# TABLE OF CONTENTS

## VOLUME 1

- **Emergency Preparedness for Water Systems**
  - Dan McKinnon
  - Page 1

- **Energy Action Plan for Veolia Water**
  - Steve Austin
  - Page 35

- **Investigating the Source of Coliforms in Water Distribution Systems**
  - Colin R. Fricker
  - Page 54

- **High Rating Existing Granular Media Filters Still a Good Idea?**
  - Mark M. Bishop
  - Page 58

- **Arc Flash in the Water/Wastewater Industry: No longer an Emerging Issue**
  - Rachel Sims
  - Page 69

- **The Emergence and Divergence of Antimicrobial Resistance in Pseudomonas aeruginosa Biofilms**
  - Hoi Yi Lai
  - Page 81

- **Water Management Planning: A Case Study at Blue Grass Army Depot**
  - Amy E. Solana
  - Page 85

- **Biodegradation of HAAs in Slow Sand Filtration Units**
  - Gen-Shuh Wang
  - Page 105

- **Evaluation of the Removal of Estrogens Through the Coagulation Process**
  - Daniel Williams
  - Page 121

- **Investigation of Copper Contamination and Corrosion Scale Mineralogy in Aging Drinking Water Distribution Systems**
  - Nadja Turek
  - Page 134

- **Analysis of Perfluorinated Chemicals in Drinking Waters by LC/ESI/MS/MS**
  - Yongtao B. Li
  - Page 142

- **Better Water Quality Through Tank Assessment and Mixing Improvements**
  - Adrianna Dimperio
  - Page 145

- **Fate of Ammonia in Groundwater Treatment**
  - Jennifer O. Baldwin
  - Page 179

- **Adsorption Behavior of Arsenic on Highly Ordered Mesoporous Solids With Nano-Scaled Titania Reactive Sites**
  - Dongsuk Han
  - Page 197

- **Influence of Pre-coagulation on the Operational Characteristics of Submerged Microfiltration and Granular Activated Carbon in Water Treatment**
  - Sangho Lee
  - Page 203

- **Source Water Quality Forecasting and Tactical Management of Los Vaqueros Reservoir**
  - Kent R. Nelson
  - Page 211

- **Sustainability: Working Together to Secure the Future**
  - Perri Standish-Lee
  - Page 221

- **Diversifying San Francisco’s Retail Water Supply Portfolio**
  - Paula Kehoe
  - Page 222
Jordan River Return Flow Study
Jason Lillywhite

Morphological, Mineralogical, and Chemical Characterization of Three Iron Tubercles From an Iron Pipe
Tammie C. Gerke

Removal of Sulfonamides and Associated Antimicrobial Activity by UV Photolysis and UV/H2O2 Processes
Ana Carolina Baeza

Characteristics of Wastewater Streams Generated Through Anion Exchange Treatment of Groundwater
Aaron R. Roberts

Fundamental Insights into Micropollutant Rejection by High Pressure Membranes
Gary L. Amy

Understanding the Role of Customer Billing and Metering Systems in Consumption and Revenue Management in US Public Utilities
William P. Bulloch

The True Value of Continuous Monitoring of System Leakage
David M. Hughes

Radio Frequency (RF) Characteristics and Their Impact on AMR System Performance
Daniel Merritt

Making Treatment Selections to Meet Current and Future Needs
Chuck J. Weber

Greater Vancouver’s Sustainable Design of Canada’s Largest Direct Filtration UV Disinfection Project
Inder Singh

Design, Construction, and Startup of the Southeast’s Largest Surface Water Treatment Plant
Kelly K. Comstock

Integrating Security in New WTP Design for Omaha MUD Plate West Facilities
Glenn H. Dostal

UV Disinfection for New York City: Bridging Design With Operational Strategies
Donna Potorti

Incorporating Condition Assessment Into a Comprehensive Asset Management Program
Tony Urquhart

Overview of Infrastructure Asset Management and Risk-Based Approaches in Investment Decisions
Dennis J. Doherty

Unaccounted-for No More! Establishing Standard Water Accountability Methods for Drinking Water Utilities
Don W. Kirkland

The Managerial Benefits of Improved Water Accountability and Loss Control
George A. Kunkel

Walking the Tightrope Between What You Need and What You Can Afford
Dina M. O’Reilly

VOLUME 2

Whose Money is it Anyway?
Robert R. Blowe
Beginning at the Beginning With the Community Patricia A. Tennyson*, Katz & Associates ........................................................................................................................................689
  Gina Molise

Meeting the Stewardship Challenge: Preserving and Protecting Water Resources for the Future ........................................................................................................................................717
