# TABLE OF CONTENTS

## AMERICAN CHEMISTRY COUNCIL AWARD WINNERS

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Baytown Energy Project</td>
<td>1</td>
</tr>
<tr>
<td>John R. Porter</td>
<td></td>
</tr>
<tr>
<td>Reduction of Utility Usage in a Glyphosate Intermediate (GI) Unit</td>
<td>2</td>
</tr>
<tr>
<td>Michael L. Sander</td>
<td></td>
</tr>
<tr>
<td>Deer Park Chemical Plant received ACC award for energy efficiency program</td>
<td>3</td>
</tr>
<tr>
<td>Steve Moon, Eva Heyman</td>
<td></td>
</tr>
<tr>
<td>Managing Energy Efficiency Improvement</td>
<td>7</td>
</tr>
<tr>
<td>Joe Almaguer</td>
<td></td>
</tr>
</tbody>
</table>

## DISASTER RECOVERY AND ENERGY: LESSONS LEARNED FROM 2005

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Advancing Equipment Reliability via a Natural Disaster, Opportunities for Thinking Outside the Box</td>
<td>9</td>
</tr>
<tr>
<td>Robert Stephens</td>
<td></td>
</tr>
</tbody>
</table>

## ENERGY USE ANALYSIS TOOLS

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Case Study in Developing Process Unit Energy Metrics</td>
<td>10</td>
</tr>
<tr>
<td>Joseph L. Davis Jr., Bob Van Atta</td>
<td></td>
</tr>
<tr>
<td>Quantifying Energy Savings from Lean Manufacturing Productivity Increases</td>
<td>12</td>
</tr>
<tr>
<td>John Seryak, Gary Epstein, Mark D’Antonio</td>
<td></td>
</tr>
<tr>
<td>Thermal and Economic Analyses of Energy Saving by Enclosing Gas Turbine Combustor Section</td>
<td>20</td>
</tr>
<tr>
<td>Xianchang Li, Ting Wang, Benjamin Day</td>
<td></td>
</tr>
</tbody>
</table>

## FACILITIES & EQUIPMENT IMPROVEMENTS

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>Optimization of Industrial Refrigeration Plants: Including a Case Study at Stonyfield Farm Yogurt</td>
<td>29</td>
</tr>
<tr>
<td>Mark D’Antonio, Satyen Moray, Brian McCowan, Gary Epstein, Lisa Drake, Randal Dixon</td>
<td></td>
</tr>
<tr>
<td>Direct-Contact Process Water Heating</td>
<td>40</td>
</tr>
<tr>
<td>Mark R. Hamann</td>
<td></td>
</tr>
<tr>
<td>Upgrade Your Lighting &amp; Open the Door to Energy Savings</td>
<td>47</td>
</tr>
<tr>
<td>John K. Houcek</td>
<td></td>
</tr>
<tr>
<td>Roof Coating Procedures and their Productivity Gains</td>
<td>48</td>
</tr>
<tr>
<td>John Bonaby, Diane Schaub</td>
<td></td>
</tr>
</tbody>
</table>
## FLUID HANDLING SYSTEMS

Taking Another Look at Pumping Systems: Opportunities Go Well Beyond Just Energy Savings ................................................................. 49  
Vestal Tutterow, Trey Walters

Redesigning Process Cooling Systems In The Plastics Industry .............................................. 57  
Glen R Anderson

The Many Faces Of A Compressed Air Audit ........................................................................ 62  
Henry L. Kemp

Effects of “Limited Product Line Audits” ............................................................................. 68  
Henry L. Kemp

Industrial Ventilation Statistics Confirm Energy Savings Opportunity ................................... 75  
Ales Litomisky

### INDUSTRIAL ENERGY MODELING: WHAT IS THE STATE OF THE ART?

CIMS: An Integrated US-Canadian Model.................................................................................. 86  
John Nyboer

Distributed Energy: Modeling Penetration in Industrial Sector over the Long-Term ............. 87  
Lorna Greening

Paramita Sinha, Marshall Wise, Steven Smith

Gale Boyd

### MEASURING THE RESULTS

Designing and Implementing Monitoring Based Energy Cost Reduction Programs ............ 101  
Andrew S. McMullan, Bruce L. Pretty, David Hart

Audits and Implementation of Plant Wide Energy Management and Reporting Systems ........................................................................... 106  
James E. Robinson, David Moore

Real-Time Demand Side Energy Management .................................................................... 116  
Annelize Victor, Michael Brodkorb

Industrial Energy Management: Doing More With Less ...................................................... 121  
Jason Sheppard, Anthony Tisot

### NATIONAL ENERGY EFFICIENCY PROGRAM INITIATIVES

U.S. Department of Energy (DOE) Industrial Programs and Their Impacts ...................... 125  
Steven A. Weakley, Joseph M. Roop

Energy Efficiency Opportunities in the Stone and Asphalt Industry ................................ 133  
Satyen Moray, Nathan Throop, John Seryak, Chris Schmidt, Chris Fisher, Mark D’Antonio

The Role of Emerging Technologies in Improving Energy Efficiency: Examples from the Food Processing Industry ......................................... 146  
Robert Bruce Lung, Eric Masanet, Aimee McKane
Combined Heat And Power: Connecting The Gap Between Markets And Utility Interconnection And Tariff Practices (Part I)................................................................................................................................. 161
  Susanne Brooks, Brent Elswick, R. Neal Elliott

STEAM SYSTEMS
Steam Pressure Reduction, Opportunities, And Issues ................................................................................................................................. 170
  Jan Berry, Bob Griffin, Anthony L. Wright
The Enbridge “Steam Saver” Program Steam Boiler Plant Efficiency-Update To Year End, 2005 ......................................................................................................................................................... 180
  Bob Griffin, Daniel Johnson

STRATEGIES FOR IMPLEMENTATION
Energy Cost Control Strategies: What Do Large Energy Consumers Do, and Why?................................................................................................................................. 197
  Christopher Russell
Creating an Energy Strategy that Delivers Cost Savings while Optimizing Asset Utilization ......................................................................................................................................................................... 201
  Allan Sears
Reaping Energy Savings From Petroleum Refining ................................................................................................................................................................. 211
  Alan Deng, Ron Cascone

Energy And Environmental Footprinting ......................................................................................................................................................................... 214
  David Severson, Christian Whitaker, Fred James
Lost Opportunities in Industrial Energy Efficiency: New Production, Lean Manufacturing and Lean Energy ......................................................................................................................................................................... 218
  John Seryak, Gary Epstein, Mark D’Antonio

TEAMWORK FOR ENERGY MANAGEMENT
Energy Workforce Training, Future Need, and Projections ................................................................................................................................................................. 225
  S. Midturi, S. B. Pidugu
Multi-Site Energy Reduction Through Teamwork ................................................................................................................................................................. 230
  Thomas R. Theising
Status Of North American Energy Markets ................................................................................................................................................................. 233
  R Neal Elliott
Driving Energy Performance with Energy Management Teams ................................................................................................................................................................. 239
  Meredith Younghein, Walt Tunnessen

TECHNICAL SOLUTIONS FOR EMISSION REDUCTIONS
Final Flue Gas Cleaning (FFGC) ................................................................................................................................................................. 246
  Daniel H. Stinger, Mario H. Romero
Cost Assessment of CO2 Sequestration by Mineral Carbonation ................................................................................................................................................................. 262
  Frank E. Yeboah, Tuncel M. Yegulalp, Harmohindar Singh
Developing Solutions for the Energy and Environmental Challenge ................................................................................................................................................................. 267
  Andrew McMullan
Plant-Wide NOx Reduction Strategies ................................................................................................................................................................. 273
  C. Baukal, D. Waibel, T. Webster
UNDERSTANDING MOTOR APPLICATIONS

Unusual ASD Motor Conversions in a Carpet Yarn Plant .................................................. 285
  Michael Brown, William Meffert

Unwinding the Spin on Variable Speed Drive Air Compressors ..................................... 292
  Chris E. Beals

Replacing Motors, Counting Savings: Results From A 100 Motor Study .......................... 302
  Nicole M. Kaufman
