ISBN: 978-1-60560-454-1

Some format issues inherent in the e-media version may also appear in this print version.
# TABLE OF CONTENTS

<table>
<thead>
<tr>
<th>Title</th>
<th>Pages</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Method to Calculate Hydrodynamic Loads on Underground Bulkheads</td>
<td>1</td>
</tr>
<tr>
<td>S. Sawyer, G. Watson</td>
<td></td>
</tr>
<tr>
<td>Wetting Phenomena in Oil Sand Systems and Their Impact on the Water-Based Bitumen Extraction Process</td>
<td>4</td>
</tr>
<tr>
<td>J. Drelich</td>
<td></td>
</tr>
<tr>
<td>The Application of Ore Characterization and Mineralogy in the Production of Iron Ore Pellets</td>
<td>18</td>
</tr>
<tr>
<td>Rodney C. Johnson</td>
<td></td>
</tr>
<tr>
<td>Finding Added Value at Newmont Through Large-Scale Mining Sequence, Cutoff Grade and Process Optimization Using Mixed Integer Linear Programming</td>
<td>20</td>
</tr>
<tr>
<td>L. Clark, K. Dagdelen</td>
<td></td>
</tr>
<tr>
<td>Improving the Robustness and Confidence of Underground Mine Design</td>
<td>25</td>
</tr>
<tr>
<td>Malcolm Newton</td>
<td></td>
</tr>
<tr>
<td>Evaluating Options for Gold Heap Process Optimization Using a Comprehensive Process Model</td>
<td>33</td>
</tr>
<tr>
<td>A. Esplin, S. Garcia, J. Gebhardt, A. Hernandez, D. Mcbride, M. Cross</td>
<td></td>
</tr>
<tr>
<td>Wall Movement Monitoring Using High-Resolution Target Movement Monitoring System</td>
<td>37</td>
</tr>
<tr>
<td>D. Apel, R. Moss, S. Watkins, T. Jones, B. Gray</td>
<td></td>
</tr>
<tr>
<td>Virtual Reality Simulator for Training Miners to Install Rock Bolts Using Jackleg Drill</td>
<td>40</td>
</tr>
<tr>
<td>D. Nutakor, D. Apel, L. Grayson, M. Hilgers, R. Hall, J. Warmbrodt</td>
<td></td>
</tr>
<tr>
<td>A New Model for Effects of Impersistent Joint Sets on Rock Slope Stability</td>
<td>44</td>
</tr>
<tr>
<td>W. Pariseau, S. Puri, S. Schmelter</td>
<td></td>
</tr>
<tr>
<td>Social, Environmental and Governmental Issues Impacting the Uranium Industry</td>
<td>50</td>
</tr>
<tr>
<td>Jon J. Indall</td>
<td></td>
</tr>
<tr>
<td>Conveyance of Federally Owned Mineral Interests</td>
<td>56</td>
</tr>
<tr>
<td>J. Evans</td>
<td></td>
</tr>
<tr>
<td>Peschanka Cuamou Porphyry DeposiT, Chukotka, Russia</td>
<td>59</td>
</tr>
<tr>
<td>V. Canby</td>
<td></td>
</tr>
<tr>
<td>Multiple Seam Mining in Appalachia State-Of-The-Art, State-Of-Practice, State-Of-The Future</td>
<td>61</td>
</tr>
<tr>
<td>D. Newman</td>
<td></td>
</tr>
<tr>
<td>The Finch-Mclvor Functional Performance Based Grinding Circuit Modeling System</td>
<td>69</td>
</tr>
<tr>
<td>R. Mcivor, J. Finch</td>
<td></td>
</tr>
<tr>
<td>The Application of Propeller Fans at Wisconsin Industrial Sand - A Case Study</td>
<td>73</td>
</tr>
<tr>
<td>A. Adu-Acheampong, B. Mcgunegle, T. Stauffer</td>
<td></td>

</table>
Practical Application of a Partial Cab to Reduce the A-Weighted Sound Level at the Operator’s Station on Surface Drill Rigs .......................................................... 78
  P. Jurovcik, Jr., D. Yantek, D. Ingram

Uranium Solvent Extraction from Acid Sulfate Leach Solutions Using Tertiary Amines ........ 88
  G. Kordosky, M. Virnig, P. Crane, K. Dudley, A. Feather

Mystery of the Missing Grade and Recovery ........................................................................ 94
  S. Ripke

Multi-Attribute Selection Method for Mining Trucks .......................................................... 98
  D. Komljenovic, V. Kecojevic

Indirect Serpentine Carbonation and its Implications for Laterite Nickel Processing ........ 109
  J. De Bakker

From the Micro to the Macro Scale: A Textural and Chemical Perspective of Characterizing Wast-Rock Material ........................................................................... 111
  S. Diehl, A. Koenig, P. Hageman, K. Smith, D. Fey, H. Lowers

Excess Spoil Minimization and Fill Stability ........................................................................ 127
  P. Michael, M. Superfesky

Carbon Neutral, Energy Efficient Method for Gas Production from Methane Hydrates ........ 140
  M. Castaldi, T. Yegulalp, Y. Zhou

Technical and Commercial Benefits of Gearless Mill Drives for Grinding Applications .... 146
  M. Ahrens, J. Gonser

The Value of Filter and Power Factor Compensation Systems for Minerals & Mining Plants ................................................................................................. 153
  M. Ahrens, Z. Konstantinovic

Refit of an Electric Shovel or Dragline - A Cost Saving Alternative Between Frequent Repairs and the Purchase of a New Machine ......................................................... 162
  B. Rathmann, U. Heuer

Thermogravimetric Study of Carbon Dioxide Adsorption on Alumina-Supported Calcium Oxide ......................................................................................... 166
  A. Belova, T. Yegulalp, M. Castaldi, R. Farrauto

Metallogenic Characteristics of the “Borska Reka” Porphyry Copper Deposit in the Bor Copper and Gold Deposit, East Serbia ......................................................... 169
  D. Kozelj

Practical Applications for the Silicon Drift Type X-Ray Detector to SEM-Platformed Image Analysis: The Bruker-MLA in Practice ...................................................... 176
  M. Shaffer, Y. Gu, M. Rohde

Uranium Mining in Kazakhstan .......................................................................................... 182
  G. Ospanova, I. Mazalov

Virtual Reality in Mine Training ........................................................................................ 185
  L. Mallett, R. Unger

Uraniferous Collapse Breccia Pipes, Northwestern Arizona ............................................... 189
  J. McMurray

Pond Rehabilitation and Establishment of a Site-Based Environmental Educational Curriculum at Cleveland-Cliffs Michigan Operations ................................................. 192
  A. Koski

Bentonite Commodity Markets from 1990 and Future Trends ........................................ 197
  William J. Miles
Joint Ore Extraction and In-Pit Dumping Optimization ............................................................... 200
   M. Zuckerberg, P. Stone, R. Pasyar, R. Pasyar

Copper Precipitation and Cyanide Recovery Pilot Testing for the Newmont Yanacocha Project ............................................................... 203
   M. Botz, S. Acar

Gold Recovery from High-Arsenic Containing Ores at Newmont’s Roasters ......................... 208
   R. Fernández, A. Collins, E. Marczak

Review of Available Geomechanics Modeling Programs and Their Application in Practical Mine Design ..................................................................................................................... 213
   S. Saeb, C. Francke

Environmental Reclamation and Monitoring of the Abandoned Belle Eldridge Mine Near Deadwood, SD ............................................................................................................... 216
   A. Davis, C. Webb, J. Soarensen

Technical Innovations and Advances Make Wirtgen Surface Miner a Viable Alternative to Traditional Drill and Blast / Ripping Operations ........................................................................ 218
   R. Bauer

Impact of Electronic Blasting Detonators on Downstream Operations of a Quarry .............. 228
   M. Bilodeau, D. Labrie, M. Boisclair, R. Beaudoin, D. Roy, G. Caron

Emerging Conveyor Technologies ................................................................................................ 237
   G. Bierie

Stainless Steels for Hydrometallurgy Plants ............................................................................... 245
   Jan Olsson

The Development of an Energy Balance Model to Predict the Economic Impact of Installing a Tailings Wash Thicker at the Fort Knox Mine, Fairbanks, Alaska ...................... 251
   J. Hollow, H. Lin, D. Walsh, D. White

Fog Mesh Studies for Fog Removal ............................................................................................. 266
   Anu Martikainen

Overview on the Future of Industrial Minerals ......................................................................... 270
   H. Murray

Aspects on Boroo Gold Companies Processing Plant ................................................................. 273
   T. Orgodol, P. Korpi

Improving Secondary Grinding Capacity at the Empire Concentrator .................................... 277
   G. Rajala, G. Suardini, H. Walqui

Desulfurization of Illinois No. 6 Coals with Sodium Hypochlorite ....................................... 285
   E. Cho, R. Yang

Development of a Tool to Predict Performance of Debladed Main Fans at Henderson Mine .............................................................................................................................. 291
   D. Loring, J. Almgren

Treatment of Refractory Gold-Antimony Concentrates with the Recovery of Senarmontite ............................................................................................................................ 296
   D. Royston

The Iron Hill (Powderhorn) Carbonatite Complex, Gunnison County, CO - A Potential Source of Several Uncommon Mineral Resources ..................................................... 298
   B. Van Gosen, H. Lowers

Blasor – a Generalized Strategic Mine Planning Optimization Tool ....................................... 305
   M. Menabde, P. Stone, B. Law, B. Baird
A Study of the Impact of Price Uncertainty to Mining Project Valuation ........................................ 310
M. Zhang, P. M. Stone, R. Middleton, M. Menabde

Transformation Mechanisms of Self Reducing – Fluxing Dried Greenballs Into Pig Iron Nuggets .............................................................. 315
B. Anameric, S. Kawatra

Measuring and Managing Dust and Nanoparticulates in Pyrometallurgical Processing ........ 321
C. Copeland, S. Kawatra

Beryllium Deposits Associated with the Redskin Stock and Boomer and China Wall Cupolas .................................................................................. 325
J. Piper

Signal Processing with Wavelet Transform for In-Seam Seismic Based Mine Void Detection Technique ...................................................................... 330
H. Wang, M. Ge

An Overview of Industrial Minerals in Colorado and Neighboring States .......................... 337
W. Langer, A. Wilson

Travelling in China ..................................................................................... 344
Fathi Habashi

Characterization of Copper Flotation Products Utilizing the JKMRC/FEI Mineral Liberation Analyzer (MLA) ................................................................. 377
R. Kappes, D. Brosnahan, J. Gathje

A Petroleum Industry Approach to Coal Mine Gas Drainage ........................................ 386
S. Hennings, J. Sandford, S. Thomson

Record Production of Industrial Rocks and Minerals in Utah ........................................ 393
B. Tripp

The Factorial Model as a Way of Thinking About the Results of a Multi-Factor Lab Experiment Or Plant Trial ......................................................... 405
Francis Bruey

Ergonomic Interventions at Vulcan Materials Company ...................................................... 413
J. Torma-Krajewski, C. Hipes, L. Steiner, R. Burgess-Limerick

Ergonomic Interventions at Badger Mining Corporation ...................................................... 417
J. Torma-Krajewski, M. Lehman

Prevalence and Cost of Cumulative Injuries Over Two Decades of Technological Advances: A Look at Underground Coal Mining in the U.S. ......................... 422
S. Moore, E. Bauer, L. Steiner

Ergonomic Interventions at Unimin .................................................................................. 426
W. Porter, A. Mayton, A. O'Brien

Back Injury Control Measures in Manual Lifting and Seat Design ...................................... 430
S. Gallagher, A. Mayton

Comparison of US Uranium Resources to Global Uranium Resources .............................. 436
B. Boberg

Factors Affecting the Development of Face Ventilation Systems in the 20th Century .................. 440
W. Reed, C. Taylor

Implementation of the Hydrofloat Technology at the South Fort Meade Mine ...................... 449
J. Kohmuench, M. Mankosa, D. Kennedy, J. Yasaionis, G. Taylor, G. Luttrell
Subsea Massive Sulphide Mining - Technology Test Program
E. Jackson, J. Hunter
455

Minimole: Development and Field Testing of a Narrow-Vein Hard Rock Mechanical Mining Machine
E. Jackson, D. Clarke
459

Study of Stability of Mercury and Silver Polythiocarbonate Nanofilms Generated During Optimized Mercury Removal from Cyanidation Pregnant Eluate
C. Bucknam, M. Mccomb
465

Guidance to Plan, Design, Evaluate and Inspect Above-Draingage Coalmine Outcrop Barriers to Prevent Blowouts
K. Kohli, F. Block
468

Mineral Exploration, Mining and Aboriginal Community Engagement
D. Jepsen
475

A Methodology for Determining Gob Permeability Distributions and Its Application to Reservoir Modeling of Coal Mine Longwalls
G. Esterhuizen, C. Karacan
477

Process Design and Implementation Techniques for Secondary Crushing to Increase Milling Capacity
B. Siddall, B. Putland
483

The Uranium Industry in an Era of Rapid Change
T. Pool
488

Design, Construction and Start-Up of the Ilo Smelter Modernization Project
H. Walqui, C. Noriega
491

Bias and Error in Mine Project Capital Cost Estimation
J. Bertisen, G. Davis
498

Aynak: A World-Class Sediment-Hosted Copper Deposit, Afghanistan
A. Benham, S. Coats, P. Ková, G. Norton
505

Gold Fields La Cima Cerro Corona Project Building for Perú’s Future
R. Graeme, J. Komadina
507

Value Creation Through Strategic Mine Planning and Cutoff Grade Optimization
K. Dagdelen, K. Kawahata
512

Uranium Mining in Arizona Breccia Pipes - High Grade and Safe
Karen J. Wenrich
520

Application of Metal Magnetic Liners in the Us Iron Ore Industry
A. Ellsworth, S. Hoff, L. Zhou, M. Zhao, X. Jiang, R. Merwin
524

Determination of a Mining Cutoff Grade Strategy Based on an Iterative Factor
A. Bascetin, A. Nieto
529

Assessing the Uncertainty Due to Grades and Grade Shell Limits for the West Leeville Underground Deposit
R. Perry, C. Deutsch
534

Methods for Determining Roof Fall Risk in Underground Mines
A. Iannacchione, T. Bajpayee, L. Prosser
539

An Equipment Selection Application Using the AHP Method
Mahmut Yavuz
547
