TABLE OF CONTENTS

Advancing Mutual Aid/Assistance in the Water Sector: The WARN Program |
Expands ......................................................................................................................... 1 |
John York Whitler

Roadmap to Secure Control Systems in the Water Sector ............................................. 23 |
Seth Johnson

Evaluation of Water Quality Event Detection Systems Deployed at the First Water |
Security Initiative Pilot Utility ....................................................................................... 58 |
Katie Umberg, Steven C. Allgeier

Systematic Evaluation of Contaminant Detection Through Water Quality |
Monitoring ................................................................................................................... 70 |
Steven C. Allgeier, Katie Umberg

On Contamination Source Identification With Imperfect Sensor Network ..................... 85 |
Annamaria Ether De Sanctis

GIS-Integrated Water Quality Model: A New Emergency Management Tool for City |
of Raleigh Water Distribution System ......................................................................... 106 |
Larry McMillan

An Accidental Contamination Event in the Pittsburgh Drinking Water Distribution |
System ......................................................................................................................... 146 |
Leonard W. Casson

Case Study to Evaluate Potential Response Options to an Intentional |
Contamination Event Using an Optimal Hydraulic Response Tool ............................... 160 |
Terranna M. Baranowski

Hydraulic Models ....................................................................................................... 191 |
Brian C. Pickard, Reese Johnson, Victoria Blackschleger, David Harvey, David J. Hartman, |
Yeohgyo Lee

Application of Physical Security Standards for Water and Wastewater Utilities ........... 202 |
Yakir J. Hasit, Jacqueline Kepke, Dale Gabel, Paul A. Berg

Holistic Approach to Water Contamination Detection and Response .......................... 236 |
Bhanu Mittal

USEPA Training Fosters Collaboration ........................................................................ 256 |
Patricia Lamb

How Did They Do That? Lessons From Water Utilities That Successfully Obtained |
Funding for Security Projects ..................................................................................... 315 |
Shannon Dee Spence

Emergency Preparedness and Water Security ................................................................ 348 |
Joseph E. Crisologo
