# TABLE OF CONTENTS

## VOLUME I

- **Testing Trends Today and Tomorrow**
  - Acquarulo
  - Page 1

- **Vibration and Shock Test Fixturing**
  - Ball
  - Page 10

- **Apparent Strain of EFPI Strain Sensors at Low and High Temperatures**
  - Banaszak, Kretz
  - Page 70

- **Mechanical Shock Testing of LIGA Parts**
  - Bateman
  - Page 118

- **Contamination and Static Charge Control Using ESD Dissipative Ceramics**
  - Boone, Kwon, Zhao
  - Page 135

- **State-of-the-Art Shock Testing Using Electrodynamic Shakers**
  - Kim
  - Page 160

- **Cleanroom Design Build 101**
  - Chasey
  - Page 186

- **Helium Leak Rate Testing and Leak Resolution Experiences**
  - Cutting
  - Page 240

- **Product Thermal Control System Development for Thermal Vacuum Testing**
  - Webb, Hartney, Cutting
  - Page 260

- **Using Work and Energy to Characterize Mechanical Shock**
  - Edwards
  - Page 280

- **Modal Deposition of Shock Energy**
  - Edwards
  - Page 299

- **Evaluating, Validating and Implementing a Cleanroom Garment Program**
  - Eudy
  - Page 314

- **Development of Multi-Axis Cooling Module Durability Simulators**
  - Fereday
  - Page 358

- **An Overview of the Use of the Pseudo Velocity Shock Spectrum**
  - Gaberson
  - Page 378

- **Identification of Dynamic Loads Impacted on Missile Launch Rails**
  - Garner
  - Page 439

- **Operational Modal Analysis of Aluminum Beams**
  - Rudroju, Gupta, Yandamuri
  - Page 458

- **Accelerated Testing of Beams Subjected to Random Vibration**
  - Fan, Gupta, Gharwala
  - Page 476

- **Risk Analyses for the Ground Transportation of Hazardous Chemicals: Establishing a Framework**
  - Hessian Jr.
  - Page 490
Chemical Agent Contaminated Spill Material Surface Evaporation Considerations ............... 522
  R. Hessian Jr.

Plasma Particle Detection: A New Method for Particle Detection During Wafer Processing ................................................................. 536
  S. Hjelmervik

Comparison of Aerodynamic Noise Data from Two Space Shuttle Wind Tunnel Tests Performed 31 Years Apart ........................................... N/A
  R. Burrows

Charge Measurement and Control in Clean Room Environments ..................................... 568
  M. E. Hogsett

AMC and SMC Contamination Control Issue Gowning 101 ........................................... 604
  C. Chapman

Multi-drop, Simultaneous, Synchronous Sampling Smart Sensor Network System .......... 637
  A. Karolys

The Application of a Shock-on-Random Environment ..................................................... 656
  J. P. Kirk

Automated CO₂ Composite Spray Cleaning System for Hard Disk Drive (HDD) Rework Parts ................................................................. 672
  D. Jackson, G. Knoth, N. Sorbo

Physics and Fundamentals of Particle Counting ............................................................... 699
  S. Kochevar

VOLUME II

Statistical Regression Analysis of Biological Sensor Performance Data.......................... 744
  D. Leighton, M. Cushing

Development of a Test System to Replicate the Shock Profiles Through Small Arms Accessories ........................................................................ 773
  N. Linden

Surface Cleaning Efficiency Test Method ........................................................................... 799
  K. Macdougall

Airborne Contamination Control in Healthcare Facilities .................................................... 822
  J. McGill

Evaluation of a Distributed Sensing System Using Simple Bending Beams ...................... 883
  D. Banaszak, E. Medina

MIL-STD-810G - Method 525 and Application of TWR to General Time Traces ............. 920
  R. G. Merritt

Testing in Extreme Environments at the McKinley Climatic Laboratory ......................... 976
  K. Molder, C. Securda

Electrostatic Charge Control Considerations .................................................................... 994
  J. A. Montoya

Managing Microbes ........................................................................................................... 1017
  G. A. Mosley

Updating Mil-Std-810 to Address High Speed Weather Encounter Testing .................... 1065
  B. Moylan, G. Russell

Trends in Vibration Testing & System Design .................................................................. 1084
