8th IEEE International Conference on Advanced Learning Technologies (ICALT 2008)

Santander, Spain
1-5 July 2008
TABLE OF CONTENTS

VOLUME 1

Preface
ICALT 2008 Committees
Program Committee Members
Reviewers

KEYNOTES

Realistic Learning Activity is Not Enough........................................................................................ 1
   John M. Carroll, Marcela Borge, Lu Xiao, Craig H. Ganoé
The Long Way towards Workplace-Integrated Learning .............................................................. 6
   Klaus Tochermann, Gisela Granitzer

MAIN CONFERENCE

3D Animated Facial Expression and Autism in Taiwan .............................................................. 12
   Yufang Cheng, Shuhui Ling
A Comparative Study on the Analysis of Students Interactions in e-Learning.......................... 15
   Raquel Hijón-Neira, J. Ángel Velázquez-Iturbide, Balbir Barn, Samia Oussena
A Device-Independent System Architecture for Adaptive Mobile Learning ......................... 18
   Xinyou Zhao, Toshio Okamoto
A Diagnosis Method that Matches Class Diagrams in a Learning Environment for
Object-Oriented Modeling ......................................................................................................... 21
   Ludovic Auxepaules, Dominique Py, Thierry Lemeunier
A Flexible Agent-Based Observation Solution for Educational Platforms .......................... 26
   Gligor-Calin Loghin, Jean-Charles Marty, Thibault Carron
A Framework for Semantic Group Formation ........................................................................ 29
   Asma Ounnas, Hugh Davis, David Millard
A Framework to Scaffold the Reuse of Learning Objects ....................................................... 34
   Isabel Azevedo, Eurico Carrapatoso, Carlos Vaz Carvalho
A Framework to Support Monitoring and Moderation of e-Discussions with
Heterogeneous Discussion Tools ............................................................................................. 36
   Andreas Harrer, Sabrina Ziebarth, Adam Giemza, Ulrich Hoppe
A Generalized Proposal to Support Development and Reuse of Practical
Educational Scenarios in LMSs............................................................................................. 41
   Manuel Caeiro, Martín Llamas, Luis Anido, Jorge Fontenla, Sergio Martín, Rosario Gil,
   Francisco García, Miguel Latorre, Manuel Castro, Juan Peire

<tbody>
<tr>
<td>A Global Ontology Space for Mobile Learning</td>
<td>44</td>
</tr>
<tr>
<td>Rachid Benlamri, Xiaoyun Zhang</td>
<td></td>
</tr>
<tr>
<td>A Good Practice Example on Learning Object Reutilization</td>
<td>49</td>
</tr>
<tr>
<td>Miguel Latorre, Francisco García-Sevilla, Eugenio López, Sergio Martín, Rosario Gil, Martin Llamas, Manuel Caeiro, Manuel Castro, Juan Peire</td>
<td></td>
</tr>
<tr>
<td>A Grid Based Open Framework for Technology Enhanced Learning</td>
<td>51</td>
</tr>
<tr>
<td>Colin Allison, Stuart Purdie, Rosa Michaelson</td>
<td></td>
</tr>
<tr>
<td>A Grid-based Architectural Framework for Composition and Execution of Complex Learning Processes</td>
<td>56</td>
</tr>
<tr>
<td>Jorge Torres, Cesar Cárdenas, Juan Manuel Dodero, Ignacio Aedo</td>
<td></td>
</tr>
<tr>
<td>A Knowledge Integration Framework for Adaptive Learning Systems Based on Semantic Web Languages</td>
<td>59</td>
</tr>
<tr>
<td>Feng-Hsu Wang, Dai-Yan Chen</td>
<td></td>
</tr>
<tr>
<td>A Learning Environment for Object-Oriented Modeling, Supporting Metacognitive Regulations</td>
<td>64</td>
</tr>
<tr>
<td>Mathilde Alonso, Dominique Py, Thierry Lemeunier</td>
<td></td>
</tr>
<tr>
<td>A Learning Environment for Promoting Structured Algebraic Thinking in Children</td>
<td>69</td>
</tr>
<tr>
<td>Sergio Gutiérrez, Manolis Mavrikis, Darren Pearce</td>
<td></td>
</tr>
<tr>
<td>A Meaningful Learning Based u-Learning Evaluation Model</td>
<td>72</td>
</tr>
<tr>
<td>Po-Sheng Chiu, Yen-Hung Kuo, Yueh-Ming Huang, Tzung-Shi Chen</td>
<td></td>

<tr>
<td>Pei Zhang, David E. Millard, Gary B. Wills, Yvonne Howard, Sue J. Faulds, Lester Gilbert, Dan Sparks</td>
<td></td>
</tr>
<tr>
<td>A Model of Personalized Collaborative Computer Support Ubiquitous Learning Environment</td>
<td>92</td>
</tr>
<tr>
<td>Moushir M. El-Bishouty, Hiroaki Ogata, Yoneo Yano</td>
<td></td>
</tr>
<tr>
<td>A Pervasive Assessment System: Extending QTI to Incorporate Ad-hoc Wireless Sensors</td>
<td>97</td>
</tr>
<tr>
<td>Imran A. Zualkerman, Ahmed Wasfy, Imad Zabalawi, Mustafa Abdul Jabbar</td>
<td></td>
</tr>
<tr>
<td>A Presentation Support Service Using Presentation Semantics</td>
<td>99</td>
</tr>
<tr>
<td>Shinobu Hasegawa, Akihide Tanida, Akihiro Kashihara</td>
<td></td>
</tr>
<tr>
<td>A Proposal for a Component-Based LMS in Accordance with PoEML</td>
<td>101</td>
</tr>
<tr>
<td>Manuel Caeiro, Jorge Fontenla, Martin Llamas, Luis Anido</td>
<td></td>
</tr>
<tr>
<td>A Proposal for Disassembling Learning Objects with High Level of Aggregation. An Implementation for OpenCourseWare Educational Resources</td>
<td>106</td>
</tr>
<tr>
<td>Pedro Pernías Peco, Nuria Gomis Berenguer, Felipe Casanova Patón, Leonel Iriarte Navarro, Manuel Marco Such</td>
<td></td>
</tr>
<tr>
<td>A Repository with Semantic Organization for Educational Content</td>
<td>109</td>
</tr>
<tr>
<td>Álvaro Pedro de Barros Borges Reis Figueira</td>
<td></td>
</tr>
</tbody>
</table>
A Semantic Infrastructure to Support a Federation of Agricultural Learning Repositories

Nikos Manouselis, Alberto Abian, Jesús Soto Carrión, Hannes Ebner, Matthias Palmér, Ambbjorn Naeve

A Semantic-Rich Framework for Learning Software Patterns

Zoran Jeremic, Jelena Jovanovic, Dragan Gaševic

A Simulator for Education and Training in Global Requirements Engineering: A Work in Progress

Miguel Romero, Aurora Vizcaíno, Mario Piattini

A SOA-Based Framework for Constructing Problem Solving Environments

Jaime Gálvez, Eduardo Guzmán, Ricardo Conejo

A Software Design Approach for Pupils with Special Needs

Andreas Lingnau

A Study of Intra-action and its Influence on Learning

Hwang Wu Yuin, Alexei Tretiakov, Chou Huey-Wen, Hsu Rueng-Lueng, Lee Ching-Yuan

A Study on Personality in Designing Adaptive e-Learning Systems

Amal Al-Dujaily, Hokyoung Ryu

A Theory-Centric Real-Time Assessment of Programming

Shilpi Rao, Vive Kumar

A Toolkit Design Framework for Authoring Multimedia Game-Oriented Educational Content

Nor Aniza Abdullah, Raja Hafiz Raja Ahmad Kamaruddin, Zaidi Razak, Zulkifli Bin Mohd. Yussuf

A User-Oriented Visual Tool for Advanced Editing of Learning Material

Maria De Marsico

Academic Administration and Management Scenarios on the Semantic Web

Feng (Barry) Tao, Shakeel A. Khoja, Hugh Davis, Andy Gravell

Accessible Digital Resource Centers for Visually Impaired People

Mari Luz Guenaga, Javier Oliver

Acquiring a Holistic Picture: The 4Screens Web-Based Simulator Helping Students to Unify Behaviours of Electronic Systems

Iouri Belski

Adapting an Educational Game for Spanish Orthography to make it Adaptive and Accessible

Cristina Carmona, David Bueno, Miguel A. Jiménez

Adaptive Environment Supporting Understanding and Learning from Texts in Informatics (ADULT)

Alexandra Gasparinatou, Grammatiki Tsaganou, Maria Grigoriadou

Adaptive Reading Assistance for the Inclusion of Students with Dyslexia: The AGENT-DYSL Approach

 Paraskevi Tzouveli, Andreas Schmidt, Michael Schneider, Antonis Symvonis, Stefanos Kollias

AICoLab: Architecture of Algorithm Visualization System

Christos Foutsitzis, Stavros Demetriadis

An Algorithm for Automatic Difficulty Level Estimation of Multimedia Mathematical Test Items

Irene Cheng, Rui Shen, Anup Basu

</table>
DAVE: A Dynamic Algorithm Visualization Environment for Novice Learners .................................................. 314
Euripides Vrachnos, Athanassios Jimoyiannis

Define and Visualize Your First Programming Language ........................................................................ 319
Mikko-Jussi Laakso, Erkki Kaila, Teemu Rajala, Tapio Salakoski

Deriving E-Assessment from a Competency Model .................................................................................. 322
Onjira Sitthisak, Lester Gilbert, Hugh C. Davis

Design an Interactive Agent by Multi-Empathic Strategies to Reduce Student’s Negative Emotion .............. 325
Yu-Chia Cheng, Chih-Wei Chang, Gwo-Dong Chen

Design and Implementation of Three Different Methods for Announcing Exam Grades on the Web .................. 330
Mohammad Shirali-Shahreza

Design and Management of Material Sharing System for Ubiquitous Vocabulary Learning .................................. 333
Xin Jin, Masatoshi Ishikawa, Keiichi Kaneko, Haruko Miyakoda, Norihide Shinagawa

Design for Pedagogy Patterns for E-Learning ...................................................................................... 336
Fiona Chatteur, Lucila Carvalho, Andy Dong

Designer as Mediator: An Innovative Model for Designing Interactive Devices within the User-Centered Approach ............................................................ 339
Mithra Zahedi

Designing a Dynamic Bayesian Network for Modeling Students’ Learning Styles ........................................ 341
Cristina Carmona, Gladys Castillo, Eva Millán

Designing a Person-Centered Learning Support System ........................................................................... 346
Maria Kyprianidou, Stavros Demetriadis, Andreas Pombortsis

Designing Collaborative Learning Applications .................................................................................... 348
Jacques Lonchamp

Developing a Negotiation-Based Intelligent Tutoring System to Support Problem Solving: A Case Study in Role-Play Learning .............................................................................. 351
Chung Hsien Lan, Chung Cheng Tseng, K. Robert Lai

Developing a Pedagogically Meaningful E-tutor Training Program for Cyber Face-to-Face Language Teaching ............................................................ 356
Nian-Shing Chen, Yuping Wang, Ping-Ju Wu, Mike Levy

Developing an Interactive Game Platform to Promote Learning and Teamwork on Mobile Devices: An Experience Report ........................................................................... 361
Vincent Tam, Z.X. Liao, Alvin C.M. Kwan, C.H. Leung, Lawrence K. Yeung

Dictionary-Based Translation Feature in Open Source LMS — A Case Study of Thai LMS: LearnSquare ............................................................ 364
Orrawin Mekpiroon, Pornchai Tammarattanamong, Narasak Apitiwongmanit, Neetiwit Buasroung, Buntita Pravalpruk, Thepchai Supnithi

Digital Learning Ecosystems: Authoring, Collaboration, Immersion and Mobility ....................................... 366
Irene Karagullia Ficheman, Roseli de Deus Lopes

Dynamic Tailoring of SCORM Sequencing and Navigation Rules ............................................................... 368
Pierpaolo Di Bitonto, Teresa Roselli

e5Learning, an E-Learning Environment Based on Eye Tracking ............................................................ 371
Clara Calvi, Marco Porta, Dario Sacchi
Early Infrastructure of an Internet of Things in Spaces for Learning
Gustavo Ramírez González, Mario Muñoz Organero, Carlos Delgado Kloos

Effects of Reflective Teaching Strategies on Online Learners’ Reflection Levels
Nian-Shing Chen, Chun-Wang Wei, Loma Uden, Kung-Ting Wu

E-Learning Course for Euclidean Geometry
Vanda Santos, Pedro Quaresma

E-Learning meets the Social Semantic Web
Carlo Torniai, Jelena Jovanovic, Dragan Gaševic, Scott Bateman, Marek Hatala

Electronic Integrity Issues in E-Assessment Security
Kikelomo M. Apampa, Gary B. Wills, David Argles, Emil Marais

Empowering Web-Based Learning with Semantic Web Technologies: The Case of SWLinker
Iyad AlAgha, Elizabeth Burd

Enhancing a Free-Text Adaptive Computer Assisted Assessment System with Self-Assessment Features
Ismael Pascual-Nieto, Diana Perez-Marín, Mick O'Donnell, Pilar Rodriguez

Enhancing Reusability of IMS LD Units of Learning: The e-LD Approach
Iván Martínez-Ortiz, José Luis Sierra, Baltasar Fernández-Manjón

Evaluating a Concept Map Editor with Non-Technical Students
Urko Rueda, Ana Arruarte, Jon A. Elorriaga, Elena Herrán

Evaluating a Probabilistic Model for Affective Behavior in an Intelligent Tutoring System
Yasmin Hernández, Gustavo Arroyo-Figueroa, Luis Enrique Sucar

Evaluating the Runtime Adaptation of EML-Described Learning Processes
Telmo Zarraonandia, Paloma Díaz, Ignacio Aedo, Carmín Fernández, Juan Manuel Dodero

Evaluation of the Relative Contribution of Various Elements in the CALL System of Teaching English as a Foreign Language
Junko Takefuta, Yukio Takefuta, Nobue Yonaha

Evolutionary Design of Collaborative Learning Processes through Reflective Petri Nets
Dirk Frosch-Wilke, Salvador Sánchez-Alonso, Juan Manuel Dodero

Expertise Measure for Dynamic Task Selection within Intelligent Educational Systems
François Courtemanche, Mehdi Najjar, André Mayers

Extending Dragon Pathways Authoring System for Force-Feedback Joysticks
Tiago Correia, Maria José Marcelino

Facilitating Access to Distance Education: Creating Pedagogically Driven Courseware Using Simple Technologies
Iaraklis Paraskakis, Thanos Hatzapostolou

Facilitating Presentation Rehearsal Review with Realtime-Created Hypervideo Technique
Ryo Okamoto, Akishiro Kashihara

Fighting Technical Complexity in Authoring E-Learning Material
Angelo Di Iorio, Antonio Feliziani, Silvia Mirri, Paola Salomoni, Fabio Vitali
From 3D Virtual Museum to 3D Collaborative Virtual Workshop ......................................................... 438
Mikhail Fominykh, Ekaterina Prasolova-Førland, Mikhail Morozov

From Blocks to Granules: An Alternative Approach to Designing Learning Objects ................................................................. 441
Arif Altun, Petek Askar

Generating Teacher Adapted Suggestions for Improving Distance Educational Systems with SlgMa .......................................................................................................................... 444
Maite Martin, Ainhoa Álvarez, Isabel Fernández-Castro, Maite Urretavizcaya

Glosser: Enhanced Feedback for Student Writing Tasks .................................................................................. 449
Jorge Villalón, Paul Kearney, Rafael A. Calvo, Peter Reimann

Group Scribbles to Support Jigsaw Cooperative Learning in a Graduate Course ........................................ 454
Chiu-Pin Lin, Kuo-Ping Liu, Chee Kit Looi

HABITAT: A Web Supported Treatment for Acquired Brain Injured ........................................................................ 459
Elena Navarro, Víctor López-Jaquero, Francisco Montero

How Does a Pedagogical Agent Look at a Learner when Providing Evaluation Feedback? ....................... 462
Mohamedade Farouk, Jean-Hugues Réty

How to Improve Assessment of Learning and Performance through Interactive Visualization .......................................................................................................................... 467
Raquel Hijón-Neira, J. Ángel Velázquez-Iturbide

iArgue: A Web-Based Argumentation System Supporting Collaboration Scripts with Adaptable Fading ........................................................................................................ 472
Yannis N. Bouyias, Stavros N. Demetriadis, Ioannis A. Tsoukalas

ICT Competences for Net Generation Students .......................................................................................... 475
Montse Guirter, Teresa Romeu, Ana Guerrero, Ariadna Padrós

Identifying Learning Styles in Learning Management Systems by Using Indications from Students’ Behaviour ........................................................................................................... 477
Sabine Graf, Kinshuk, Tzu-Chien Liu

Immersion Adoption: Design Principles for Self-Guided Learning in Virtual Learning Environments .......................................................................................................................... 482
Matthew R. Peters, Mary Beth Rosson

Improving English Lab Classes Using Sony PSP (PlayStation Portable) .......................................................... 484
Mohammad Shirali-Shahreza

Improving Learners’ Satisfaction in Specification-Based Scenarios with Dynamic Inclusive Support .......................................................................................................................... 486
Olga C. Santos, Jesus G. Bolicario

Improving Learning Objects Quality with Learning Styles ........................................................................ 491
Javier Rojas, Bruno Defude

Improving Vocabulary Acquisition By Designing A Storytelling Robot ....................................................... 493
Chun-Cheng Wu, Chih-Wei Chang, Baw-Jhiune Liu, Gwo-Dong Chen

Individual Differences in Learning with Simulation Tool: A Pilot Study .................................................. 496
Tzu-Chien Liu, Yi-Chun Lin, Kinshuk, Maiga Chang

InfoStation-Based mLearning System Architectures: Some Development Aspects .................................... 499
Ivan Ganchev, Stanimir Stojanov, Damien Meere, Máirtín O’Droma
InstanceCollage: A Graphical Tool for the Particularization of Role/Group Structures in Pattern-Based IMS-LD Collaborative Scripts ........................................................... 501
  Julio Alberto Hernández-Gonzalo, Eloy David Villasclaras-Fernández, Davinia Hernández-Leo, Juan Ignacio Asensio-Pérez, Yannis Dimitriadis

Instructional Domain Analysis: A Methodological Approach to Service-Oriented Learning ........................................................................................................... 506
  David Diez, Camino Fernández, Juan Manuel Dodero, Paloma Díaz, Ignacio Aedo

Instructor-Oriented Authoring Tools for Educational Videogames ........................................... 511
  Javier Torrente, Pablo Moreno-Ger, Baltasar Fernández-Manjón, José Luis Sierra

Integrated Copy-Paste Checking: Design and Services .................................................................. 514
  Narayanan Kulathuramaiyer, Bilal Zaka, Denis Helic

Integrating Medical Robotics in the Robinson Program .................................................................. 519
  Sabina Jeschke, Lars Knipping, Marcus Liebhardt, Fabian Müller, Ursula Vollmer, Marc Wilke, Xin Yan

Integrating Social Networking Technologies in Education: A Case Study of a Formal Learning Environment ................................................................................... 524
  Lori Lockyer, John Patterson

Integrating Wireless Interaction into the Lecture Theatre .......................................................... 529
  Darren P. Mundy, James Proctor

Interaction Analysis as a Multi-Support Approach of Social Computing for Learning, in the "Collaborative Era": Lessons Learned by Using the DIAS System .............. 531
  Tharrenos Brattisis, Angelique Dimitracopoulou

Interaction-Aware Design for Learning Applications — Reflections from the CSCL Field ........................................................................................................... 534
  Alejandra Martínez-Monés, Yannis Dimitriadis, Andreas Harrer

VOLUME 2

Interactive Learning Environment for Astronomy with Finger Pointing and Augmented Reality ........................................................................................................ 537
  Masato Soga, Koji Matsui, Kazuki Takaseki, Kohe Tokoi

Investigating the Effect of Taking and Reviewing Annotations and Homework to Math Learning ........................................................................................................ 539
  Wu-Yuin Hwang, Rustam Shadiev

Investigating User Engagement with Synthetic Characters ..................................................... 544
  Lynne Hall, Susan Jones, Marc Hall

Is My Student at the Other Side? Applying Biometric Web Authentication to E-Learning Environments ..................................................................................... 546
  Elisardo González Agulla, Luis Anido Rifón, José L. Alba Castro, Carmen García Mateo

Item Response Theory for Peer Assessment ................................................................................ 549
  Maomi Ueno, Toshio Okamoto

Knowledge Representation for an Automated Normalized Answers Assessment System, Based on Text Comprehension Theories .................................................. 554
  Panagiotis Blitsas, Maria Grigoriadou

Knowledge Sharing within and across Communities: The CRICOS System ................................. 557
  Stefanos Ziovas, Maria Grigoriadou
LEA: A Summarization Web Environment Based on Human Instructors’ Behaviour ................................................................. 559
  Iraide Zipitria, Ana Arruarte, Jon Ander Elorriaga

Learning about Dynamic Problems with Computer Simulators: A Case of System Dynamics Simulation Models ................................................................. 564
  Agata Sawicka, Birgit Kopainsky, Jose J. Gonzalez

Learning Application Suite — Creating and Playing SCORM Compatible Web and Computer Based Training ................................................................. 567
  Marco Nordmann, Jens Neumann

Learning by Blogging: Warm-Up and Review Lessons to Facilitate Knowledge Building in Classrooms ................................................................. 569
  Yih-Ruey Juang

Learning Object Indexing Tool Based on a LOM Ontology ........................................................................................................ 571
  Ouafia Ghebgghoub, Marie-Hélène Abel, Claude Moulin

Learning Object Virtualization Allowing for Learning Object Assessments and Suggestions for Use .................................................................................. 574
  Olivier Catteau, Philippe Vidal, Julien Broisin

Learning Objects and Learning Services in the Semantic Web ........................................................................................................ 579
  Chrysafis Hartonas, Eleni Gana

Learning Technology Standards Adoption — How to Improve Process and Product Legitimacy ................................................................. 582
  Tore Hoel, Paul Hollins

Learning to Teach Sports to Handicapped People Using Games ................................................................................................. 585
  David Bueno, Jose Chacon, Cristina Carmona

LEARN-SQL: Automatic Assessment of SQL Based on IMS QTI Specification .................................................................................. 587
  Alberto Abelló, M. Elena Rodriguez, Toni Urpi, Xavier Burgués, M. José Casany, Carme Martin, Carme Quer

LEMAT: A Project for Innovation in Teaching Mathematics ........................................................................................................ 589
  Beatriz Porras, Jose A. Cordón, Juan Manuel Olazabal, Cecilia Valero, Elena Álvarez, Laura Bravo, Begoña Sánchez, Alberto Gutiérrez, Ángela Núñez, Segundo Polanco, Ana Garcia

Lesson’ Toon: Conception of Lesson Notes as Cartoon in an E-Learning Platform .................................................................................. 592
  Laure France

Linenum->Info: System Support for Code Reading ........................................................................................................ 595
  Daiki Ueno

LRMDCR: A Learner’s Role-Based Multi Dimensional Collaborative Recommendation for Group Learning Support ................................................................. 598
  Xin Wan, Toshie Ninomiya, Toshio Okamoto

Making Use of User-Generated Content and Contextual Metadata Collected during Ubiquitous Learning Activities ........................................................................ 601
  Martin Svensson, Oskar Pettersson

MATEP: Monitoring and Analysis Tool for E-Learning Platforms ................................................................................................. 606
  Marta Elena Zorrilla, Elena Álvarez

Methods for Path Evaluation in Dynamic Storyboarding ........................................................................................................ 609
  Ronald Böck, Rainer Knauf, Yoshitaka Sakurai, Setsuo Tsuruta
OCCS: Enabling the Dynamic Discovery, Harvesting and Delivery of Educational Content from Open Corpus Sources .......................................................... 671
   Séamus Lawless, Lucy Hederman, Vincent Wade

On InfoStation-Based Mobile Services Support for Library Information Systems .......... 674
   Ivan Ganchev, Damien Meere, Stanimir Stojanov, Micheál Ó hAodha, Máirtín O’Droma

On Using Workflow Technology to Model eLearning Process .................................... 677
   Alex Pongpech, Shazia W. Sadiq, Maria E. Orlowska

Paper-Centric Structuring in Learning Processes ....................................................... 680
   Jürgen Steimle, Oliver Brdiczka, Max Mühlhäuser

Pedagogical Scenarios Generation within LD Frameworks ............................................. 683
   Narjess Touzani-Chebaane, Maha Khemaja, Rafik Braham

Personalized Access and Students’ Coauthoring in Repositories of Learning Objects: The Case of a Repository of Programming Examples ............................. 688
   Mercedes Gómez-Albarrán, Susana Bautista-Blasco, Jorge Carrillo-de-Albornoz

Personalized Content Delivery by Usage of Concept Maps and Naïve Bayes Classifier .......................................................... 691
   Dumitru Dan Burdescu, Marian Cristian Mihaescu, Bogdan Logofatu

Pocketing the Difference: Joint Development of Open Educational Resources ............... 693
   Patrick McAndrew, Tina Wilson

Primary Preschool Experiences with Computers in the Classroom ................................ 696
   Mónica Trelia, Beatriz Barros, Ricardo Conejo

Proactive Reflection in the Development of Nursing Student Clinical Judgment ............ 701
   James L. Bowen, Carole McKenzie, Kim Bruce

Promoting Reflective Thinking in Collaborative Learning Activities .......................... 704
   Lu Xiao, Shawn Clark, Mary Beth Rosson, John M. Carroll

Providing Information in an Augmented Campus ....................................................... 707
   Leandro Krug Wives, Bruno Defude, José Palazzo Moreira de Oliveira, José Valdeni de Lima, Yvan Peter

QTI Result Reporting Stats Engine for Question-Based Online Tests ........................... 712
   Xavier Gumara, Lluís Vicent, Marc Segarra

Quality-Oriented Evaluation of E-Learning-Based Experiences .................................. 717
   Félix Buendía, Elena Ejarque Antonio Hervás

Relations between Learning Style and Learner Behavior in an Educational Hypermedia System: An Exploratory Study .................................................. 720
   Elvira Popescu, Philippe Trigano, Costin Badica

Risk Assessment Education: Utilizing Interactive Video for Teaching Health and Safety .......................................................... 722
   Joseph Price, Gary Wills, Itiel E. Dror, Tom Cherrett, Sarah Maynard

Robust Adaptive Discourse Parsing for E-Learning Fora ........................................... 725
   Nadine Lucas, Emmanuel Giguet

ROME: Systems Engineering in Technology Enhanced Learning .................................. 728
   Sybille Hambach, Alke Martens

Scenario-Based Assessment for Database Course ....................................................... 730
   Rahat Iqbal, Anne James

ScenEdit: An Authoring Environment to Design Learning Scenarios ........................... 732
   Valérie Emin
Script-Based Design for Human-Computer Dialog in Given Scenarios for English Learners ................................................................. 734
Jiyou Jia, Weichao Chen

Secure Certification for ePortfolios ................................................................................................................................. 739
Lisha Chen-Wilson, Patrick Newcombe, Piers Royce, Samuel Ong, Timothy Wonnacott,
Gary Wills, David Argles

Self-Tutoring, Teaching and Testing: An Intelligent Process Analyzer ................................................................. 741
Irene Cheng, Nathaniel Rossol, Randy Goebel

Semantic Document Management for Collaborative Learning Object Authoring ..................................................... 746
Sasa Nesic, Dragan Gasevic, Mehdi Jazayeri

Semantic Organization of Online Discussion Transcripts for Active Collaborative Learning ................................................................. 751
Yanyan Li, Mingkai Dong, Ronghuai Huang

Setting up On-Line Learning Experiments: The LearningLab Platform ................................................................. 756
Jean-Michel Adam, Anne Lejeune, Sandra Michelet, Jean-Pierre David, Christian Martel

Sharing Existing Knowledge between E-Learning Platforms: Enhancing Interoperability ................................................................. 759
Sergio Martín, Rosario Gil, Francisco García, Miguel Latorre, Martín Llamas, Manuel Caeiro, Manuel Castro, Juan Peire

SimulCol — A Collaborative Educational Modeling Simulation Tool ................................................................. 765
Maria José Marcelino, Miguel Angel Redondo, Ana Isabel Tinoco, António José Mendes

Social Structures Representations as Aid for Effective Creation and Reuse of CSCL Scripts According to a Problem-Solving Approach to ID .................................................................................. 767
Serena Alvino, Juan I. Asensio-Pérez, Yannis Dimitriadis, Davinia Hernández-Leo

Specifying Scripts and Collaborative Tasks in CSCL Environment Using IMS-LD and CIAN ................................................................. 770
Ana I. Molina, Francisco Jurado, William J. Giraldo, Miguel A. Redondo, Manuel Ortega

Student Learning Styles Adaptation Method Based on Teaching Strategies and Electronic Media ................................................................. 773
Ana Lidia Franzoni, Said Assar, Bruno Defude, Javier Rojas

Students’ Tracking Data: An Approach for Efficiently Tracking Computer Mediated Communications in Distance Learning ................................................................................................. 778
Madeth May, Sébastien George, Patrick Prévôt

Studying Native American Culture in an Immersive Virtual Environment .................................................................................. 783
Guy Hokanson, Otto Borchert, Brian M. Slater, Jeff Terpstra, Jeffrey T. Clark, Lisa M. Daniels, Heather R. Anderson, Aaron Bergstrom, Thomas A. Hanson, John Reber, Dan Reetz, Kari L. Weis, Ryan White, Lauren Williams

Support to the Specification of Observation Needs .................................................................................................................. 788
Boubekeur Zendagui, Vincent Barré, Pierre Laforcade

Supporting Cross-Institutional Knowledge-Building with Web 2.0 Enhanced Digital Portfolios ................................................................. 793
Kai Pata, Mart Laanpere

Supporting Distance Learning Activities and Social Interaction: A Case Study ................................................................. 796
