
SPONSOR: The International Society for Computers and Their Applications – ISCA

GENERAL CHAIR: Narayan Debnath, Winona State University, USA

PROGRAM CO-CHAIRS: Hisham Al-Mubaid, University of Houston-Clear Lake, USA
                      Marc Garbey, University of Houston, USA

INTERNATIONAL PROGRAM COMMITTEE

Sultan Aljahdali, Taif U., Saudi Arabia
Noureddine Belkhatir, U. of Grenoble, France
Gary Boetticher, U. of Houston-Clear Lake, USA
Khalid A. Buragga, King Faisal U., Saudi Arabia
Mark Burgin, UCLA, USA
William Cheung, Hong Kong Baptist U., Hong Kong
Maurice Cohen, U. of California, USA
Alfredo Cuzzocrea, U. of Calabria, Italy
Sergiu Dascalu, University of Nevada, Reno, USA
Walter Dosch, University of Lübeck, Germany
Sherif Elfayoumy, University of North Florida, USA
Adel Elmaghraby, University of Louisville, USA
Edgar Gabriel, University of Houston USA
Hisham Haddad, Kennesaw State U, USA
Ramzi Haraty, Lebanese American U., Lebanon
Frederick C. Harris, UNR, USA
Gongzhu Hu, Central Michigan U., USA
Ahmed Kamel, Concordia College, USA
Tatjana Kapus, U. of Maribor, Slovenia
Dieter Kranzmüller, U. of Linz, Austria

Cyril S. Ku, William Paterson University, NJ, USA
Gordon Lee, San Diego State University, USA
Eda Marchetti, U. of Pisa, Italy
Rym-Z. Mili, U of Texas at Dallas, USA
Pornsiri Muenchaisri, Chulalongkorn U., Thailand
Mara Nikolaidou, U. of Athens, Greece
William Perrizo, North Dakota State U., USA
David Pheanis, Arizona State U., USA
Imad Rahal, College of St Benedict | St. John's U., USA
Michael Resch, Unv of Stuttgart, Germany
Antony Satyadas, IBM Corporation, USA
Elhadi Shashkhi, Acadia University, Canada
Venkat Subramanian, University of Houston USA
Fu-Shing Sun, Ball State Univ, USA
Kathleen Swigger, U. of North Texas, USA
Sharon White, U. of Houston-Clear Lake, USA
Lok Yeung, Lingnan U., Hong Kong
Kwok-Bun Yue, U. of Houston-Clear Lake, USA
M.Javed Zaki, RPI, USA
Qinghua Zou, Microsoft Research, USA

* All published papers have been peer reviewed.
** This publication is abstracted and indexed in INSPEC and DBLP.
TECHNICAL PAPER INDEX

SOFTWARE ENGINEERING

goSmart: A New Solution for Home Automation
Jim Motta, Fares Qeadan, Sergiu M. Dascalu, Siraj Malik, and Frederick C. Harris, Jr. (University of Nevada, Reno, USA) .......................................................... 1

Evolutionary Neural Network Prediction for Software Reliability Modeling
Sultan Aljahdali (Taif University, Saudi Arabia) and Khalid A. Buragga (King Faisal University, Saudi Arabia) ........................................................................................................ 9

AVRATAR: A Virtual Environment for Puppet Animation
Alexander Redei, Ed Tumbusch, Josh Koberstein, Sergiu Dascalu, and Frederick C. Harris, Jr. (University of Nevada, Reno, USA) .................................................. 14

Software Projects Finance Feasibility Analysis in the Context of Project Management Body of Knowledge using “Use Case Points” Estimation Approach
R. Uzal (Universidad Nacional de San Luis and Universidad de Buenos Aires, Argentina), G. Montejano and D. Riesco (Universidad Nacional de San Luis, Argentina) and N. C. Debnath (Winona State University, USA) .................................................................................. 20

Correctness in the Software Life Cycle
M. Burgin (University of California-Los Angeles, USA), N. Debnath (Winona State University, USA), and H. Lee (University of Texas of the Permian Basin, USA) ................................................................. 26

A Framework for Constraint Checking Involving Aggregates for Multiple XML Databases using Schematron
Albin Laga and Praveen Madiraju (Marquette University, USA) .......................................................... 32

On XML Document Security
Yun Bai (University of Western Sydney, Australia) .................................................................................. 39

mGrid: a Matching Grid for Querying XML Streams
Qinghua Zou (Microsoft Corporation, USA) and Guogen Zhang (IBM Silicon Valley Lab, USA) ................. 43

Efficient Twig Pattern Matching over XML Streams
Yaw-Huei Chen and Ming-Chi Ho (National Chiayi University, Taiwan, ROC) ........................................... 51
An Extensive Math Query Language
Abdou S. Youssef and Moody E. Altamimi (The George Washington University, USA) ........................................... 57

Enhancing Noisy Speech in an MRT Using MFCC-CMAC
Abdul Wahab and Teh E. C. (Nanyang Technological University, Singapore) ......................................................... 64

Rank-Based Feature Weighting
B. D. Gaston (Anautics, Inc., USA) and K. M. George (Oklahoma State University, USA) ........................................... 70

Breaking "EXTENDS" Relationships for Use/Misuse/Mitigation Use Case Refinement
Joshua J. Pauli (Dakota State University, USA) ........................................................................................................ 76

Using Text Mining to Extract Gene and Protein Synonyms from Biomedical Texts
Duc Duong and Hisham Al-Mubaid (University of Houston - Clear Lake, USA) ........................................................ 81

WIMI - Web Interface to Medical Information
Victoria Hilford, Marc Garbey, Sravan Vadakattu and Cody Addison (University of Houston, USA) ........................................ 87

A Path Length Method for Gene Functional Similarity Using GO Annotations
Elham Khabiri and Hisham Al-Mubaid (University of Houston - Clear Lake, USA) ..................................................... 93

Applying ARM in a Healthcare System -- A Case Study
Claudia Raibulet, Luigi Ubezio, Stefano Mussino, Francesca Arcelli, Francesco Tisato (University of Milano-Bicocca, Italy) .................................................................................................................. 99

Case Study: A Tool Centric Approach for Fault Avoidance in Microchip Designs
Clemente Izurieta (Colorado State University, USA) .................................................................................................... 105

A Common Ground: Extensible Operating Systems Design Principles
Mohamed F. Ahmed (University of Connecticut, USA), Amr El-Kadi (American University in Cairo, Egypt), and Reda Ammar (University of Connecticut, USA) ....................................................................................... 111

PNDOM: A Domain Function-Based Software Component Composition Plan Build Approach
Pengwei Tian, Yaoxue Zhang, Ming Zhong, Yuezhi Zhou, and Cunhao Fang (Tsinghua University, China) ........................................................................................................................................................................ 119

A Parallel Neural Network Classification Approach to Assist in Decision Making
D. L. Hudson, M. E. Cohen (University of California, San Francisco, USA) .................................................................. 125

Probabilistic Artificial Neural Networks for Arabic Character Recognition
Ahmad M. Sarhan (New York Institute of Technology, UAE) and Omar I. Al Helalat (Ministry of Education, UAE) ............................................................................................................................................. 131

A Systematic Algorithm to Construct Neuro-Fuzzy Inference System
Tharwat E. Alhanafy (Al-Azhar University, Egypt), Tarek S. Sobh (Egyptian Armed Forces, Egypt), and Awad H. Khalil (The American University in Cairo, Egypt) .................................................................................................. 137

A Simple Model for Distributed-Feedback Laser using Adaptive Neuro-Fuzzy Inference System
Fatih V. Celebi, Tugba Ozturk (Baskent University, Turkey) ......................................................................................... 143

An Effective Service Modeling Method through Use Case Analysis
Shin Su-mi and Jhun Sung-Jin (Korea Institute Science and Technology Information, Korea) ........................................ 148

Ontology Enhanced Modeling Diagrams
Nisreen Innab (Arab Academy for Computer and Financial Sciences, Jordan) and Ahmad Kayed (Applied Science University, Jordan) ..................................................................................................................... 153

Testing Techniques for SOA Model
Li Liao and Hareton K. N. Leung (Hong Kong Polytechnic University, Hong Kong) .................................................. 159
