# TABLE OF CONTENTS

## VOLUME 1

**A New Technique to Characterize Periodic and Pseudo-periodic Marks within a Sheet of Paper**

Trepanier, Roland; Bernie, Jean-Philippe  

**Advances in Shoe Press Sleeve Design and Material**

Armstrong, Ted  

**Automatic Control of Dryer Drainage**

Gardner, Thomas A.  

**Benefits of High Resolution Cross-Directional Profiling**

Wicks, Laune  

**Chemical Cost Saving Using Multivariate Optimisation**

Taylor, Matthew  

**Comparative Study Between a New Verity Topography Measurement Device to Parker Print Surf and Emveco Instruments Evaluating Base Sheet and Subsequent Air Knife & Blade Coating, and Calendering.**

Rosenberger, Roy R.; Cruz, Mario; Fleming, Dan; Joyce, Margaret  

**Considerations for a Cost Effective Dryer Section Rebuild**

Kormano, Pekka  

**Constrained Model Predictive Control for Cross Directional control- Some practical examples**

Backstrom, Johan U.  

**Design for Maintainability**

Kahn, Jerry  

**Dilution Profiling Headboxes - A Design and Performance Review**

Pantaleo, Scott B.  

**Dilution Retrofits on Different Headboxes**

Hansen, Ole  

**Driving profitability with model predictive control applications**

Piquer, Alexander M.  

**Dryer Section Rebuild Considerations - Panel Discussion**

Bates, Bob  

**Dryer Section Rebuild Considerations - Panel Discussion**

Gardner, Thomas A.  

**Dryer Section Rebuild Considerations - Panel Discussion**

Hill, Ken
Dryer Section Rebuild Considerations - Panel Discussion ......................................................... 488
  Kormano, Pekka

Dryer Section Rebuild Considerations - Panel Discussion ......................................................... N/A
  Reese, Jeffrey R.

Effect of Agitation Geometry on Measurement of Drainage Resistance Coefficients .......................................................... 501
  Genco, Joseph M.

Emveco Smoothness Paper ........................................................................................................... 545
  Stradley, Donald L.

Energy Cost Savings Track Wrap-up Session - Roundtable Discussion .................................. N/A
  Reese, Jeffrey R.

Energy Saving Centrifugal and Positive Displacement Pump Motor Control Systems ......... 566
  Baldauf, Jim; Carstensen, Peter

Energy Savings with Embedded Solutions ............................................................................. 574
  MacHattie, Ross

Evaluation of a Fractionating Saveall ........................................................................................ 608
  Guay, Donald F.

VOLUME 2

Experiences of CD Control with Dilution Headboxes ............................................................... 636
  Chen, Shih-Chin

Experiences with Dilution Profiling Headboxes in Weyerhaeuser Mills .................................. N/A
  Rigopoulos, Apostolos

Fibrous / Engineered Fillers - A New Paradigm for the Forest and Paper Industry:
(Project sponsored by the Department of Energy (D.O.E.)) ...................................................... 653
  Mathur, Vijay K

Field Experience with Dilution Profiling Retrofits Using the Radial Distributor Style of Flow Spreader ................................................................................................................... 693
  D'Eca, David M.

Global Paper Machine Efficiency Standard ............................................................................ 716
  Paschold, Ulrich

Improve Quality and Reduce Cost - How To Be Successful With Online Charge Measurement & Control .................................................................................................................. 759
  Clark, J.; Knesel, T.

Improved Dryer Drainage with Managed Differential Pressure Control ................................ 803
  Hill, Kenneth; Vijh, David K

Improved Quality Through Innovative Wet End Solutions .................................................. 809
  Ford, Philip

Improving Runnability and Paper Quality with High-Resolution and Ultrasonic Testing .......................................................... 842
  Timberlake, Ann C.

Increasing Whiteness: The Key is in Your Hands .................................................................. 846
  Gauto, Mariela-
Installation of a Fully Noncontact Stiffness Sensor on Machine to Measure the Stiffness Properties of Paper On-Line

Baun, Gary; Huggins, David; Patterson, Tim; Ridgeway, Paul

Linking Safety to Operational Excellence

Owens, Stan

Low Consistency Refiners - A Comparison of Different Configurations

Kerr, Jonathan C.

Mill Examples of Process Troubleshooting Through QCS Service

Cong, Jun; Fu, Calvin

Mineral Surface Treatment Using Existing Size Press Technology The Size Press Filling Concept

Meyers, Ross L.

Minimizing Deposition in the Papermaking System with Mechanical and Recycled Pulps

Blazey, Matt; Chen, Gordon; Edmonds, Christian; Eronen, Harri; Fournier, Francois; Grimsley, S. Allen

Model Predictive Control of Paper Quality Parameters

Ferguson, Dean

Model Predictive Midrange Control of the Moisture Content in Paper Production

Slatteke, Ola

Model-Based Predictive Adaptive Control of Pulp and Paper Mill Processes

Gough, Bill

ModuleJet Dilution Retrofit Applications

Kast, Thomas

Multiple-input and Multiple-output CD Control Applications Practical Aspects

Berggren, Jonas

Multivariable Predictive Controllers on the Rise, How and Why?

Nuyan, Seyhan; Fu, Calvin

VOLUME 3

Kanto-Ì–qvist, Lotta; Gruner, Giselher; Pelzer, Roland; Salkinja-Salonen, Mirja

New Press Section Optimizing & Troubleshooting Technique

Kange, Lars H.

New Proprietary Organic Coagulant for High Bright OBA Applications

Headrick, Gary A.

Numerical Computation of the Folgar-Tucker Constant for a Linear Contraction Headbox

Krochak, Paul J.; Olso, James A; Martinez, D. Mark

Optimizing Shoe Press Clothing - Use all your Tools

Hedou, Daniel; Kemp, Keith A.

Optimizing your Refiners - A Six-Step Process

Berg, Shawn

Paper Improvements for Inkjet and Laser Printing

Stoffel, John
