TABLE OF CONTENTS

SESSION T2A: CLASSROOM TECHNOLOGY 1

Technology and Learning-centered Education: Research-based Support for How the Tablet PC Embodies the Seven Principles of Good Practice in Undergraduate Education ........................................ 1
Jamie Cromack

Work in Progress - Structure Editing of Handwritten Mathematics ................................................................. 5
Alexandra Mendes

A Matlab-based Teaching of the Two-stub Smith Chart Application for Electromagnetics Class ...................................... 7
Fong Mak and Ramakrishnan Sundaram

Work in Progress - a Game-based Learning System for Software Engineering Education ............................ 12
Wei-Fan Chen, Wen-Hsiung Wu, Tsung-Li Wang and Chung-Ho Su

Automatic Capture and Presentation Creation from Multimedia Lectures ................................................ 14
Paul E. Dickson, W. Richards Adrian and Allen R. Hanson

SESSION T2B: LABORATORY EXPERIENCES 1

A Scheduling System for Shared Online Laboratory Resources ........................................................................ 20
Yaoye Li, Sven K. Esche and Constantin Chassapis

Work in Progress - on Introducing Experiments in a Numerical Methods Course ...................................... 26
Autar Kaw, Ali Yalcin, Brian Demenezes and Eric Allard

Web-based Software Programmable E-learning Platform for Power Electronics Courses ........................ 28
Shun-Chung Wang, Yi-Hua Liu, Yih Chien Chen, Jueng Huei Su and Wet-Sibge Liaw

Internet-based Teaching Evolution in Computer Architecture ........................................................................... 34
Manuel Castro, Eugenio Lopez, Elio Sancristobal, Sergio Martin, Gabriel Diaz, Juan Peire, Jose M.
Gomez and Paloma Lopez

Work in Progress - Connecting Laboratory Experiments to Theory Through Simulation .......................... 40
William M. Clark and David DiBiasio

SESSION T2C: TOPICS ON PEDAGOGY

Work in Progress - Preview, Exercise, Teaching and Learning in Digital Electronics Education .................................................. 42
Guoping Wang

The Effects of Emphasizing Computational Thinking in an Introductory Programming Course .................................. 44
Stephen Davies

Teaching Abstraction in Distributed Systems with Cats ............................................................................ 50
Maria Feldgen and Osvaldo Clua

Work in Progress - Analyzing the Gap Between Diagrams and Code in Computer Science .................. 56
Stephen Davies
Impact of Learning Transformation on Performance in a Crossdisciplinary Project-based Course .......................................................... 58
    Rob Gorbet, Vivian Schoner and Gail Spencer

SESSION T2D: FIRST YEAR COURSES 1

Early Bird: Preparing Engineering Freshmen for Engineering Challenges .......................................................... 63
    Sabina Jeschke, Marc Wilke, Akiko Kato, Olivier Frédéric Pfeiffer and Erhard Zorn

New Directions in Freshman Engineering Design at the University of Maryland .......................................................... 68
    Kevin M. Calabro, Kenneth T. Kiger, Wesley Lawson and Guangming Zhang

Work in Progress - Engineering Education Innovation Center .................................................................................. 74
    Robert J. Gustafson

Enhancing Student Learning Through Self-assessment .................................................................................. 76
    Amber Kemppainen and Gretchen Hein

Work in Progress - Getting Off the High Horse, Student Over Confidence with Computational Tools .............. 82
    Brett H. Hamlin and Amy E. Monte

SESSION T2E: NEW COMPETENCIES FOR GLOBAL ENGINEERS 1

The Foreign Language Engineering Writer - What Makes a Readable Report? .................................................. 84
    David F. Dalton

An International Facility Design Project .................................................................................................. 90
    Thomas Lacksonen and Berna Dengiz

Instructor Or Project Manager: What is the Right Balance As Software Engineering Education Goes Global? ........ 96
    Oly Gotel, Vidya Kulkarni and Christelle Scharff

Action Plan for the Engineer Formation: Guidelines for Success ..................................................................... 102
    Claudio da Rocha Brito and Melany M Ciampi

Social Engineering Program to Promote Civilization Process ..................................................................... 107
    Melany M. Ciampi and Claudio da Rocha Brito

SESSION T2F: ASSESSMENT 1

Assessment by Peers an Effective Learning - Technique ........................................................................ 111
    Mauricio Dziedzic, Paulo Roberto Janissek and Ana Paula Bender

Energy Literacy Among Middle and High School Youth ........................................................................ 116
    Jan DeWaters and Susan Powers

Department Wide Application of Embedded Indicators ........................................................................ 122
    Kevin C. Bower and William J. Davis

Work in Progress - an Empirical Study of Virtual Dissection and Student Engagement ................................ 127
    Marie C. Paretti, Yanfeng Li, Lisa D. McNair, Deborah Moore-Russo and Janis Terpenny

Work in Progress - the Evolving Role of an Advisory Board for Continual Improvement ......................... 129
    Daniel K. Jones
SESSION T2G: EMBRACING DIVERSITY AND INNOVATION

Work in Progress - Aligning Educational Experiences with Ways of Knowing Engineering: Understanding the Engineering Profession .................................................................131
  Kevin J. B. Anderson and Sandra Shaw Courter

Innovative Administration Supports Innovative Education ....................................................... 133
  James Nelson, Jenna Carpenter, Stan Napper and Bala Ramachandran

Inspired: Promoting Diversity, Retention, Outreach and Globalization Readiness ................139
  Peggy Doerschuk, Jiangjiang Liu and Judith Mann

Educational Research Priorities in Engineering ....................................................................... 141
  Jeremy D. Garrett, Donnie S. Coleman, Lesa Austin and John G. Wells

Engineering Course Design Based on Quality Function Deployment (QFD) Principles: 
Incorporation of Diverse Constituencies and Continuous Improvement .............................. 147
  Anoop Desai and Jean-Claude Thomassian

SESSION T2H: CS COURSES AND LABS 1

Counter Hack: Creating a Context for a Cyber Forensics Course ......................................... 152
  Lori L. DeLooze

Bio-based Senior Chemical Engineering Laboratory Course ..................................................... 158
  Gennaro J. Maffia, Thomas E Twardowski and Tara Dawn Iracki

Work in Progress - Spreadsheet Implementation Programming Project Course ...................... 164
  Richard Perry

Spoken Polymer .......................................................................................................................... 166
  Thomas E. Twardowski and Nadine C. McHenry

SESSION T2J: SPECIAL SESSION – ENHANCING STUDENT LEARNING USING SCALE-UP FORMAT

Special Session - Enhancing Student Learning Using Scale-Up Format .................................. 171
  Lisa Benson, William Moss, Scott Schiff, Sherrill Biggers, Marisa Orr and Matthew W. Ohland

SESSION T3A: ACTIVE LEARNING 1

Work in Progress - Advanced Programming Through Problem-based Learning .................. 173
  Sergio Martin, Elio Sancristobal, Rosario Gil, Antonio Colmenar, Pablo Losada, Nuria Oliva,
  Manuel Castro and Juan Peire

Addressing Engineering Educators' Concerns: Collaborative Learning and Achievement ....... 175
  Wen-Ting Chung, Glenda Stump, Jonathan Hilpert, Jenefer Husman, Wonsik Kim and Ji Eun Lee

Important Lessons in Engineering Education Learned from Seven Years of Experience in 
Undergraduate Academic Support Programs ............................................................................. 180
  Jia-Ling Lin and Donald C. Woolston
Scalable, Inquiry-based, Multimodal Modules for Engineering Mechanics Curriculum ................................................................. 186
Javier A. Kypuros and Constantine Tarawneh

No Computers? No Problem! Active and Cooperative Learning in an Introductory Computer Science Course ................................................................. 188
Cheryl A. Dugas

SESSION T3B: COMPUTER SCIENCE AND ROBOTICS IN INTRODUCTORY COURSES

Student Opinions of Alice in CS1 ........................................................................................................................................... 192
Daniel C. Cliburn

Scratch: Applications in Computer Science 1 ........................................................................................................................................ 198
Inés Friss de Kereki

A Hands-on Overview Course for Computer Science and Modern Information Technologies ........................................................................................................ 203
Lixin Tao and Li-Chiou Chen

Teaching the Introductory Computer Programming Course for Engineers Using Matlab ............................................................................................................. 209
Asad Azemi and Laura L. Pauley

Management of a Large Team-design and Robotics-oriented Sophomore Design Class ................................................................................................................. 215
John T. Tester

SESSION T3C: DISTANCE LEARNING 1

TCP Live: Experiential Learning on the Global Internet ................................................................................................................................. 221
Colin Allison, Alan Miller, Kristoffer Getchell, Iain Oliver and Andrew Morrey

Work in Progress - Learning Through Role Play Games ................................................................................................................................. 227
Ricardo Batista and Carlos Vaz de Carvalho

Design of Questions and Distracters for a Dynamic, Algorithm-based Suite of Physics Problems for Engineering Students ........................................................................................................ 229
Luis Neri Vitela, Víctor Robledo - Rella, Enrique Espinosa and Julieta Noguez

High Definition Video Support for Natural Interaction Through Distance Learning ........................................................................................................... 235
Randal Abler, Sean Brennan and Joel Jackson

Engineering Education for Everyone a Distance Education Experiment at IIT Bombay .............................................................................................................. 241
Kannan M. Moudgalya, Deepak B. Phatak and R. K. Shevgaonkar

SESSION T3D: K-12 INITIATIVES IN COMPUTER SCIENCE, SERVICE-LEARNING AND PROFESSIONAL DEVELOPMENT

Be a Computer Scientist for a Week the McGill "Game Programming Guru" Summer Camp ............................................................................................................. 247
Alexandre Denault, Jörg Kienzle and Joseph Vybihal

Digital Arts for Computing Outreach ........................................................................................................................................ 253
Karen Davis, Laura Greene-White, Ted Ferdinand and Mark Santangelo

Can Service-learning in K-12 Math and Science Classes Affect a Student’s Perception of Engineering and Their Career Interests? ........................................................................................................ 259
Margaret Pinnell, Rebecca Blust, Jayne Brahler and Margy Stevens
Work in Progress - Developing a Culture of Learning Befitting the Dynamic World of Computing ............................................................... 263
Cecile Yehezkel and Bruria Haberman

High School Teacher Change, Strategies, and Actions in a Professional Development Project Connecting Mathematics, Science, and Engineering ........................................................................... 265
Stephen Krause, Robert Culbertson, Mike Oehrtman and Marilyn Carlson

SESSION T3E: DEGREE PROGRAMS AND CURRICULA 1

Re-engineering the Electrical Engineering Education for an Innovative Diploma
Curriculum at Universiti Teknologi Mara ........................................................................................................ 271
Yoot Khuan Lee, Wahidah Mansor, Md Mahfudz Md Zan, Yusof Md Salleh, Norashimah Khadri, Badrul Hisham Mat Tahir, Kartini Salam, Rosni Abu Kassim and Wan Noraini Wan Abdullah

Information Design: a Curriculum for the 21st Century .................................................................................. 277
James C. McKim, Gerry Derksen, Hemant Patwardhan, Cara Peters and Marilyn Sarow

Work in Progress - Curriculum Visualization ................................................................................................ 283
Paul Gestwicki

Crafting a Curriculum in Computer Architecture ......................................................................................... 285
Alan Clements

A Coordination Protocol for Higher Education Degrees .................................................................................. 291
Yoot Khuan Lee, Wahidah Mansor, Md Mahfudz Md Zan, Yusof Md Salleh, Norashimah Khadri, Badrul Hisham Mat Tahir, Kartini Salam, Rosni Abu Kassim and Wan Noraini Wan Abdullah

SESSION T3F: ENGINEERING EDUCATION TOPICS 1

Work-in-progress - What Can Students Learn in an Extended Role-play Simulation on Technology and Society? ........................................................................................................ 297
Michael C. Loui

Work in Progress - Bringing Sanity to the Course Assignment Process ......................................................... 299
Stephen J. Zilora and Daniel S. Bogaard

Promoting Understanding in the Classroom: Comparison of the Strength Deployment Inventory, Learning Styles Inventory, and Myers-Briggs ........................................................................ 301
Claribel Bonilla, Susan M. Lord and Leonard A. Perry

Stepping Stones: Capacity Building in Engineering Education ..................................................................... 307
Arnold Pears, Sally Fincher, Robin Adams and Mats Daniels

SESSION T3H: PANEL SESSION – HISTORICAL VISIONS: ENHANCING ENGINEERING EDUCATION THROUGH THE HISTORY OF TECHNOLOGY

Course Development in Interdisciplinary Controls and Mechatronics ......................................................... 313
Robert Rabb, John R. Rogers and David Chang

Panel Session - Historical Visions: Enhancing Engineering Education Through the History of Technology ................................................................................................. 318
Atsushi Akera, David Hemmendinger, J. Douglass Klein, Frederik Nebeker and Aristotle Tympas
SESSION T3H: CS COURSES AND LABS 2

Laboratory Set-up for Real-time Study of Electric Drives with Integrated Interfaces for Test and Measurement..........................................................320
  Fong Mak, Ram Sundaram, Varun Santhaseelan and Sunil Tandle

Teaching Concepts in Fuzzy Logic Using Low Cost Robots, PDAS, and Custom Software..................326

On Teaching Circuit Reliability ..................................................................................................................331
  Azam Beg and Walid Ibrahim

Brain-machine Interfaces: a Team-taught Seminar Bridging Disciplines and Fostering Discussions ..............................................................................337
  AnnMarie Polsenberg Thomas and J. Roxanne Prichard

SESSION T3J: SPECIAL SESSION - MODEL-ELICITING ACTIVITIES: MOTIVATING STUDENT TO APPLY AND INTEGRATE UPPER-LEVEL CONTENT IN ENGINEERING

Model-eliciting Activities: Motivating Students to Apply and Integrate Upper-level Content in Engineering ..............................................................................342
  Tamara J. Moore, Ronald L. Miller, Brian Self, Eric Hamilton, Larry Shuman, Mary Besterfield-Sacre and Brant G. Miller

SESSION T4A: TECHNOLOGY AND SIMULATION IN EDUCATION

A Review of Applications of Computer Games in Education and Training ............................................344
  Felipe Arango, El-Sayed Aziz, Sven K. Esche and Constantin Chassapis

H-SICAS, a Handheld Algorithm Animation and Simulation Tool to Support Initial Programming Learning ..............................................................................350
  Maria José Marcelino, Todor Mihaylov and António José Mendes

Work in Progress - Learning Enabled Social Network ..............................................................................356
  Robert M. Weiner, Robert D. Hannafin and John C. Bennett

Work in Progress - Tablet PCS As Interactive Web-based Instruction Tools in a First Year Engineering Course ..............................................................................358
  Lisa C. Benson and Roy P. Pargas

Neesit Macbook Accelerometer and Video Sensor Platform (Isismograph) for Education and Research ..............................................................................361
  Lelli Van Den Einde, Wei Deng, Patrick Wilson, Ahmed Elgamal and Paul Hubbard

SESSION T4B: COMPUTER AND WEB BASED SOFTWARE 1

Teaching and Learning Styles in Engineering Education ..............................................................................367
  Rajiv J. Kapadia

Global Perceptions on the Use of Webwork As an Online Tutor for Computer Science ..........................371
  Olly Gotel, Christelle Scharff, Andrew Wildenberg, Mamadou Bouso, Chim Bunthoeurn, Des Phal, Vidya Kulkarni, Srissupa Palakvangsa Na Ayudhya, Cheikh Sarr and Thanwadee Sunetnanta
The Educational Uses of Mathematical Ontology and the Searching Tool
Noriko Kitani and Shuichi Yukita

Lessons Learned from the Application of Online Homework Generation Modules in a Signals and Systems Course
Steve Warren, Nidhi Tare and Andrew Bennett

Work in Progress - Virtual Business School and Enterprise Resource Planning System Integration in Energorpojekt Group
Vladan Pantovic, Marko Savkovic and Dusan Starcevic

SESSION T4C: DESIGN EXPERIENCES 1

Applying Physics to an Undergraduate UAS Design
Andrew Bellochio, Bobby Crawford and Lynn Byers

Final Year Projects with Involvement of Industry and High Schools
Andrew Nafalski and Zorica Nedic

Work in Progress - Stratifying the Introduction to Engineering Design Course
Kenneth S. Manning

Sustainable Engineering Design at James Madison University
Eric C. Pappas and Ronald G. Kander

Measuring the Benefit of Service Oriented Student Design Projects
Cecelia M. Wigal, Ed McMahon and Molly Littleton

SESSION T4D: STUDENT RETENTION 1

First Generation College Students in Engineering: a Qualitative Investigation of Barriers to Academic Plans
Michael J. Fernandez, Julie Martin Trenor, Katherine S. Zerda and Cassandra Cortes

Work in Progress - a Design Guide to Retain Female (and Male) Students in Engineering
Linda Vanasupa, Katherine C. Chen, Stacey Breitenbach and Karen R. Bangs

Engineering Undergraduate Persistence and Contributing Factors
Susan Haag and James Collofello

"Plus Two" Peer-led Team Learning Improves Student Success, Retention, and Timely Graduation
James E. Becvar, A.E. Dreyfuss, Benjamin C. Flores and Walter E. Dickson

Work in Progress - Building Community Among First Year Engineering Students
Eric W. Hansen, Ellen M. Stein and Vicki V. May

SESSION T4E: DISTANCE LEARNING 2

Self-perception and Self-representation in Participants of an Online Masters Program Targeting Education Practitioners
Frederic Fovet

Work in Progress - an Undergraduate B-Learning Experience for the Teaching of Politics of Telecommunications and Information Society
Antonio Perez Yuste, Rafael Herradón Diez, Juan Blanco Cotano and José Antonio Sánchez Fernández
Session T4F: Graduate Curricula

Creating Innovative Writing Instruction for Computer Science Graduate Students
Janet L. Kayfetz and Kevin C. Almeroth

Work in Progress - a Master of Design Program Collaborating with Electronic Engineering and Technology
Tom Ziming Qi

Work in Progress - Using Case Studies to Increase the Retention of Female Doctoral Students in STEM Fields
Jennifer M. Bekki, Bianca L. Bernstein, Karin Ellison, Arati Sridharan, Liza Hita, and Quinn Spadola

Mobile Learning: Major Challenges for Engineering Education
Poonsri Vate-U-Lan

The Pedagogic and Technological Evolution of a Manufacturing Systems Engineering (MSE) Graduate Program
Keith M. Gardiner

Session T4G: Panel Session – Reflections on International Accreditation

Panel Session - Reflections on International Accreditation

Session T4J: Special Session – Continuing the FIE 2007 Conversation on: Can Philosophy of Engineering Education Improve the Practice of Engineering Education?

Special Session - Continuing the FIE 2007 Conversation on: Can Philosophy of Engineering Education Improve the Practice of Engineering Education?
John Heywood, Roy McGrann, and Karl Smith

Session F1A: Classroom Technology 2

Work in Progress - MUSE - Multi-university Systems Education
Jeff Frolik, Tom Weller, Paul Flikkema, and Wayne Shiroma

Virtual Gallery Walk, an Innovative Outlet for Sharing Student Research Work in K-12 Classrooms
Joshua Schendel, Chang Liu, David Chelberg, and Teresa Franklin

Guided Slides: Flexible Lectures Using a Tablet PC
Lester L. McCann
SESSION F1B: LABORATORY EXPERIENCES 2

A Project-based Laboratory for Learning Embedded System Designs with Support from the Industry
Chyi-Shyong Lee, Juing-Huei Su, Kuo-En Lin, Jia-Hao Chang and Gu-Hong Lin

An Ultrasound-based Laboratory Experience to Illustrate the Maximumpower Transfer Theorem
Jordi Bonet-Dalmau and Pere Palà-Schönwälder

Work in Progress - Onground Versus Distance Rapid Prototyping Practices
Ismail Fidan

Experiences with a Hybrid Architecture for Remote Laboratories
Steve Murray, David Lowe, Euan Lindsay, Vladimir Lasky and Dikai Liu

Work in Progress - a Dual Mode Remote Laboratory System Supporting Both Real-time and Batch Controls by Making Use of Virtual Machines
Norihiro Fujii and Nobuhiko Koike

SESSION F1C: KNOWLEDGE ORGANIZATION IN PEDAGOGY

Using Feedback Control Engineering for Analyzing and Designing an Effective Lecturing Model
Mahmoud Abdulwahed, Zoltan K. Nagy and Richard Blanchard

Teaching Abstraction to Novices: Pattern-based and ADT-based Problemsolving Processes
Bruria Haberman and Orna Muller

Work in Progress - Comparing the Results of Reflective Thinking Interventions at IIT and Uppsala University
Margaret Huyck, Daniel Ferguson and Elizabeth Howard

Organizing the Learning Resources Related to the Subject Introduction to Artificial Intelligence Through Concept Maps
Ana Arruarte, Urko Rueda and Jon A. Elorriaga

Instructing Non-majors Programming: Knowledge Organization by Illustration
Carolyn Pe Rosiene

SESSION F1D: FIRST YEAR COURSES 2

Work in Progress - a First-year Introduction-to-engineering Course on Society's Engineering Grand Challenges
Samira Azarin, Nicola Ferrier, Stephen M. Kennedy, Daniel Klingenberg, Kristyn Masters, Katherine D. McMahon, Jeffrey Russell and Susan C. Hagness

Enhancing Learning of Low Performing Students in Multi-section First Year Lecture/laboratory Classes: Completion of a Three Year Study
Mark Urban-Lurain and Jon Sticklen
A Manipulative Rich Approach to First Year Electrical Engineering Education
Matthew Shuman, Donald Heer and Terri S. Fiez

Work in Progress - What Do Selection Criteria Tell Us About Our Students?
Elizabeth Godfrey and A. Jonathan R. Godfrey

DEI-Check Automating the Assessment Process to Improve the Informative Feedback
David Diez, Paloma Díaz, Ignacio Aedo and Camino Fernandez

SESSION F1E: NEW COMPETENCIES FOR GLOBAL ENGINEERS 2

Exploring the Global Aerospace Marketplace a First Project in International Communication for Non-native English Speakers
Alexander Friess, Carol Briam, Linda Thompson, Hemdeep Dulthummon and William Snyder

Work in Progress - Graduate Exchange Program in Microelectronics System Engineering
Mihaela Radu, Ana Rusu, Frederick Berry and Mats Brorsson

Work in Progress - Achieving the ABET Professional Skills Using Solidarity Projects
Javier Alonso López, David López, Josep-Llurenç Cruz, Carlos Alvarez, Daniel Jimenez-González, Agustin Fernández and Fermín Sánchez

Work in Progress - Attaining and Measuring Global Competency for Engineering Graduates
James Widmann and Linda Vanasupa

Contextual Preparation of Future Engineers: a Non-western Perspective
Mazen O. Hasna and John Impagliazzo

SESSION F1F: DISCIPLINARY INTRODUCTORY COURSES 1

A Multidisciplinary Approach to Introductory Engineering Design
Peter J. Robbie, Ian Baker, William Lotko and John P. Collier

Work in Progress - Assessment of Peer-led Team Learning in an Engineering Course for Freshmen
Michael C. Loui and Brett A. Robbins

Hands-on Projects to Introduce Electrical and Computer Engineering
Frank J. Mercede

Programming in Groups: a Progression Learning Scheme from the Individual to the Group
Thais Castro, Hugo Fuks and Alberto Castro

Introduction to the ME Curriculum Through Product Engineering Case Studies
EL-Sayed Aziz and Constantin Chassapis

SESSION F1G: PANEL SESSION – NSF PANELS: A REVIEWER’S PERSPECTIVE

Panel Session – NSF Panels: a Reviewer’s Perspective
Ingrid Russell, Duane Bailey, Stephen Cooper and Barbara M. Moskal
SESSION F1H: CS COURSES AND LABS 3

Shared Projects with a Multi-sub-disciplinary Flavor – Providing Integration and Context in a New ECE Spiral Curriculum ..............................603
  Mohan Krishnan, Mark J. Paulik, Sandra Yost and Tom Stoltz

Work in Progress - a Fully Online Bachelor of Electrical Engineering Degree ........................................609
  Charles Westgate, Pao-lo Liu and Wendy Tang

Work in Progress - Just-in-time Teaching and Hands-on Experimenting Embedded Systems for Undergraduates ................................611
  Nicusor Birsan and Shekhar Sharad

Scaffolding M-learning Approach of Automotive Practice Courses in Senior Vocational High School ..................................614
  Hsiu-Yi Lin, Chun-Yu Chen and Wen-Chin Chen

Teaching Embedded Systems with Active Learning: the SMEAGOL Approach ..................................620
  Elena Meshkova, Janne Riihijärvi and Petri Mähönen

SESSION F1J: SPECIAL SESSION – DOES SIZE MATTER? SMALL PROGRAMS CONTRIBUTE AS MANY GRADUATES TO THE ENGINEERING WORKFORCE AS LARGE PROGRAMS DO

Special Session - Does Size Matter? Small Programs Contribute As Many Graduates to the Engineering Workforce As Large Programs Do ..................................................626
  Julie Ellis

SESSION F2A: ACTIVE LEARNING 2

An Interactive Teaching Approach Based on Student-teams ........................................628
  Julio Gonzalez

Interactive Learning Modules for Innovative Pedagogy in Circuits and Electronics ................................634
  Jean-Claude Thomassian and Anoop Desai

Effects of Types of Active Learning Activity on Two Junior-level Computer Engineering Courses ................................638
  Saurabh Bagchi, Mark C. Johnson and Somali Chaterji

Contextualization of Programming Learning: a Virtual Environment Study ................................644
  Micaela Esteves, Benjamim Fonseca, Leonel Morgado and Paulo Martins

Work in Progress - Impact of Graphical Programming Environments on Learning and Understanding Programming Concepts ........................................650
  Gregory Bucks and William C. Oakes

SESSION F2B: ASSESSMENT 2

eAssessment of Open Questions: an Educator’s Perspective ........................................652
  Victor Gonzalez-Barbone and Martin Llamas-Nistal
Work in Progress - Improving Interrater Agreement Used to Measure Learning Outcomes
Heling Shi, Daniel M. Ferguson, Jonathan Beagley and Margaret H. Hayck

An Exploratory Factor Analysis of the Pittsburgh Freshman Engineering Attitudes Survey
Jonathan Hilpert, Glenda Stump, Jenefer Husman and Wonsik Kim

Design and Data Analysis of Exercises with Hints
Pedro J. Muñoz Merino, Carlos Delgado Kloos, Mario Muñoz-Organero and Jesús Fernández Naranjo

Analyzing Large Free-response Qualitative Data Sets a Novel Quantitative-qualitative Hybrid Approach
Jennifer Light and Ken Yaushara

SESSION F2C: READING, WRITING, AND COMMUNICATION SKILLS DEVELOPMENT

Active Listening" in Written Online Communication a Case Study in a Course on "soft Skills for Computer Scientists
Christine Bauer and Kathrin Figl

Work in Progress - Measuring Reading Comprehension in Technical Courses
Ananda Gunawardena

Helping Students (and Ultimately Faculty) Write an Effective Recommendation Letter
Mary R. Anderson-Rowland and Julie E. Sharp

Work in Progress - Peer Review from a Student Perspective
Teresa Larkin and Dan Budny

Innovation in Linking and Thinking: Critical Thinking and Writing Skills of First-year Engineering Students in a Learning Community
Rebecca L. Damron and Karen A. High

SESSION F2D: K 12 INITIATIVES 1

Introducing Data Mining Techniques and Software Engineering to High School Science Students
Bartley D. Richardson, Karen C. Davis and Michelle Daniel Beach

Work in Progress - Math Infusion in a Middle School Engineering/technology Class
David Burghardt and Michael Hacker

A Novel Partnership of a School and a University: Using the Work of University Students to Enhance Science Teaching and to Foster Interest to Technology in K-12 Schools
Petri Mähönen, Elena Meshkova and Janne Riihijärvi

Work in Progress - Attracting K-12 Students to Study Computing
Bruce R. Maxim and Bruce S. Elenbogen

University of Maine GK-12 Sensors! Program Benefits a Local Community
Stacy Doore, Margaret Chernosky, Eeva Hedefine, Jim Smith, Joseph Arsenault, Stephen Godsoe, Constance Holden and John Vetelino
SESSION F2E: DEGREE PROGRAMS AND CURRICULA 2

Industry Oriented Teaching and Learning Strategies Applied to the Course Within Traditional Engineering Technology Undergraduate Program ................................................................. 720
  Tom Ziming Qi

Work in Progress - a Case Study of Transformation in Higher Education ................................................. 724
  Young B. Moon and Alfonso Duran

Project Based Learning As a Catalyst for Academic Evolution and As an Incubator for Academic Innovation .................................................................................................................. 726
  Daniel Walsh, Robert Crockett and Zahed Sheikholeslami

Six Sigma Quality Improvement Methods for Creating and Revising Computer Science Degree Programs and Curricula ........................................................................................................ 732
  Jaruek Chookittikul and Wajee Chookittikul

A New Interleaved Bachelor of Electrical Engineering Program ............................................................... 738
  Neil Cox and Glenn Pellegrin

SESSION F2F: DISTANCE LEARNING 3

Providing Instructional Layers of Abstraction in Authoring Tools for Engineering Education Content ................................................................................................................................. 744
  Miguel Rodríguez-Artacho and Javier Velasco Garcia

Work in Progress - Initiative for the Use of Learning Objects in the Electronics Labs Practice ............................................................................................................................... 750
  Francisco Garcia-Sevilla, Pedro Carrion, Miguel Latorre, Eugenio Lopez, Elio Sancristobal,
  Gabriel Diaz, Catalina Martinez-Mediano, Juan Peire and Manuel Castro

Using Data Mining to Discover the Correlation Between Web Learning Portfolios and Achievements ............................................................................................................................. 752
  Chien-Ming Chen, Cheng-Hao Ma, Bin-Shyan Jong, Yen-Teh Hsia and Tsong-Wuu Lin

Conceptual Graph Based Learning Material Producing Strategy for Cooperative Learning ......................... 758
  Te-Yi Chan, Rou-Mei Wang, Bin-Shyan Jong, Yen-Teh Hsia and Tsong-Wuu Lin

Panel Session - Preparing the Engineers of 2020 - Emerging Evidence from Six Exemplary Colleges and Universities ....................................................................................................... 763
  Patrick T. Terenzini, Lisa R. Lattuca, Gul E. O. Kremer, Carolyn Plumb and Lots C. Trautvetter

SESSION F2H: IMPROVING ACCESS AND RETENTION IN ENGINEERING PROGRAMS

Work in Progress - Implementing a Freshman Mentor Program ........................................................................... 765
  Matthew Shuman, Jace Albert Akerlund, Donald Heer and Terri Fiez

Approaching Inclusive Universal Access on the Computer Science Curriculum Level ................................. 767
  Sonja Kabicher, Michael Derntl and Renate Motschnig
SESSION F2J: SPECIAL SESSION – LINKING RESEARCH FINDINGS ON ENGINEERING STUDENT LEARNING AND ENGINEERING TEACHING: IMPLICATIONS FOR ENGINEERING EDUCATION

Mastering Circuit Analysis: an Innovative Approach to a Foundational Sequence ........................................ 773
   William J. Leonard, C. V. Hollot and William J. Gerace

Work in Progress - Students Perceptions and Interactions with Virtual Dissection ........................................ 779
   Katie Grantham Lough, Deborah Moore-Russo and Kemper Lewis

Work in Progress - Using a Mobile Robots Laboratory to Teach Advanced Computing Concepts .................... 782
   Zack Butler, Minseok Kwon and Rajendra K. Raj

Special Session - Linking Research Findings on Engineering Student Learning and Engineering Teaching: Implications for Engineering Education .......................................................... 784
   Cynthia Atman, Lorraine Fleming, Deborah Kilgore, Ron Miller, Sheri Sheppard, Karl Smith, Reed Stevens, Ruth Streveler and Jennifer Turns

SESSION F3A: INDUSTRY PARTNERSHIPS IN EDUCATION

Cooperative Education: an Exploratory Study of Its Impact on Computing Students and Participating Employers ............................................................................................................................................. 786
   Paul Golding, Sophia McNamarah, Heather White and Stanford Graham

Work in Progress – the Great Race Innovation Chase ...................................................................................... 792
   Jeffrey Blessing

Partnering with Industry Via Your Advisory Board ............................................................................................ 794
   Daniel Davis

Real-world Industry Collaboration Within a Mechatronics Class ........................................................................ 799
   Vidya Nandikolla, Susan Shadle, Patricia Pyke, John Gardner, Robert Grover and Suhas Pharkute

Work in Progress - Teaching Engineering Ethics to Professional Engineers in Puerto Rico ................................ 804
   William J. Frey and Efrain O’Neill-Carrillo

SESSION F3B: COMPUTER AND WEB BASED SOFTWARE 2

Work in Progress - the Use of Templates to Support Learning Design ............................................................. 806
   Isabel Azevedo, Eurico Carrapatoso and Carlos Vaz de Carvalho

A Component-based Visual Simulator for MIPS32 Processors ........................................................................ 808
   Hessam Sarjoughian, Yu Chen and Kevin Burger

Towards the Reuse of Practical and Collaborative Learning Experiences ....................................................... 814
   Manuel Caeiro-Rodriguez, Jorge Fontenla-Gonzalez, Martin Llamas-Nistal and Luis Anido-Rifón

An Overview of the STEAMIE Educational Game Engine .............................................................................. 820
   Scott Nykl, Chad Mourning, Mitchell Lietch, David Chelberg, Teresa Franklin and Chang Liu
SESSION F3C: ENGINEERING EDUCATION TOPICS 2

Work in Progress - How Do We Teach and Measure Systems Thinking? ................................................. 825
   Linda Vanasupa, Erika Rogers and Katherine C. Chen

Developing Team Skills Using a Program-embedded Team Assessment Process ........................................ 827
   Leah M. Akins and Daniel C. Barbuto

Work in Progress - Clinic to Classroom - a New Paradigm for Biomedical Engineering Education .......................................................... 834
   Eric H. Ledet and Richard L. Uhl

Work in Progress - Engineering Leadership Program: Tracking Leadership Development of Students Using Personalized Portfolios .......................................................... 836
   Krishna S. Athreya, Michael Kalkhoff, Gregory McGrath, Adam Bragg, Amy Joines, Diane Rover and Steven Mickelson

Implementing Peer Led Team Learning in First-year Programming Courses ............................................. 838
   Tristan T. Utschig and Monica Sweat

SESSION F3D: STUDENT RETENTION 2

Work in Progress – Utah’s Engineering Initiative .............................................................. 844
   Amy Aldous Bergerson and Cynthia Furse

Work in Progress - Implementation of Second Life in Electromagnetic Theory Course .............................. 846
   Lauren D. Thomas and Patricia Mead

Work in Progress - Improving Self-efficacy with a Freshman Mentor Program ........................................ 848
   Matthew Shuman, Donald Heer and Terri S. Fiez

Learning the Structure of Retention Data Using Bayesian Networks ...................................................... 850
   Amy McGovern, Christopher M. Uitz, Susan E. Walden and Deborah A. Trytten

Work in Progress Reexamining the Problem of Engineering Persistence for African-american Female Students .............................................................. 856
   Sherri S. Frizell and Felecia M. Nave

SESSION F3E: DISCIPLINARY INTRODUCTORY COURSES 2

Work in Progress - Roller Coaster Design Conceptualization for First-Year Engineering Students ................. 858
   Michael E. Parke, Philip A. Schlosser and John A. Merrill

Integrating a Research Component Into a Web Development Introductory Course .................................. 860
   Amalia Rusu and Bridget Keyes

Visual Embedded System Programming Has Arrived! .............................................................................. 866
   Alex Doboli, Simona Doboli and Edward H. Currie

Work in Progress - Initial Evaluation of an Introductory Course in Programming That Assists in Career Choices .............................................................. 872
   Eric Andrew Freudenthal, Mary Kay Roy, Alexandria Nicole Ogrey, Sherri Irene Terrell, Olga Kosheleva, Pilar Gonzalez and Ann Q. Gates
SESSION F3F: BROADENING THE ENGINEERING COMMUNITY

The Richmond Area Program for Minorities in Engineering: Summer Engineering Institute .......................................................... 876
   Gymama E. Slaughter

Work in Progress - the Public Image of an Engineer .......................................................... 883
   Mani Mina, Iraj Omidvar, Ryan Michael Gerdes and Sasha Kemmet

The Stars Leadership Corps: Case Studies in Broadening Participation in Computing ................. 885
   Teresa Dahlberg, Tiffany Barnes, Audrey Rorrer, Cheryl Seals, Mia Lustria and Lois Hawkes

Psychological Sense of Community & Belonging in Engineering Education .................................................. 891
   Denise Wilson, David Spring and Lisa Hansen

Work in Progress - the Role of Engineering Colleges in Providing Technological Literacy .................. 895
   Mani Mina

SESSION F3G: PANEL SESSION – IMPROVING LEARNING AND RETENTION IN INTRODUCTORY STATICS

Panel Session - Improving Learning and Retention in Introductory Statics ........................................ 897
   Christine Valle, Wendy C. Newstetter, Edward E. Anderson, Thomas A. Litzinger and Sheri D. Sheppard

SESSION F3H: SOFTWARE ENGINEERING

The "Soft" Topics in Software Engineering Education ........................................................................ 899
   Mark A. Ardis, Stephen V. Chenoweth and Frank H. Young

An Evaluation of Tools Supporting Enhanced Student Collaboration ............................................... 905
   Joo Tan and Mark Jones

Embedding Virtual and Remote Experiments Into a Cooperative Knowledge Space ..................... 911
   Sabina Jeschke, Thomas Richter and Uwe Sinha

Work in Progress - Object Oriented Metrics and Programmers’ Misconceptions ......................... 917
   Osvaldo Clua and Maria Feldgen

Moving Toward Reality in Team Selection for Software Engineering ............................................. 919
   Rose F. Gamble and Melanie L. Smith

SESSION F3J: SPECIAL SESSION – NEW ENGINEERING STORIES: HOW FEMINIST THINKING CAN IMPACT ENGINEERING ETHICS AND PRACTICE

Special Session - New Engineering Stories: How Feminist Thinking Can Impact Engineering Ethics and Practice ...................................................... 925
   Jessica Tucker, Alice Pawley, Donna Riley and George Catalano
SESSION F4A: LEARNING MODELS

Developing and Assessing Conceptual Understanding in Materials Engineering Using Written Research Papers and Oral Poster Presentations.................................................................928
  Kathleen L. Kitto

Work in Progress - CS0 Course Implementation in Computer Science .....................................................934

Towards Learner-centered Learning Goals Based on the Personcentered Approach..............................................937
  Renate Motschnig-Pitrik, Michael Dernrl, Kathrin Figl and Sonja Kabicher

Work in Progress - Effective Engagement of Millennial Students Using Web-based Voice-over Slides and Screen Demos to Augment Traditional Class Delivery .......................................................943
  Jon Sticklen, Mark Urban-Lurain and Daina Briedis

Work in Progress - How to Interpret Polylines Approximating Curves on a Surface ..............................................945
  Takatomi Miyata and Masachika Miyata

SESSION F4B: GENDER & MINORITY ISSUES IN CSET EDUCATION

Influences for Selecting Engineering: Insights on Access to Social Capital from Two Case Studies .................................................................................................................................................947
  Julie Martin Trenor, Shirley L. Yu, Consuelo L. Waight and Katherine S. Zerda

The Asynchronous Learning Environment (ALN) As a Gender-neutral Communication Environment ..................................................................................................................................... 953
  Maxine S. Cohen and Timothy J. Ellis

Work in Progress - Gender Parity Success in the Civil Engineering Department at Kuwait University ..........................................................................................................................958
  Rana Al-Fares and Luwia A. Al-Abdulmuhsen

Valuing Diversity: Development of a Student Support Forum for Females .............................................................960
  Sandra Cairncross, Karen Gordon, Debbie Ratclife, Jenny Tizard and Caroline Turnbull

Gender and Race: Stereotyping, Coping Self-efficacy and Collective Self-esteem in the Cset Undergraduate Pipeline .................................................................................................................................................966
  Antonio M. Lopez, Kun Zhang and Frederick G. Lopez

SESSION F4C: DESIGN EXPERIENCES 2

Work in Progress Using a Company Based Model to Organize Project Teams in an Introductory Design Course .....................................................................................................................................972
  Allen H. Hoffman and Jeffrey R. Court

Green House on Watson Case Study in Energy Performance and Community Service ....................................974
  Shirley T. Fleischmann

Robotics Competition: Providing Structure, Flexibility, and an Extensive Learning Experience ............................................................... 980
  Joseph Grimes and John Seng

An Industry-academia Team-teaching Case Study for Software Engineering Capstone Courses

Amalia Rusu and Mike Swenson

SESSION F4D: RESEARCH, TECHNOLOGY AND RESOURCES FOR GLOBAL ENGINEERING EDUCATION

Future of Distance Education Through EHEA

Manuel Castro, Antonio Colmenar and Juan Peire

Evolving Models for Global Medical Technology Education

Perry Sprawls

Advancing Global Capacity for Engineering Education Research: Preliminary Findings

Maura Borrego, Brent K. Jesiek and Kacey Beddoes

Work in Progress: Developing Joint Degrees Through E-learning Systems

Sandra Aguirre, Juan Quiemada and Joaquin Salvachua

Creating Transparency for Mutual Recognition in Technical Teachings Through Internal Quality Assurance Systems

Edmundo Tovar and José Carrillo

SESSION F4E: WEB-BASED LEARNING

Classification of Learning Profile Based on Categories of Student Preferences

Luciana A. M. Zaina and Graça Bressan

The Effectiveness of Collaborative Technologies in Remote Lab Delivery Systems

Joe E. Ashby

Work in Progress: Graphs for Characterization of Online Communities

Alvaro Figueira and Joanne Laranjeiro

Forming Communities in Web-based Educational Systems Through Users’ Preferences and Interest Measuring

Reginaldo Aparecido Gotardo, Cesar Augusto Camillo Teixeira and Sergio Donizetti Zorzo

Research on the Influence of Computer Network Supported Cooperative Learning on Sentence Construction Skills of Elementary School Students

Tzu-Hua Huang, Yuan-Chen Liu and Wei-Ti Hsiao

SESSION F4F: GRADUATE CURRICULA, COMMUNITY & COLLABORATION

Crossing Disciplinary Borders: a New Approach to Preparing Students for Interdisciplinary Research

Kathryne M. Drezek, Deborah Olsen and Maura Borrego

The Virginia Partnership for Nanotechnology Education and Workforce Development

James F. Groves
Work in Progress - Mentoring Undergraduate Students Preparing for Graduate Study in Engineering-a Create Case Study .................................................................1058
Lane Thames and Randal Abler

The Graduate Teaching Academy: Implementing Graduate Learning Communities .................................................................1060
Kenneth E. Viall, Jiyeon Kim and Debra Fowler

Integrating Graduate and Undergraduate Education with Real World Projects .................................................................1066
Bradley Perrin, Amy Thompson, Cyrus Agarabi and Valerie Maier-Speredelozzi

SESSION F4G: PANEL SESSION – PEN-BASED COMPUTING IN THE ENGINEERING AND SCIENCE CLASSROOM: IMPLEMENTATION SCENARIOS FROM THREE INSTITUTIONS

Panel Session - Pen-based Computing in the Engineering and Science Classroom: Implementation Scenarios from Three Institutions .................................................................1072
Archana Chidanandan, Patrick Ferro, Jeff Frolik, Maki Hirotani, Kathy Schmidt, Deborah Walter and Julia Williams

SESSION F4H: ASSESSING AND UNDERSTANDING STUDENT LEARNING

Work in Progress - Programming Misunderstandings Discovering Process Based on Intelligent Data Mining Tools .................................................................1074
Paola Britos, Elizabeth Jiménez Rey, Dario Rodriguez and Ramon García-Martínez

Work in Progress - Benefits of Cooperative Learning in a Multidisciplinary Course .................................................................1076
Carlos Álvarez, David López, Daniel Jiménez-González and Javier Alonso

Scaling Up: Taking the Academic Pathways of People Learning Engineering Survey (APPLES) National .................................................................1078
Krista M. Donaldson, Helen L. Chen, George Toye, Mia Clark and Sheri D. Sheppard

Assessing Student Learning in Technology Entrepreneurship .................................................................1084
Angela M. Shartrand, Phil Weilerstein, Mary Besterfield-Sacre and Barbara M. Olds

Comparing the Effectiveness of Evaluating Practical Capabilities Through Hands-on Online Exercises Versus Conventional Methods .................................................................1090
Isabel García, Alfonso Duran and Manuel Castro

SESSION F4J: SPECIAL SESSION – INCREASING AWARENESS OF ISSUES OF POVERTY, ENVIRONMENTAL DEGRADATION AND WAR WITHIN THE ENGINEERING CLASSROOM: A COURSE MODULES APPROACH

Special Session - Increasing Awareness of Issues of Poverty, Environmental Degradation and War Within the Engineering Classroom: a Course Modules Approach .................................................................1095
George D. Catalano, Caroline Baillie, Dean Nieuwma, Margaret Bailey, Donna Riley, Katy Haralampides, Chris Byrne and Michelle Bothwell

SESSION S1A: CLASSROOM TECHNOLOGY 3

Meta-analysis of Effectiveness of Technology Use in Undergraduate Engineering Education .................................................................1097
Georgette M. Michko
Lessons Learned from the First-time Use of Tablet PCS in the Classroom ................................................................. 1103
Micah Stickel and Sean V. Hum

A Study of Student Attitude Towards Media Based Instruction in Introductory Engineering Courses ................................................................. 1109
Jean-Claude Thomassian, Anoop Desai and Patrick Kinnicutt

A Study on the Influence of Online Office Instructions on Motivation and Effects of Information Learning in Elementary School Students ................................................................. 1113
Tzu-Hua Huang, Yuan-Chen Liu, Chir-Neng Hung, Chih-Chang Chang and Wan-Ting Yen

Use of EAC in Learning Digital Systems ............................................................................................................................. 1117
Marta Prim, Joan Oliver and Vicenç Soler

SESSION S1B: LABORATORY EXPERIENCES 3

Work in Progress - Balancing Prescribed and Project-based Experiences in Microfabrication Laboratories ................................................................. 1121
Chang-Soo Kim and Steve E Watkins

A Laboratory Platform for Teaching Computer Vision Control of Robotic Systems ................................................................. 1123
Lelio R. Soares Jr. and Victor H. Casanova Alcalde

Towards Constructivist Laboratory Education: Case Study for Process Control Laboratory ................................................................................................................................. 1129
Mahmoud Abdulwahed and Zoltan K. Nagy

TELELAB - Remote Automations Lab in Real Time ............................................................................................................................. 1135
Manuel E. Macías and Israel Méndez

SESSION S1C: PROMOTING EFFECTIVE LEARNING COMMUNITIES

What Students Know About Statics: Specific Difficulties Common Among Students Entering Statics ................................................................................................................................. 1141
Jeffrey L. Newcomer and Paul S. Steif

Classroom Demonstrations with Multiple Modes: Virtual + Reality = Enhanced Learning ................................................................. 1147
Luciana R. Barroso, Jim Morgan and Nancy Simpson

Work in Progress - a Study of the Effect of Instructional Media in an Undergraduate Electrical Circuits Course ................................................................................................................................. 1153
Xiaoyan Mu, Deborah Walter and Carlotta Berry

Promoting Social Networks Among Computer Science Students ................................................................................................................................. 1155
Kathrin Figl, Sonja Kabicher and Katharina Tofl

Experiences in Simulation-based Education in Engineering Processes ................................................................................................................................. 1161
Hugh McManus and Eric Rebentisch

SESSION S1D: FIRST YEAR COURSES 3

Work in Progress - a Freshman Engineering Course Designed to Convey the Essence of the Engineering Program at James Madison University ................................................................................................................................. 1167
Robert Prins, Olgia Pierrakos, Eric Pappas and Ronald Kander
Integrating Solid Modeling and Computer Programming Through a Freshman Design Experience ........................................................................................................................................1169
Norma Veurink and Jim E. Hertel

Work in Progress - First Year Engineering Student Responses on Exit Surveys As Indicators of Program Effectiveness ..........................................................................................................................1174
Jim F. Chamberlain, Lisa Benson and Elizabeth Crockett

First Year Engineering: Exploring Engineering Through the Engineering Design Loop .................................................................1176
Douglas Troy, D. Steven Keller, James Kiper and Lei Kerr

Create Learning Communities to Enhance Success for Students with Diverse Academic Preparation Background ..........................................................................................................................1182
Edmund Tsang and Cynthia Halderson

SESSION S1E: DEGREE PROGRAMS AND CURRICULA 3

Work in Progress - An Innovative Sustainable Energy Engineering Graduate Curriculum .................................................................1188
Pritpal Singh, Rominder Suri, Alfonso Ortega and Bill Lorenz

Work in Progress - an Interdisciplinary Initiative in Bioengineering Education ..........................................................................................................................1190
Maneesha R. Aluru and Diane T. Rover

Interdisciplinary Engineering: Enabling Student Dreams, Broadening Participation in Engineering, and Increasing Student Retention ..........................................................................................................................1192
Katie Grantham Lough, Robert B. Stone and Bonnie Bachman

Work in Progress - Computing and Undergraduate Engineering: a Collaborative Process to Align Computing Education with Engineering Workforce Needs (CSPACE) .................................................................1196
Claudia Vergara, Mark Urban-Lurain, Daina Briedis, Neeraj Buch, Jeannine LaPrad, Louise Paquette, Jon Sticklen and Thomas F. Wolff

What is Electrical Engineering Today and What is it Likely to Become? ..........................................................................................................................1198
James Roberts, Ken Demarest and Glenn Prescott

SESSION S1F: DISCIPLINARY INTRODUCTORY COURSES 3

Work in Progress - Exposing the Cool Stuff in C.S. ..........................................................................................................................................................1202
Michael Leverington, Jennifer Mathon and Yaakov Varol

A Project-based Approach to Teaching Introductory Circuit Analysis ..........................................................................................................................1204
Andrew Sterian, Bogdan Adamczyk and M.M. Aziz Rahman

Work in Progress - Moving Away from an Introductory Programming Sequence ..........................................................................................................................1210
Gregory W. Hislop

A Quantitative Study of GUI Versus Text-based Object-oriented Instruction ..................................................................................................................1212
Per Andersen and Susan Mengel

Work in Progress - Year 2 Results from a Balanced, Freshman-first Computer Engineering Curriculum ..........................................................................................................................1218
Russ Meier, Steven L. Barnicki, William Barnekow and Eric Durant
SESSION S1G: PANEL SESSION – LEAN IN ENGINEERING EDUCATION

Panel Session - Lean in Engineering Education ................................................................. 1220
Magdy Attia, Phillip Farrington, Alberto Hernandez, Annalisa Weigel and Jacqueline Candido

SESSION S1H: CS COURSES AND LABS 4

Thomas Weng, Yi Zhu and Chung-Kuan Cheng

Work in Progress - Building a Learning Community Using Computer Gaming .......................... 1228
Kent White, Windy Rachal and Roberta Munive

Work in Progress - Student-driven Extended Mini-cases for EE Service Courses ......................... 1230
James R. Rowland

Integrated Teaching of Programming Foundations and Software Testing ....................................... 1232
Ellen F. Barbosa, Marco Aurélio Graciotto Silva, Camila Kozlowski Della Corte and José Carlos Maldonado

Task-list Manager a CS2 Lab on Advanced Graphical User Interface and Data Structures ............ 1238
Joshua Guyette and Wing H. Huen

SESSION S1J: SPECIAL SESSION – PREPARE LOCALLY TO ENGINEER GLOBALLY: EMBEDDING A GLOBAL CITIZENSHIP FOUNDATION INTO ENGINEERING CURRICULA

Special Session - Prepare Locally to Engineer Globally: Embedding a Global Citizenship Foundation Into Engineering Curricula ................................................................. 1244
Jennifer Karlin, Stuart Kellogg and Carter Kerk

SESSION S2A: REMOTE, VIRTUAL AND FRESHMAN LABORATORIES

Deploying Interactive Remote Labs Using the ILAB Shared Architecture ............................... 1246
James L. Hardison, Kimberly DeLong, Philip H. Bailey and V. Judson Harward

Integration of Virtualization Technology Into Network Security Laboratory ............................. 1252
Peng Li and Tijjani Mohammed

Lasito: a Lathe Simulated Virtual Laboratory .............................................................................. 1258
Julieta Noguez and Gilberto Huesca

Microfabrication of a Resistance Temperature Detector by Freshman Engineering Students .................. 1264
Hisham E. Hegab and David E. Hall

NETLAB: a Framework for Remote Engineering and Science Experiments ......................... 1270
Itana Stiubniener, Wilson Vicente Ruggiero, Regina Melo Silveira, Cintia Borges Margi, Christiane Meiler Baptista, Gustavo Vieira and Fabio Luiz Esperati Pagoti

SESSION S2B: ASSESSMENT 3

Creating a Culture of Assessment Within an Engineering Academic Department ...................... 1276
Maura Borrego
Engaging Students Via Student-unique Weekly Assessed Tutorial Sheets: a Four Year Review ................................................................. 1282  
Mark Russell

Work in Progress - Assessment of MEA Problem Solving Processes Used by Engineering Students............................................................................................................................... 1288  
Renee Clark, Mary Besterfield-Sacre, Larry J. Shuman and Tuba Pinar Yildirim

Work in Progress - Activities That Capstone Teams Use to Create Innovative Design in Bioengineering ............................................................................................................................... 1290  
Mary Besterfield-Sacre, Renee M. Clark and Larry J. Shuman

Work in Progress Assessing the Un-assessable ............................................................................................................................... 1292  
William C. Lasher, Oladipo Onipede and Russell L. Warley

SESSION S2C: UNDERGRADUATE RESEARCH EXPERIENCES

Acoustic Imaging of Sound Sources a Junior Year Student Research Project ................................................................. 1294  
Guenter Bischof

RFID-based Network for Personnel and Mission-critical Asset Tracking in a Disaster City® .................. 1300  
Ben Zoghi and J. Robert McKee

Work in Progress - B a Star - a Launch Pad for Active Learning ........................................................................ 1306  
Derrick Booth and Lucy Casale

Work in Progress - the "Eyes" Have It: the Use of Affective Imagery to Capture Perceptions........ 1308  
Tracy L Lewis, Nicolas Dishon and Matthew Firtion 189

Demonstrating Sustainable Success: Using Ethnographic Interviews to Document the Impact of the Affinity Research Group Model ........................................................................................... 1310

SESSION S2D: ENGAGING GK-12 STUDENTS IN STEM

Work in Progress - a Study on the Effectiveness of an Innovative Research Program for Urban High School Students ................................................................. 1316  
LaRuth C. McAfee

Work in Progress - Instrumentation on a Truss Adapted for Pre-college Outreach ........................................... 1318
Amy Perrey, Steve E. Watkins, Ralph E. Flori and Theresa M. Swift

Work in Progress - Sunrise: Schools, University N (and) Resources in the Sciences and Engineering-a NSF/GMU GK-12 Fellows Project .................................................................................. 1321
Rajesh Ganesan, Donna Sterling and Philip Henning

Work in Progress - Adopt a School - the Foundation of a Long-term Outreach Effort ..................................... 1323  
Chad Mano and Vicki Allan

Work in Progress - a STEM Educational Outreach Day for Young Females ................................................... 1325  
Victoria Weston, Aubrey Bonhivert, Allison Elia, Heileen Hsu-Kim and Gary Ybarra

SESSION S2E: NEW COMPETENCIES FOR GLOBAL ENGINEERS 3

Management Education for the 21st Century Engineering Manager: an Australian Perspective ................................................................. 1327  
Steven Goh, Warren Coaker and Frank Bullen
Boundary Spanning Knowledge Broker: an Emerging Role in Global Engineering Firms
Aditya Johri

Work in Progress Developing Multi-country, Multi-team, Multi-term Projects for a Large, Introductory Engineering-design Course
Jason M. Daida and Erik Hildinger

Embedding a Core Competence Curriculum in Computing Engineering
Mónica Edwards, Edmundo Tovar and Oliver Soto

Developing Students' Understanding of Global Issues Through Lean Manufacturing
Frank Peters, Leslie Potter and K. Jo Min

SESSION S2F: DISTANCE LEARNING 4

Virtual Laboratory Ontology for Engineering Education
Josep Prieto-Blázquez, Ivan García-Torà, Jordi Herrero-Joancomartí and Anna Guerrero-Roldán

A Remote Laboratory for Microelectronics Fabrication
Aaron Mohtar, Zorica Nedic and Jan Machotka

An Engineering Educational Application Developed for the Brazilian Digital TV System
Lady Daiana Pinto, José Pinheiro Queiroz-Neto and Vicente Ferreira Lucena Jr.

Web-based Statics Course: Patterns in Use and the Relation to Learning Gains
Anna Dollar and Paul S. Steif

Distributed Digital Content Access in a Virtual Community Based eLearning Platform
Rafael Pastor, Salvador Ros, Roberto Hernández, Timothy Read and Manuel Castro

SESSION S2G: ENGINEERING EDUCATION TOPICS 3

Important Student Misconceptions in Mechanics and Thermal Science: Identification Using Model-eliciting Activities
Brian P. Self, Ronald L. Miller, Andrew Kean, Tamara J. Moore, Teresa Ogletree and Frank Schreiber

Work-in-progress: Embedding Entrepreneurship in the Computing Curricula
Kevin Gary, Anshuman Razdan, Harry Koehnemann, Adrian Sannier and Albert Kagan

Experiences of Engineering Students in Post-Katrina Service Learning Programs
Denise Wilson

Work in Progress - Socially Conscious Innovation Class
John Farris and Paul Lane

Work in Progress - Behavioral Aspects of Student Engineering Design Experiences
Barbara A. Karanian, Loutfallah Georges Chedid, Micah Lande and Gloria Monaghan

SESSION S2H: CS COURSES AND LABS 5

Work in Progress - Integrating Multiple Computer Science Disciplines Via a Technical Game Development Course
James Dean Mathias

Work in Progress - Combined Introduction of C and Assembly with a Focus on Reduction of High-level Language Constructs
Eric A. Freudenthal, Brian Alan Carter, Frederick F. Kautz IV and Alexandria Nicole Ogrey
Computer Supported Co-operative Systems to Support the Problem Solving - a Case Study of Learning Computer Programming

Crediné Silva de Menezes, Orivaldo de Lira Tavares, Rosane Aragón De Nevado and Davidson Cury

Enhancing Student Learning with Hands-on RTOS Development in Realtime Systems Course

Sudha Anil Gathala, Ramon Mercado, Manimaran Govindarasu and Diane T. Rover

SESSION S2J: SPECIAL SESSION – ENGINEERING FOR A SUSTAINABLE WORLD: HOW DO WE INCORPORATE SUSTAINABILITY IN UNDERGRADUATE ENGINEERING EDUCATION?

Special Session - Engineering for a Sustainable World: How Do We Incorporate Sustainability in Undergraduate Engineering Education?

Robert Prins, Ronald Kander, Towana Moore, Eric Pappas and Olga Pierrakos

SESSION S3A: DISTANCE LEARNING 5

A Case-based Peer-to-peer Framework for Managing Student Models in Intelligent Tutoring Systems

Juan Carlos Burguillo-Rial, Carolina Gonzalez Serrano, Martin Llamas-Nistal and Fernando Mikic

T-Bot and Q-Bot: a Couple of AML-based Bots for Tutoring Courses and Evaluating Students

Fernando A. Mikic, Juan C. Burguillo, Daniel A. Rodriguez, Eduardo Rodriguez and Martin Llamas-Nistal

Work in Progress - Collaborative Learning for Packaging Design Using KM and VR

Ratchadawan Nimnual and Surachai Suksakulchai

Work in Progress - the Online-multimedia Instruction of Plastic Packaging Technology

Khanchai Tunlasakun and Ratchadawan Nimnual

MSYS: an Activities Tracking Tool for E-learning Systems

Christiane Meiler Baptista, Regina Melo Silveira and Wilson Vicente Ruggiero

SESSION S3B: COMPUTER AND WEB BASED SOFTWARE 3

Work in Progress - Bringing Socrates Into Computer-assisted Instruction

Stephen Zahorian, Radim Belohlavek, Scott Craver, Roy T.R. McGrann and Lei Yu

Automatic Generation of Technical-style Notes from Live Lecture

Adrian Rusu, Gary Dainton, Kevin Dahm and James Metting

Work in Progress - Improving Feedback Using an Automatic Assessment Tool

Daniel Jimenez-Gonzalez, Carlos Alvarez, David Lopez, Joan-Manuel Parcerisa, Javier Alonso, Christian Perez, Ruben Tous, Pere Barlet, Montse Fernandez and Jordi Tubella

Game Based Spelling Learning

Raquel M. Crespo Garcia, Carlos Delgado Kloos and Manuel Castro Gil
SESSION S3C: DESIGN EXPERIENCES 3

Work in Progress - From First-year Projects to Senior Capstone Design What Skills Are Really Gained? ..........................................................1456
   Daria Kotys-Schwartz, Daniel Knight and Gary Pawlas

A Biosignal Acquisition and Conditioning Board As a Cross-course Senior Design Project ...............1458
   Steve Warren and James DeVault

Reflecting on Running Large Scale Student Collaboration Projects ......................................................1464
   Mattias Wigberg and Mats Daniels

Work in Progress - Enhancing Student-learning Through State - of - Theart Systems Level Design and Implementation ..................................................................................1469
   Albert A. Liddicoat, Jianbiao Pan, James G. Harris, Dominic J. Dal Bello and Lynne A. Slivovsky

Work in Progress - Transforming Senior Design .......................................................................................1472
   Regina Hannemann

SESSION S3D: K 12 INITIATIVES 2

Recruitment and Retention of Females in the STEM Disciplines: the Annual Girl Scout Day Camp at Baylor University ..............................................................................................................1474
   Cynthia C. Fry, Jessica Davis and Yasaman Shirazi-Fard

Work in Progress - Improving K-12 Students Problem-solving Skills Via Innovative Teacher Training ..................................................................................................................1479
   Maureen P. Hall and Jan Bergandy

The Effectiveness of Visual Programming for Model Building in Middle School ........................................1482
   Terence C. Ahern

NASA Enriched Collaborative STEM K-12 Teacher Professional Development Institutes
Within the California State University System ..........................................................................................1488
   Silvia Liddicoat

Trash Can Robot: High School Robotics Initiative ....................................................................................1494
   Elizabeth Fudge, Gregg Fox, Justin Maham and Elester Williams

SESSION S3E: DEGREE PROGRAMS AND CURRICULA 4

Work in Progress - A Framework for Developing Courses on Technology and Engineering for All Students ..................................................................................................................1499
   John Krupczak, Timphy Simpson, Vince Bertsch, Kate Disney and Elsa Garmire

Developing a Body of Knowledge for Environmental Engineering ..........................................................1501
   James Kilduff

Workshop Synopsis: Frontiers of Environmental Engineering Education .................................................1507
   James Kilduff

Work in Progress - Assessing the Engineering Curriculum Through Bloom S Taxonomy .......................1513
   Alan Cheville, Aman Yadav, Dipendra Subedi and Mary Lundeberg
Integrating Mobile Devices Into the Computer Science Curriculum ................................................................. 151
Qusay H. Mahmoud

SESSION S3F: SKILLS DEVELOPMENT

Researching the Development of Team Competencies in Computer Science Courses................................. 152
Kathrin Figl and Renate Motschnig

Work in Progress - the Five Paragraph Essay in Junior/senior Electrical Engineering Courses.......................... 152
Ladimer S. Nagurney and Hisham Alnajjar

Participating in an International Robot Contest As a Way to Develop Professional Skills in Engineering Students ............................................................. 152
Julio Pastor Mendoza, Irene González García and Francisco Javier Rodríguez Sánchez

Simulated Conference Submissions: a Technique to Improve Student Attitudes About Writing ......................... 152
Aaron G. Cass and Chris S. T. Fernandes

SESSION S3G: ENGINEERING EDUCATION INNOVATIONS TO ENHANCE LEARNING

Work in Progress - The Redesign of a Fluid Mechanics Lab ............................................................................ 154
Dan Budny and Dave Torick

Drowning in Method, Thirsty for Values: a Call for Cultural Inquiry .............................................................. 154
Jonathan Stolk, Mark Somerville and Debbie Chachra

Living with the Lab a - Freshman Curriculum to Boost Hands-on Learning, Student Confidence and Innovation ........................................................................ 154
David Hall, Hisham Hegab and James Nelson

Teaching Probability and Statistics in a First-year Engineering Course ....................................................... 154
Eric C. Johnson, Barbara Engerer, Kenneth Leitch and Douglas Tougaw

Making Mathematics Meaningful ....................................................................................................................... 154
Virginia Eaton and Natalie Campbell

SESSION S3H: SOFTWARE ENGINEERING EDUCATION: COMMUNITY AND COLLABORATION

Building Software Engineering Teams That Work: the Impact of Dominance on Group Conflict and Performance Outcomes .................................................................................... 156
Tracy L. Lewis and Wanda J. Smith

Work in Progress - Challenges to Educating Students Within the Community of Open Source Software for Humanity ............................................................................ 156
Heidi J. C. Ellis, Ralph A. Morelli and Gregory W Hislop

Spanning the Gap Between Software Engineering Instructor and Student ...................................................... 156
Andrew J. Budd and Heidi J.C. Ellis
Work in Progress - SVAEC, an Adaptive Environment for Creating and Exploring Knowledge Structures................................................................. Fernando Sanchez-Zamora and Martin Llamas-Nistal

SESSION S3J: CLASSROOM TECHNOLOGY 4

Representational Literacy and Participatory Learning in Large Engineering Classes Using Pen-based Computing............................................................................................................................... Aditya Johri and Vinod Lohani
Effective Use of Tablet PC's for Engineering Mathematics Education ................................................................. Andy Hurford and Eric Hamilton
Work in Progress - Sages: Podcast, Wikis and Emerging Technologies in the Engineering Classroom ............................................................................................................................... Li Liu, Marie-Pierre Huguet and Thomas Haley
Effects of Tablet Computers and Collaborative Classroom Software on Student Engagement and Learning ........................................................................................................................... Andy Hurford and Eric Hamilton
Work in Progress - Java Simulations of DSP Algorithms for Ion-channel Sensors ................................................................. Andreas Spanias, Peter Knee, Homin Kwon, Karthikeyan Natesan, Jayaraman Jayaraman and Photini Spanias

SESSION S4A: LEARNING MODELS AND TEACHING TOOLS

Work in Progress - Impact of Research Technologies on Service Learning ................................................................. Saurabh Bagchi, Carla Zoltowski and William C Oakes
Work in Progress - Implications of the Mastery Approach for Rates of Learning and Assessment ........................................................................................................................................ William J. Leonard, William J. Gerace and C. V. Hollot
Work in Progress - Can the Tablet PC Provide New Opportunities to Learn? ................................................................. Deborah Olsen, Kimberly Filer, Joseph G. Tront and Glenda Scales
Work in Progress - the Fundamental Research of Cyberworlds: Potentials of Open-source-style-education for Social Revolution ........................................................................................................................................ Masaya Osaki
Knowledge Maps and Their Application to Student and Faculty Assessment ................................................................. Ricky Castles, Vinod K. Lohani and Pushkin Kachroo
Work in Progress - Process Education: Growing Performance Across Domains ................................................................. Daniel Mitchell Litynski and Daniel Kenneth Apple

SESSION S4B: ASSESSMENT 4

Work in Progress - Web-based Implementation of Capstone Engineering Design Assessments................................................................. Denny Davis, Howard Davis, Steven Beyerlein, Phillip Thompson, Olakunle Harrison and Michael Treviran
Incorporating Service Learning Into Programmatic Assessment
Kenneth R. Price

Analyzing the Transition of Learners’ Motivation to Learn Programming
Hidekuni Tsukamoto, Hideo Nagumo, Yasuhiro Takemura and Kenichi Matsumoto

Work in Progress - A Case Study of Perception and Learning Barriers of Students in Non-major Engineering Courses
Qaiser Malik, Punya Mishra and Michael Shanblatt

Outcomes of the University of Wisconsin-Madison's Campus-based Sessions of Leadershape®
Julie Zogg and Mark Mastalski

Preliminary Results on the Implementation of Outcome-based Education on the Non-examinable Computer Engineering Modules
Wahidah Mansor, Hadzli Hashim, Syahrul Afzal Che Abdullah, Mohd Uzir Kamaluddin, Mohd Fuad Abdul Latip, Ahmad Ihsan Mohd Yassin, Titik Khawa Abdul Rahman, Zuhaina Zakaria and Mahanijah Md Kamal

SESSION S4C: ETHICS

Systematic Approach to Ethical Decision Making Using Matrices
George Wise, William Keat, Robert Balmer and Philip Kosky

Social, Ethical and Global Issues in Engineering
Efrain O’Neill-Carrillo, William Frey, Luis Jimenez, Miguel Rodriguez and David Negron

Work in Progress - Development and Assessment of an Introductory Research Ethics Module
Efrain O’Neill-Carrillo, Jorge J. Ferrer, William Frey, Erika Jaramillo and Luis Jimenez

Work in Progress - Building the Survey of Engineering Ethical Development (Seed) Instrument
Janel Sutkus, Donald Carpenter, Cynthia Finelli and Trevor Harding

Work in Progress - Ethical Model Eliciting Activities (E-MEA) Extending the Construct
Larry J. Shuman, Renee M. Clark, Mary Besterfield-Sacre and Tuba Pinar Yildirim

Work in Progress - Introducing Graduate Students to Ethical Deliberation and Case Analysis in Research Ethics
Didier M. Valdés, Erika C. Jaramillo and Jorge J. Ferrer

SESSION S4D: FACULTY DEVELOPMENT

Classroom Artifacts: Tools to Assess the Use of Active, Innovative, and Engaging Pedagogies Among Engineering Faculty
Michael R. Tomlinson and Norman L. Fortenberry

Acceptance of Tablet PC Technology by Engineering Faculty
Roxanne Toto, Kyu Yon Lim, Hien Nguyen, Sarah Zappe and Tom Litzinger

Faculty Development Strategies for Overcoming the "Curse of Knowledge"
Jeff Froyd and Jean Layne

Opportunities and Challenges in Professional Education-related Faculty Development in the US
Tristan T. Utschig and Dirk Schaefer
Work in Progress - Integrating Mobile Tablet-PC Technology and Classroom Management Software in Undergraduate Electronic Engineering Technology Courses ..........................1694
Kuldeep S. Rawat, George B. Riddick and Lakiesha J. Moore

Work in Progress - Enhancement of Problem Solving Techniques with Tablet PC-based Learning Technologies .................................................................1696
Kenneth Stanton

SESSION S4E: INTERNATIONAL EXCHANGE AND STUDY ABROAD PROGRAMS

Brazilian Engineering Exchange Program ........................................................................................................................................1698
C. Raubenheimer and Robert E. Young

Internationalizing the Curriculum: Developing Travel Courses for Global Awareness ..............................................................1704
Daniel Farkas and Narayan Murthy

Development of a Required International Experience for Undergraduate Engineering Students ........................................................................................1709
Lester A. Gerhardt and Richard N. Smith

Globalization of the Union College Engineering Programs ...................................................................................................................1714
Thomas K. Jewell and John M. Spinelli

Work in Progress - Agent Based Social Simulations by Cross-cultural Student Teams .................................................................1720
Alfonso Duran, Rahul De, Isabel García, Esmeralda Giraldo and Manuel Castro

Exposing Undergraduate Engineering and Computer Science Students to the Asian Business Culture in a Project-based Abroad Program: an Assessment of Program Challenges ..........................................................................................1722
Cynthia C. Fry and Gregory W. Leman

SESSION S4F: DIVERSITY ISSUE IN CSET EDUCATION

Female Students Assess Software Tutors More Positively Than Male Students .................................................................1728
Amruth N. Kumar

Impact of the Posse Program on the Academic Integration of Minority Engineering Students ........................................................................................................1734
Sharon A. Jones and Martha Were

Work in Progress - An Online Support System for Women in Computer Science ..................................................................................................................1740
Sriram Mohan and Archana Chidanandan

Broadening Participation in Computing: K12-community-college-university-graduate Pathways ........................................................................................................1742
W. Richards Adrion, Sharon Biskup, Deborah Boisvert, Lori Clarke, Jane Fountain, Priscilla Grocer, Sue Mackler, Alan R. Peterfreund, Kenneth A. Rath, Adrienne Smith, Dianne D. Snyder and Alana Wiens

Work in Progress - Effect of Climate and Pedagogy on Persistence of Women in Engineering Programs ..................................................................................................................1748
Susan M. Lord, Catherine E. Brawner, Michelle M. Camacho, Richard A. Layton, Russell A. Long, Matthew W. Ohland and Mara H. Wasburn
SESSION S4G: ENGINEERING EDUCATION TOPICS 4

Outcomes-based Assessment in Engineering Education: A Critique of Its Foundations and Practice
Donald C. Woolston ................................................................. 1752

Assessment Methods for the Upcoming ABET Accreditation Criteria for Computer Science Programs
Charles R. Lang and Hakan Gurocak ............................... 1757

Work in Progress - Lifelong Learning and Information Retrieval Practices in Materials Science and Engineering
Marie C. Paretti and Michael Asaro ........................................... 1763

Educational Characteristics of Adult Students in Portuguese Technological Schools
Ana Maria Ramalho Correia, Dulce Magalhães de Sá, Ana Cristina Costa and Anabela Sarmento .......................... 1765

An Intelligent and Contextual Information Retrieval Environment for Lifelong Learning
Luis Carlos Costa Fonseca, Crediné Menezes, Rosa Maria Vicari and Jônatas Barbosa Soares ......................... 1771

The Discourse of Engagement: An Approach to Analyzing Conceptual Understanding in an Inquiry-based Learning Environment
Kerrie Kephart ........................................................................ 1776

SESSION S4H: ENGINEERING, ENGINEERING EDUCATION AND PHILOSOPHY

The Psychology of ‘OUGHT’
Trevor S. Harding ..................................................................... 1782

Screening Curriculum Aims and Objectives Using the Philosophy of Education
John Heywood ....................................................................... 1788

Philosophy Matters in Engineering Studies
William Grimson, Murphy Mike, Steen Hyldgaard Christensen and Erik Erno-Kjolhede .......................... 1794

Philosophy and Engineering Education. a Review of Certain Developments in the Field
John Heywood .................................................................... 1800

What Do We Know? How Do We Know It? an Idiosyncratic Readers Guide to Philosophies of Engineering Education
Karl A. Smith and Russell F. Korte ........................................ 1806

Philosophy of Technology in Engineering Education
Roy T.R. McGrann ................................................................. 1810

SESSION S4J: COMPUTER AND WEB BASED SOFTWARE 4

Work in Progress - Software Engineering Capstone Project with Rational Unified Process® (RUP)
Jan Bergandy ............................................................................ 1816
Work in Progress - New Data Structure in Scorm 2004 Sequencing & Navigation

Eduard Céspedes-Borràs, Lluís Vicent and Marc Segarra

Work in Progress - How Building Informational Modeling May Unify it in the Civil Engineering Curriculum

Michael J. Casey

A Simple But Realistic Assembly Language for a Course in Computer Organization

Eric Larson and Moon Ok Kim

Transformation of a Collaborative Virtual Reality Environment for Construction Scheduling to Help Individual with Mental Health Issues

Andrew Strelzoff and Tulio Sulbaran

Work in Progress - Novelty in a Numerical Methods Course

Julie A. Reyer
