European Automobile Engineers Cooperation
10th EAEC European Automotive Congress
2005

TABLE OF CONTENTS

Volume 1

Fatigue Design Method for Leaf Spring of the Light Commercial Vehicle Based on Damage Analysis	1
<i>Ilseon Sohn, Dongho Bae, Wonseok Jung</i>	
Dynamical Model of Hybrid Electric Vehicle Transmission	12
<i>Jonas Sapragonas, Martynas Starevicius, Donatas Marksaitis, Petras Ilgakojis</i>	
Bond Graph Modeling of Automatic Transmissions	24
<i>Dragos Cruceru, Tiberiu Macarie</i>	
Design and Optimisation of a Fixed-Tank-Vehicle	39
<i>Dimitris V. Koulocheris, Vasilis K. Dertimanis, Konstantinos N. Spentzas</i>	
A Numerical Study on the Passenger Airbag Diffuser Flow	52
<i>Seung Kyung Park, Won Pil Ha, Byung Jae Ahn</i>	
Development of a CFD-Based Parametric Model for Design of Central Valve Master Cylinders	61
<i>Jose R. Valdes, Mario Miana, Carlos Bernard, Francisco Buil, Isaac Nadal</i>	
Comparison of Three Tyre Simulation Models by MSC.ADAMS	72
<i>Osku Kaijalainen, Matti Juhala</i>	
3D CAD Module for Design of Supercharger Rotors	87
<i>Aleksandar Subic, Katherine Ilie</i>	
Friction Material Development Using Artificial Inteligence	98
<i>Dragan Aleksendric, Cedomir Duboka</i>	
Design for Reliability of Vehicles in the Concept Phase	110
<i>Predrag Popovic, Dr. Gradimir Ivanovic</i>	
High Strength Stainless Steels as a Future Lightweight Body Material - Utilizing the Mix Materials Approach to Meet the Demands for Safe, Weight Efficient and Environmental Friendly Cars for Tomorrow	125
<i>Johnny K. Larsson, Ana Luisa Alves Gomes</i>	
Design of a Low-Cost Lightweight Composite Trailer	141
<i>Dr. Nikos Pantelelis, Thomas Vrouvakis, Dr. Konstantinos N. Spentzas</i>	
Tooling Solutions for Forming and Punching of Ultra High Strength Dual Phase and Martensitic Steels	152
<i>Dr. Bjorn Carlsson</i>	
Researches for More Compact Cooling Systems for Vehicles	160
<i>Mihai Nagi, Paul Ilies, Vlad Martian</i>	
Virtual Environment for Advanced Manufacturing of Cylinder Assemblies	166
<i>Dr. Miroslav Pilipovic, Dejan Vuckovic, Dr. Zarko Spasic, Zoran Vicevac</i>	
Inspection of Stepping of an Electrically Adjustable Front Seat at an End-of-Line Quality Control Unit	176
<i>Jemej Klemenc, Tomaz Bucar, Matija Fajdiga</i>	

A Lifetime of Zastava Vehicles	183
<i>Dr. Miljko Kokic</i>	
Functional Life Prediction in Elastomeric Components of a Brake Booster System	190
<i>F. Javier Martinez, Leticia A. Gracia, I. Nadal, Manuel Gimenez, Karl-Heinz Frey</i>	
The Proposal for a New Short Homologation Test of the CI Engine Cylinder-Piston Assembly	201
<i>Vukas Svetlana, Grojic Srecko, Djurica Dragoljub</i>	
Application of "Bernoulli" and "Poisson" Laws in Analyzing the Probabilities of Failure Occurrences for Components of Motor Vehicles and Self-Propelled Agricultural Machines.....	207
<i>Alexandru-Grigore Pisoschi, Gheorghe Popa, Augustin Constantinescu</i>	
Tire Road Friction Estimation	215
<i>Dr. Yves Delanne, Dr. Minh-Tan Do, Dr. Nacer K. M'Sirdi</i>	
Investigation into Temperatures, Thermal Stresses and Deflections of Different Brake Disc Designs for Commercial Vehicles	225
<i>Marko Tirovic</i>	
Numerical Calculation of the Breake Disk Through the Finite Elements Method	237
<i>Razvan-Eugen Balean, Eugen M. Negrus, Gabriel Jiga, Marius Toma</i>	
Numerical and Experimental Analysis of a Pegs-Wing Ventilated Disk Brake Rotor, with Pads and Cylinders.....	244
<i>Pier Francesco Gotowicki, Vincenzo Nigrelli, Gabriele Virzi Mariotti, Dragan Aleksendric, Dr. Cedomir Duboka</i>	
The Aerodynamics of Vented Disc Brakes.....	259
<i>Simon Watkins, Arthur Stephens, Chris Dixon</i>	
Measurement of Absolute Displacement of a Twin Calliper Disc Brake During Noise.....	275
<i>J.D. Fieldhouse, W.P. Steel, C.J. Talbot, A. Crampton</i>	
An Estimation of ABS Application Contribution to Road Safety Improvement	283
<i>Dr. Drago Talijan, Dr. Cedomir Duboka</i>	
Analysis of Traffic Safety of Vehicles Equipped with ABS.....	294
<i>Miladin Nesic, Drsto Lipovac</i>	
Reliability Analysis of Redundant Electronic Brake System for Heavy Goods Vehicle.....	307
<i>Timea Fulep, Laszlo Palkovics</i>	
Dynamic Analysis of Motorcycle Behaviour on the Road with Steering Plate Structural Optimisation	318
<i>Francesco Giannitrapani, Gabriele Virzi Mariotti</i>	
Safe Traffic Speed of Truck-Crane.....	329
<i>Radomir Mijailovic, Milan Vujanic</i>	
Intelligent Integrated Control of Vehicle Stability Characteristics	336
<i>Aleksandar Rodic, Miomir Vukobratovic</i>	
Study of the Effect of Active Rear Steering on Vehicle's Response in Cosimulation Environment	351
<i>Igor Gjurkov, Dr. Dragi Danev, Dr. Milan Kosevski</i>	
Prediction of Drum Brake Contact Pressure Distribution and its Effect on Squeal Propensity.....	364
<i>Dr. P. Ioannidis, Dr. P.C. Brooks, D.C. Barton</i>	

Synthesis of Brake Systems for Vehicles with Innovative Powertrains	376
<i>Dr. Valentin Ivanov, Mikalai Mikhaltsevich, Siarhei Kliausovich, Barys Shyrokau</i>	
Active Safety Systems for Heavy-Duty Vehicles and Off-Road Trucks	386
<i>Dr. Michael Vysotsky, Dr. Michael Belous, Dr. Valentin Ivanov</i>	
Characteristic Determination of Vehicles' Electropneumatic Modulators	396
<i>Kanstantsin Mazanik, Nikolay Bogdan, Nikolay Maltsev, Pavel Boganev</i>	
Knowledge Based Engineering (KBE) Past, Present and Future.	404
<i>Aleksandar Prijic, Craig Chapman, Paul Burton</i>	
Continuous Improvement of Test Facilities, and Methodologies Employed, by using Six Sigma Principles	418
<i>Herbert Kuster, Stojan Cucuz</i>	
Vehicle System Identification using MIMO-ARMAX Models	427
<i>Dimitris V. Koulocheris, Vasilis K. Dertimanis, Konstantinos N. Spentzas</i>	
A Preliminary Study in the Ahmed Body Far Wake: Bridging the Gap to FGITS	438
<i>Riccardo M. Pagliarella, Simon Watkins, Gioacchino Vio</i>	
Some Aspects of Research of Fore and AFT Vibration of Trucks	451
<i>Miroslav Demic, Jovanka Lukic, Zeljko Sakota, Dorde Diligenski</i>	
Mathematical Algorithms used to Study the Vibrations of Car Bodywork Elements	463
<i>O. Bictor, S. Loreta</i>	
A Comparative Study of Displacement Fields of Kinematical Elements with Linear Elastic and with Viscoelastic Behaviour	N/A
<i>Bagnaru Dan Gheorghe, Cataneanu Adina, Cataneanu Mihnea</i>	
Application of the Substructure Method in Analysis of Vehicle Structure	468
<i>Slave Jakimovski, Kristina Jakimovska</i>	
Computer Simulation of Tests for Vehicle Protection Structures	474
<i>Petru Cardei, Bergil Muraru, Raluca Sfiru</i>	
Fuel Economy Benefits of Advanced Techniques for CVT Actuation and Control	487
<i>P.H.W.M. Albers, P.A. Veenhuizen</i>	

Volume 2

Application of System Identification Algorithms for Modelling an Outside Rear View Mirror (OSRVM)	501
<i>Joan C. Call, Jose M. Rodriguez-Fortun, Jordi Sanchez-Yenes</i>	
A Path Generation Algorithm for Four-wheeled Vehicle in Automatic Aprking System	518
<i>Takahiko Tsujisawa</i>	
The Study of Control and Guidance in Shenzhen Expressway Network	525
<i>Zhang Junyou, Mao Enrong, Tang Xiaomeng, Duan Liren</i>	
The Ecological Dimension in Automotive Engineering - Paving the Way for Modern Car Development	530
<i>Dusan Guden</i>	
New Forcast of Exhaust Emissions from Road Traffic in Germany and European Perspectives	540
<i>Dr. Hans Peter Lenz, Dr. Bruna Illini, Bjorn Fellner</i>	
Biomass-to-Liquid Fuels (BtL) - Made by CHOREN Process, Environmental Impact and Latest Developments	560
<i>Matthias Rudloff</i>	

A Preliminary Study of Fuel Cell Micro-Vehicles for Small Sicilian Islands	570
<i>V. Antonucci, F.V. Matera, L. Andaloro, G. Dispenza, M. Ferraro</i>	
Relationships Between Pollutant Emissions from Vehicles and Levels of Concentrations: A Phenomenological Approach.....	578
<i>Stefania Nicolosi, Matilde Pietrafesa, Gianfranco Rizzo, Marzia Traverso</i>	
Clean Fuel for Diesel Engines: Catalytic Synthesis and Environmental Impact of Dime.....	588
<i>F. Frusteri, L. Spadaro, O. DiBlasi, G. Bonura</i>	
Forecasting Road Transport Energy Consumption using Artificial Neural Networks	600
<i>Luigi LaFranca, Pietro Zito</i>	
Diesel Combustion Enhancement Through an Early Injection-Based Injection Strategy.....	614
<i>Paolo Carlucci, Antonio Ficarella, Domenico LaForgia</i>	
Measures for Climate Protection in Mediterranean Cities: The Implementation of Medclima Project by Municipality of Palermo.....	623
<i>A. Mazzon, Ciro Spataro, Despoina Karniadaki, M. Traverso</i>	
Tyre/Road Noise on Different Road Pavements: Synergetic Influence of Acoustical Absorbing Coefficient and Surface Texture	633
<i>Gabriele Boscaino, Filippo Giammaria Pratico, Rosolino Vaiana</i>	
Forecasting Noise Levels by Means of Neural Networks for Assessing Urban Traffic Policies.....	645
<i>Francesco Calvino, Maria LaGennusa, Giovanni Lascari, Gianluca Scaccianoce</i>	
Design of an Acoustical Decision Support System for Town and Traffic Planning	653
<i>Salvatore Barbaro, Rosario Caracausi, Caterina Ciaccio, Gaetano Cognata</i>	
The Euromotor E-Learning Initiative: Online Training for Automotive Engineers.....	666
<i>Nandy Millan, Cedric Ashley, R.J. Hendley, Chris Bale, Tim Williams</i>	
Educating Automobile Engineers in Serbia	677
<i>Dr. Jovan Todorovic</i>	
Systematic Solutions for Treatment of End of Life Vehicles.....	683
<i>Milosav Djordjevic</i>	
Correlation Analysis for the Traffic Induced Pollution	699
<i>Ioana Ionel, Daniel Bisorca, Sabin Ionel</i>	
Systems Heating Using Convection of Mechanical Power Through Sonique and Ultrasonique Waves.....	705
<i>Bebe Tica, Stefanita Ciunel</i>	
Comparison of Noice Emission Simulation Using 2d and 3d Locomotive Models	709
<i>Zilvinas Bazaras, Vytautas Jurenas, Petras Ilgakojis</i>	
Fuel Consumption Optimization for Diesel Engines Equiped with Mechanical Injecon System Using Onboard Informational Systems.....	720
<i>Ilie Dumitru, Mihnea Cataneanu</i>	
Fuel Economy Improvements as a Result of the Use of a 12-Volt, Electronically Controlled Cooling System.....	726
<i>Kevin Jackson</i>	
Effects of Hybridisation Ratio and Gear Change Strategy on Fuel Economy	735
<i>Christianens Sebastien, Vaughan Nicholas, Revereault Pascal</i>	

Vehicle Fleet Management with the Objective of Attaining the Sustainable Development	745
<i>Vladimir Momcilovic, Vladimir Papic, Stevo Buncic</i>	
Fuel Cell Polarization Curve Neural Network Estimator for Automotive Applications	760
<i>M. Milacic</i>	
Biodiesel Production from Oils and Fats with High Free Fatty Acids	768
<i>S. Hussain, C.S. Reddy</i>	
Polyaromatics in Diesel Fuel and Pollutant Emission	777
<i>R. Gligorijevic, J. Jevtic, D.J. Borak, I. Gencic</i>	
The Polluting Produces Determination from the Evacuation Gases of the Termic Engines and Proposals to Reduce Those	786
<i>Saracin Ion, Popescu Traian, Marin Gheorghe</i>	
The Analysis of Influence Factors on High Speed Diesel Engine Emissions Based on Simulation of Combustion Effects	792
<i>Lidia Galginachi, Iullan Agape, Adrian Sachelarie</i>	
The Design and Operating Parameters of the Full Flow Dillution Tunel with Critical Flow Venturi	799
<i>Sanda Pribic Mijatovic, Srecko Grojic, Belimir Petrovic, Alfaris Sajed, Djuro Borak</i>	
Emission Optimization of Personal Car Engine Powered by CNG	812
<i>Anteneh Mohammed Tahir, Marian Poloni, Marek Gono, Marcel Daniz, Peter Kalman</i>	
Exhaust Gas Dispersion Effects Under Controlled Environmental Conditions	824
<i>Bernhard Heiden, Peter Johann Sturm, Gerhard Pretterhofer, Tuan LeAn</i>	
Critical Interpretation of Experimental Versus Calculation Data of CO Imission for Different Zones in the City of Timisoara	836
<i>Virgiliu Dan Negrea, Gelu Cadariu, Florentina Cadariu</i>	
One Engine for All Fuels - One Fuel for All Engines	842
<i>Radovoje Pesic, Aleksandar Davinic, Stevan Veinovic</i>	
Influence of Ethanol and Lead Gasoline Mixture on Engine Characteristics	852
<i>Dusan Nestorovic, Milan Radovanovic, Dragonslava Stojiljkovic, Vladimir Jovanovic</i>	
Performances of Turbocharger at Low Speed	863
<i>Dr. Pierre Podevin, Dr. Georges Descombes, Dr. Vasile Hara, Dr. Adrian Clenci</i>	
Parametric Study on Dynamic Response Improvement of a Turbocharged Diesel Engine by Electric Assist System	873
<i>T. Katrashnik, S.R. Opresnik, F. Trenc, V. Medica</i>	
Experimental Research on the General Performancies and the Mechanical Loses for Low Power Diesel Engines	886
<i>Virgiliu Dan Negrea, Ovidiu Iancu Tudora</i>	
Time-Frequency Method for Engine Fault Diagnostics Based on Vibration Signal Measurement	900
<i>Dumitru M. Beloiu, Christian N. Andreescu</i>	
Technical-Economical Investigation and Evaluation of E-Diesel for Heavy Goods Vehicles	911
<i>Mate Zoldy, Istvan Emod, Ivan Pollak</i>	
The Use of Si Engine Simulation Model for Intake Manifold Heat Transfer Analysis	923
<i>Darko Kozarac, Ivan Mahalec, Zoran Lulic</i>	

Valve Spring Design - Stress Analysis	934
<i>Ivan Mahalec, Nebojsa Buktenica, Krunoslav Ormuz</i>	
Numerical Simulation of Valve Train Dynamics	947
<i>Luka Dujmovic, Darko Kozarac, Zoran Lulic</i>	
Pressure Indicating with Measuring Spark Plugs - Status of Performance	958
<i>Thomas Walter, Stefan Brechbuhl, Peter Wolfer, Norbert Payerl</i>	
Application of Thermal-Sprayed Coatings to the Cylinder Bore Surface of High Performance Spark Ignition Aluminum Engines	971
<i>Giorgio Ciaravolo, Giovanni Mosetti</i>	
Influence of Low Environmental Temperatures on Catalyst Light-Off Time	985
<i>Snezana Petkovic, Radivoje Pesic, Aleksandar Milasinovic, Stevan Veinovic</i>	

Volume 3

Lean Mixtures - A Reached Purpose Using the Conversion of a Classical Internal Combustion Engine	994
<i>Adrian Sachelarie, Lidia Gaiginschi, Radu Gaiginschi</i>	
EGR and Lean Combustion Strategies for a Single Cylinder Hydrogen Fuelled IC Engine	1001
<i>Roger Sierens, Sebastian Verhelst, Stefaan Verstraeten</i>	
Development of Direct Injection Gasoline Combustion Concept on DACIA 1.6 L Engine	1011
<i>Radu Alboteanu, Cristian Andreescu, Mircea Oprean</i>	
Combustion Engines Wear and Degradation Processes Modelling	1020
<i>Jiri Stodola</i>	
The "Electronification" of Road Vehicles - A Measure to Halve the Number of Fatal Accidents in Europe	1032
<i>Egon-Christian vonGlasner</i>	
The EU Safety Concept	1034
<i>Antonio Avenoso</i>	
Contribution of Commercial Vehicles to the Improvement of Road Safety	1040
<i>Werner vonHebel, F. Alexander Berg</i>	
Active Safety for Future Road Vehicles	1055
<i>Sigmar Micke</i>	
Reconstruction of Accidents Involving Commercial Vehicles Rollover	1056
<i>Dr. Gyula Kofalvi</i>	
Safety of Delivery Vans - Findings and Recommendations from Dekra Accident Research	1070
<i>F. Aleksander Berg, Walter Niewohner, Peter Rucker, Markus Groer</i>	
Road Restraint System Improvements for Better Roadside Safety	1086
<i>Matej Vesenjok, Dr. Zoran Ren</i>	
Pedestrian Protection - Influence of Bonnet Design	1095
<i>Jiri Svoboda, Petr Vorliceck, Jiri Vojtisek</i>	
A Fuzzy Model to Estimate the Energy Equivalent Speed	1103
<i>Carine Riviere, Philippe Lauret, Yves Page</i>	
Handling and Stability of a Ten-Wheel Commercial Vehicle	1114
<i>Khalid Hussain, Andrew Day, Wolfgang Stein</i>	

Enhancing the Safety of Vehicle by Comparing a Driver's Command to Intelligent Control.....	1130
<i>Frederic Holzmann, Armin Sulzmann, Gernot Spiegelberg, Roland Siegart</i>	
Advances in Motorcycle Safety - Research Versus Reality.....	1137
<i>Julian Happian-Smith, Bryan Chinn</i>	
The Development of a Safety - and Logistic Supporter System - Mainly for Buses - Based on Pressure Measurement.....	1153
<i>Gergely Forral, Dr. Andras Volth, Jozsef Kocsis</i>	
The Analysis of the Lack of Driver's Attention While Driving in a Row	1166
<i>Z. Arsic, A. Jankovic</i>	
Europe Countries Automotive - Auto-Mobility and Co-Operation	1174
<i>Jan Lesinsky</i>	
New Europe - A Prospect or Threat to the Automotive Industry of New Members	1180
<i>Istvan Lepsenyi</i>	
CIMOS - Successful Penetration Among Best Automotive Suppliers	1209
<i>Dario Sik</i>	
European Auto Market Dynamics Drive Product Strategies and Advanced Technologies of the Supply Industry.....	1218
<i>Dr. Heinz Pfannschmidt</i>	
Transition of Serbian Automotive and Supply Industry	1253
<i>Dr. C. Duboka</i>	
Technical Basis of a Complex Regulation for Bus Safety in Rollover Accidents.....	1260
<i>Dr. Matyas Matolcsy</i>	
Solutions and Problems to be Solved in Bus/Coach Passive Safety.....	1272
<i>Sandor Vincze-Pap</i>	
Analytical Rollover Test for Bus Superstructures Using Fe Method	1283
<i>Ioza Daniel, Fratila Gheorghe</i>	
The Analysis of the Influence of Car Body Joints Reinforced onto the Car Body Behaviour.....	1291
<i>Dr. Milan Milovanovic, Dragan Begovic</i>	
Design Recommendations for Towing Hooks	1303
<i>Snezana Vrekic, Branislav Stojadinovic</i>	
Mathematical Models of Tractor Driving Systems and Traction Efficiency.....	1310
<i>Radan Durkovic, Damjanovic Milanko</i>	
Singular Vibration of Power Transmission Systems Caused by Gear Meshing.....	1322
<i>Milosav Ognjanovic</i>	
Composition and Analysis of Kinematic Scheme of Planetary Gearboxes with Four-Degree of Freedom	1332
<i>Slavko Muzdeka, Mladen Pantic, Zivan Arsenic</i>	
The Study of the Gearshift Process in Automated Mechanical Transmissions.....	1344
<i>Marius Bataus, Laurentiu Cancel, Florin Daniel Dragne, Mircea Oprean, Bogdan Vuluga</i>	
Interactive Operation Between the Driver, Gearbox and Motion Resistance at Local Roads.....	1353
<i>Dr. Milan Djurdurovic</i>	

Transmission Systems for Buses: Powershift Transmissions, Automated Transmissions or Manual Transmissions? - Selection Criteria Now and in the Future	1361
<i>Joachim Foth, Gerald Karch, Frank-Detlef Speck</i>	
Automated Small Car Transmission	1379
<i>G. Achtenova</i>	
New Ideas of Testing Small Car Transmissions on the Closed-Loop Tand	1386
<i>Gabriele Achtenova, Vladimir Moravec, Jiri Havlik, Zdenek Dejl</i>	
Modeling, Simulation and Control of a Power Loop Test Rig for V-Belt Continuously Variable Transmissions.....	1393
<i>C. DeMetsenaere, P.A. Veenhuizen, G.A. Commissaris, T.W.G.I. Klaassen, J.H. Nelissen, J. vanRooij</i>	
The Influence of Suspension Characteristics Concerning Vehicle Oscillation.....	1408
<i>Dumitru Bolcu, Ilie Dumitru, Victor Otat, Dumitru Neagoie</i>	
Dynamic Response Evaluation of Propulsion Group Supporting System at Gear Shifting	1414
<i>Obradovic Dimitrije, Jovanovic Sasa, Ilic Sanja</i>	
Modelling of Elastic Vehicles using Incremental FEM: A Half-Car-Model Case Study	1425
<i>Stratis A. Kanarachos, Konstantinos N. Spentzas</i>	
Intelligent Semi-Active Suspension Control Applied to a Half-Car Model	1437
<i>Stratis A. Kanarachos, Konstantinos N. Spentzas</i>	
Shock Absorber Dynamic Behavior Modelling Taking into Account a "Memory - Effect" in Adams Software	1449
<i>Boris Stojic, Vladislav Prancy</i>	
Modeling Aspects of Passenger Car and Trailer Combination using Adams/Car.	1459
<i>Milan Kosevski, Darko Danev</i>	
Aluminium Alloy Wheel Carrier for Commercial Vehicles	1470
<i>C.H. Galindo-Lopez, M. Tirovic</i>	
Correlation of Subjective and Objective on Centre Steering Feel	1479
<i>Chris Regan, Blake Siegler</i>
