2006 INTERNATIONAL RF AND MICROWAVE CONFERENCE
SEPTEMBER 12 – 14, 2006, PUTRA JAYA, MALAYSIA

PROCEEDINGS

Organized By:
IEEE Antennas and Propagation/Microwave Theory and Techniques/Electromagnetic Compatibility Chapter, Malaysia

Jointly Organized By:
Universiti Teknologi MARA
Universiti Teknologi Malaysia
Kolej Universiti Teknologi Tun Hussein Onn
Kolej Universiti Teknikal Kebangsaan Malaysia
Universiti Industri Selangor

We wish to thank the following for their contribution to the success of this conference:
Air Force Office of Scientific Research, Asian Office of Aerospace Research and Development
## TECHNICAL PROGRAM

### TECHNICAL SESSION 1: ACTIVE AND PASSIVE MICROWAVE CIRCUITS

| 123  | Development of Planar Microwave Moisture Sensors for Hevea Rubber Latex and Oil Palm Fruits | 10   |
|      | Kaida Khalid, Mohamed M. Ghretli, Zulkifly Abbas, and Ionel V. Grozescu                  |
|      | Physics Department, Universiti Putra Malaysia, Malaysia                                   |
| 002  | Minituraisized Low Pass Filter Using Modified Unfolded Single Hairpin-line Resonator for Microwave Communication System | 16   |
|      | Samsul Haimi Dahan\(^1\) and Mazlina Esa\(^2\)                                           |
|      | 1Kolej Universiti Teknologi Tun Hussein Onn, Malaysia                                      |
|      | 2Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia |
| 013  | RFID Transponder Using Bow Tie Antenna for Wireless Application                        | 21   |
|      | Allen Wong Seng Hung and Widad Ismail                                                   |
|      | Electrical and Electronic Department, Universiti Sains Malaysia, Malaysia                |
| 032  | A 10GHz PHEMT Dielectric Resonator Oscillator                                         | 26   |
|      | Nor Muzliftah Mahyuddin, Mohd Fadzil Ain, Syed Idris Syed Hassan and Mandeep Singh        |
|      | School of Electrical And Electronic Engineering, Universiti Sains Malaysia, Malaysia     |
| 060  | Aperture Coupled Microstrip Antenna with Different Feed Sizes and Aperture Positions     | 31   |
|      | Wireless Communication Center, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia |
| 099  | Design of Harmonic Filter and Antenna Switch for Two-way Mobile Radio                   | 36   |
|      | Lee Wai Mun\(^1\), G. S. Kok\(^2\) and Varun Jeoti\(^1\)                                |
|      | 1Department of Electrical and Electronic Engineering, Universiti Teknologi Petronas, Malaysia |
|      | 2Motorola, Penang                                                                    |
| 105  | A Systematic Technique for Designing Wideband RF Power Amplifiers                      | 39   |
|      | Firas Mohammed Ali Al-Raie                                                            |
|      | Department of Electronic Engineering, The Politecnic Higher Institute of Yefren, Libya  |
| 107  | Coplanar Waveguide Fed Ultra Wide Band Monopole Antenna                                | 44   |
|      | Manoj Singh, Shibin K. Koul and Ananjan Basu                                         |
|      | Center for Applied Research in Electronics Indian Institute of Technology Delhi, India |
TECHNICAL SESSION 2: RADIO WAVE PROPAGATION AND SIGNAL PROCESSING

083 Large Signal Design of Distributed Power Amplifier with Discrete RF MOSFET Devices
Tan TeikSiew1,2, Mohd Fadzil Ain1 and Syed Idris Syed Hassan1
1School of Electrical and Electronic Engineering, Universiti Sains Malaysia, Malaysia
2Motorola Technology Sdn Bhd, Malaysia

111 The Effects of Clipping Techniques on PRS-OFDM System
Sharifah K. Syed-Yusof, Norsheila Faisal, and Muladi
Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

038 An Improved Power Consumption Circuit of a 5.7 GHz Variable-Gain Low Noise Amplifier (VGLNA) for RF Applications
L. Lee1, S. S. Jamuar1, R. Mohd Sidek1, and S. Khatun2
1Department of Electrical and Electronics Engineering, Faculty of Engineering, Universiti Putra Malaysia, Malaysia
2Department of Computer and Communication System Engineering, Faculty of Engineering, Universiti Putra Malaysia, Malaysia

066 An Investigation of Rayleigh Distribution in Reverberation Chamber
A.A.H. Azremi
School of Computer and Communication Engineering, Northern Malaysia University College of Engineering, Malaysia

010 Peak to Average Power Ratio (PAPR) Reduction in OFDM System
N. N. Nik Abd Malik, N. Ngajikin, and N. D. Abdul Latif
Fakultiti Kejuruteraan Elektrik, Universiti Teknologi Malaysia, Malaysia

072 Signal Penetration towards Wooden Building Construction Materials
L.C. Kho1, S.S Ngu1, A.Baharun1 and K. Lias3
1,2,3Department of Electronics, Faculty of Engineering, Universiti Malaysia Sarawak, Malaysia
4Department of Civil, Faculty of Engineering, University Malaysia Sarawak, Malaysia

074 Performance Analysis of MIMO-CDMA System
N. Ngajikin, N. N. Nik Abdul Malik, Mona Riza M. Esa, Sevja M. Idrus and Noorliza Ramli
Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

012 Characteristics of Thyristor Surge Protection Devices Under Natural Lightning Surge Occurrences
Annuar Ramli, Nurul Afzazan Omar and Vijayan Ellappan
Telekom Research & Development Sdn Bhd, UPM-MTDC, UPM Lebu Silikon, Malaysia

021 Fast Processing Multiplier
Norhuzaimin Julai and Yee Ming Fatt
Department of Electronic, Faculty of Engineering, University Malaysia Sarawak, Malaysia

073 The Effect of Additive White Gaussian Noise and Multipath Rayleigh Fading on BER Statistic in Digital Cellular Network
Azlina binti Idris, Redza Fairuz bin Rahim, and Darmawaty binti Mohd Ali
Faculty of Electrical Engineering, Universiti Teknologi MARA, Malaysia
TECHNICAL SESSION 3: VHF, RADAR, SATELLITE TECHNOLOGY AND COMPUTER AIDED APPLICATIONS

1.14 Pure Target Detection Based on Eigenvector Decomposition Using $H - \alpha$ Method in Radar Polarimetry
B. Zakeri1, A. Ghorbani1, and Michele Galletti2
1Amirkabir University of Technology, Tehran, Iran
2TU-Chemnitz, Department of Microwave Engineering and Photonics, Germany

031 Modeling of a 10GHz Dielectric Resonator Oscillator in ADS
Nor Muzlifah Mahyuddin, Mohd Fadzil Ain, Syed Idris Syed Hassan and Manddeep Singh
School of Electrical And Electronic Engineering, University Science Malaysia, Malaysia

036 In-Flight Prayer Times and Qiblat Direction – A Preliminary Study
Faculty of Electronic and Computer Engineering, Kolej Universiti Teknikal Kebangsaan Malaysia, Malaysia

009 Design of Microwave Direct-Coupled Cavity Waveguide Filter for VSAT Communication at C-Band Using MathCAD Software
Mazlin Esa, Rengiah Sinnathamby, Mohd Fairus Mohd Yusof and Noor Asniza Murad
Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

067 A MIMO LMS Adaptive Equalization Approach in Simulated Radar Emission
M.N Junita1, M.S Anuar1, A.A.H Azremi1, A. Norsuhaida1, S. Zarih1, and M.N Bukhairi2
1Northern Malaysia University College of Engineering, Malaysia
2Sapura Defence Sdn. Bhd, Malaysia

093 Software Implementation of Automatic Link Establishment Capability for HF Radio Communication
Nurlufdzilah Bt Hasan1 and Ahmad Zuri bin Sha’ameri2
1Kolej Universiti Kejuruteraan dan Teknologi Malaysia, Malaysia
2Digital Signal Processing Lab, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

106 Design and Development of Square and Circular Micromachined Patch Antennas at Ka-band
Preeti Sharma, Shibani K. Koul, and Sudhir Chandra
Center for Applied Research in Electronics Indian Institute of Technology Delhi, India

016 Design of Dual Feeding Full-Wave Dipole Antenna for VHF
Khedher A Hmood, S. I. S. Hassan, and M. F. Ain
School of Electrical and Electronic Engineering, Universiti Sains Malaysia, Malaysia

015 Size Reduction and Multiband Characteristic Using Koch Fractal Dipole
S. A. Hamzah, M. S. Zainal, N. Abdullah, Samsul Haimi Dahan, and N. A. Cholan
Faculty of Electrical and Electronic Engineering, Kolej University Technology Tun Hussein Onn, Malaysia

TECHNICAL SESSION 4: RF PACKAGING, RF TECHNIQUES AND APPLICATIONS

034 A 1.4dB Noise Figure CMOS LNA for W-CDMA Application
Norlaili Mohd. Noh and Tun Zainal Azni Zulkifli
School of Electrical and Electronic Engineering, Universiti Sains Malaysia, Malaysia

019 Design of 920 MHz, 0.8 μm CMOS Low Noise Amplifier for UHF RFID Reader
A. Marzuki1 and Stephanie David2
1C-RAD Technologies Sdn Bhd, Malaysia
2Selangor Human Resource Development Center, Malaysia

033 A 5 GHz CMOS Tunable Image-Rejection Low-Noise Amplifier
Ler Chun Lee1, Abu Khari bin A’ain1 and Albert Victor Kordesch2
1Faculty of Electrical Engineering, University of Technology Malaysia, Malaysia
2Department Device Modeling, SilTerra Malaysia Sdn. Bhd., Malaysia
035 An Input Driver Circuit for Class F Power Amplifier
Huang Min Zhe, Abu Khari Bin A'ain, and Albert Victor Kordesch
1 Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
2 Silterra Malaysia Sdn. Bhd., Malaysia

054 YIG-tuned Oscillator Design on Printed Circuit Board using Surface Mount Technology
Amir Effendy Muhammad Afifi
Agilent Technologies Sdn Bhd, Malaysia

057 Packaging and Feedthrough Modes of Wafer Level for RF MEMS Switches
Qun Wu, Xun-Jun He, Bo-shi Jin, Ming-xin Song, and Jing-Hua Yin
1 School of Electronics and Information Technology, Harbin Institute of Technology, China
2 School of Applied Sciences, Harbin University of Science and Technology, China

086 Novel Techniques for Error Minimization in SAR RF and Interferometric Signal Processing
Zahid Hasan Bawar, Long Teng and Tao Zeng
Beijing Institute of Technology, China

091 Measuring STI Stress Effect on CMOS Transistor by Stepping through the Channel Width
Philip Beow Yew Tan, Albert Victor Kordesch, Wan Rosmaria Wan Ahmad, and Othman Sidek
1 Department of Device Modeling, Silterra Malaysia Sdn. Bhd., Malaysia
2 Department of Electrical and Electronic Engineering, Universiti Sains Malaysia, Malaysia

119 Fabrication and Characterization of PZT Thin Film Capacitors for MMIC Applications
Nor Fazlina Mohd Lazim, Zaiki Awang, Sukreen Hana Herman, Uzer Mohd Nor, Mohd Nizam Osman, Ashaari Yusof, Asban Dollah, Mohamed Razman Yahya, and Abdul Fatah Awang Mat
1 Microwave Technology Center, Universiti Teknologi Mara, Malaysia
2 Faculty of Electrical Engineering, Universiti Teknologi MARA, Malaysia
3 Telekom Research & Development Sdn. Bhd., Idea Tower, UPM-MTDC, Malaysia

008 Hilbert Curve Fractal Antenna for RFID Application
Noor Asniza Murad, Mazlina Esa, Mohd Fairus Mohd Yusof, and Siti Hajar Aminah Ali
Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

TECHNICAL SESSION 5: ANTENNAS AND MICROWAVE/RF DEVICES

068 Slotted Triangular Patch Antenna for Reduced Reflection Loss
Varun Jeoti, Chin Ooi Kua and Lee Sheng Chyan
Electrical and Electronic Engineering Department, Universiti Teknologi PETRONAS, Malaysia

100 Analysis on the Effects of MOSFET Threshold Voltage Mismatch in CMOS Operational Amplifiers for RF Applications
A.A.H Ab-Rahman and I. Kamisian
Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

065 A Low-Phase Noise and High Output Swing RF LC-VCO in CMOS Technology
Harikrishnan Ramiah and Tun Zainal Azmi Zulkifli
RF Design Group, Universiti Sains Malaysia, Malaysia

058 The Impact of Multiple-Gated Layout on the Drain-Source Current of Pseudomorphic-HEMTS
Mohd Nizam Osman, Zaiki Awang, Syamsuri Yaakob, Mohamed Razman Yahya, and Abdul Fatah Awang Mat
1 Microelectronic & Nano Tech., TM R&D Sdn. Bhd., Malaysia
2 Microwave Technology Center, Universiti Teknologi MARA, Malaysia

078 A New Approach for Bandwidth Enhancement Technique in Microstrip Antenna for Wireless Applications
D. Yoharaq, Raja Syamsul Azmir, and Alyani Ismail
Faculty of Engineering, Universiti Putra Malaysia, Malaysia
The Bode-Fano Integrals as an Objective Measure of Antenna Bandwidth Reflection Coefficient Product Limit
A. Ghorbani¹, M. A. Ansarizadeh², N. J. McEwan³, Raed A. Abd-alhameed⁴, and D. Zhou⁵
¹²Amirkabir University of Technology, Iran
³⁴Bradford University, UK

Microstrip Patch Antenna Array at 5.8 GHz for Point to Point Communication
M.K.A. Rahim, A. Asrokin, M.H.Jamaluddin, M.R. Ahmad, and T. Masri
Wireless Communication Center, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

CMOS High-Speed 1/14 Dynamic Frequency Divider
Queenie Lim Suan Imm¹,², Albert Victor Kordesch³, and Burhanuddin Yeop Majlis¹
¹Department of Electrical, Electronics and Systems, Universiti Kebangsaan Malaysia
²Device Modeling, Silterra Malaysia Sdn. Bhd. Malaysia

Bandwidth Enhancement of a Narrowband Rectangular Microstrip Antenna on a Spiral Fan-Shape Electromagnetic Band-Gap (EBG) Patch Structure
T. Masri, M. K. A. Rahim, M. H. Jamaluddin and A. Asrokin
Wireless Communication Centre, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

Stacked Square Fractal Antenna with Improved Bandwidth for Wireless Local Area Network Access Point
Mohd Fairus Mohd Yusoff, Mazlina Esa, Noor Asniza Murad and Yap Eng Chuan
Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

TECHNICAL SESSION 6: MICROWAVE/RF TESTING AND SENSORS, AND MICROWAVE ENGINEERING EDUCATION

3D Microwave Imaging for Medical and Security Applications
D. Smith¹, M. Elsdon¹, M. Leach¹, M. Fernando¹, and S. J. Foti²
¹School of Engineering and Technology, Northumbria University, United Kingdom
²Pele Cottage, Wingates, Longhorsley, United Kingdom

Performance of Continual Quality Improvement for Learning Process in a Microwave Engineering Based Core Subject
Mazlina Esa¹, Rozeha A Rashid², Mohd Saidfudin Masodi³, and Razimah Abdullah⁴
¹Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
²Department of Telematics and Optics Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
³Petrovest Sdn. Bhd., Kuala Lumpur, Malaysia
⁴RAMS Management Consultants Sdn Bhd

Development of Microwave System for Extraction of Essential Oils from Mesua ferrea L. leaves and Jasminum sambac flowers
Rudy Nurdin¹, Nurshahidah Osman², Kaida Khalid³, and Mohd. Aspollah Md. Sukari⁴
¹,²,³Department of Physics, Faculty of Science, Universiti Putra Malaysia, Malaysia
⁴Department of Chemistry, Faculty of Science, Universiti Putra Malaysia, Malaysia

Equivalent J – Inverter Network Parameters Analysis and Cancellation of Spurious Response of Parallel Coupled Microstrip Line
Jayaseelan Marinuthu and Mazlina Esa
Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Malaysia

Design of a 5.8 GHz Rat-Race Coupler on the RO4003C® Substrate
Goh Chin Hock and Chandan Kumar Chakraborty
Department of Electrical Engineering, College of Engineering, Universiti Tenaga Nasional, Malaysia
125 Development and Design of Microstrip Moisture Sensor for Rice Grain
Fariba Jafari, Kaida Khalid, W. M. Daud, M. Yusoff, and Juniah Hassan
Microwave Laboratory, Department of Physics, Faculty of Science, University Putra Malaysia, Malaysia

063 Interdigital-Gated HEMT Structure for High Frequency Devices
Abdul Manaf Hashim1, Seiya Kasai2, Tamotsu Hashizume2, and Hideki Hasegawa2
1Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
2Research Center for Integrated Quantum Electronics and Graduate School of Information Science and Technology, Hokkaido University, Japan

023 Design of a Parallel Coupled Microstrip Line Bandpass Filter on the RO4003C® Substrate
Goh Chin Hock and Chandan Kumar Chakrabarty
Department of Electrical Engineering, College of Engineering, Universiti Tenaga Nasional, Malaysia

041 Simulation of Post-ADC Digital Beam-Forming for Large Area Radar Receiver Arrays
Gustav Stenberg1, Johan Borg1, Jonny Johansson1, and Gudmund Wannberg2
1EISLAB, Luleå University of Technology, Sweden
2EISCAT Scientific Association, Sweden

TECHNICAL SESSION 7: EMC, COMPUTATIONAL ELECTROMAGNETICS AND ELECTROMAGNETIC MODELING

095 Unconditionally Stable FDTD Technique Including Passive Lumped Elements
Weiming Fu1 and Eng Leong Tan2
1Communication Laboratory IV, S1-B4a-03, Nanyang Technological University, Singapore
2EEE School, Nanyang Technological University, Singapore

046 A Longitudinal Approach in Assessing Electrical Engineering Students' Generic Skills Development Based on Electromagnetic Field Theory Subject
Rozeha A Rashid1, Mazlina Esa2, Mohd Saiduddin Masodi3, and Razimah Abdullah4
1Department of Telematics and Optics Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
2Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
3Petroserv Sdn. Bhd., Kuala Lumpur, Malaysia
4RAMS Management Consultants Sdn Bhd, Malaysia

017 Investigating and Modeling of Planar Capacitively Loading EBG Cavity Resonator
Kaixue Ma and Kien Teck Chan
MEDs Technologies Pte. Ltd., Singapore

029 Estimation of Electric and Magnetic Shielding Effectiveness of a Metallic Enclosure with Apertures
Farhana Ahmad Po'ad1, Mohd Zara Mohd Jenu1, C. Christopoulos2, and D.W.P. Thomas2
1Center for Electromagnetic Compatibility, Kolej Universiti Teknologi Tun Hussein Onn, Malaysia
2Department of Electrical and Electronic Engineering, University of Nottingham, United Kingdom

053 A Study of Inexpensive Stable Conducted/Radiated Emission Sources Suitable for the EMC Directives
Vichate Ungvichian and Raymond Aina
Electromagnetic Interference R&D Lab at Florida Atlantic University, USA

070 A Class of Finite Difference Time Domain (FDTD) Techniques for Solving Large Electromagnetic Structures
Hany E. Abd-El-Raouf
Faculty of Engineering, International Islamic University Malaysia, Malaysia

030 Multimode Consideration in the Analysis of Shielding Effectiveness of a Metallic Enclosure with Off-Centred Apertures
Farhana Ahmad Po'ad1, Mohd Zara Mohd Jenu1, C. Christopoulos2, and D.W.P. Thomas2
1Center for Electromagnetic Compatibility, Kolej Universiti Teknologi Tun Hussein Onn, Johor, Malaysia
2Department of Electrical and Electronic Engineering, University of Nottingham, United Kingdom
075 Wireless Interference Affecting RF Instrument Calibration in Manufacturing Mode
Wai Keng Ng and Boon Wan Law
Agilent Technologies Microwave Products (Malaysia) Sdn. Bhd., Malaysia

077 Mutual Interaction of the Measuring Antenna and the Field Source
Ahmed Elbarsha
Electrical and Electronic Engineering Department, Gargyounis University, Libya

118 Online Survey of Children’s Understanding of Mobile Phones and EMF: Preliminary Results
Nahrizul Adib Kadri, Kwan-Hoong Ng, Li-Kuo Tan, Jin-Wooi Tan, Siew-Eng Lee, and Heng-Loke Siow
1Department of Biomedical Engineering, Faculty of Engineering, University of Malaya, Malaysia
2Department of Biomedical Imaging, Faculty of Medicine, University of Malaya, Malaysia
3Department of Mathematics and Science Education, Faculty of Education, University of Malaya, Malaysia

018 Condition Monitoring of a Turbine Flowmeter Using a Deconvolution Method
M. A. Al-Manie
Computer and Electronics Research Institute, King Abdulaziz City for Science and Technology, Saudi Arabia

TECHNICAL SESSION 8: TELECOMMUNICATIONS TECHNOLOGY AND ENGINEERING EDUCATION

126 Integer Coefficients Partial Response Signaling in OFDM System
Sharifah K. Syed-Yusof, Norshelia Faisal and Muladi
Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

062 Value-adding through Internal Audits: A Continuous Improvement Process in Microwave Engineering Education
Mazlina Esa, Rozeha A Rashid, Razimah Abdullah, and Mohd Saidfudin Masodi
1Microwave/RF and Antenna Research Group, Department of Radio Communication Engineering, Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
2Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia
3Ramos Management Consultants Sdn Bhd, Malaysia
4Petrovast Sdn. Bhd., Kuala Lumpur, Malaysia

096 Improving Bit Error Rate of OCDMA Systems Using AND Subtraction Technique
S.A. Aljunid, S. Zarihan, M.S. Anuar, M.N. Junita, A. Norshahida, M.D.A. Samad and M. K. Abdullah
1School of Computer and Communication Engineering, Northern Malaysia University College of Engineering, Malaysia
2Photonics Laboratory, Department of Computer and Communication System, Universiti Putra Malaysia, Malaysia

112 MIMO L.t.d Channel Capacity When the Channel is Known and Unknown to the Transmitter for Different Antenna Configurations
Abdulgodoos Saad and Mahamod Ismail
Department of Electrical, Electronics and Systems Engineering, Universiti Kebangsaan Malaysia, Malaysia

024 Achieving Optimum in-building Coverage of 3G Network in Malaysia
Amran Hj Naemat, Azlinda Tee, Azah Syafiah Mohd Marzuki, Benyazwar Mohd, Khaidir Khalil, and Amir Razif Abdul Rahim
Mobile & Wireless IP Access, Telekom Research & Development Sdn Bhd, Malaysia

028 Antenna Isolation Considerations in WCDMA Repeater Deployment
Azah Syafiah Mohd Marzuki, Amir Razif Abd Rahim, Benyazwar Mohd, Khaidir Khalil, Amran Naemat, and Azlinda Tee
Mobile & Wireless IP Access, Telekom Research & Development Sdn Bhd, Malaysia

020 Interference and Compatibility Analysis of RF Communication Systems (MEASAT -Case Study)
Zulfiquar Ali Leghari, Abdul Rani Bin Othman, and Ghulam Muhammed
1Faculty Electronic & Computer Engineering, Kolej Universiti Teknikal Kebangsaan, Malaysia
2Faculty of Engineering & Technology Building, Multimedia University, Malaysia

x

RFM06 PROCEEDINGS
049 Improvement Fourth Generation (4G) Using Channel Shortening Method
Yusniita Rahayu, Rajparthiban Kumar Rajkumar and Kumaran Ramachandran
School of Engineering, University College Sedaya International, Malaysia

076 The Potentials of OCDM Technique for Local Area Network
S. A. Aljunid1, H.K. Dayang1, S. Zarifhan1, M.S. Anuar1, A.A. H. Azremi1, and M. K. Abdullah2
1Northeast Malaysia University College of Engineering, Malaysia
2Department of Computer and Communication System, Universiti Putra Malaysia, Malaysia

110 Integration of Dynamic Pricing with Guard Channel Scheme for Uniform and Non-uniform Cellular Network Traffic
O. A. Al-kishrewo and M. M. Mousa
EE Department, Al-fateh University, Libya

064 Design of Inset-Fed Microstrip Rectangular Truncated Array Antennas
Harith Yusof, Nur Ayu Zalina Zakaria, and Ahmad Asari Sulaiman
Faculty of Electrical Engineering, Universiti Teknologi Mara, Malaysia

TECHNICAL SESSION 9: BIOLOGICAL EFFECTS, MEDICAL APPLICATIONS AND MOBILE NETWORKS

104 More Power-Efficient Data Gathering Trees for Wireless Sensor Networks
J. C. Lim and K. D. Wong
Faculty of Information Technology, Malaysia University of Science and Technology, Malaysia

121 Web-Based Educational Portal on EMF for Children
Kwan-Hoong Ng1, Li-Kuo Tan1, Nahirzul Adib Kadir2, Siew-Eng Lee3, and Heng-Loke Siow3
1Department of Biomedical Imaging, University of Malaya, Kuala Lumpur, Malaysia
2Department of Biomedical Engineering, University of Malaya, Malaysia
3Department of Mathematics and Science Education, Faculty of Education, University of Malaya, Malaysia

071 QoS Provisioning for Adaptive Multimedia Services in Wireless/Mobile Cellular Networks
M. Sanahani, S. Shamala, M. Othman, and Z. Zukarnain
Department of Communication Technology and Networks, Faculty of Computer Science and Information Technology, University Putra Malaysia, Malaysia

092 Microwave Radiation from Mobile Telephone Base Stations
Mohd Yusof Mohd Ali, Rozaimah Abd Rahim, Mohd Anuar Majid and Amirul Nizam Mohd Thani
Malaysian Institute for Nuclear Technology Research, Malaysia

079 Multi Polarization Antenna Structures for Efficient MIMO Systems Employing Software Radio Design Methodology
Narayanan Manoj, Amir Faizal, and Smruti Santosh Palai
Polarizon Technologies, Malaysia

109 Bluetooth Performance Analysis in Personal Area Network (PAN)
Rozcha A. Rashid and Rohaiza Yusoff
Faculty of Electrical Engineering, University of Technology Malaysia, Malaysia

080 Effect of Transmission Delay And Tunneled Traffic In A Wireless Mobile IP Network
M. Samad and N. S. M. Kasim
Faculty of Electrical Engineering, Universiti Teknologi MARA, Malaysia

098 Design of Power Amplifier for a Two-way Mobile Radio
Lee Wai Mun1, G.S. Ko2 and Varun Jeoti1
1Department of Electrical and Electronic Engineering, Universiti Teknologi Petronas, Malaysia
2Motorola, Penang, Malaysia

039 Coverage Enhancement Through Fixed Repeater Network in UMTS
Abdul Halim Ali
Communications Technology Section, University Kuala Lumpur British Malaysian Institute, Malaysia
TECHNICAL SESSION 10: MICROWAVE PHOTONICS AND MICROWAVE METROLOGY

059 Microwave Characterization of Silicon Wafer Using Rectangular Dielectric Waveguide
Kamariah Ismail\textsuperscript{1}, Noor Hasimah Baba\textsuperscript{1}, Zaikl Awang\textsuperscript{1}, and Mazlina Esa\textsuperscript{1}
\textsuperscript{1}Faculty of Electrical Engineering, \textsuperscript{2}Microwave Technology Centre, Universiti Teknologi MARA, Malaysia

056 Performance Analysis Of Bootstrap Transimpedance Amplifier For Large Windows Optical Wireless Receiver
S. M. Idrus, N. Ngajjkin, N. N. N. A. Malik, and S.I.A. Aziz
Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Malaysia

045 Practical Packet Detection and Symbol Timing Synchronization Scheme for Packet OFDM System
Mazlaini Yahya
Telekom Research & Development Sdn. Bhd, UPM-MTDC, Technology Incubation Center One, Malaysia

026 Broad and Positive Conversion Efficiency in Raman-Assisted Fiber Ring Laser
Ummi Supya Ismail\textsuperscript{1}, Muhammad Zamzuri Abdul Kadir\textsuperscript{1}, Zainuddin Rahman\textsuperscript{1}, Mohd. Adzir Mahdi\textsuperscript{2}, and Suhbudin Shaari\textsuperscript{1}
\textsuperscript{1}TMR&D SDN BHD, Idea Tower, UPM-MTDC, Malaysia
\textsuperscript{2}Department of Computer and System Engineering, Faculty of Engineering, Universiti Putra Malaysia, Malaysia

040 Performance Evaluation of FP/ATM Integration in MPC8260
Yeoh Chun Yeow and Mohammad Harris Mohktar

069 Dielectric Sheet Perturbation to Metallic Air-Filled Cavity – Technique of Microwave Non-Destructive Testing (MDT)
M. Tarmizi Ali, M. Farid A. Khalid, and Nailah Amirudin
Faculty of Electrical Engineering, University Teknologi MARA, Malaysia

094 Analysis of S-Bend Optical Waveguides by the Method of Lines
Zainuddin Lambak, Imam A. Tengku, Azliza J.M. Adnan, Ary Syahriar, Nur Hanani Zainal Abedin, Chan Wai Yee, and A. Aziz Mat Hassan
Photic Devices Cluster, Telekom Research & Development, Malaysia

097 Effect of Laser Bias Current to the Third Order Intermodulation in the Radio over Fibre System
S. Yaakob\textsuperscript{1}, W. R. Wan Abdullah\textsuperscript{1}, M. N. Osman\textsuperscript{1}, A. K. Zamzuri\textsuperscript{1}, R. Mohamad\textsuperscript{1}, M. R. Yahya\textsuperscript{1}, A. F. Awang Mat\textsuperscript{1}, M. R. Mohktar\textsuperscript{2}, and H. A. Abdul Rashid\textsuperscript{2}
\textsuperscript{1}TM R&D Sdn Bhd, Idea Tower, UPM-MTDC, Malaysia
\textsuperscript{2}Faculty of Engineering, Multimedia University, Malaysia

116 Performance Analysis of a Multicast System in WDM Single-hop Broadcast-and-Select Optical Network
Rabbi W. Yousif Habash\textsuperscript{1}, Borhanuddin Mohd Ali\textsuperscript{2}, Mohd Khazani Abdullah\textsuperscript{3}, Kamarauzzaman Bin Seman\textsuperscript{3}, Mohd Dani Baba\textsuperscript{4}, and Mazlina Esa\textsuperscript{5}
\textsuperscript{1}Faculty of Engineering and Science, Curtin University of Technology, Sarawak Malaysia
\textsuperscript{2}Faculty of Engineering, Universiti Putra Malaysia, Serdang, Selangor, Malaysia
\textsuperscript{3}Kolej Universiti Islam Malaysia, Nilai, Malaysia
\textsuperscript{4}Faculty of Electrical Engineering, Universiti Teknologi Mara, Shah Alam, Malaysia
\textsuperscript{5}Faculty of Electrical Engineering, Universiti Teknologi Malaysia, Johor, Malaysia

025 Third and Fifth Order IMDS at Carrier Position
Mohamad Kadim Suaidi\textsuperscript{1}, Lisa Yong\textsuperscript{2} and Awangku Abdul Rahman B. Pgn. Hj. Yusof\textsuperscript{3}
