Workshops of the 24th British National Conference on Databases (BNCOD 2007)

Message from the Workshops Chair ____________________________ vi

Message from the TLAD’07 Workshop Chair ______________________ vii

HEA Statement ________________________________________________ viii

TLAD’07 Papers _________________________________________________ ix

Message from the BNCODwebim’07 Workshop Chair _________________ x

BNCODwebim’07 Papers __________________________________________ xi

Author Index________________________________________________________________________ 151
The Fifth Workshop on Teaching, Learning and Assessment of Databases

The Un-Structured Student

Colin Myers and Paul Douglas

Adopting Student-Centred Approach to Advanced Database Teaching

Samia Oussena and Lynne Dunckley

Teaching Databases Internationally, Teaching International Databases

Alastair Monger, Ralph Lano, and Kenton Wheeler

Teaching and Learning of Databases: The Impact of Industry

Nicholas Fortune

Teaching and Assessing a Data Warehouse Design Course

Karen Davis and Sandipto Banerjee

An Account of the Use of Integrated Assessment for Students in the Area of Databases at Level 2

Andrea Gorra, Sanela Lazarevski, and Jackie Campbell

Teaching and Learning Applications Related to the Automated Interpretation of ERDs

Kevin Waugh, Pete Thomas, and Neil Smith

On Teaching Mobile Databases and Information Systems

Hagen Höpfner and Keiichi Nakata
The First BNCOD Workshop on Web Information Management

Integrity Checking and Maintenance with Active Rules in XML Databases _____________________________ 59

*Maria Rekouts and Henning Christiansen*

Improving Content-Oriented XML Retrieval by Exploiting Small Elements _____________________________ 68

*Philipp Dopichaj*

Compressed Materialised Views of Semi-Structured Data___________________________________________ 75

*Richard Gourlay, Brian Tripney, and John Wilson*

A Workflow Model for Multi-Channel Applications _______________________________________________ 83

*XianQing Wu and Richard Cooper*

Wordrank: A Method for Ranking Web Pages Based on Content Similarity _____________________________ 92

*Apostolos Kritikopoulos, Martha Sideri, and Iraklis Varlamis*

You Know My ‘Alter-Ego’—But You Don’t Know Me! __________________________________________ 101

*Dora Galvez-Cruz and Karen Renaud*

Towards a Survey of the Deployment Space for Internet Applications ________________________________ 110

*Athanasios Pavlopoulos and Richard Cooper*

Hierarchical Approach for Datatype Matching in XML Schemas ____________________________________ 120

*Tran Hong-Minh and Dan Smith*

How to Determine Output Schemas of XQuery Queries _____________________________________________ 130

*Sven Groppe, Jinghua Groppe, and Volker Linnemann*

XML Query Optimization Using the Binding Hash Method ___________________________________________ 140

*Michael Brant and Karen Davis*
