Proceedings

Seventh International Conference on Quality Software

(QSIC 2007)

October 11–12, 2007
Portland, Oregon, USA

Sponsored by
The University of Hong Kong, Hong Kong
Contents

Proceedings of the Seventh International Conference
on Quality Software

QSIC 2007

Welcome Message from the General Chair .............................................................. x
Message from the Program Co-Chairs ................................................................. xiv
QSIC 2007 Conference Committees .................................................................... xv
Additional Reviewers ............................................................................................ xviii
Keynote Speeches ................................................................................................... xix
Distinguished Plenary Panel .................................................................................. xxi
First International Workshop on Software Test Evaluation (STEV 2007) Committees xxii

Position Papers by Distinguished Plenary Panel

Software Quality: Past, Present, and Future........................................................................................................ 1
   Suraj C. Kothari

Proposition for E-DoD: An Overall Plan for Network-Centric Operation................................. 2
   Raymond A. Paul

Semantic Computing and Quality Software ............................................................................. 3
   Phillip C.-Y. Sheu

Developing Adaptive Software with Multiple QoS Requirements ........................................ 4
   Stephen S. Yau

Regular Papers

Session 1A: Software Testing 1

Testing Non-Functional Requirements with Aspects: An Industrial Case Study .......................... 5
   Jani Metsä, Mika Katara, and Tommi Mikkonen

Test Case Prioritization Based on Varying Testing Requirement Priorities and Test Case Costs ........ 15
   Xiaofang Zhang, Changhai Nie, Baowen Xu, and Bo Qu

Improving Model-Checkers for Software Testing ....................................................................... 25
   Gordon Fraser and Franz Wotawa

Test-Driven Component Integration with UML 2.0 Testing and Monitoring Profile ....................... 32
   Donglin Liang and Kai Xu
### Session 1B: Distributed Systems

A QoS-Enabled WorkManager Model for Web Application Servers

*Wei Wang, Wenbo Zhang, Jun Wei, and Tao Huang*

Towards Automatic Measurement of Probabilistic Processes

*Lin Song, Yuxin Deng, and Xiaojuan Cai*

A Pattern-Based Constraint Description Approach for Web Services

*Qianxiang Wang, Min Li, Na Meng, Yonggang Liu, and Hong Mei*

### Session 2A: Software Security and Model Checking

Security Requirements Elicitation via Weaving Scenarios Based on Security Evaluation Criteria

*Hiroya Itoya and Atsushi Ohnishi*

Model Checking Security Pattern Compositions

*Jing Dong, Tu Peng, and Yajing Zhao*

Real-Time Component Composition Using Hierarchical Timed Automata

*Xianli Jin, Huadong Ma, and Zonghua Gu*

A Model-Driven Approach for Dependable Software Systems

*Michael Jiang and Zhihui Yang*

### Session 3A: Software Testing 3

Nondeterministic Testing with Linear Model-Checker Counterexamples

*Gordon Fraser and Franz Wotawa*

Detecting Double Faults on Term and Literal in Boolean Expressions

*M. F. Lau, Y. Liu, and Y. T. Yu*

Alternative β-Sequences

*Lihua Duan and Jessica Chen*

### Session 3B: Embedded Systems

A Resource Scheduling Design Method with Model Checking for Distributed Embedded Software

*Masahiko Watanabe, Akira Fukuda, Michihiro Matsumoto, Hirokazu Yatsu, Ichiro Hosotani, and Shigeyuki Kido*

OPTIMA: An Ontology-Based Platform-specific software Migration Approach

*Hong Zhou, Jian Kang, Feng Chen, and Hongji Yang*

A Certified Infinite Norm for the Implementation of Elementary Functions

*Sylvain Chevillard and Christoph Lauter*

### Session 4A: Component-Based Systems

A Reinforcement-Learning Approach to Failure-Detection Scheduling

*Fancong Zeng*

Coping with API Evolution for Running, Mission-Critical Applications Using Virtual Execution Environment

*Bashar Gharaibeh, Tien N. Nguyen, and J. Morris Chang*
Synthesizing Component-Based WSN Applications via Automatic Combination of Code Optimization Techniques

Zhenyu Zhang, W. K. Chan, and T. H. Tse

Session 4B: Software Quality

Metrics and Evolution in Open Source Software

Young Lee, Jeong Yang, and Kai H. Chang

Failure Analysis of Open Source J2EE Application Servers

Junguo Li, Gang Huang, Jian Zou, and Hong Mei

Automatic Quality Assessment of SRS Text by Means of a Decision-Tree-Based Text Classifier

Ishrar Hussain, Olga Ormandjieva, and Leila Kosseim

Short Papers

Session 1C: Short Papers—Software Quality and Reliability

Quality Assurance in Web Information Systems Development

Klaus-Dieter Schewe, Jane Zhao, and Bernhard Thalheim

AOP Based Trustable SLA Compliance Monitoring for Web Services

Congwu Chen, Lei Li, and Jun Wei

A Multivariate Analysis of Static Code Attributes for Defect Prediction

Burak Turhan and Aysegul Bener

Refinement of a Tool to Assess the Data Quality in Web Portals

Angelica Caro, Coral Calero, Juan Enriquez de Salamanca, and Mario Piattoni

Formal Embedded Operating System Model Based on Resource-Based Design Framework

Jin-Hyun Kim, Jae-Hwan Sim, Chang-Jin Kim, and Jin-Young Choi

Systematic Development of Quality Aware Decentralised Service-Oriented Systems

Lipo Chan and Shanika Karunasekera

Session 2B: Short Papers—Software Testing 2

An Automated Approach to System Testing Based on Scenarios and Operations Contracts

Najla Raza, Aamer Nadeem, and Muhammad Zohaib Z. Iqbal

Architectural Test Coverage for Component-Based Integration Testing

Nor Laily Hashim, Sita Ramakrishnan, and Heinz W. Schmidt

An Approach to Integration Testing of Object-Oriented Programs

Zhe (Jessie) Li and Tom Maibaum

Distribution Metric Driven Adaptive Random Testing

Tsong Yueh Chen, Fei-Ching Kuo, and Huai Liu

Uniform Selection of Feasible Paths as a Stochastic Constraint Problem

Matthieu Petit and Arnaud Gotlieb

White Box Pairwise Test Case Generation

Jangbok Kim, Kyunghee Choi, Daniel M. Hoffman, and Gihyun Jung

An Effective Iterative Metamorphic Testing Algorithm Based on Program Path Analysis

Guowei Dong, Changhai Nie, Baowen Xu, and Lulu Wang
Session 2C: Short Papers—
Software Architecture and Components

Towards a Software Component Certification Framework .......................................................... 298
  Alexandre Alvaro, Eduardo Santana de Almeida, and Silvio Lemos Meira

Reduction of Complexity and Automation of Parallel Execution through Loop Level Parallelism .......... 304
  Robert A. Tefft and Roger Y. Lee

An Incremental and FCA-Based Ontology Construction Method for Semantics-Based Component Retrieval......................................................................................................................... 309
  Xin Peng and Wenyun Zhao

Trustworthiness Evaluation and Testing of Open Source Components.......................................................... 316
  Anne Immonen and Marko Palviainen

Testability and Test Framework for Collaborative Real-Time Editing Tools ....................................................... 322
  Lian Yu, Lifeng Xu, Guanzhu Wang, Changyan Chi, Wenping Xiao, and Hui Su

Cohesion Metrics for Predicting Maintainability of Service-Oriented Software ....................................................... 328
  Mikhail Perepletchikov, Caspar Ryan, and Keith Frampton

Session 5: Short Papers—
Systems Modeling, Model Construction and Checking

On the Collaborative Development of Para-Consistent Conceptual Models ....................................................... 336
  Ebrahim Bagheri and Ali A. Ghorbani

Increasing Software Effort Estimation Accuracy—Using Experience Data, Estimation Models and Checklists........................................................................................................................................... 342
  Kristian Marius Furulund and Kjetil Molokken-Ostvold

A Denotational Semantic Model for Validating JVML/CLDC Optimizations under Isabelle/HOL ............... 348
  Hamdi Yahyaoui, Mourad Debbabi, and Nadia Tawbi

Verifying UML Diagrams with Model Checking: A Rewriting Logic Based Approach........................................ 356
  Farid Mokhati, Patrice Gagnon, and Mourad Badri

Verifying Noninterference in a Cyber-Physical System—The Advanced Electric Power Grid ...................... 363
  Yan Sun, Bruce McMillin, Xiaoqing (Frank) Liu, and David Cape

First International Workshop on
Software Test Evaluation (STEV 2007)

Message of the Program Chairs of STEV’07 ............................................................................................... 370
  Johannes Mayer and Sami Beydeda

Workshop Papers

Learning Effective Oracle Comparator Combinations for Web Applications ...................................................... 372
  Sara Sprenkle, Emily Hill, and Lori Pollock

Testing against Natural Language Requirements ............................................................................................. 380
  Harry M. Sneed
Test-Based Specifications of Components and Systems ................................................................. 388
   Dick Hamlet
A Scriptable, Statistical Oracle for a Metadata Extraction System ............................................. 396
   Kurt J. Maly, Steven J. Zeil, Mohammad Zubair, Ashraf Amrou, Ali Aazhar, and Naveen Ratkal
Statistical Metamorphic Testing—Testing Programs with Random Output by Means of Statistical
Hypothesis Tests and Metamorphic Testing .................................................................................. 404
   Ralph Guderlei and Johannes Mayer
Abstraction in Assertion-Based Test Oracles ............................................................................. 410
   Yoonsik Cheon

Workshop Position Paper

The Oracle Problem for Testing against Quantified Properties ................................................ 415
   Patricia D. L. Machado and Wilkerson L. Andrade

Author Index ................................................................................................................................. 419
