Jimenez, F. Agüñiga

Giovanni C. Migliaccio, Sachin Goel, James T. O’Connor
BUILDING SUSTAINABILITY/FIAPP

Evaluation of Building Performance University of Missouri-Rolla (UMR) 2002
Solar House ................................................................................................................. 625
Swamali Dastider Gosh, Stuart Baur

Strategic Knowledge Management for Building Engineering and Construction ............... 637
Youngsoo Jung, Seunghee Kang, In-Sung Choi

FIAPP Trends................................................................................................................ 648
James D. Goedert, Pavan Meadati

INTEGRATION, BUSINESS, MANAGEMENT, AND MARKETING

Managing Delays Caused by Differing Site Condition ...................................................... 663
Khalid Siddiqi, Abayomi Akinhanmi

A Forecasting Model for Rental Prices of Tower Cranes ................................................. 671
Yong-Chan Jung, Seung-Hoon Lee, Kyo-Jin Koo, Chang-Taek Hyun

Integration of Tall Building Systems............................................................................ 686
M. M. Ali, P. J. Armstrong

Building Integration Solution......................................................................................... 701
Ana Bacall, Brian Thomson

RECOMMENDED PRACTICES FOR CONTROL, COMMUNICATION,
AND POWER (C2P) OF CRITICAL FACILITIES 1

A Process for C2P Harmonization - Electrical Standards in North America .................. 717
Brian Haydon

Detection of Security Concerns on Data Communications Systems ............................ 728
Song Xing, Xiannong Meng, Xusheng Wang

RECOMMENDED PRACTICES FOR CONTROL, COMMUNICATION,
AND POWER (C2P) OF CRITICAL FACILITIES 2

A Simplified Risk Analyses Method and an Electric Systems Solution to
Reliability and Continuity of Vital Service Problems in Critical Service Facilities -
A Brief Overview of the Work before the ASCE/AEI C2P Committee ........................... 740
James Angelo Ruggieri

High Impact Shock Testing............................................................................................ 752
Rupert P. Chandler

STRUCTURAL MODELING

Modal Analysis Methods for Validation of Vaulted Stone Masonry Models .................... 762
Thomas E. Boothby, Huriye Sezer Atamturkur, Linda M. Hanagan

Modal Analyses on the Lateral Resistance System of the Auxerre Cathedral .................. 770
Ece Erdogmus, Derrick Fitton
Experiments and Analyses on a Timbrel Dome........................................................................... 782
Ece Erdogmus, Brian Skourup

The Structural Characterization of Domes of Sinan’s Mosques ............................................... 797
A. I. Unay

Field Investigation of the 14th Century Castle Pernstejn Before and After Fire Damage ............................................................................................................................................ 805
Bo Kasal, Michal Kloiber, Milos Drdacky

Author Index
