<tr>
<td>Tracer Study of a Small Water Treatment System to Determine Contact Time for Microorganism Reduction</td>
<td>1</td>
</tr>
<tr>
<td>R.K. Guest, C.P. Svrcek, Daniel W. Smith</td>
<td></td>
</tr>
<tr>
<td>Public Health Considerations in Operating and Maintaining Drinking Water Infrastructure in Cold Climates</td>
<td>16</td>
</tr>
<tr>
<td>K.M.E. Emde, D.W. Smith, N. Fok, L. Gammie, S. Ancel, J.A. Talbot</td>
<td></td>
</tr>
<tr>
<td>Public Health Focused Risk Assessment of Water Treatment Infrastructure on First Nations Reserves in Alberta</td>
<td>23</td>
</tr>
<tr>
<td>D.W. Smith, R.K. Guest, C.P. Svrcek, S. Sandhu, K. Farahbakhsh</td>
<td></td>
</tr>
<tr>
<td>Construction on Frozen Saline Grounds of the Arctic Coast of Eurasia</td>
<td>48</td>
</tr>
<tr>
<td>A. Brouchkov</td>
<td></td>
</tr>
<tr>
<td>The Observed Performance of a Roadbed-Abutment Transition Part Structure on Permafrost</td>
<td>61</td>
</tr>
<tr>
<td>Jiankun Liu, Weimeng Bao, Xudong Li, Xiaogang Han</td>
<td></td>
</tr>
<tr>
<td>Some Experiences with Thaw Settlements of Infrastructure</td>
<td>68</td>
</tr>
<tr>
<td>Jim Oswell, Keith Barnes</td>
<td></td>
</tr>
<tr>
<td>Airshed Zone Management Approach in West Central Alberta</td>
<td>82</td>
</tr>
<tr>
<td>R. Scotten, B. Korobanik, K. McCullum, W.B. Kindzierski, G. Cross</td>
<td></td>
</tr>
<tr>
<td>Elemental Trends in Urban Ambient Particulate Matter in Downtown Edmonton and Calgary, Alberta</td>
<td>94</td>
</tr>
<tr>
<td>Kevin McCullum, Warren Kindzierski, Mohamed Gamal El-Din, B. Mynick</td>
<td></td>
</tr>
<tr>
<td>Historical PM2.5 Monitoring Data Trends in Edmonton and Calgary: Investigation of their Potential use for PM2.5 Modelling</td>
<td>111</td>
</tr>
<tr>
<td>D. Su, A. Gamal El-Din, M. Gamal El-Din, A. Idriss, B. Wiens</td>
<td></td>
</tr>
<tr>
<td>Whitehorse Multiplex 2007 Jeux du Canada Games Centre</td>
<td>130</td>
</tr>
<tr>
<td>Stephen Barr</td>
<td></td>
</tr>
<tr>
<td>Building Multi-Unit Residential Construction in the North with Pre-Fabricated Structural Insulated Panels</td>
<td>150</td>
</tr>
<tr>
<td>Tony Mammone</td>
<td></td>
</tr>
<tr>
<td>Innovation in Panel Design</td>
<td>183</td>
</tr>
<tr>
<td>Robert A. Murray</td>
<td></td>
</tr>
<tr>
<td>Pilot Study - Using Cartridge Filtration System as a Viable Treatment Process to Meet the Proposed Surface Water Treatment Rule in Colville Lake</td>
<td>205</td>
</tr>
<tr>
<td>Vincent Tam</td>
<td></td>
</tr>
<tr>
<td>Arsenic Removal by Ozonation/ Filtration</td>
<td>217</td>
</tr>
<tr>
<td>Linda Blumberg, Craig Woolard</td>
<td></td>
</tr>
</tbody>
</table>
Membrane Filtration for the Cold Regions - Impact of Cold Water on Membrane Operation
Khosrow Farahbakhsh, Daniel W. Smith

239

Membrane Filtration for Potable Water Production at Remote Small Systems Using Surface Water Sources
Greg Jones

253

Frost Susceptibility of Lightweight Soil Mixed with EPS Beads
Takashi Ono, Toshihisa Furudate

266

Freezing Processes for a Course Sand with Varying Salinities
Lukas U. Arenson, David Sego

277

Experimental Research on Wave Velocity and Drillability of Frozen Clay
Qin-yong Ma

293

The Influence of Freezing and Thawing Action on the Dry Density and Water Content of Soil
Yang Cheng-song, He Ping, Cheng Guo-dong

294

Investigation of Historical Data Patterns for Ozone and Related Compounds in Edmonton and Calgary and their Application to Modelling Ground-Level Ozone
D. Su, A. Gamal El-Din, A. Idriss, M. Gamal El-Din, B. Wiens

311

Particle Penetration through Surrogate Cracks of Residential Buildings
C-J Jeng, W.B. Kindzierski, D.W. Smith

324

Implementing New Technology with Steel Design and Fabrication for Cold Regions Engineering and Construction
Peter Timler

336

Winter Construction Mass Concrete
S. Eslaamizaad, Gus Ziebart

344

Prestressed Foundations for Wind Towers and the Wind Energy Industry
Dilip Khatri, Shelton Stringer

355

Low-Intensity Infrared Heating for Thawing Frozen Ground in Civil Construction
W. Spencer Guthrie, Brandon Blankenagel, Claus Nielsen

375

Converting a Seasonal-Use Diversion Dam for Year-Round Operation and Exposure to Freezing Conditions
Erling A. Juel

386

Grey Water Treatment to Potable Water Quality via Separation Technology
Clint Elston

393

Application of Innovative On-Site Water Reuse Technology in Cold Region Communities
Ken Johnson, Bill Fandrick

419

Indoor/Outdoor SO2 in a Community Adjacent to Oilsand Extraction and Production Facilities in Northern Alberta
W.B. Kindzierski, H.K.S. Ranganathan

433

Contaminant Concentrations in Indoor Air Compared to Outdoor Ambient Air and Personal Exposure -Results of Several Community Exposure Assessments

448

Indoor Air Quality in a Rural Elementary School near Edmonton, Alberta
S.M. Probert, É.P. Zazulak, A.K. Mak, N.M. Fok
Development of a Web-Based Graduate Course of Study in Cold Regions Utilities Design and Construction ................................................................. 455
  Daniel H. Schubert, Orson P. Smith

Winter Construction Methods ...................................................................................................................... 462
  Rod Wales

An Off-The-Shelf Approach to Winter Concreteing .................................................................................. 485
  Charles Korhonen, Peter Semen, Lynette Bama

Arsenic Occurrence in Drinking Waters in Alaska ....................................................................................... 496
  Sara Hadden, Craig Woolard

Investigation of Dissolved Oxygen Concentrations in the Athabasca River .............................................. 514
  Ellen Y Tian, Can-Hua Zhao, Preston McEachern, Tong Yu, David Zhu

Lead and Copper Control at an Elementary School in Anchorage Alaska .................................................. 530
  Craig Woolard, Greg Jones, Daniel Schubert

Aeration System Design and Construction for Lead and Copper Control at Crooked Creek, Alaska .......... 536
  Daniel Schubert, Craig Woolard, Ken Sun, Tom Parent

Construction of Water Treatment Plant Improvements in the City of Iqaluit, Nunavut .............................. 550
  David Benke, Ken Johnson, Glenn Prosko

Cold Weather Mss Concrete Pours ............................................................................................................... N/A
  Andrew Sly, Arthur Krehut

Planning the Logistics & Construction on your Arctic Worksite ................................................................ N/A
  Andrew Clarke

Analytical Evaluation of Roof Snow Drifts .................................................................................................. 551
  Michael O’Rourke, Arthur DeGaetano

Analysis of Rainfall Frequency for Selected Alaskan Cities ........................................................................ 562
  Rachel Armstrong, Robert Carlson

The Impacts of Hydrologic and Climatic Change on Domestic Water Supplies in the Arctic ..................... 577
  Daniel White, Lilian Alessa, Larry Hinzman, Peter Schweitzer

Climate Impacts and Adaptation in Canada’s North .................................................................................... 589
  David Malcolm

Safety, Quality and Productivity Issues Experienced During Cold Weather Construction .......................... 598
  Martin Cassault, Hans Wolf

Mobility in Winter Construction ................................................................................................................ 617
  Y. Wang, Y. Mohamed, S. AbouRizk

The Use of a Flexible Geoweb Mat in the Construction of an External Sump .............................................. 637
  Kevin Davis, Josip Peleskei, Tom Zubot

Performance and Potential Improvements to Anaerobic Sewage Lagoon in Fort McPherson, NT .............. 647
  Ken Johnson, John Bulmer, Ron Rusnell, Michel Lanteigne

Volume 2

City of Galena, Alaska Onsite Sewage System Upgrade ............................................................................. 661
  Bob Tsigonis, Keith Hanneman, Karen Brady
Ozone Treatment for the Degradation of Resin and Unsaturated Fatty Acids at Low Temperatures ................................................................. 673
   Fares Almomani, Mohamed Gamal El-Din, Daniel W. Smith

Laboratory Studies of Gas Permeability of Frozen Soil ......................................................... 698
   Gang Chen, Qing Lin, Scott Huang, Wei Zhou

Effects of a Crude Oil Spill on Permafrost after 24 years in Interior Alaska ......................... 716
   Daniel White, Charles M. Collins, David Barnes, Helena Byard

The Effects of a Crude Oil Spill on the Thermal Stability of Permafrost ............................. 731
   Katya Matveeva, Daniel White, Kenji Yoshikawa, David Barnes, Charles M. Collins

Performance of Yukon-Kuskokwim Delta Airport Embankments .................................... N/A
   David C. Esch, Kurt O. Stangl

Investigation and Assessment of Runways Overlying Warm Permafrost, Yellowknife Airport ................................................................. 743
   Jack Seto, Neil Parry, Don Hayley, Laurin Trudel

Permafrost Thawing Impacts on Road and Airfields; Problem Assessment and Review of Possible Solutions ................................................. 760
   Isabelle Beaulac, Guy Dore, Yuri Shur, Michel Allard

A Study on Quality Improvement of Earthwork in Winter .................................................. 781
   Satoshi Nishimoto, Eiji Watanabe

Performance of Vibratory Machines on Frozen Ground ...................................................... 793
   S. Eslaamizaad

Cold Weather Challenges in the Crane Industry ................................................................. 800
   Ted Melnyk

Freeze Separation to Manage Mine Wastewater ............................................................... 818
   David Sego, D.W. Smith, Kevin Biggar

Freeze-Separation for Nutrient Recovery for High Intensity Hog Farm Wastes .................... 819
   Amanda Willoughby, Kevin Biggar, David Sego

Low Temperature Wastewater Treatment Using Fungal Peroxidase ...................................... 820
   Xiaojian Mao, Ian Buchanan, Stephen Stanley

Study of the Wastewater and Water Supply systems at the Eureka Weather Station ................. 833
   Daniel W. Smith

A Hierarchy of Snowmelt Modeling Methods of Different Complexity:
Temperature-Index, Modified Temperature Index and Energy-Balance ............................. 885
   Purushottam Raj Singh, Thian Yew Gan, Adam Kenea Gobena

Water Quality Testing in Rainwater Catchments Across Alaska ......................................... 908
   Corianne Hart, Daniel White

Modeling the Impact of Snowmelt on TP Concentration of Forested Watersheds, Northern Alberta: Implications to the Applicability of Time Series and Artificial Neural Networks .................................................................................. 923
   Mohamed H. Nour, Daniel W. Smith, Mohamed Gamal El-Din, E.E. Prepas

Retrieving Snow Water Equivalent from SSM/I Passive Microwave Data using
Artificial Neural Network, Projection Pursuit & Nonlinear Regressions ............................. 943
   Thian Yew Gan, Oscar Kalinga, Purushottam Singh

Disturbance from Off-Road Vehicle During Spring Thaw ..................................................... 960
   R.T Affleck, S. Shoop, K. Simmons, P. Ayers
Douglas J. Goering, Steve Saboundjian

Permafrost Response Following Reconstruction of the Yellowknife Highway .......... 993
Ed Hoeve, Jack Seto, Don Hayley

Environmental Stewardship and Cold Weather Construction of Watercourse Crossings in the Boreal Forest of Alberta .......................................................... 1010
A. Highmoor, T. Gooding, S. Gooding

The Forest Watershed and Riparian Disturbance (FORWARD) Project: Hypothesis Development for Watershed Disturbance Modeling in the Canadian Boreal Forest .......... 1028

Subsurface Winter Soils Temperatures in the Western Canadian Boreal Plain Forest: Preliminary Implications for Winter Harvesting Operations .................................. 1048
I.R. Whitson, T. McCready

Framework for Evaluation of a Cost-Effective Method for Placing and Removing Seasonal Load Restrictions on Low Volume Roads—The Portable Falling Weight Deflectometer ........................................................................................................ 1065
Maureen Kestler, Richard Berg

Windrow Composting of Municipal Biosolids in Cold Temperatures .................. 1086
Daryl McCartney, Grant Eftoda

Groundwater Investigation of Sunderby Landfill, Lulea, Sweden .................. 1099
D. Yoshisaka, W.B. Kindzierski, C. Jonasson

Preliminary Assessment of Hydrology and Hydraulics for a Tanana River Bridge near Fairbanks, Alaska ................................................................. 1117
Caroline Maniaci, Nathanael Vaughan, Jakob Theurich, Robert Carlson

Streamflow And Water Quality Monitoring In Small Watersheds In The Western Canadian Boreal Forest: Procedures And Challenges ............................................... 1133
M.S. Serediak, G. Putz

Use of Low Density Asphalt in Base-Course as a Mitigation for Frost Action in Pavements ........................................................................................................... 1146
J. Cote, J.M. Konrad, P.T. Dorchies

Long Term Performance and Cost Effectiveness of Insulated Pavements ............. 1158
Sylvain Juneau, Guy Dore, Pascale Pierre, Yves Savard

Temperature Difference between Pavement and Air at Some Road Weather Stations in Finland in 2003 ...................................................... 1177
Saarelainen Seppo

DCRMS—An Oil Sand Daily Construction Record Management System ............ 1187
Dr. Song (Bruce) Li, Lee Nichols, Jamel Sagaoula, Norman Eenkooren, Samuel Saforo

Use of Preserved Wood Foundations for Structural Rehabilitation of Failed Basements of Old Residences ................................................................. 1197
Konstantin Ashkinadze

Hydronic Air Heaters: Flameless and Moistureless Jobsite Construction Heaters .................................................................................................................. 1217
Ed Jaroszewicz

Thermal Loads & Expansion Joints in Industrial Pipe Racks ............................. 1238
S. Gowri Gowrichankar

Project Management Issues Related to Trenchless Construction in Cold Climates ........ 1239
Jason S. Lueke, Janaka Ruwanpura
