Joining of Medical Plastics: Welding, Bonding, and Failure Prevention 2005

October 18 – 20, 2005
Providence, Rhode Island, USA
# TABLE OF CONTENTS

1 ADHESION FAILURES OF PLASTICS BONDED TO VARIOUS MATERIALS  
Myer Ezrin and Gary Lavigne - Institute of Materials Science University of Connecticut

9 UTILIZING THE CLEARWELD® PROCESS FOR MEDICAL APPLICATIONS  
Michelle Burrell, Nicole Woosman - GENTEX Corporation

14 A TECHNIQUE FOR THE DESIGN OF 3D RF WELDING ELECTRODES  
Adam S. Epstein, Stephen Wiater, Rick Mongeau - Dielectrics Inc.

18 A PRACTICAL METHOD TO INCREASE THE FUSION OF RADIOFREQUENCY WELDS  
A. S. Epstein, T. Rooney, S. Wiater - Dielectrics Inc. Z. Tao - University of Massachusetts Lowell

22 RF WELDING OF THERMOPLASTIC POLYURETHANE  
Scott M. Epstein - Medical Device Labs, Inc.

26 JOINING OF MEDICAL PLASTICS USING ATMOSPHERIC DISCHARGE PRETREATMENTS OF ADHERENTS PRIOR TO BONDING  
Rory A. Wolf - Enercon Industries Corporation

30 SILICONE ADHESIVES AND PRIMERS FOR BONDING IN HEALTH CARE APPLICATIONS  
Jeff Caruso - NuSil Technology Outside Technical Sales Kyle Rhodes, General Manager - NuSil Europe  
Bill Riegler - NuSil Technology Product Director - Engineering Materials  
Rob Thomaier - NuSil Technology Research Director  
Stephen Bruner - NuSil Technology Marketing Director

38 ULTRASONIC WELDING OF DISSIMILAR MATERIALS  
Presented by Arthur Summo - Branson Ultrasonics

43 MAIN PARAMETERS FOR LASER WELDING OF THERMOPLASTICS  
Thomas R. Kirkland and Michael J. Johnston - Dukane Intelligent Assembly Solutions

48 ULTRASONIC AND LASER WELDING OF TRANSPARENT COPOLYESTER RESINS  
Anthony I. Pifer, Eric J. Moskala, Danny A. Wampler, and Danny A. Free - Eastman Chemical Company
53 WELDING OF THERMOPLASTICS USING A QUARTZ-HALOGEN LAMP WITH A TRANSPARENT HEAT SINK TO PREVENT THERMAL DAMAGE
Tomoya Matayoshi, Electronic and Engineered Materials Laboratory - Mitsui Chemicals, INC.
Yasuo Kurosaki, Cooperative Research Center - University of Electro-Communications

58 A NOVEL CO2 LASER WELDING OF NATURAL THERMOPLASTICS USING A SOLID HEAT SINK WITHOUT CAUSING THERMAL DAMAGE
Yasuo Kurosaki - Cooperative Research Center, University of Electro-Communications
Tomoya Matayoshi - Electronic and Engineered Materials Laboratory, Mitsui Chemicals, INC.
Kimitoshi Sato - Dept. of Mechanical System Engineering, Hiroshima Institute of Technology

63 THE QUATERRYLIMIDES - HIGHLY EFFICIENT NIR ABSORBERS FOR LASER TRANSMISSION WELDING OF PLASTICS
Arno J. Boehm - GBU Performance Chemicals, BASF Aktiengesellschaft
Michael Edison - RBM Performance Chemicals, BASF Corporation

69 LASER TRANSMISSION WELDING OF PLASTICS IN MEDICAL DEVICE MANUFACTURING – HOW TO CHOOSE THE RIGHT LASER ADDITIVE
Arno J. Boehm - GBU Performance Chemicals, BASF Aktiengesellschaft
Michael Edison - RBM Performance Chemicals, BASF Corporation

72 A SIMPLISTIC APPROACH TO DETERMINE AND EVALUATE LASER WELDS
Sanjiv Bhatt - Entegris Inc.

76 APPLYING ADVANCES IN LED TECHNOLOGY TO THE USE OF LIGHT CURING ADHESIVES IN MANUFACTURING PROCESSES
Patrick J. Courtney, Engineering Manager - Henkel Corporation
Brian Noonan, Application Engineer - Henkel Corporation

81 WORLD CLASS MANUFACTURING TECHNOLOGY WITH ATMOSPHERIC PRESSURE PLASMA
Dr. Daniel A. Kaute - PlasmaTreat North America Inc.

135 AN ELECTRONIC SYSTEM FOR PROCESS CONTROL AND QUALITY VERIFICATION OF PLASTIC WELDING
Yee C. Wong - SEBRA
142 ADHESIVE BONDING OF MEDICAL PLASTICS
Dr. David R. Speth - Edison Welding Institute
Dr. George W. Ritter - Edison Welding Institute

147 THROUGH-TRANSMISSION INFRARED WELDING OF PLASTICS – A GENERAL OVERVIEW
Marc St. John - Edison Welding Institute

152 HIGH QUALITY WELDING OF CLEAR PLASTICS WITH FIBER LASERS
Tony Hoult - SPI
Michelle Burrell - Gentex Corporation

156 ADVANCED LIGHT CURE ASSEMBLY TECHNIQUES FOR MEDICAL DEVICE MANUFACTURERS
Jeffrey Scullion - EXFO Precision Assembly Group

161 NEW ADHESIVES FOR OCULAR WOUND REPAIR
Jeffrey G. Clark, Michael A. Carnahan, Timothy Hickey, Keith D'Alessio, Jared Butlin, Chris Robinson, Ken Stockman, Terry Kim, and Mark W. Grinstaff - HyperBranch Medical Technology, Inc.

164 FAILURE PREVENTION - LESSONS FROM THE FAILURE ANALYSIS INVESTIGATIONS
Barbara J. Gedeon
Alan I. Kasner
