Table of Contents

Message from the Program Chairs................................................................. viii
Chairs ................................................................................................................. ix
Technical Program Committees.............................................................................. x
Reviewers ........................................................................................................ xii

HW/SW Interaction and Codesign

CPU Model-Based Hardware/Software Co-design, Co-simulation and Analysis
Technology For Real-Time Embedded Control Systems .................................................. 3
Makoto Ishikawa, D.J. McCune, George Saikalis, and Shigeru Oho

Prioritized SMT Architecture with IPC Control Method For Real-Time Processing ................... 12
Nobuyuki Yamasaki, Ikuo Magaki, and Tsutomu Ito

Optimizing the FPGA Implementation of HRT Systems........................................... 22
Marco Di Natale and Enrico Bini

Optimal Static Task Scheduling on Reconfigurable Hardware Devices Using
Model-Checking....................................................................................................... 32
Zonghua Gu, Mingxuan Yuan, and Xiuqiang He

Networking

Full Duplex Switched Ethernet for Next Generation "1553B"-Based Applications.................. 45
Ahlem Mifdaoui, Fabrice Frances, and Christian Fraboul

Modeling Device Driver Effects in Real-Time Schedulability Analysis: Study
of a Network Driver ................................................................................................. 57
Mark Lewandowski, Mark J. Stanovich, Theodore P. Baker, Kartik Gopalan, and An-I Andy Wang

Soft Real-Time Chains for Multi-hop Wireless Ad-hoc Networks .................................. 69
Bach D. Bui, Rodolfo Pellizzoni, Marco Caccamo, Chin F. Cheah, and Andrew Tzakis
Scheduling

Dynamic Task Scheduling and Processing Element Allocation for Multi-function SoCs
Ya-Shu Chen, Chi-Sheng Shih, and Tei-Wei Kuo

Resource-Locking Durations in EDF-Scheduled Systems
Nathan Fisher, Marko Bertogna, and Sanjoy Baruah

Soft Real-Time Scheduling on Performance Asymmetric Multicore Platforms
John M. Calandrino, Dan Baumberger, Tong Li, Scott Hahn, and James H. Anderson

Middleware

Middleware Support for Aperiodic Tasks in Distributed Real-Time Systems
Yuanfang Zhang, Chenyang Lu, Christopher Gill, Patrick Lardieri, and Gautam Thaker

Towards A Synchronous Scheduling Service on Top of a Unicast Distributed Real-Time Java
Pablo Basanta-Val, Luis Almeida, Marisol Garcia-Valls, and Iria Estévez-Ayres

Hijack: Taking Control Of COTS Systems for Real-Time User-Level Services
Gabriel Parmer and Richard West

Systems Analysis and Scheduling

Preemption Threshold Scheduling: Stack Optimality, Enhancements and Analysis
Rony Ghattas and Alexander G. Dean

Minimising Task Migration and Priority Changes in Mode Transitions
Paul Emberson and Iain Bate

Optimal Unified Data Allocation and Task Scheduling for Real-Time Multi-tasking Systems
Rony Ghattas, Gregory Parsons, and Alexander G. Dean

Testing and Debugging

Stochastic Metrics for Debugging the Timing Behaviour of Real-Time Systems
Joaquin Entrialgo, Javier Garcia, José Luis Díaz, and Daniel Fernando García

Performance Debugging of Real-Time Systems Using Multicriteria Schedulability Analysis
Unmesh D. Bordoloi and Samarjit Chakraborty

Testing Model-Processing Tools for Embedded Systems
Prahladavaradan Sampath, A. C. Rajeev, S. Ramesh, and K. C. Shashidhar
Energy Management

Network-Aware Dynamic Voltage and Frequency Scaling ................................................................. 215
Bren Mochocki, Dinesh Rajan, Xiaobo Sharon Hu, Christian Poellabauer, Kathleen Otten,
and Thidapat Chantem

Reliability-Aware Energy Management for Periodic Real-Time Tasks ............................................ 225
Dakai Zhu and Hakan Aydin

On the Minimization of the Instantaneous Temperature for Periodic Real-Time Tasks...................... 236
Jian-Jia Chen, Chia-Mei Hung, and Tei-Wei Kuo

Building Robust Systems

Real-Time Task Replication for Fault Tolerance in Identical Multiprocessor Systems ...................... 249
Jian-Jia Chen, Chuan-Yue Yang, Tei-Wei Kuo, and Shau-Yin Tseng

A Programming Model for Time-Synchronized Distributed Real-Time Systems ................................ 259
Yang Zhao, Jie Liu, and Edward A. Lee

Multi-dimensional Robustness Optimization in Heterogeneous Distributed
Embedded Systems .......................................................................................................................... 269
Arne Hamann, Razvan Racu, and Rolf Ernst

Distributed Real-Time Systems

Efficient Computation of Buffer Capacities for Cyclo-static Real-Time Systems
with Back-Pressure .......................................................................................................................... 281
Maarten H. Wiggers, Marco J. G. Bekooij, Pierre G. Jansen, and Gerard J. M. Smit

Optimizing End-to-End Latencies by Adaptation of the Activation Events
in Distributed Automotive Systems ............................................................................................ 293
Marco Di Natale, Wei Zheng, Claudio Pinello, Paolo Giusto, and Alberto Sangiovanni Vincentelli

Real-Time Divisible Load Scheduling for Cluster Computing ............................................................ 303
Xuan Lin, Ying Lu, Jitender Deogun, and Steve Goddard

Potpourri

Take Intelligent Risk and Optimize Decision Based on Time, Available Resources
and Risk Tolerance Limits .............................................................................................................. 315
Yue Yu, Shangping Ren, and Kevin A. Kwiat

An Approach for Real-Time Database Modeling and Performance Management ............................ 326
Jisu Oh and Kyoung-Don Kang

Dynamic Patching of Embedded Software ....................................................................................... 337
Mathias Ekman and Henrik Thane

Author Index .................................................................................................................................. 347
