
December 5-8, 2004
Houston, Texas, USA

Volume 1 of 2
# TABLE OF CONTENTS

## Volume 1

1. **The Role of Halokinesis in Supra-Salt Fault Development: Insights from the North Sea**
   - N. Banbury, J. Underhill

2. **Seismic Imaging at Conger: Lessons Learned in Gulf of Mexico Subsalt Imaging**
   - T. Bergeon

4. **Shale Tectonism in the Northern Port Isabel Fold Belt**
   - R. Camerlo, D. Meyer, R. Meltz

5. **Bathymetric Control on Paleocene Gravity Flows Around Salt Domes in the Central Graben, North Sea**
   - I. Davison

6. **Emplacement and Evolution of Salt in the Alaminos Canyon Protraction Area, Gulf of Mexico**
   - C. Decalf, S. Lock-Williams, N. Weber, M. Cubanski, C. Yough, M. Etemadi, L. Liro

7. **Processes of Mud Volcanism and Shale Mobilization: A Structural, Thermal and Geochemical Approach in the Barbados-Trinidad Compressional System**
   - E. Deville, A. Battani, Y. Callec, S. Guerlais, A. Mascle, A. Prinzhofer, J. Schmitz, S. Lallemant

8. **Basement Controls on Salt Tectonics: Results from Analog Modeling**
   - T. Dooley, K. McClay, M. Hempton, D. Smit

9. **Interpreted Shallow and Deep-Water Depositional Systems of the Beltana Mini-Basin in the Northern Flinders Ranges, South Australia**
   - I. Dyson

10. **Geology of a Welded Diapir and Flanking Mini-Basins in the Flinders Ranges of South Australia**
    - I. Dyson, M. Rowan

11. **Christmas Tree Diapirs and Development of Hydrocarbon Reservoirs: A Model from the Adelaide Geosyncline, South Australia**
    - I. Dyson

12. **Petroleum Systems Analysis and Comparison of Inversion Structures (Turtles and Half Turtles), Eastern Salt Canopy Trend: Deepwater Gulf of Mexico**
    - R. Eisenberg, W. Combs, M. Johnson, K. Eastham

13. **The Wilcox Raft: An Example of Extensional Raft Tectonics in South Texas, Northwestern Onshore Gulf of Mexico**
    - J. Fiduk, L. Anderson, M. Rowan

14. **Salt Deformation, Magmatism, and Hydrocarbon Prospectivity in the Espirito Santo Basin, Offshore Brazil**
    - J. Fiduk, E. Brush, L. Anderson, P. Gibbs, M. Rowan
Summary of Halokinetic Sequence Characteristics from Outcrop Studies of La Popa Salt Basin, Northeastern Mexico

K. Giles, T. Lawton, M. Rowan

Modes of Contractional Salt Tectonics in Angola Block 33, Lower Congo Basin, West Africa

R. Gottschalk, A. Anderson, J. Walker, J. Da Silva

The Role of Salt Dissolution in the Geologic, Hydrologic, and Diagenetic Evolution of the Northern Gulf of Mexico Sedimentary Basin

J. Hanor

Base of Salt Structure and Stratigraphy—Data and Models from Pompano Field, VK 989/990, Gulf of Mexico

H. Harrison, L. Kuhmichel, P. Heppard, A. Milkov, J. Turner, D. Greeley

Recognition and Exploration Significance of Supra-Salt Stratal Carapaces

W. Hart, J. Jaminski, M. Albertin

Hydrocarbon Migration and Accumulation Above Salt Domes—Risking of Prospects by the Use of Gas Chimneys

R. Heggland

Salt Intrusion: Time for a Comeback?

M. Hudec

Salt Tectonics in the New Millennium: Navigating the Information Flood

M. Hudec, M. Jackson

Numerical Modeling of Salt Tectonics on Passive Continental Margins: Preliminary Assessment of the Effects of Sediment Loading, Buoyancy, Margin Tilt, and Isostasy

S. Ings, C. Beaumont, L. Gemmer

Insights from a Gravity-Driven Linked System in Deep-Water Lower Congo Basin, Gabon

M. Jackson, M. Hudec, D. Jennette

Volume 2

A New Mechanism for Advance of Allochthonous Salt Sheets

M. Jackson, M. Hudec

Integrating Complementary Tools for Depth Imaging

S. Kapoor, U. Albertin

Basement vs. Salt Tectonics and Salt-Sediment Interaction—Case Study of the Mesozoic Evolution of the Intracontinental Mid-Polish Trough

P. Krzywiec

Map Patterns of Rafted Blocks in Outcrops and Experimental Models

J. Le Calvez, B. Vendeville

Salt Movement, Tectonic Events, and Structural Style in the Central Zagros Fold and Thrust Belt (Iran)

J. Letouzey, S. Sherkati

Salt Sutures in Single- and Multi-Tiered Allochthons, Green Canyon and Walker Ridge Areas, Deep Water Gulf of Mexico

L. Liro, J. Murillas, L. Villalobos, G. Gatenby, V. Mathur

Salt Tectonics of the Continent-Ocean Transition, Deep-Water Angola

G. Marton, G. Schoenborn, D. Carpenter, T. Cool
Impact of Salt Movement on Fluvio-Lacustrine Stratigraphy and Facies Architecture: Late Triassic Chinle Formation, Northern Paradox Basin, Southeast Utah, USA ........................................ 736
W. Matthews, G. Hampson, B. Trudgill, J. Underhill

On Integrating Salt Motion in Basin Modeling: A Hybrid Approach for Goal-Oriented Salt Flow .................................................................................................................................................. 770
Y. Mello, S. Pereira, J. de Mendonça, J. Rodrigues

New Insights to the Evolution and Mechanisms of Salt Tectonics in the Central European Basin System: An Integrated Modeling Study from Northwest Germany ................ 784
M. Mohr, P. Kukla, J. Urai, G. Bresser

Salt Tectonic Domains and Structural Provinces: Analogies Between the South Atlantic and the Gulf of Mexico ..................................................................................................... 813
W. Mohriak, A. Biassusi, B. Fernandez

Slumps and Salt Tectonics at the Mad Dog and Atlantis Field .................................................................................................................................................. 850

Shale-Detached Deformation along the Texas Shelf: 3D Analyses, Recognition Criteria, and Development of Duplex Structures in Extensional Settings ........................................ 879
S. Palmes

Regional Assessment of Salt Weld Timing, Campos Basin, Brazil ........................................ 916
M. Roberts, C. Metzgar, J. Liu, S. Lim

Do Salt Welds Seal? ...................................................................................................................................... 935
M. Rowan

Brine Vents on the Gulf of Mexico Slope: Hydrocarbons, Carbonate-Barite-Uranium Mineralization, Red Beds, and Life in an Extreme Environment ........................................ 949
R. Sassen, S. Sweet, D. DeFreitas, N. Eaker, H. Roberts, C. Zhang

Geopressure Compartmentalization in Salt Basins: Their Assessment for Hydrocarbon Entrapments in the Gulf of Mexico .................................................................................. 969
S. Shaker

A Comparison of Salt Tectonic Subprovinces Beneath the Scotian Slope and Laurentian Fan ........................................................................................................................................... 992
J. Shimeld

Distribution, Nature and Origin of Mobile Mud Features Offshore Trinidad ........................................ 1023
S. Sullivan, L. Wood, P. Mann

Compressional Salt Tectonics: Processes and Pitfalls .................................................................................................................................................. 1051
P. Szatmari, A. Viana, D. Da Silveira, C. Duarte, J. de Freitas, L. Gamboa, M. Machado, M. de Moraes, M. Carlotto, S. Pereira, J. Gil

Salt Tectonics and Sedimentation in the Offshore Majunga Basin, Madagascar ........................................ 1052

Salt Evolution as a Control on Structural and Stratigraphic Systems: Northern Paradox Foreland Basin, Southeast Utah, USA ................................................................. 1078
B. Trudgill, N. Banbury, J. Underhill

A Comparison Between the Salt Basins of the Gulf of Mexico and the South Atlantic ............................................................................................................................................... 1109
P. Unternehr, P. de Clarens

Influence of Mobile Shales in the Creation of Successful Hydrocarbon Basins ........................................ 1127
L. Wood, S. Sullivan, P. Mann
