### AMERICAN CHEMISTRY COUNCIL AWARD WINNERS

**Sauget Plant Flare Gas Reduction Project**
- Donna Parks Ratkowski
  - Page: 1

**Energy Management: Back To The Basics**
- Sean Diamond
  - Page: 3

**QUEST^2 Energy Project**
- Albert T. Clary
  - Page: 4

**DuPont Energy Breakout Initiative**
- William F. Bailey
  - Page: 5

**Process and Energy Optimization Revitalizes Energy Management at Eastman**
- W.C. Greenwaldt
  - Page: 12

**Site Energy Reduction Program**
- Paul R. Jagen
  - Page: 13

**Baytown Cogeneration Project**
- Maurice Lorenz
  - Page: 14

**Significant Improvement in Energy Efficiency in Manufacturing at Rohm and Haas’ Kankakee Illinois Plant**
- Thomas A. Brinkley
  - Page: 15

### CASE STUDIES

**U.S. Department of Energy (DOE) Industrial Programs and Their Impacts**
- Steven A. Weakly, Joseph M. Roop
  - Page: 16

**Production Scheduling With Energy Efficiency Constraints**
- Jim Lee, Theodore Kozman, Xinchun Wang
  - Page: 24

**How To Reduce Energy Supply Costs**
- Gary Swanson
  - Page: 32

### DATA ANALYSIS

**Plant Wide Energy Management and Reporting Systems Provide Sustainable Results**
- James E. Robinson
  - Page: 35

**LogTool: A Flexible, Publicly Available Data Analysis Tool Providing Graphical Analysis, Extraction of Data Subsets and Daytyping for Multiple Data Formats**
- R. Lynn Qualmann, Patricia Goudge, Michael Baker
  - Page: 45

**Using MotorMaster to Track Motor Inventory and Analyze Purchasing Decisions**
- Michael Brown, William Meffert
  - Page: 53

**Industrial Energy Use Indices**
- Andrew Hanegan, Warren M. Heffington
  - Page: 54
Analysis of Energy Savings by Painting a Rotary Kiln Surface......................................................... 60
    Xianchang Li, Ting Wang, Robert T. Tonti, Les Edwards

DEVELOPING AND SUSTAINING AN ENERGY PROGRAM

Creating and Organizing an Energy Program.................................................................................. 71
    Tom Theising

Sparkling Diamonds – Reducing High Energy in the Frozen North ............................................... 73
    Jon Feldman

Energy Management Program Of An Integrated An Integrated National Oil
Company In The Middle-East........................................................................................................... 74
    Jimmy D. Kumana, Ahmed S. Aseeri

California’s Industrial Energy Efficiency Best Practices Technical Outreach and
Training Program .......................................................................................................................... 76
    Donald Kazama, Tony Wong, Joseph Wang

ENERGY AUDITORS PANEL

Get to the Savings NOW!.................................................................................................................. 81
    J. Charles Sherman

Industrial Energy Audit Basics ........................................................................................................ 88
    Jim Phillips

Use Of Utility Interval Meters In An Industrial Energy Audit ....................................................... 91
    McHenry Wallace

ENERGY ENGINEERS TOOLBOX: HIGHLIGHTS FROM THE TECHNOLOGY
SHOWCASE 2006

Energy Management Systems ......................................................................................................... 96
    Kathey Ferland

Mining Gold from your Cooling Water System .............................................................................. 97
    Tino Mendez

Finding Benefits by Modeling and Optimizing Steam and Power Systems................................ 101
    Bennie Jones, David Delson

Challenges in Industrial Heat Recovery ....................................................................................... 102
    Tony Dafft

GAUGING THE FUTURE

Emerging Industrial Innovations for New Energy Efficient Technologies............................... 103
    John A. “Skip” Laitner

Clean Energy Producing & Exporting Countries ....................................................................... 104
    Kouros Atighetchi

IDENTIFYING OPPORTUNITIES WITH ENERGY SAVINGS ASSESSMENTS

Impact Of 1973 Oil Embargo and 2005 Katrina On Energy Efficiency ............................................. 106
    D. Paul Mehta
MONITORING & VERIFICATION

Special Issues for Program Design and Evaluation of Industrial Energy Programs ................................................................. 112
  Lori Megdal

Electric Utility Measurement & Verification Program ........................................................................................................... 113
  Ken Lau, Graham Henderson, Dan Hebert

Ontario’s Protocols For Evaluating The Energy And Bill Savings From Industrial Energy Efficiency Programs ......................................................................................................................... 121
  Michael Messenger

NEW PERSPECTIVES IN ENERGY PROGRAMS

  Christopher Russell

Industrial Energy Efficiency as a Risk Management Strategy ................................................................................................... 137
  Cullen Naumoff, Anna Monis Shipley

The Energy Services Provider as Corporate Engineer: A Partnership in Developing a Productive, Sustainable Energy Management Program .................................................................................................................. 143
  Mark Imel, Michael Gromacki

PERSPECTIVES ON INDUSTRIAL ENERGY MODELING

Representation of Energy Use in the Food Products Industry .................................................................................................. 149
  R. Neal Elliott

Improving the Contribution of Economic Models in Evaluating Industrial Efficiency Improvements ................................................................................................................................................................. 150
  John A. “Skip” Laitner

Industrial Attitudes to Petroleum Prices: Policies and Energy Efficiency .............................................................................................. 151
  Anna Monis Shipley, Therese Langer, Sarah Black

PLANT ENERGY TOOLBOX

Tools for Assessing Building Energy Use in Industrial Plants .................................................................................................... 152
  Michaela Martin, Michael MacDonald

Pumping System Measurements To Estimate Energy Savings: Why and How ....................................................................................... 153
  Don Casada

USING TECHNOLOGY TO REDUCE COSTS

NOx Reduction through Efficiency Gain ........................................................................................................................................ 154
  Robert Benz, Ryan Thompson, Marcel Staedter

Reducing Energy Costs And Minimizing Capital Requirements: Case Studies Of Thermal Energy Storage ................................................................................................................................................................................. 163
  John S. Andrepont

Selection and Specification of Combined Heat and Power System for a Carbon Black Manufacturer .................................................................................................................................................................................. 168
  Theodore A. Kozman, Jesus DaCosta, Jim Lee
WISE PRACTICES IN AIR, WATER, AND STEAM

Considerations in Dealing with the Risk of a Compressor Failure .......................................................... 177
Chris E. Beals

Reduce Overhead, Implement Energy Efficiency In Water/Wastewater ............................................... 186
Joseph C. Cantwell

The Relationship between Water and Energy: Optimizing Water and Energy ................................. 191
