**TABLE OF CONTENTS**

**VOLUME 1**

**A Study with Multi-Word Features in Text Classification** ............................................................... 1  
Wen, Zhang; Yoshida, Taketoshi; Tang, Xijin

**Pluralism: Critical Reflections Emerging From An Organisation-Based Action Research Project** ........................................................................................................ 9  
Ortegon-Monroy, Maria Carolina

**Boundary Maintenance in Living Systems Theory and Social Entropy Theory** ..................... 23  
Bailey, Kenneth D.

**Problem Structuring Diagram: A System Technology in Aid of Collaborative Creation** ........................................................................................................ 38  
Haruna, Koichi

**The Development of The Philosophy of Marketing Science** .................................................. 61  
Lee, Guann-Jyh; Jaw, Yi-Long

**Research on Clusters of Industrial Towns of The Delta of Pearl River Based on Product-Competition Network** ................................................................. 78  
Li, Munan; Yang, Jian-mei

**Genetic Algorithm Active Vibration Control of A Flexible Plate Structures** ..................... 86  
Mat Darus, Intan Zaurah

**A Complex-Systems Approach To Remove The North-Korean Nuclear Weapons** ............. 98  
Kwon, Hyuk Kihl

**Creating Scenario for New Product Design with Human-Interactive Annealing and Data Crystallization** ................................................................. 108  
Horie, Kenichi; Maeno, Yohiharu; Ohsawa, Yukio

**Correlation Analysis Concerning Customer Satisfaction and Business System** ............. 126  
Mori, Kazue

**A Scientific Discussion Test on Some Social Harmony Problems** ........................................ 137  
Gu, Jifa

**Systemic Wellbeing Based on User Centric Design and Experiential Learning** ................ 157  
McIntyre, Janet Judy

Fukunaga, Yoshitoku; Takahashi, Yutaka; Tanaka, Nobuhide

**A Study of Market Volatility and Smes Growth Evaluation: Empirical Research of Smes Board** ........................................................................................................ 194  
Zhou, Ying; Chen, Xiao Hong; She, Jian

**The Atomistic Structure of Relationship: Robert Rosen's Implicate Order** .................... 209  
Kineman, John J.; Bánáthy, Béla A.; Rosen, Judith

Policy Making in Case of Iodine Deficiency Disorder Based on Agent Interaction in West Java Province .......................................................... 437
Siallagan, Manahan Parlindungan; Novani, Santi; Deguchi, Hiroshi

Dyadic Analysis in Inter-Corporate Alliance: Merits and Risks .................................................. 447
Morioka, Takafumi

Intelligent System for Pasteurized Milk Quality Assessment and Prediction ................. 455
Marimin; Septiani, Winnie; Sukardi, S; Bunasor, Tatik K

Systems of system failures: Meta system methodology to prevent system failures ............ 466
Takafumi Nakamura, Kyoichi Kijima

A Process View of SWOT Analysis .......................................................................................... 484
Wang, Kuang-cheng

Holistic Formal Analysis of Dilemmas of Negotiation ............................................................ 496
Pri Hermawan, Norimasa Kobayashi, Kyoichi Kijima

Creating and Sustaining Successful Knowledge Management in Purposeful Communities -Summary of Key Experiences From Pioneers ......................................................... 506
Albinsson, Lars; Curtin, Gregory; Forsgren, Olov; Wall, Maria

Bankruptcy Dynamics in Japan: A System Estimation Approach ........................................ 522
Kageyama, Noriyuki; Harada, Nobuyuki

The Application of Soft System Methodology for Agro Business Micro Financing Policy .................................................................................. 530
Kusmuljono, B S; Eriyatno, E; Marimin; Arini, R D

Blanc, Jean-Jacques

Evaluating Effects of RFID Introduction Based on CO₂ Reduction .................................... 565
Karakasa, Yoshifuyu; Suwa, Hirohiko; Ohta, Toshizumi

 Conjunctive Use of Conceptual Form Model and Actual Form Generator .......................... 572
Nakanishi, Masatake

The Analysis of Effect of A White Collar Exemption System on Working Hours and Wages ......................................................................................... 586
Yasui, Shojiro

Resisting Dynamic Structures in Shifting Toward Systems Thinking .................................. 593
Vakili, Keyvan; Izadi, Ehsan Fakhar; Moteabbed, Shora

A Model of Demand Chain Management with Virtual Interactions .................................. 612
Terasawa, Hisanori; Ohta, Toshizumi

Transception: The Dharma of Evolutionary Guidance Media ............................................... 624
Klisanin, Dana

Growth Kinetics of Borided Layers: Artificial Neural Network and Least Square Approaches .......................................................... 633
Morales, Oswaldo M.; Campos S., Iván E.; Islas B., María del Carmen; Mota H., Cinthya I.; Hernández S., Luis M.

Entropy and Emergence in Organizations ............................................................................. 643
Tejeida-Padilla, Ricardo; Peon-Escalante, Ignacio; Badillo-Pina, Isaias

The Impact of Axiological System on The Performance of A High Education Institution. Case: Mexico’s IPN .......................................................... 658
Patino-Ortiz, Julian; Badillo, Isaias Jose; Patino, Miguel
Integrating Sustainability Practices Using The Viable System Model .................................................. 665
Leonard, Allenna

Self-Affine Patterns of Boride Layers .................................................................................................. 676
Morales, Oswaldo M.; Campos S.; Iván E.; Martínez J.; Tejeida, R.; Balankin, A;

Modeling and Optimization of Life Insurance Policies ............................................................... 684
Calidonio Aguilar, Perla Rocío

VOLUME 2

The E-Co Model: Citizens’ Driving E-Service Quality .......................................................................... 694
Lind, Mikael; Forsgren, Olov; Salomonson, Nicklas; Albinsson, Lars

Collaboration in Virtual Networks: Reasons and Benefits ................................................................. 707
Lind, Ann

Changes and Societal Development Through Co-Design in The Information Society ........................................... 721
Lind, Bertil

Induced Coupling: An Approach To Modeling and Managing Complex Human-Landscape Interactions .................................................................................................................. 733
Magiocca, Nicholas

A Multi-Agent Model Approach To International Climate Change Politics ........................................ 741
Lee, Hyun Young; Matsumoto, Mitsutaka; Kanie, Norichica

E-Tribalized Market Research: The Information Propagation Among Virtual Communities ................. 751
Chen, Meichieh; Suwa, Hirohiko; Fujimura, Ko; Ohta, Toshizumi

Internet Consumer™s Behavior Under The Cyber ,Lemon™:The Case From The Internet Markets in China ........................................................................................................................... 758
Pan, Yong

Mixed Optimization Models, Optimal Solution, Soft Approach, Sampling ........................................ 765
Xu, Chunhui

Portfolio Selection Under Multiple Risk Measures ..................................................................... 773
Xu, Chunhui; Wang, Jie; Inoue, Akiya

Fuzzy Neural Network Based Intelligent Robust Control Systems ........................................... 782
Sato, Yoshishige

Living Systems Theory and Entity-Systems Theory ......................................................................... 793
Swanson, G.A.

A Time-Series Descriptive Model of Competitive Advantage Trajectory-Building Intermittent Competitive Advantage in Hypermoving Market ............................................................................................................... 801
Negoro, Tatsuyuki; Wakabayashi, Mamiko

Strategic Supply Chain Management in A Large Bakery ................................................................... 819
Robinson, Miranda; Fernandez, Walter; Goode, Sigi W

Disasters: A Simplified Systemic Scale (SSS) for Classifying Magnitudes of Hurricanes and Earthquakes .............................................................................................................................. 836
Aceves, Francisco J.; Rudolf, A. H.; Peralta, J. A.

What Is The SNS Network Member Attitude? ..................................................................................... 851
Aoki, Takatsuga
Software Like A Courteous Butler
Chroust, Gerhard

Technological Diffusion of Residential Photovoltaic (PV) Systems in Japan
Inoue, Yoshinori; Miyazaki, Kumiko

Analyzing the Role of Mutual Communications in Project Management Through Agent-Based Simulation
Watabe, Masao; Terano, Takao

Contribution of Information Disclosure to Corporate Integrity
Kobayashi, Yuko; Suwa, Hirohiko; Yamamoto, Kayoko; Ohta, Toshizumi

A Case Based Reasoning System for Customer Credit Scoring: Comparative Study of Similarity Measure
Dong, Yanwen

Integrated System Dynamics: Analysis of Policy Options for Tobacco Control in New Zealand
Cavana, Robert; Tobias, Martin

Hilton, Brian

Exploring Ethical Management from Systemic Perspectives
Yu, Jae Eon

Equifinality in The Value Added Tax System
Rouf, Abdur

The Sociopathology of Social Collectives
Yolles, Maurice

A Systemic Model for The Water Management in The Valley of Mexico.
Badillo, Isaias Jose; Ordunez-Zavala, Enrique

Exploring Alternatives --Rethinking on Alternative Focused Thinking
Kobayashi, Norimasa; Seki, Atsuo

Herbohn, John; Russell, Iean; Harrison, Stephen; Vanclay, Jerry; Baynes, Jack; Wardell-Johnson, Grant

Does An Internal Web-Log Or Internal SNS Become An Agent of The Organizational Learning?
Chujo, Hisako

Multi Agent Based Simulation for Typhoid Fever with Complications: An Epidemic Analysis
Sutiono, Agung Budi; Suwa. Hirohiko; Ohta, Toshizumi

A Systematic Approach To 4D Radiation Therapy CE Integration of 4D Medical Imaging Into 4D Radiation Therapy
Chan, Maria; Song, Yulin

Mixed Extension of Hypergames and Its Applications To Inspection Games
Sasaki, Yasuo; Kobayashi, Norimasa; Kijima, Kyoichi

On The Physical Basis of Perceptual Information
Wong, Willy
Study on Longitudinal Knowledge Creation in Supply Chain .................................................. 1048
Chen, Jian; Lin, Yan

Rough Set Theory Using Similarity of Objects Described By Ontology .............................. 1049
Inukai, Yusei; Gehrmann, Andreas; Nagai, Yoshimitsu; Ishizu, Syohei

Eigenform - An Introduction ........................................................................................................ 1057
Kauffman, Louis

Product Architecture Design for Global Performance ........................................................... 1102
Yin, Yong

Managing Innovation for Service Through Systems Concepts ........................................... 1112
Sato, Ryo; Fukunaga, Yasuto

The Study of Institutions in The Understanding of Contemporary Social Processes ............................................................. 1123
Valero-Silva, Nestor

Towards A New Framework for Evaluating Systemic and Participative Methods .............. 1130
Midgley, Gerald; Foote, Jeff; Ahunri-Driscoll, Annabel; Wood, David

Improving The Effectiveness of Management Education Through The Inter-Organizational Network ......................................................................................................................... 1151
Dauwels, Shoko Okutsu; Nakanishi, Aki

A Minimalist Approach To Improving Performance in Modern American Schools .......... 1162
Gabriele, Tony

Interpretation of Indonesian Political Movement with Drama Theory ................................ 1174
Oura, Jun

Modeling of Class Iv Electrical Systems of Nuclear Power Plant Training Simulator .......... 1189
Kuriakose, K.K.; Vijayakumar, K.; Kavithamani, T.S.; Rajan, J.; Ebenezer, Jemimah;
H.Seetha, S.Ananthanarayanan, S.A.V. Satya Murty, S.Athinarayanan, P.Swaminathan

Dawson, Billy

Security, Safety and High Reliability: Organizations in Complex Socio-Technical Systems ........................................................................................................................................ 1214
Takagi, Toshio

Process Simulation of Nuclear Power Plant Using Latest Techniques .................................. 1227
Jayanthi, T

Systems Methodologies for Effective Strategic Decision-Making ........................................ 1239
Gregory, Amanda

Fractal Universes ........................................................................................................................ 1248
Sancho, Luis

Rigor and Relevance in Systems Work ...................................................................................... 1258
Metcalf, Gary

Regulation and Privatization .................................................................................................... 1270
Avalos-Villarreal, Elvira

Worlds Apart: A Focus on The "Great Divide" Within The HRM Scholar-Practitioner Community .................................................................................................................. 1279
Daniel, Teri
Agent Based Epidemiological Simulation for Pandemic Protection of Emerging and Re-Emerging Infectious Diseases

Deguchi, Hiroshi; Yasuhiro, Kanatani; Kaneda, Toshiyuki; Koyama, Yusuke; Ichikawa, Manabu; Saito, Tomoya

It Was Agile and Flew

Barrera, Ricardo

Levers for Intervention in Organizational Decision Making: Fudging Bureau-CATS Unmasked By Transparency
