# Table of Contents

## Technology Management Framework

  *Sujan Samanta*

- How Firms Leave a Mark in the Industry: A Business Transformation Perspective - Definitions, Concepts and Frameworks ...................... 6 - 21  
  *Hema Prem and George Eby Mathew*

- The Study of Taxonomy and Evolutional Trends of Relevant Literatures on Patent Analysis ................................................................. 22 - 30  
  *Kuei-Kuei Lai, Mei-Lan Lin, Shunn-Bin Chang and Chin-Fu Hsu*

- Technology Management Maturity of Enterprises: An Analysis Based on Four Industries in China ......................................................... 31 - 37  
  *Wang Jiliang, Wu Weiwei and Yu Bo*

- Practical Framework of Manufacturing Technology Management for Efficient Cooperation between Design and Manufacturing Sections ................................................................. 38 - 44  
  *Takehisa Seino*

- Intangible Assets and Cost of Capital: An Application for a Technology Utilizing Firm ................................................................. 45 - 51  
  *Kaya Tokmakcioglu, Oktay Tas and Sitki Gozlu*

## Strategic Management of Technology

- Innovation and Technological Convergence: An Assessment of Critical Resources of Telecommunications Service Providers Using Resource Based View and Dynamic Capabilities ................................................................. 52 - 63  
  *Americo Brigido Cunha*

- A Corporation Niche Analysis of Strategic Alliance ........................................ 64 - 69  
  *Wu Yuying, Tian Meng and Yan Feng*

- Effects of Technology Cycles on Strategic Alliances ........................................ 70 - 85  
  *Yi-Yu Chen and George F. Farris*

- Enterprise Technology Management Maturity Model and Application .................. 86 - 90  
  *Junwen Feng and Xiaoyan Li*

- Dynamics of Innovation Strategies in the Optical Memories Industry: An Analysis Based on Patent Indicators ........................................ 91 - 104  
  *Corrado lo Storto*

- Strategic Management in a Multi-Program Technology Program Involving Convergence and Divergence of Programs: Observations from NASA ........................................ 105 - 112  
  *Tim Koinour and Tim Bollo*

- The Study on the Technology Finance Policy for Technology Development on the Value Chain Based Innovation System ...................... 113 - 118  
  *Haeyoung Byun and Jeong-Dong Lee*
Table of Contents

Implementing the Balanced Scorecard to Achieve Strategic Management Objectives: The Case of the Small Engineering Consultancy ........................................ 119 - 124
W. Austin Spivey, J. Michael Munson and Alberto King

Linda H. Lin, Arthawee Tanyavutti and Songwat Jindrapacha

Evaluation of Business Value of IT-System Scenarios: A Case Study at a Large North European Power Company .................................................. 143 - 155
Magnus Gammelgård, Mathias Ekstedt and Per Närman

Standardization Forming Process of Industrial Goods .................................................. 156 - 165
Atira Nagashima, Akio Nagahira and Yong Cao

An Examination of Computer-Aided Design (CAD) Usage Patterns, Product Architecture and Organizational Capabilities: Case Illustrations from Three Electronic Manufacturers .................................................. 166 - 179
Youngwon Park, Tukahiro Fujimoto, Ryozo Yoshikawa, Paul Hong and Takeshi Abe

Enterprise Customer’s Needs for SLA on Telecom Services in Korea ........................................ 180 - 184
Jee Hyung Lee

The Controllability of the Profit Structure of a Product: A Case Study of the Canon Inkjet Printer Business .................................................. 185 - 192
Yoichi Matsumoto

Technology Management in the Nuclear Industry: The Pebble Bed Modular Reactor Experience .................................................. 193 - 210
Jörg Lalk

Mergers and Acquisitions: Team Performance .................................................. 211 - 218
Richard Sperry and Antonte Jetter

Convergence of Technologies

Managing Converging Technologies Requires System Health ........................................ 219 - 223
Dietmar H. Winzker and Leon Pretorius

Coordinating Converging Technologies: A Survey of Models from the Field of Multi-Actor Systems .................................................. 224 - 232
Telli E. Van der Lei and Scott W. Cunningham

University-Industry Relations and Technological Convergence ........................................ 233 - 240
Fernando Romero

Are Converging Technology Tools of Competitiveness? ........................................ 241 - 245
François A. Ravallion, Patrick Rajaonary, Elisé A. Ravoloxon and Etienne Rakotomaria

Coevolutionary Cycles of Convergence: Will “NBT” Become the Next ICT? ............. 246 - 258
Fredrik Hacklin, Christian Marx and Fritz Fahrni
# Table of Contents

Analysis of Competing Technologies and Firms in a Convergence Industry by Using Patent Information: The Case of Telematics ................................................................. 259 - 262
*Yoo-Jin Han*

'Application-Specific Research': A New Concept Representing 'Mode-Conversion' from 'Research' Mode to 'Development' Mode .................................................. 263 - 272
*Fujio Sato*

Generation of Manpower for Teaching, Research and Industry at the Centre for Converging Technology ......................................................................................... 273 - 277
*N. K. Jain*

*L. Kovavisaruch and P. Santharasaj*

## Competitiveness

A Structural Complexity Perspective for Understanding Value Networks ............. 305 - 317
*Ying Ki Kwong and Robert R. Harmon*

A Competitiveness Model for Mexican Software Development Companies .......... 318 - 326
*Alejandra Herrera Mendoza, José Luis Solteiro Rebolledo and Rosario Castañón Ibarra*

Developing Digital Content Industry in Taiwan ................................................ 327 - 337
*Hsiao-Cheng Yu and Hsin-Hann Tsai*

## Science and Technology Policy

*Wiang Park, H. H. Lee and B. N. Lee*

Development of an Innovation Cluster: Can It Be Nurtured? ............................... 343 - 343
*Deok S. Yim*

The Science and Technology Parks as Instruments of Public Policies for Promote the Collaboration of Technology Based Companies ........................ 344 - 350
*Destrée M. Zouta, Devandlo Damíão and Mauro Catharino*

Strategies of Developing Deep Ocean Water Industry - Cluster and Value Network Views ............................................................................................................ 351 - 357
*Yiche Chen, Yan-Ru Li, Pi-Feng Hsieh and Chung-Shing Lee*

Industry and Government Measures to Promote Forward Integration of Automotive Supplier R&D from Developing Countries to Multinational OEMs ........................................................................................................... 358 - 368
*Oliver Moos, Marthinus W. Pretorius and Jasper L. Steyn*

U.S. National Innovation System for Biotechnology: From the Korean Perspectives ..................................................................................................................... 369 - 381
*Kidong Kim, ByungHwan Hyun and Sunyung Chung*
Table of Contents

A Study on the Architecture of Performance Evaluation System of National R&D Programs in Korea ................................................................. 382 - 391
Donghoon Oh, Soon Cheon Byeon, Young-Il Park and Sang Youb Lee

A Comparative Analysis of Innovation Policy in Mexico, Spain, Chile and Korea ....................................................................................... 392 - 396
José Luis Solteiro, Rosario Castañón Katya Luna, Alejandra Herrera and Mariana Montiel

Nano-Biotechnology Policy

Evolving R&D Paradigms and Intellectual Property Strategies: A Historical Analysis across the Chemical, Biological, and Information Paradigms .................. 401 - 428
Minna Allarakha and Anthony Wensley

Game Models of the Defection Dilemma in Biopharmaceutical Discovery Research ......................................................................................... 429 - 437
Minna Allarakha and D. Marc Kilgour

Models of Cooperation and Knowledge Management: The Case of Biomedical Technology Management .................................................. 438 - 447
Minna Allarakha, Steven Walsh and Anthony Wensley

Innovation Management

Dynamic Cooperation Network for Technology Management and Innovation Process: The Case of the Brazilian Aeronautic Sector ...................... 448 - 453
Cristiane Chaves Gattaz Bueno, João Amato Neto and Mauro Catharino Vieira da Luz

Distribution and Evolution of Industrial Innovation Efficiency .................................................................................................................. 454 - 463
Jiancheng Guan, Xiangju Qu and Sumin Zhong

Management of Sectorial Technology Chains and Integral Evaluation of Potential Projects on Innovation Technology .................................. 464 - 470
Juan A. Ortega

The Life-Cycle Revisited: Stage Transitions and the Failure of the Iridium Project ....................................................................................... 471 - 482
Gregory A. Daneke and Kevin J. Dooley

Social Innovation Management with Resonant Individuals’ Insights ........................................................................................................... 483 - 492
Takahiko Nomura and Tomoya Kubota

Innovation and Organizational Trajectories ............................................................................................................................................... 493 - 498
Alvaro S. Torres Jr., Ana Gabriela Wechsler and Cleber Favaro

Is Inventors Network Structure a Predictor of Cluster Evolution? ............................................................................................................. 499 - 509
Jiang He and M. Hosein Fallah

Becoming a "Global Top Niche Company” through Two-Step Innovation .................................................................................................... 510 - 524
Masanori Namba

Innovation Stack - Choosing Innovations for Commercialization ............................................................................................................... 525 - 528
Arcot Desai Narasimhalu
# Table of Contents

Engaging the Creative Minds: The ENGAGE Models .............................................. 529 - 539  
*C. M. Chang*

Complex Innovation Networks, Patent Citations and Power Laws ...................... 540 - 549  
*Thomas F. Brantle and M. Hosein Fallah*

Determinants of Enterprise Performance in Small Technology-Intensive  
Enterprises: Intellectual Capital and Innovation Capability in the Firm .............. 550 - 553  
*George Tostiga, David W. Birchall and Ekaterina Tulugurova*

Designing the Value Curve for Your Next Innovation ......................................... 554 - 557  
*Arcoi Desai Narasimhalu*

Evaluating the Patent Performance of the Computer  
Communication Equipment Industry in United States ......................................... 558 - 564  
*Yu-Shan Chen and Bi-Yu Chen*

Developing Technological Capability in Science Parks:  
A Networking Model Approach ................................................................. 565 - 573  
*K. Y. Chan and M. W. Pretorius*

The Research of the Relationship between Cluster's Development Stage  
and Entrepreneurship Based on an Ecology-Model:  
An Empirical Study from Zhongguancun Science Park .................................... 574 - 583  
*Luo Yafei and Song De'an*

Integration Studies of Business Modeling and Roadmapping Methods  
for Innovation Support Technology (IST) and Its Practical Application  
to Real-World-Cases .................................................................................. 584 - 591  
*Hitoshi Abe, Takashi Ashiki, Akihiko Suzuki, Fumio Jinno and Hiraku Sakuma*

A Study on the Relationship between Organizational Slack  
and Technology Innovation ........................................................................... 592 - 596  
*Wei Feng Yao and Wu Yang*

The Lost Link: Why Successful Innovation Needs Sound Project Management .......... 597 - 610  
*Aaron J. Shenhar and Dov Dvir*

System Approach for Measuring Innovation Technology Capacity  
in Developing Countries ............................................................................... 611 - 616  
*Florãngel I. Ortiz, Eugenio E. Brito and Maria L. Ovalles*

The Effect of Partnership for Innovation Using Lead User  
Theory: Case Study of Korean Industry ....................................................... 617 - 627  
*Yunyoung Kim and Jeong-Dong Lee*

A Case Study on the Innovation Process from Mission-Oriented Basic Research Stage to Applied Research Stage ......................................................... 628 - 637  
*Hideki Yoshida, Joji Shinohara, Tadashi Sasa and Eiichi Maruyama*

The Effect of SMEs’ Partnership for Innovation: Case Study  
of the Japanese Manufacturing Industry ......................................................... 638 - 640  
*Yunyoung Kim and Niwa Kiyoshi*

Application of Complex Adaptive Systems Theory to Ica Wine and Grape Cluster .... 641 - 644  
*José C. Alvarez M.*
Table of Contents

The Possibility of Competitive Edge Improvement in the Satellite Equipment Industry of Japan ......................................................... 645 - 660
Manabu Ohhashi and Shutichi Rokugawa

Updating a Firm's International Competitiveness through Total Innovation Management: A Case Study from a Certain Manufacturing Firm of China .................................................................................................................. 661 - 668
Chen Jin, Wei Shiyang, Zheng Gang, He Yubing and Tao Tingting

A Case Study of the Application of 'Strategic Management of Technology and Innovation' Concepts at Atech - Tecnologias, a Firm of the Brazilian Aero-Spatial Cluster .................................................................................................... 669 - 679
Willian Limonge, Aldo Bergamasco and José Henrique de Sousa Damiani

Innovation and Technology Management in Brazilian Subsidiaries in the Electro-Electronic Industry ..................................................................................................................... 680 - 690
Martel de Oliveira Gavira and Ray Quadros

Analysis on Inhibiting Factors for Innovation in the Petrochemical Industry .......................................................... 691 - 695
Kaori Shinozaki and Akiya Nagata

Koichi Sumikura

Determinant Factors of Innovation in Japan's Chemical Industry: Analysis of its Technological Opportunities ......................................................... 704 - 710
Akiya Nagata and Kaori Shinozaki

An Approach of How to Establish a Technological Innovation Nucleus in Brazilian General Command of Aerospace Technology .................................................................................. 711 - 715
César Augusto O'Donnell Alván, Marcel da Silva and José Henrique de Sousa Damiani

Organizations, Institutions, and Activities: The Case of Taiwan's Optical Components ...................................................... 716 - 725
Fang-Chen Kao and Kuei-Kuei Lai

Sectoral Systems of Innovation in Asia: The Case of Software Research Activities .......................................................... 726 - 731
Kumiko Miyazaki and Krzysztof Klincewicz

Technological and Economic Dynamics of a Brazilian Ceramic Tiles Cluster ........................................................................... 732 - 738
Solange A. Machado, Guilherme Ary Plonski and João Pizystcznig Filho

Accelerated Radical Innovation

Principles and Practice of Accelerated Radical Innovation .................................................................................................. 739 - 752
John A. Bers and John P. Dismukes

A Case Study for Accelerated Radical Innovation: Monochromatic X-rays ........................................................................... 753 - 765
Aleksy Dabrovensky, John A. Bers and Frank Carroll

Developing Radical Innovation Practices in UK Healthcare and Medical Technologies .......................................................... 766 - 772
Gillian Holt, Julian White and Richard A. Williams
# Table of Contents

Wind Energy Electrical Power Generation: Industrial Life Cycle of a Radical Innovation.................................................................................................................. 773 - 785  
*John P. Dismukes, Lawrence K. Miller, Andrew Solocha, Sandeep Jagant and John A. Bers*

Accelerating Integration and Synthesis in the Global Network.................................................. 786 - 798  
*Michael Gallas*

Challenges in Managing the Convergence of Information and Product Design Technology in a Small Company ................................................................. 799 - 806  
*Andrew T. Walters*

The Dynamics of Cluster Formation in Accelerated Radical Innovation: Bridging the Inception to Implementation Gap......................................................... 807 - 820  
*Neil Reid and Michael C. Carroll*

Software Tools to Enable Information Accelerated Radical Innovation .................................. 821 - 833  
*Ruth H. Miller, Lawrence K. Miller and C. Eick*

Platform Equation Modeling of Innovation Activity Across the Industrial Technology Life Cycle .............................................................................................................. 834 - 844  
*Jainagesh A. Sekhar and John P. Dismukes*

A Framework for Effective Environmental Scanning and Analysis........................................... 845 - 850  
*Cherie Courseaud Trumbach and Greg S. Elovson*

Tech Mining to Accelerate Radical Innovation ....................................................................... 851 - 867  
*Alan L. Porter*

## Emerging Technologies

Defining Key Inventors: A Comparison of Fuel Cell and Nanotechnology Industries .................................................................................................................... 868 - 877  
*Alan Pilkington, Linda L. Lee and Casey K. Chan*

Using Expert Knowledge to Envision Future Converging Technologies ................................ 878 - 882  
*Enrique Diaz de Leon and Paul Guild*

The New Technology Evaluation Based on Rough-Set Theory ............................................... 883 - 886  
*Wen-Guang Lu, Lu-Cheng Huang and Ji-Wu Wang*

Estimation of Willingness to Pay Using Dichotomous Choice Data Under Proportional Hazard Approach .............................................................................. 887 - 890  
*Choon-Mo Ahn*

Technology Readiness Characteristics of 3G Subscribers in Indonesia: A Preliminary Study........................................................................................................ 891 - 898  
*Reza Ashari Nasution, Priyanto Rudio and Zulfiqar Syaharuddin*

Enhanced 911 Mechanism for Internet Telephony Service ...................................................... 899 - 902  
*Sun Ok Park, Mi-Young Huh, Jae Cheon Han and Shin Gak Kang*

Evolution of RFID Applications and its Implications: Standardization Perspective ................. 903 - 910  
*Byyoung Nam Lee, Yong-Woon Kim and Hyoung Jun Kim*
# Table of Contents

## Information Management

IT Governance: Organizational Capabilities’ View ....................................................... 911 - 915  
*Hiroaki Itakura*

Management of External Sources of Technological Information  
and Innovation Performance in Brazilian Large Enterprises ...................................... 916 - 924  
*Isak Kruglianskas and Cláudia Maffini Gomes*

Corporate Competitive Advantage through Information Technology: Saudi Aramco Case .......................................................... 925 - 934  
*Baqer Alali*

The Influence of Financialization in Information Technology (IT)  
Management: Evidences from the Outsourcing Decision-Making Process in Brazilian Companies .................................................. 935 - 943  
*André Machado Dias Ferreira, Mauro Zilbovicius and Fernando José Barbos Lawindo*

The Similarity of Stock Prices and Indices in Progressing Information Technology Environment .................................................. 944 - 950  
*Tamer Cagatay and Bertan Badur*

Exploring the Contribution of Information Systems User Interface Design Characteristics to Adoption Process ........................................ 951 - 958  
*Cagla Ozen and Nuri Basoglu*

The Design and Implementation of Information System for the MBO of National R&D Projects Cooperated by Industries, Universities  
and Government-Supported Research Institutes ...................................................... 959 - 966  
*Kwon-Joong Sohn, Wang-jin Yoo and Cheol-gyu Lee*

ARENA: Structured Visual Mapping of the Technological Ecology .................................................. 967 - 976  
*Alex Coman*

Levels of Information Protocols Unit: A Production Management Point of View ...................................................................... 977 - 984  
*Sandra L. Pereira and Carlos E. G. Araujo*

## Knowledge Management

Organizational Learning Strategies and Managerial Culture in Software Firm Networks in Mexico ...................................................... 985 - 992  
*Ricardo Arechavala-Vargas, Claudia Díaz-Pérez, Bertha E. Madrigal-Torres and Selene Ferrer-Ramírez*

Is Our Focus on Knowledge Making Us Dumb? ........................................................................ 993 - 1004  
*Andrea Fox*

Applying Some Principles of Semantic Web to Alleviate Lack of Collaboration and Integration in E-Learning .................................. 1005 - 1010  
*Timour Khannayev*

A Methodology for Design Ontology Modeling .................................................................. 1011 - 1018  
*B. Sarder, Susan Ferreira, Jamie Rogers and Don H. Liles*
# Table of Contents

Knowledge Management for High Technology Industries........................................ 1019 - 1031
*Isabel Cristina dos Santos and João Amato Neto*

Improved Metrics of the Impacts of Knowledge Management: Linking Proximal Outcomes to Critical Success Factors .............................................. 1032 - 1037
*Albert H. Rubenstein and Ellie Geisler*

A Case in Effective Knowledge Management ..................................................... 1038 - 1055
*Adnan Sahin*

Epistemetrics: Conceptual Domain and Applications of Knowledge Management (Km) in Health Care ................................................................. 1056 - 1061
*Nilminti Wickramasinghe and Ellie Geisler*

Knowledge Codification and Technological Innovation Success: Empirical Evidence from Spanish Biotech Companies ............................................... 1062 - 1071
*Fernando E. García-Mañá, Eva Felechano-Barahona and José E. Navas-López*

Learning Adjustment Speeds and the Cycle of Discovery: A Case Study in Defence-Related State/Industry/Academic Research Interaction ....................... 1072 - 1082
*David W. Versailles and Valérie Mérindol*

The Effect of Organization Process Focus and Organizational Learning on Project Performance: An Examination of Taiwan’s Companies ............... 1083 - 1089
*Chun-Hui Wu, Shiow-Luan Wang and Kwoting Fang*

Evaluation of the Effectiveness in Applying Cognitive Approach Towards Selecting Multimedia Elements ................................................................. 1090 - 1100
*Idyawati H. and E. A. Abu Seman*

A Study of Knowledge Succession in Engineering Process Management .......... 1101 - 1107
*Gaku Ishti*

Managing and Processing Knowledge Sharing between Software Organizations: A Case Study ................................................................. 1108 - 1113
*Jari Soini, Timo Mäkinen and Vesa Tenhunen*

Fostering Knowledge Sharing to Encourage R&D Team Learning ............... 1114 - 1118
*Wei-Li Wu, Ryh-Song Yeh and Chin-Chung Huang*

## E-Business

Implementation of Activity-Based Costing in e-Businesses .............................. 1119 - 1125
*Zeynep Iltezer, Oktay Tas and Sitti Gozlu*

The Role of Value Proposition and Value Co-Production in New Internet Startups: How New Venture e-Businesses Achieve Competitive Advantage ......................................................................................... 1126 - 1132
*Su-Chuang Li*

The Effects of Service Quality on Customer Relational Benefits in Travel Website .................................................................................................................. 1133 - 1140
*Chi-Shtun Lai, Chun-Shou Chen and Pei-June Lin*
# Table of Contents

Study of the Evolution of the u-City Service ................................................................. 1141 - 1146  
*Woong-Hee Park, Woo-Soo Jeong and Hyang-Suk Cho*

Ubiquitous-City Business Strategies: The Case of South Korea ................................. 1147 - 1153  
*Hyang-Sook Cho, Byung-Sun Cho and Woong-Hee Park*

An Analysis of the Economic Effects for Launching  
the Ubiquitous City ........................................................................................................... 1154 - 1159  
*Woo-Soo Jeong, Byung-Sun Cho and Pang-Ryong Kim*

## Decision Making

Application of Hierarchical Decision Modeling for Selection of Laptop ......................... 1160 - 1175  
*Rinal Abu Taha, Byung Chul Choi, Phakphoom Chuengparsitporn,  
Adriana Cutar, Qian Gu and Kenny Phan*

Decision-Making for New Technology: A Multi-Actor,  
Multi-Objective Method ................................................................................................. 1176 - 1185  
*Scott W. Cunningham and Telli E. Van der Lei*

Manufacturing Performance Criteria: An AHP Application  
in a Textile Company ....................................................................................................... 1186 - 1194  
* Ezgi Kaya, Firuze Davud Caliskan and Siti Gozlu*

Analytic Hierarchy Process for Technology Policy: Case Study  
the Costa Rican Digital Divide ......................................................................................... 1195 - 1208  
*Audrey M. Alvear Bdez and Dundar F. Kocaoglu*

Evaluation on the Industrialization Potential of Emerging  
Technologies Using the Analytic Network Process ....................................................... 1209 - 1219  
*Jiwa Wang, Lucheng Huang, Wenguang Lu and Jian Li*

Analogizing and Maneuvering as New Product Development Decision  
Making Approaches at Technology-Based Organizations in Malaysia ......................... 1220 - 1227  
*Shahrid Yahaya and Nooh Abu Bakar*

The Use of Fuzzy Logic and Expert Judgment in the R&D  
Project Portfolio Selection Process .................................................................................. 1228 - 1238  
*Sarah Riddell and William A. Wallace*

A Fuzzy Negotiation Model Based on Bayesian Learning .............................................. 1239 - 1247  
*Wu Yaying, Lu Jinxuan and Yan Feng*

A Study of A/R Collection for IC Design Industry in Taiwan  
Using Fuzzy MCDM Methodology ................................................................................. 1248 - 1255  
*Chih-Young Hung, Yiming Li and Yi-Hui Chiang*

A Study on Performance Measurement of a Plastic Packaging  
Organization's Manufacturing System by AHP Modeling ............................................ 1256 - 1263  
*Gal Tekin Temar, Bahar Emekszoglu and Siti Gozlu*

Early Application of Full Spectrum Analysis as Business Process ............................... 1264 - 1296  
*John W. Peterson and Kenneth Wofford Jr.*

Viability of Utility Values in Decisions Under Risk ...................................................... 1297 - 1305  
*Dinesh S. Shah*
Table of Contents

Entrepreneurship/Intrapreneurship

Entrepreneurship Awards as a Source of National Innovation Capability: A Case from Switzerland ......................................................... 1306 - 1314
Christian Marx and Aino Piekkola

The Impact of Academics in Start-Ups Emerging from Universities .................. 1315 - 1321
D. W. Birchall

A Success Factor of a Digital Material Startup Company .................................. 1322 - 1322
Hideki Hayashida

Re-Engineering XID Technologies - From Enterprise to .................................. 1323 - 1327
Arcot Desai Narasimhalu

Benchmarking the Turkish Business Incubators: Supporting Innovation through Innovative Infrastructures ........................................ 1328 - 1335
Dilek Cetindamar

Global Issues in Technology Management

Cross-National and Cross-Industrial Comparison of Two Strategy Approaches for Global Industrial Evolution................................. 1336 - 1355
Chia-Han Yang and Joseph Z. Shyu

Managing Global Design Teams ........................................................................ 1356 - 1371
Vijay Bhusari, Mitali Monalisa, Rabah Khamis, Fahim Mirani and Pranabesh Dash

Building a Global Brand: The Case of Wipro .................................................. 1372 - 1385
Bharat Rao and Bala Mullaith

Technical Barriers to Trade of Leather and Shoes: Potential Impacts and Challenges to the Brazilian Market ............................................. 1386 - 1407
Mauro Silva Ruiz, Alexandre Bos, Regina Nagamine, Eduardo Luiz Machado and Aline Kodaira

Research on the Quality Assurance Model of Engineer Formation Under Globalization ............................................................. 1408 - 1413
Shi-Mei Jiang, Zhong-Wei Zheng, Fang-Zhen Yu and Pei-Min Wang

An Evolutionary Systems Approach to Construction Engineering in Mozambique ................................................................. 1414 - 1419
J. M. S. Ruas, L. Pretorius and J. A. Watkins

The Emergence of China into Global Level .......................................................... 1420 - 1423
Byung Chai Choi and Kenny Phan

Absorptive Capability of MNCs: Balance between Autonomy and Control of Foreign R&D Subsidiaries ........................................ 1424 - 1436
Seiko Arai
# Table of Contents

## Outsourcing

Managing Risks and Maintaining a Competitive Edge in Today's Outsourcing Environment ................................................................. 1437 - 1450  
*Dan Itkis, John Arbak, Henry Robar and Elizabeth Kennedy*

Reasons for Not Offshoring IT Services in Swedish Banks ...................................................... 1451 - 1455  
*Narcisa Jonsson, Oscar Möller and Joakim Liljeskold*

Critical Success Factors in Outsourcing: Case of Software Industry........................................ 1456 - 1465  
*Rostine Hanna and Tugrul Daim*

The ICT-Supported Unified Process Model of Offshore Outsourcing of Software Production: Exploratory Examination and Validation .................................................. 1466 - 1483  
*Anicet Yalaho and Nazmun Nahar*

## Technology Management Education

Teaching the Global Dimensions of Technology Management: A Framework for Course Development................................................................. 1484 - 1490  
*B. Klingenberg and E. Lauria*

A Comparative Analysis of Undergraduate Engineering and Technology Management Education Programs in the United States .......................................................... 1491 - 1500  
*Pamela R. Becker*

Technology and Knowledge: Enhancing the Education Frontiers.................................................. 1501 - 1507  
*Victoria E. Erosa and Pilar E. Arroyo*

Survey and Modelling of Innovation System in Nanotechnology Programs in Iran ................................................................. 1508 - 1513  
*Hamidreza Darestani Farahani*

Business Games as Pedagogical Tools .................................................................................. 1514 - 1518  
*Tal Ben-Zvi and Thomas C. Carton*

Designing a 'Knowledge Science' Based Graduate MOT Education Course and its Review of Implementation and Practice ............................................................. 1519 - 1525  
*Atko Kameoka, Shuji Kondou and Yasuo Ikawa*

Developing Evaluation Tool for E-Learning ........................................................................ 1526 - 1537  
*Gti-Jin In*

Innovation by Imitation: Using an "Adopt-Transform-Apply" Methodology Coupled with Pattern Recognition to Enhance Firm Innovation .................................................. 1538 - 1541  
*Vincent Cozzolino and Andres Fortino*

Assessing the Learning Organization Profile of Ohio State University Extension Using the Systems-Linked Organizational Model .................................................. 1542 - 1547  
*Angel A. Berrio*
Table of Contents

Technology Forecasting and Planning

Technology Policy Instrument (TPI): A Decision Model for Evaluating Emerging Technologies for National Technology Policy - Research Framework. 1548 - 1555
Pitek Gerdtsi and Dundar F. Kocagil

A Study of Information System Integration - with the Structuration Model of Technology as the Foundation 1556 - 1563
Kwoting Fang, Arvin C. H. Wu and Tung-Yang Chiang

The Isomorphic Development of Insurance 1564 - 1570
Ktsi-Ktsi Lai and Calvin S. Weng

The Overall Foresight Model that Focuses on Consensus Forming 1571 - 1576
Benjamin Yuan, Tsai-Hua Kang and Chien Ching Chang

Technology Roadmapping

Dynamics of Technology Roadmapping (TRM) Implementation 1577 - 1583
Nathast Gerdtsi and Ronald S. Vatananam

Robert Phael and Gerrit Muller

Outline of the Strategic Technology Roadmap of METI (Ministry of Trade and Industry of JAPAN) and Trial Approach for Technology Convergence with the Methodology of Technology Roadmapping 1593 - 1604
Yako Yasunaga, Masayoshi Watanabe and Motoki Korenaga

A Procurement Planning Improvement by Using Linear Programming and Forecasting Models 1605 - 1612
Athakorn Kengpol, Peerapol Kaoien and Markku Tuominen

Technology Roadmapping through Intelligence Analysis: Nanotechnology 1613 - 1622
Hilary Martin and Tughrul Daim

Exploring the Relationship Between Research Funding and Science Innovation Indicators in Emerging Technologies 1623 - 1636
Pranabesh Dash, Mitali Monalisa, Neil Brown and Tughrul U. Daim

Technology Forecasting of RFID by Using Bibliometric Analysis and Bass Diffusion Model 1637 - 1642
J. Bae, K. Seetharaman, P. Sunthararaj and Y. Ding

Technology Forecasting with Science Indicators: The Case of Laptop Battery Futures 1643 - 1650
Stephen W. Jordan

Technology Assessment and Evaluation

Review of Methods and Tools Applied in Technology Assessment Literature 1651 - 1660
Thien A. Tran

Evaluation Methods in Preliminary Feasibility Analysis of R&D Programs 1661 - 1671
Jiyoun Park
Table of Contents

Technology Evaluation Under Information Inadequacy ........................................ 1672 - 1679
Charles Romito, David Probert and Clare Farrukh

FAST: Value Creation through Technology Investment Management .................. 1680 - 1693
Alex Coman

How to Select and Weight the Indicators Used for Evaluating
the Potential of New Technology Industrialization ............................................. 1694 - 1703
Ya-Fei Luo, Lu-Cheng Huang and Qian-Long Cai

Technology Level Assessment by Publication Analysis: Application
in Agriculture Research ....................................................................................... 1704 - 1720
Moon Jung Choi, Sangho Ji and Min Ho So

Technology Performance Criteria in Strategic Planning: Case
of Dynamic Strategic Planning System ................................................................ 1721 - 1727
Alper Celebi and Alper Alsas

Economic Valuation of R&D Programs in Consideration
of Strategic Flexibility ........................................................................................ 1728 - 1735
Seogwon Hwang and Jongwook Jeong

Internal Technology Valuation: Real World Issues .......................................... 1736 - 1742
Francis Hunt, Valerie Thorn, Rick Mitchell, David Probert and Rob Phaal

A Conceptual Framework of Identifying the Commercialization Potential
of Emerging Technology Based on Subjective Judgment and Objective Fact ........ 1743 - 1747
Lucheng Huang, Yafei Luo and Felix Wu

Technology Adoption

Closing Digital Gap on RFID Usage for Better Farm Management ..................... 1748 - 1755
Urachada Ketprom, Chaichana Mitpant and Putchapan Lowjun

ICT Adoption & Use by SMEs in the UK: A Survey of South East ..................... 1756 - 1770
R. Dyerson and G. Harinandrah

A Study of Applying the Structuration Model of Technology
to the Implement of Enterprise Resource Planning ............................................. 1771 - 1776
Arvin C. H. Wu and Kwoting Fang

Technology Diffusion

Using Patent Citation to Explore Knowledge Flow Between
Different Industries ................................................................................................ 1777 - 1783
Kuei-Kuei Lai, Shu-Min Chang and Shann-Bin Chang

Exploring the Technology Diffusion Trajectories and Groups of Basic
Patents of Business Methods: Using the Patent Citation Network ..................... 1784 - 1789
Shann-Bin Chang, Shu-Min Chang and Wei-Yuan Gah

Study of Basic Logic of Diffusion with Specific Models ..................................... 1790 - 1796
Satoshi Yoshida and Tomonari Yashiro
Table of Contents

Technology Marketing

Marketing Opportunity Analysis for Daimler Chrysler's Sprinter .............................................................. 1797 - 1810
Matt Fildes, Sarah Nelson, Neslihan Sener, Frank Steiner,
Patti Santharasaj, Refik Tarcan Tarman and Robert R. Harmon

The Effects of Technology Readiness on the Formation of EService Value ............. 1811 - 1817
Chien-Hsin Lin

The Future Development of Global LCD TV Industry................................................. 1818 - 1821
Lee-Yun Pan, Shih-Chi Chang, Ming-Yu Liao and Ya-Ti Lin

How Technology is Made Visible When Exploring Its Application Fields.......................................................... 1822 - 1829
Yoko Takeda and Dait Senoo

Analysis of the Brazilian Digital TV System (BDTVS) and Signal-Converting Devices .............................................. 1830 - 1838
Bruno P. Costanzo and João Amato Neto

Technology Transfer

An MBA Graduate Curriculum on Technology Transfer:
Pedagogical Design and Needs Assessment ................................................................. 1839 - 1839
Elliot A. Fishman

'Repeat Commercializers' in University-Industry Technology Transfer:
A Minority of Faculty Inventors Account for a Majority of Commercialized Inventions........................................... 1840 - 1846
Kate Hoye and Fred Pries

Firm that Transform Scrap of Glass into Gold: The Evolution of Technology of UNIQUE ................................................................................. 1847 - 1863
Fang-Chen Kao, Yun Ken and Justine Chang

New Product Development

Managing the New Product Development Project Portfolio:
A Review of the Literature and Empirical Evidence ......................................................... 1864 - 1874
Catherine P. Killen, Robert A. Hunt and Elko J. Kleinschmidt

Open Approach for the Fuzzy Front-End of PDP in Corporate Venturing............. 1875 - 1887
Samuli Kortelainen, Marko Torkkel, Olli-Pekka Hilmola
and Markku Taominen

New Product Attack Roadmapping ............................................................................. 1888 - 1905
Alex Coman

Product Management Strategies for a Technology Product Market ...................... 1906 - 1913
Masaru Ishiioka and Kazuhiko Yasuda

New Product Development with Dynamic Decision Support.............................. 1914 - 1923
Jacobus Petrus Venter and Cornelis Cristo Van Waveren
Table of Contents

Product Development for Successive Generations: Creating Decision Support Graphic Information by the Modeling Approach............................. 1924 - 1933
Yasuo Kusaka, Yoshihi Nakamura and Jim Brogan

Industrializing Engineering Work: Challenges Associated with the Implementation of Product Models...................................................... 1934 - 1943
Anders Paarup Nielsen and Lars Hvam

Roger Baxter

The Relationships Between Internal and External Environmental Factors of the Turkish Firms with Respect to New Product Development Strategies........ 1950 - 1960
Berna Tektas, Dilek Ozdemir and Sitki Gozlu

Robert R. Harmon, Ramaprasad Unni and Timothy R. Anderson

C. Neil Berglund and Robert R. Harmon

Diane Ferington

Design for Six Sigma (DFSS): A Case Study......................................................... 1982 - 1989
Richard M. Franzo and Satya S. Chakravorty

Product Development Process

Sarah Nesland

The Implementation of the Product Life Cycle at Intel: An Examination in the Use of Change Agency to Achieve Cultural Change and Business Results ..................................................... 1992 - 1998
Chris Galluzzo

Managing Risk at Intel..................................................................................... 1999 - 2005
Russ Martinelli

Productivity Management

Quality Management Programs: Designed to Increase Competitive Advantage ....... 2006 - 2023
Jane E. Humble, William R. Peterson and Jeffrey Sornberger

Managing Factors Limiting National Competitiveness to Improve Productivity in Developing Countries......................................................... 2024 - 2030
Vuyani Lingela, André Buys and Tateo Shimozawa
Table of Contents

The Impact of ISO Implementation on Output Parameters in SME’s in India ................................................................. 2031 - 2037
Lakhwinder Pal Singh, Arvind Bhardwaj and Anish Sachdeva

Project/Program Management

Measuring the Value of Project Management .................................................. 2038 - 2042
Leandro Alves Patah and Marly Monteiro de Carvalho

Evaluating Project Robustness through the Lens of the Business Model .......... 2043 - 2048
Justin M. Regnato

Successful Management of Highly Innovative and Urgent Projects: Analyzing Project Management Practices to Reveal Strategic Directions .................................................................................................................. 2049 - 2056
Thomas Lechler and Emily Grace

Leadership Lessons from Managing Technology-Intensive Teams .......... 2057 - 2063
Hans J. Thamhain

The Effect of Client-Consultant Coordination on Project Performance: An Agency Theory Perspective .............................................................. 2064 - 2073
Matthew J. Liberatore and Wenkong Luo

A Framework and Findings for Learning Based Project Reviews .................. 2074 - 2079
Tim Koinour and Catherine Vergopla

Strategic Focus: Why We Do Projects ............................................................. 2080 - 2088
Michael Poli and Aaron J. Shenhar

Using Strategic Fit for Portfolio Management .................................................. 2089 - 2095
Supachart Imratanakul and Dragan Z. Milosevic

Project Manager - Project (Pm-P) Fit and Project Success .......................... 2096 - 2106
Ayala Malach-Pines, Dov Dvir and Arik Sadeh

Lesson Learned in Managing IT Departments .................................................. 2107 - 2115
Jiyang Xu and David Lipperni

Risk Identification Step of the Project Risk Management ........................... 2116 - 2120
Denz Kasap and Murali Kaynak

Innovation in a Large Public School System in Brazil: The Knowledge Network ("Rece do Saber") .......................................................................................................................... 2121 - 2139
Guilherme Ary Plonski, Beatriz Leonel Scavazza and Angela Sprenger

Program Value: What Can We Learn From Major Defense Programs? ....... 2140 - 2147
Peerasit Patanakul and Aaron Shenhar

Sources of Changes in Design-Build Contracts for a Governmental Owner .................................................................................. 2148 - 2153
Robert A. Perkins

Information Systems and Technology Service Introduction Success Criteria ...... 2154 - 2157
Udechukwu Ojiako and David Greenwood
Table of Contents

A Review of IT Implementation into Construction Project Communications Management .......................................................... 2158 - 2174
Jang W. Ra and Chris Briggs

Development of an Effort Estimation Model: A Case Study on Delivery Projects at a Leading IT Provider within the Electric Utility Industry ........................................... 2175 - 2185
Teodor Sommestad and Joakim Lillieskold

Adopting Project Management Methodologies at Horizon Air Flight Operations ..... 2186 - 2197
Dennis Schoenberg and Jang Ra

Configuration of Project Steering Committees and Their Role in Project in Project Implementation Insights from Case Study Data .................................................. 2198 - 2204
Thomas G. Lechler and Martin Cohen

The Virtual Team Challenge: Is It Time for Training? .................................................. 2205 - 2211
Lance Poehler and Terry Schumacher

A Framework for Increasing Project Maturity and Capability in Southern Africa ........................................................................ 2212 - 2224
A. Malan, L. Pretorius and J. H. C. Pretorius

R&D Management

Research & Development Project Selection Model and Process Approach in Defense Industry Related Programs: First Phase - Concept Approval Decision ........................................................................ 2225 - 2235
Murat Arda Cakmak and Eyup Serdar Gokpinar

Governance and Organizational Behaviour of Public Research Labs ................. 2236 - 2246
Mario Cocca and Secondo Rolfo

Eui-Seong Kim and Yong-II Song

A Comprehensive Model of Conflict at the R&D/Marketing Interface:
Linking Organizational Factors and Conflict to New Product Performance .......... 2251 - 2261
Abram Hernandez and Jin Su Lee

R&D Integration: How to Build a Diverse and Integrated Knowledge Community ........................................................................ 2262 - 2275
Jerald Hage, Gretchen Jordan and Jonathan Mote

Analysis on the Structure and Key Factors of the Project Results Management System in Korea ........................................................................ 2276 - 2286
Byungmok Kim, Soon Cheon Byeon, Young-II Park and Sang Youb Lee

Risk Management in R&D Projects ........................................................................ 2287 - 2290
Deniz Kasap, Istimi Sidre Asyali and Kemal Elci

Highly Autonomous Small-Team-Type R&D Management Model and Its Trial Management Experiment .................................................. 2291 - 2295
Kazuhito Itaya and Kiyoshi Niwa
Table of Contents

Manufacturing Management

Some Effects of a Human Resources Strategy on Total Productive Manufacturing (TPM) Improvement ........................................... 2296 - 2304
Pule A. Kholopane, Leon Pretorius and Alwyn Strauss

Development of K-Model to Identify Barriers to Knowledge Creation for Sustained Growth of Organization ...................................... 2305 - 2313
N. L. Hiregoudar and Sanjay V. Kotabagi

Strategy of Production Management Subsidiary Units in the Frames of Cable Industry Technological System Novkabel in Serbia .......... 2314 - 2314
Dragoslav Nikolic

Supply Chain Management

Building a Strategic Business Framework for Proactive Decision-Making in the Supply Chain Industry ........................................... 2315 - 2324
Jinho Kim and K. J. Rogers

A Business Model Analysis for the Convergence Services of Supply Chain .......................................................... 2325 - 2335
Myung-Hwan Rim, Kwang-Sun Lim and Yeong-Wha Sawng

Development of Methodology for Measuring and Reducing Value Recovery Time of Returns .................................................. 2336 - 2344
Santhanam Rajagopalan, Srikanth Yellepeddi

RFID Application System for Postal Logistics .......................................................... 2345 - 2352
Jeong-Hyun Park, Jeong-Hyeong Park and Boo-Hyung Lee

Finding the Needle in a Haystack: Using Treemaps to Analyze Supplier Performance ......................................................... 2353 - 2360
Larry A. Mallak, David M. Lyth, Betsy M. Aller and Juhani Engelberg

Wireless Technology: A Challenge toward Supply Chain Management .......................................................... 2361 - 2364
Sheng-Fei Hsu and Chi-Hui Chiang

Using Information Technology to Facilitate Pooling of Retail Inventories .......................................................... 2365 - 2378
Nagihan Çomez, Kathryn E. Stecke and Metin Çakanyildirim

The Elaboration of a Model to Explain the Adoption of Information Technologies for Supply Chain ......................................... 2379 - 2390
Filar E. Arroyo, Jorge A. Ramirez and Victoria E. Erosa

Regulating Bullwhip Effect in Supply Chains through Modern Control Theory .......................................................... 2391 - 2398
Berrin Agaran, Walter W. Buchanan and M. K. Yurtsever

Clustering of Suppliers' Quality-Based Strategies in Italy: The Case of the Automotive, Telecommunication, and Electromechanical Industries .......................................................... 2399 - 2411
Corrado Io Storto

Modeling the Metrics for Measuring the Performance on Logistics Centers by BSC and ANP in Korean Context ................. 2412 - 2417
Byunghak Leem, Myungho Hong, Jeongsick Kang and Byung-Jin Yim
Table of Contents

Modular Manufacturing and Supplier Relations: A Survey of Practices in the Turkish Automotive Supplier Industry

Muammar Zerenler and Ferhat Gängör

Software Process Management

Converging Software Product Engineering with Process Management: A Pilot Study in Turkey

Nermin Sökmek and Mehmet Dönmaz

The Cp and Cpk Indexes in Software Development Resource Relocation

Mauro de Mesquita Spinola, Marcelo Schneck de Paula Pessoa and Antonio Carlos Tonini

Practical Experience in Customization of a Software Development Process for Small Companies Based on RUP Processes and MSF

Valerio F. Del Maschi, Mauro M. Spinola, Ivanir A. Costa, Alexandre L. Esteves and Wilson Vendramel

Improving Global Software Development Project Performance Using Simulation

Siri-On Setamanit, Wayne Wakeland and David Raffo

Using Simulation to Evaluate the Impact of New Requirements Analysis Tools

David Raffo, Robert Ferguson, Siri-On Setamanit and Bhuricha Sethanandha

Use of Extreme Programming Methodologies in IT Application Design Processes: An Empirical Analysis

Adrian Moore and Wm. T. Flannery

Integration of Software Process Assessment and Modeling

Timo Mäkinen, Timo Varkoil and Jari Soint

An Application of Six Sigma with Lean Production Practices for Identifying Common Causes of Software Process Variability

Antonio Carlos Tonini, Fernando José Barbin Lautindo and Mauro de Mesquita Spinola

Technology Management for Sustainability

Green Patent: Promoting Innovation for Environment by Patent System

Mu-Yen Hsu

The Market Case for Green Energy: A Multiple Perspectives Approach

Kelly R. Cowan and Robert R. Harmon

Technology Assessment and Selection of Renewable Energy Sources in the Galapagos Islands - Ecuador

Bertha T. Jimenez, Audrey Alvear, Abdulazti AlYabes and Akin Olayoie

Portland General Electric (PGE): Clean Power Generation

Diane Yates, Bertha T. Jimenez and Yi-Cheng Peng
# Table of Contents

Sustainable Transit Mode Choices in Urban Areas: Psychological Insights on the Adoption and Selection Processes .................................................. 2550 - 2564  
*Brent A. Zenobia and Charles Weber*

## Technical Workforce

Social Capital in Academic Engineers ................................................................................ 2565 - 2572  
*Claudia N. Gonzalez-Brambila and Francisco Veloso*

Study on Sales Engineers of IT Companies by Means of a Dual Sealing Method ............................................................. 2573 - 2582  
*Shinya Imai and Junzo Watada*

Personality Composition, Affective Tie and Knowledge Sharing:  
A Team Level Analysis ........................................................................................................... 2583 - 2592  
*Bi-Fen Hsu, Wei-Li Wu and Ryh-Song Yeh*

Virtual Team Effectiveness Using Dyadic Teams ................................................................ 2593 - 2603  
*Ganze Karayaz and Charles B. Keating*

Conceptual Model on the Impact of Organizational Memory on Organizational Performance ........................................................................... 2604 - 2608  
*Li Zhang, Ye Zhiqiang Tian and Zhongying Qi*

Implementation of Future-Focused People-Management in a Large Japanese Automobile Company .............................................................................. 2609 - 2617  
*Kunto Shirahata and Kiyoshi Niwa*

*Bi-Fen Hsu, Wan-Yu Chen, Mei-Ling Wang and Hui-Yan Yu*

Effect of Virtualization Level on Team Effectiveness in Information and Electronic Industries: The Moderating Effect of Task Characteristics ........................................................................ 2626 - 2632  
*Bi-Fen Hsu, Mei-Ling Wang, Wan-Yu Chen and Hui-Yan Yu*

Personnel Resource Scheduling ............................................................................................ 2633 - 2655  
*Nader M. Ayoub*

Value Assessment of Workers of ON, AMKOR and HITACHII Firms in the Philippines ................................................................................. 2656 - 2671  
*Eppie E. Clark*

## Intergenerational Workforce

The Inter-Generational Workforce ....................................................................................... 2672 - 2671  
*Edward G. Fertins, Gregory B. Hutchins, Elizabeth Lions and Henry J. Lindborg*

A Generational Divide: Challenge and Response ................................................................ 2672 - 2695  
*Henry J. Lindborg*

## Technology Management in Electronics

Evaluating Transmission Technologies: Case of Bonneville Power Administration 2857 - 2871  
*Fatima Albar, Rosy Hanna, Tugral Daim, Terry Oliver and Cesar Castilla*

A Real-Time Manufacturing Risk Management System: An Integrated RFID Approach 2872 - 2879  
*Kenneth T. C. Poon, K. L. Choy and Henry C. W. Lau*

Global Competition by Metanational Management in Liquid Crystal Display Industry 2880 - 2887  
*Yukihiko Nakata*

Photomask Manufacturing: An Example of Synchronized Ecosystem Learning 2888 - 2904  
*C. Neil Berglund and Charles M. Weber*

## Technology Management in Nanotechnology

Bibliometrics and Social Network Analysis of the Nanotechnology Field 2905 - 2911  
*Guillermo Rueda, Pisek Gerdsri and Dunar F. Kocaoglu*

Multi-Stage Collaborative System for Microelectromechanical Systems Manufacturing 2912 - 2915  
*Tetsu Nakashima, Ted Heidrick and Waled Moussa*

A Study of Strengthening Nano-Technology New Product Value by Using Internet-Marketing Technology 2916 - 2921  
*Yi-Hsien Tu and Ting-Ho Huang*

Nanotechnology Systems of Innovation: Investigation of Scientific Disciplines' Fusion Trend into Nanotech 2922 - 2931  
*Nazrul Islam and Kuniko Miyazaki*

## Technology Management in Telecommunications

A Study of Adopting Warshaw's Purchase Intention Model in Mobile-RFID Services and on Moderating Effect of Personal Innovativeness 2932 - 2939  
*Nae-Yang Jeong and Youngsang Yoo*

The Telecommunications Carriers' Dilemma: Innovation vs. Network Operation 2940 - 2947  
*Thomas Lechler, B. J. Taylor and Beate Klingenberg*

The Changing Landscape of the Korean Local Telephone Service Market: A Competition Analysis 2948 - 2957  
*Pang-Ryong Kim*

A Study of the Realtime Message Report Procedures and Management Schemes for the Quality Guaranteed VoIP Services 2958 - 2968  
*Hyun-Woo Lee, Jinsul Kim, Won Ryu and Byung-Sun Lee*

A Study of Business Models and Strategic Alliance in the Home Network Industry in Korea: Analysis and Suggestions 2969 - 2987  
*Sung-Sik Shin, Myung-Hwan Kim and Yeong-Wha Saway
Table of Contents

3G in China: Environment and Prospect ......................................................... 2988 - 2992
Jing Zhang and Xiong-Jian Liang

Factors Affecting the Adoption of Mobile Services ........................................ 2993 - 3001
Bana Kargin and Nuri Basoglu

Facility Sharing in Telecommunications and Broadcasting
Convergence Market ....................................................................................... 3002 - 3007
Jongyong Lee

Trends in and Prospects for the HSDPA Service Market:
With a Focus on the HSDPA-Based Video Service ....................................... 3008 - 3012
Eok-Soo Han, Choon-Soo Ahn and Jung-Hwan Lee

Comparative Analysis of Optional Calling Plans for Fixed-Line Telephone Services ................................................................. 3013 - 3020
Seong-Ho Seol, Byoung-Woon Kim and Moon-Soo Kim
