2007 IEEE International Conference on e-Business Engineering

(ICEBE 2007)

Hong Kong, China
24 – 26 October 2007
# TABLE OF CONTENTS

## ICEBE 2007 LONG PAPER SESSIONS

### SESSION 1A: E-COMMERCE: MODELS AND APPLICATIONS

- **The Design and Implementation of a Semantic Service Mediation System** ................................................... 1  
  L. Zeng, H. Lei, M. Dikun, H. Chang, G.T. Xie

- **Model-driven Specification of Software Services** .......................................................... 11
  B. Shishkov, M. van Sinderen, B. Tekinerdogan

- **A Tool Framework for KPI Application Development** .................................................. 20
  M. Abe, J. Jeng, Y. Li

- **Worksheet-Driven UMM Modeling of B2B Services** ................................................ 28
  C. Huemer, M. Zapletal, P. Liegl, R. Schuster

### SESSION 2A: RFID, SENSOR, AND SERVICE TECHNOLOGIES IN BUSINESS PROCESSES

- **Subscribing and Matching RFID-related Events** .......................................................... 37
  B. Jin, S. Yu, X. Zhao, Z. Long, Y. Qian

- **RFID Assisted Object Tracking for Automating Manufacturing Assembly Lines** .................. 44
  J. Wang, Z. Luo, E.C. Wong, C.J. Tan

- **Extending SOA/MDD to Sensors and Actuators for Sense-and-Respond Business Processes** ............ 50

- **The Deep Structure of Service Management** ......................................................... 58
  S. Kumaran, Y. Li, P. Dhoolia

### SESSION 3A: SECURITY, TRUST, AND PRIVACY IN E-COMMERCE

- **Real-Time Correlation of Network Security Alerts** .................................................. 67
  Z. Li, A. Zhang, J. Lei, L. Wang

- **A Study of Security and Performance Issues in Designing Web-based Applications** .................. 75
  S. Yang, J. Chen

- **Towards Quantifying the Possible Risk in e-commerce Interactions for RDSS** ........................ 83
  O. Hussain, E. Chang, F. Hussain, T. Dillon

- **The Design of A Rule-based and Event-driven Trust Management Framework** ....................... 91
  Y. Wang, D.S. Wong, K. Lin, V. Varadarajan

- **Secure Search of Private Documents in an Enterprise Content Management System** ................. 99
  T.C. Chieu, T. Nguyen, L. Zeng

### SESSION 3B: QOS OF E-BUSINESS MIDDLEWARE AND SERVERS

- **Adaptive Self-Configuration of EJB Server: A Performance Model Approach** ..................... 107
  J. Hu, H. Guan, H. Zhong, T. Huang
A Dynamic QoS Driven Pluggable GIS Grid Services Architecture .................................................. 115
W. Li, Y. Wen, D. Chen, Y. Li, K. Chen

Partition-based Profit Optimisation for Multi-class Requests in Clusters of Servers ....................... 123
L. He, J.W. Xue, S.A. Jarvis

WMQ: Towards A Fine-grained QoS Control for E-Business Servers ........................................ 131
W. Wang, W. Zhang, L. Zhang, T. Huang

SESSION 4A: ELECTRONIC CONTRACTS AND KNOWLEDGE MANAGEMENT IN E-BUSINESS

A Web-based and Email Driven Electronic Contract Management System ................................... 139
T. Kwok, T. Nguyen, L. Lam, T. Chieu

The Design of an Intelligent Accountability Architecture .......................................................... 147
K. Lin, M. Panahi, Y. Zhang

A Framework for Model Checking Web Service Compositions Based on BPEL4WS .................... 155
G. Dai, X. Bai, C. Zhao

Knowledge Enhanced IT Service Management .............................................................................. 163
H. Wang, B. Yang, L. Liu, Q. Ma, K.W. Sun, Y. Chen

SESSION 4B: E-COMMERCE: ALGORITHMS AND APPLICATIONS

Information Retrieval through SVG-based Vector Images Using an Original Method .................. 171
K. Jiang, Z. Fang, Y. Ge, Y. Zhou

A Fair and Transferable Off-line Electronic Cash System with Multiple Banks ............................ 177
C. Wang, Q. Li, X. Yang

SESSION 5A: SERVICE DESIGN AND COLLABORATION

Design of Autonomic SLA Manager for Service Applications ..................................................... 183
C. Choi, D. Cheun, S.D. Kim

Towards Accountable Enterprise Mashup Services ...................................................................... 191
J. Zou, C.J. Pavlovski

Research on Entropy-based Collaborative Filtering Algorithm ................................................... 199
C. Piao, J. Zhao, J. Feng

Forming Fuzzy Coalitions in Cooperative Superadditive Games ................................................. 207
M. He, X. Luo, N.R. Jennings, M. Wooldridge

SESSION 5B: WORKFLOW AND NEGOTIATION SYSTEMS FOR E-SERVICES

Facilitating Agile Model Driven Development and End-User Development for Evolving Web-based Workflow Applications ................................................................. 215
X. Liang, I. Marmaridis, A. Ginige

Machine Learning for Negotiation Knowledge Discovery in e-Marketplaces .......................... 223
R.Y.K. Lau
### SESSION 6A: AGENT SYSTEMS AND DOCUMENT EXCHANGE

SESSION 3C: E-BUSINESS CASE STUDIES

Research on Service Oriented Platform of Integration Application for Textile Industry in China ................................................................. 341
Z. Gao, B. Tang

Empirical Study on the Influence of E-shopping Prejudice to E-customer Satisfaction ................................................................. 345
S. Wu, W. Yin, G. Xiong

Management and Education on the Case-based Complex e-Business Systems Based On Agent Centric Ontology and Simulation Games ................................................................. 349
S. Huang, M. Hsu, W. Lin

A Case Study: Adoption of Information Technology in E-Business of United Arab Emirates ................................................................. 353
F. Akhter

E-business in Thailand: A Case Study of Two Thai Search Engine Companies ................................................................. 358
V. Chooprayoon, C.C. Fung, A.A. Depickere

Study on Credit Evaluation Model and Algorithm for C2C E-Commerce ................................................................. 362
C. Piao, J. An, M. Fang

Measuring Website Usability of Chinese Enterprise with a Heuristic Procedure ................................................................. 366
C. Jinling, G. Huan

SESSION 4C: PERFORMANCE, SECURITY AND PERSONALIZATION SERVICES

The Contribution of Intelligent System in Forming Trust and Competitiveness During Online Transactions ................................................................. 370
F. Akhter

An Enhanced Verifier-Free Remote User Password Authentication Scheme ................................................................. 373
W. Ku, C. Hwang, H. Chung

A Data Flow Optimization based approach for BPEL Processes Partition ................................................................. 377
Y. Zhai, H. Su, S. Zhan

Toward An On-Demand Option Rating Service for e-Business ................................................................. 381
R.Y.K. Lau, K.S. Wong, K.F. Fung, S.Y. Ho
ICEBE 2007 INDUSTRIAL SESSIONS

SESSION 1B: SERVICE MANAGEMENT AND SOLUTIONS

Service Obligations Management in IT Outsourcing ................................................................. 385
L. Liu, H. Lei, D. Lan, R.E. Rose, J.S. Seymour, M.V. Devarakonda

Relooking at Services Science and Services Innovation ......................................................... 391
H. Cai, J. Chung, H. Su

Collaborative Workflow Management with Alerts: An Integrated Retailing System for
Garments Brands .................................................................................................................... 397
D.S.F. Wong, D.K.W. Chiu

Business-Driven SOA Solution Development ........................................................................... 403
L. An, J. Jeng

SESSION 2B: CASE STUDIES AND REPORTS

Problems and Prospects of Multi Application Smart cards in the UK Financial Industry .......... 409
K. Markantonakis, K. Mayes

Service Information Hub for Service Lifecycle Management: A Progress Report .................. 415
Y. Liu, J. Jeng

e-Monitoring of Outsourcing IS Project in Financial Institutions: A Case Study on
Mandatory Provident Fund Projects in Hong Kong ................................................................. 422
V.C.T. Chan, D.K.W. Chiu, S. Chow, P.C.K. Hung

SOAIC 2007

IEEE INTERNATIONAL WORKSHOP ON SERVICE-ORIENTED
APPLICATIONS, INTEGRATION AND COLLABORATION

SESSION 1: SERVICE MODELING AND FRAMEWORKS

Service-Oriented Business Process Modeling and Performance Evaluation Based on AHP
and Simulation ......................................................................................................................... 428
S. Zeng, S. Huang, Y. Fan

A Framework for Extensible Collaborative Asset-based Service Engagement ........................ 436
F.J. Meng, Y. Huang, S.X. Yang, H. Su

MCTSE: A Commerce Topic Faced P2P Search Engine for Mobile Devices ............................ 444
F. Zhiyuan, Z. Jingchun, W. Lei, Z. Yu, M. Minghui

A Rewriting Based Model for Nondeterministic Composite Web Service System ............... 451
J. Wu, H. Miao

SESSION 2: REQUIREMENTS, MEDIATION, AND MEASUREMENT

Task Oriented Web Service Requirement Framework ............................................................. 459
Y. Cheng, J. Guo, H. Lv, H. Gu
Mediation Architecture for Integration of Heterogeneous Discipline Focused Workflow Languages
R. Farmer, A. Raybone, R. Uddin, M. Odetayo, K. Chao

SOSE 2007

IEEE INTERNATIONAL WORKSHOP ON SERVICE-ORIENTED SYSTEM ENGINEERING

SESSION S1: SERVICE-ORIENTED ARCHITECTURE AND INFRASTRUCTURE

The Design and Implementation of A Search Engine Marketing Management System (SEMMS) Based on Service-Oriented Architecture Platform .......................................................... 467
W.D. Yu, A. Lin

An Adaptable Fault-Tolerance for SOA using a Peer-to-Peer Framework .................................................. 474
S. Hall, G. Kotonya

DRESR: Dynamic Routing in Enterprise Service Bus ............................................................................ 482
X. Bai, J. Xie, B. Chen, S. Xiao

A Concurrent G-Negotiation Mechanism for Grid Resource Co-allocation ........................................... 486
B. Shi, K.M. Sim

Adaptive User Interface Generation for Web Services ............................................................................ 490
J. He, I. Yen

SESSION S2: ONTOLOGY AND SERVICE DISCOVERY

Consumer-Centric Web Services Discovery and Subscription .......................................................... 494
X. Liu, L. Zhou, G. Huang, H. Mei

A Privacy Protection Method for P2P-based Web Service Discovery .................................................. 502
K. Liu, Q. Wang, J. Han, H. Wu

ASM-TL-An Abstract Service Model for Adaptive Service Matchmaking ............................................. 510
W. Chen, Y. Han, C. Liu, J. Wang, S. Yan

A Domain-Independent Ontology for Non-Functional Requirements .................................................... 514
G. Dobson, S. Hall, G. Kotonya

Service-Oriented Modeling: An Ontology-based Approach .......................................................... 518
B. Wu, Z. Jin

SESSION S3: SERVICE COMPOSITION AND MODELING

Service Composition Using Product Configuration Technology .......................................................... 522
M. Raatikainen, K. Jokinen, P. Kotinurmi, V. Myllarniemi

"Service Hyperlink" for Exploratory Service Composition .......................................................... 530
S. Yan, Y. Han, J. Wang, C. Liu

A Dynamic Reconciliation Service of RBAC Policies for Virtual Organizations .................................. 538
W. Sun, Y. Han, B. Shan
### SESSION S4: SERVICE-ORIENTED TECHNIQUES OF SECURITY, TRUST, PRIVACY AND QOS

A Practical Approach for Measuring IT Effectiveness in Business Processes .................................................. 649
   R. Hosseini, M. Mazinani

SOKM 2007

IEEE INTERNATIONAL WORKSHOP ON SERVICE-ORIENTED KNOWLEDGE MANAGEMENT

SESSION 1: SERVICE DISCOVERY AND MODELING IN E-BUSINESS

A Rough Set Approach for Clustering the Data Using Knowledge Discovery in World Wide Web for E-Business ........................................................................................................ 655
   H.K. Tripathy, B.K. Tripathy

A Service Model for Customer-Centric Electronic Business ............................................................................. 661
   G. Fragidis, K. Tarabanis

A Semantic Web Based Peer to Peer Service Discovery Mechanism for Intelligent Business Process ........................................................................................................ 668
   D. Li, R. Xu, H. Wang

The Impact of Organizational Learning on Lack of Team’s Expertise Risk in Information Systems Projects ........................................................................................................ 676
   C. Wu, K. Fang

SESSION 2: KNOWLEDGE MANAGEMENT

The Proposal of Conditions of Personal Engagement in Knowledge Harvesting ............................................. 682
   C. Liu, D. Rama, I. Becerra-Fernandez

SOA-Trust: Towards Developing Trustworthy RFID Enabled Intelligent Service Solutions ..................... 686
   Z. Luo, J.S. Li, E. Wong

Adaptive Algorithmic Schemes for E-service Strategic Management Methodologies: Case Studies on Knowledge Management ........................................................................ 690
   A. Lipitakis

Trust Assessment in Web Services: an Extension to jUDDI ............................................................................ 694
   H. Mohanty, K. Prasad, R.K. Shyamasundar
