Message from Program Chairs ............................................................... ix
Committees ........................................................................................... x
Reviewers ........................................................................................... xiii

Opening Address

Perspectives on Service-Oriented Computing and Service-Oriented System Engineering ........................................................... 3
W. T. Tsai, Miroslaw Malek, Yinong Chen, and Farokh Bastani

Session 1: Modeling and Specification I

Service Oriented Evolutions and Analyses of Design Patterns ........................................................... 11
Jing Dong, Sheng Yang, Dushyant S. Lad, and Yongtao Sun

Service Engineering Design Patterns ........................................................... 19
Nikola Milanovic

Service-Orientation in the Computing Infrastructure ........................................................... 27
Mark Chang, Jackson He, and Enrique Castro-Leon

A Threshold Autoregressive Model for Software Aging ........................................................... 34
Xiu-E Chen, Quan Quan, Yun-Fei Jia, and Kai-Yuan Cai

Session 2: Systems and Evaluation I

An Infrastructure for Web Services Migration for Real-Time Applications ........................................................... 41
Wei Hao, Tong Gao, I-Ling Yen, Yinong Chen, and Raymond Paul
<table>
<thead>
<tr>
<th>Session 3: Trust, Privacy, and Security</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Privacy Assessment Approach for Serviced Oriented Architecture ........................................... 67</td>
</tr>
<tr>
<td>Weider D. Yu, Sharanya Doddapaneni, and Savitha Murthy</td>
</tr>
<tr>
<td>Implementation Issues of Authorization Mechanisms in Grid Computing Systems ........................................... 76</td>
</tr>
<tr>
<td>Huaji Shi and Xibin Zhao</td>
</tr>
<tr>
<td>Semantic Descriptions of Web Services Security Constraints ........................................... 81</td>
</tr>
<tr>
<td>Dong Huang</td>
</tr>
<tr>
<td>Delegation Models in Service Oriented Systems ........................................... 85</td>
</tr>
<tr>
<td>S. Dehousse, L. Liu, C. Chi, and S. Faulkner</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Session 4: QoS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Modelling Quality of Service in Service Oriented Computing ........................................... 95</td>
</tr>
<tr>
<td>V. Deora, J. Shao, W. A. Gray, and N. J. Fiddian</td>
</tr>
<tr>
<td>Analysis, Design and Implementation of Exception Handling in WWW Services ........................................... 102</td>
</tr>
<tr>
<td>Fu-Chiung Cheng, Tai-Chang Hung, and Young-Jang Chiou</td>
</tr>
<tr>
<td>Extending SOA to Cover Unreliable Services on Internet ........................................... 110</td>
</tr>
<tr>
<td>Wei Zhou, Chi-Hung Chi, and Lin Liu</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Session 5: Modeling and Specification II</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chaotic Analysis of Software Aging in Web Server ........................................... 117</td>
</tr>
<tr>
<td>Yun-Fei Jia, Xiu-E Chen, and Kai-Yuan Cai</td>
</tr>
<tr>
<td>Measuring Component-Based Systems Using a Systematic Approach and Environment ........................................... 121</td>
</tr>
<tr>
<td>Jerry Gao, Yumei Wu, Lee Chang, and Sigurd Meldal</td>
</tr>
<tr>
<td>Formal Incremental Requirements Specification of Service-Oriented Automotive Software Systems ........................................... 130</td>
</tr>
<tr>
<td>J. Hartmann, S. Rittmann, D. Wild, and P. Scholz</td>
</tr>

Jenova: New Approach on Concurrency Control in Web Service Transaction Management ................................................................. 134
Heqing Guan, ShuChao Wan, and Jun Wei

Session 6: Systems and Evaluation II

A Multi-binding Solution for Simultaneous Mobility of MIPv6 ................................................................. 143
Qiang Liu, Shaomei Li, Hongyong He, and Binqiang Wang

Servicetizing User Experiences for Complex Business Applications .......................................................... 147
Donglin Liang

A SOA Based Pipeline System to Deal with Astronomy Telescope Data ....................................................... 156
Man Wang, Zhihui Du, Yinong Chen, and Zhili Cheng

Session 7: Service Discovery

Towards Service Discovery and Subscription Based on Community-of-Interest .............................................. 167
Xuanzhe Liu, Gang Huang, and Hong Mei

Ontology-Based Discovery of Data-Driven Services .................................................................................. 175
Maarten Bynens, Bart De Win, Wouter Joosen, and Bart Theeten

The Role of Ontology in Service Oriented System Development ........................................................................ 179
HuaiKou Miao and Junmei Sun

Product Line Based Ontology Development for Semantic Web Service .................................................... 183
Weishan Zhang and Thomas Kunz

Session 8: Service Composition

Dynamic Weaving of Security Aspects in Service Composition ....................................................................... 189
Haitao Song, Yanming Sun, Yingyu Yin, and Shixiong Zheng

A Policy Framework for Collaborative Web Service Customization .............................................................. 197
HaiQi Liang, Wei Sun, Xin Zhang, and Zhongbo Jiang

Dynamic Service Composition Based on Peer-to-Peer Network .................................................................. 205
Weihua Zhu, Zhihui Du, and Suihui Zhu

An Optimized Strategy of Service Negotiation .............................................................................................. 210
Tianhao Sun, Shuangqing Li, and Qingsheng Zhu

Author Index ........................................................................................................................................ 215
