IEEE International Conference on e-Business Engineering

(ICEBE 2008)

Xi’an, China
22 – 24 October 2008
# TABLE OF CONTENTS

## ICEBE 2008 LONG PAPER SESSIONS

### SESSION 1: SOFTWARE ENGINEERING FOR E-BUSINESS- I

**Architectural Design of the Online Auction System with AOSAD** ................................................................. 1  
*Wen Jing, Ying Shi, NiYou Cong, Zhang LinLin*

**Determining the Level of Perceived Risk in e-business Web 2.0 Interactions** ................................................ 9  
*Omar Hussain, Elizabeth Chang, Tharam Dillon, Farookh Hussain*

**Service-Oriented User Interface Modeling and Composition** ........................................................................ 17  
*Wei-Tek Tsai, Qian Huang, Jay Elston, Yinong Chen*

**A Model-Driven SOA Implementation of Multi-Channel Websphere Commerce Gift Center** .......................... 25  
*Yew-Huey Liu, Jih-Shyr Yih, Florian Pinel, Trieu Chieu*

### SESSION 2: SOFTWARE ENGINEERING FOR E-BUSINESS- II

**Performance Implications of Next-Generation Multi-processing Platforms on e-Business Server Applications** .................................................................................................................. 31  
*Qi Ming Teng, Xiao Zhong, Ying Li, Ying Chen*

**A Component-Oriented Development Approach to E-Business Applications** .................................................. 39  
*Wang Chu, Depei Qian*

**Context-Driven Business Process Adaptation for Ad Hoc Changes** ............................................................... 47  
*Xia YongLin, Wei Jun*

**Context-Aware Distributed Reputation Management System** ........................................................................... 55  
*Jinhwan Lee, Kwei-Jay Lin*

### SESSION 3: DATA MANAGEMENT FOR E-BUSINESS- I: SERVICE DATA

**A Federated UDDI System for Concurrent Access to Service Data** ................................................................. 63  
*Qianhui Liang, Jen-Yao Chung*

**Service-Enabled Automatic Framework for Testing and Tuning Multi-tier System** ....................................... 71  
*Dong Jun Lan, Pei Ni Liu, Jun Hou, Meng Ye, Leslie S. Liu*

**Supporting Crisis Management Processes by Wirelessly Interconnected Tablet-PCs** ................................. 79  
*Cláudio Sapateiro, Pedro Antunes, Gustavo Zartia, Nelson Baloián, Rodrigo Vogt*

**A Study and Performance Evaluation of the Multi-Tenant Data Tier Design Patterns for Service Oriented Computing** ........................................................................................................... 86  
*Zhi Hu Wang, Chang Jie Guo, Bo Gao, Wei Sun, Zhen Zhang, Wen Hao An*
SESSION 4: DATA MANAGEMENT FOR E-BUSINESS- II: DATA MODELS

A Model-Driven Object Store ................................................................. Liangzhao Zeng, Hui Lei, Trieu Chieu, Henry Chang 94
Answering an Inquiry from Heterogeneous Contexts .......................... Jingzhi Guo, Zhuo Hu, Grigoris Antoniou, Chi-Kit Chan 102
A Data Model for Heterogeneous Data Sources ............................... Chaiyaporn Chirathamjaree 110
An Adapted Alternation Approach for Recommender Systems .......... Carme Julià, Angel D. Sappa, Felipe Lumbreras, Joan Serrat, Antonio López 117

SESSION 5: DATA MANAGEMENT FOR E-BUSINESS- III: KNOWLEDGE IN DATA

The New CIO: From Technician to Business Strategist and the Implications for E- Commerce ............................................................... Andres Fortino 125
URL Rule Based Focused Crawler ....................................................... Xiaolin Zheng, Tao Zhou, Zukun Yu, Deren Chen 133
Constrained Skyline Computing over Data Streams ....................... Jin-xian Lin, Jing-jing Wei 141

SESSION 6: SERVICE ENGINEERING- I: SERVICE DISCOVERY AND DESCRIPTION

Towards Personalized Ranking in Web Service Selection .................. Wenge Rong, Kecheng Liu, Lin Liang 148
Metadata Discovery for a Service-Broker Architecture ...................... Raymond Farmer, Adam Raybone, Rehan Uddin, Michael Odetayo, Kuo-Ming Chao 156
A Run-Time Service Discovery Tool for Web Services Compositions .... Mohsen Rouached, Claude Godart 162
Structured NL Representation for Bridging the Knowledge Gap in Semantic Web Services .... William Song, Joe Geldart 171

SESSION 7: SERVICE ENGINEERING- II: SERVICE MODEL AND COMPOSITION

A RESTful Architecture for Service-Oriented Business Process Execution Santhosh Kumaran, Rong Liu, Pankaj Dhoolia, Terry Heath, Prabir Nandi, Florian Pinel 178
Automated Configuration of System Infrastructure for SOA-Based Enterprise Computing Thomas Phan, Wen-Syan Li 186
Ensuring the Consistent Concurrent Execution of Service Composition under Relaxed Isolation Li Lin, Zongtao Zhao, Hua Zhong, Jun Wei 194
A Formal Approach to Devising a Practical Method for Modeling Reusable Services ........................................202

Jin Sun Her, Hyun Jung La, Soo Dong Kim

SESSION 8: SERVICE ENGINEERING- III: SERVICE-ORIENTED APPLICATIONS AND QOS

A General QoS Error Detection and Diagnosis Framework for Accountable SOA ........................................210

Soo Ho Chang, Kwei-Jay Lin

Robust Application-Level QoS Management in Service-Oriented Systems .....................................................218

Qianhui Liang, Hoong Chun Lau, Xindong Wu

ACORD Standards Based SOA Solution for Insurance Industry - Combine ACORD eForms with Business Services through XForms Standard ..............................................................226

Qiang Wang, Ying Chun Guo, Min Li, Xiao Feng Zhao

A Service Engineering Approach to a Mobile Parking Guidance System in uHealthcare ........................................234

Weider D. Yu, Margaret Chan

SESSION 9: TRUST EVALUATION AND REAL-TIME TRANSACTIONS

The Evaluation of Situational Transaction Trust in E-Service Environments .......................................................241

Yan Wang, Ee-Peng Lim

AHP-Based Multi-Dimension Credit Evaluation Model for E-Commerce .........................................................249

Xiang Chen, Yi Liu, Hao Sun

A Real-Time Payment Scheme for SIP Service Based on Hash Chain .............................................................255

Jianguo Hao, Jia Zou, Yiqi Dai

SESSION 10: PRIVACY PRESERVING AND SECURITY EVALUATION

PGMAP: A Privacy Guaranteed Mutual Authentication Protocol Conforming to EPC Class 1 Gen 2 Standards .................................................................263

Jiahao Wang, Edward C. Wong, Terry Ye

Privacy Preserving in Ubiquitous Computing: Challenges & Issues .................................................................271

Tinghuai Ma, Shin-Dug Kim, Jun Wang, Yawei Zhao

How to Trust DRE Voting Machines Preserving Voter Privacy ........................................................................276

Yunho Lee, Seungjoo Kim, Dongho Won

Security Weaknesses in Chang and Wu’s Key Agreement Protocol for a Multi-Server Environment ..................282

Youngsook Lee, Dongho Won

SESSION 11: MOBILE AND PERVERSIVE COMMERCE- I

SmartRF-A Flexible and Light-Weight RFID Middleware .................................................................................289

Anirudh Ghayal, Zubair Khan, Rajat Moona

New Programming Model for Pervasive Computing .........................................................................................297

Qingsong Yao, Shan Chang, Yong Qi, Li Ming
SESSION 12: INDUSTRY EXPERIENCE AND APPLICATIONS- I

Applying Pattern Approach for Solution Architecture Design: A Case Study in Retail
Solution ..........................................................321
Xin Zhang, Zhongjie Li, Wei Sun, Zhongbo Jiang, Jonathan Adams, Paul Verschueren

A Web Services Integration to Manage Invoice Identification, Metadata Extraction, Storage and Retrieval in a Multi-tenancy SaaS Application ..........................................................329
Thomas Kwok, Jim Laredo, Sridhar Maradugu

A Supplier Performance Evaluation Solution for Proactive Supplier Quality Management ..........337
Sai Zeng, Mitchell A. Cohen, Benjamin J. Steele, Jakka Sairamesh

Applying SOA and Web 2.0 to Telecom: Legacy and IMS Next-Generation Architectures ........344
Rebecca Chen, Victor Shen, Tony Wrobel, Christina Lin

ICEBE 2008 SHORT PAPER SESSIONS

SESSION 13: SOFTWARE ENGINEERING FOR E-BUSINESS- III

Modeling Electronic Money Dynamics: A Complex System Perspective ................................350
Hao Sun, Yueting Chai, Yi Liu

Managed Business Artifacts ..........................................................355
Anil Nigam, Jun-Jang Jeng, Tian Chao, Henry Chang

A Framework of User Model Based on Semi-Supervised Techniques ................................361
Xiaoqian Ding, Yuancheng Li, Yinniang Zhao

Agile Partner Selection Based on Meta-heuristic Algorithm ..........................................................367
Zheng Lin, Lubin Wang

SESSION 14: DATA MANAGEMENT FOR E-BUSINESS- IV: DATA COLLECTION, SEARCHING AND MONITORING

Automatic Product Information Acquisition for Supermarkets Using Internet and RF Wireless Network ..........................................................373
Lin-Song Weng, Ching-Lung Lin, Hsueh-Hsien Chang

BPMN-Based Modeling of B2B Business Processes from the Neutral Perspective of UMM/BPSS ..........................................................379
Hyoung Do Kim

Structural Analysis of R & D Division from Patent Documents ..........................................................385
Yurie Iino, Yasuhiro Yamada, Sachio Hirokawa

Real-time Performance Monitoring for an Enterprise Information Management System ........391
Trieu C. Chieu, Liangzhao Zeng
SESSION 15: SERVICE ENGINEERING- IV: SERVICE-ORIENTED SYSTEM IMPLEMENTATION

A Disclosure Framework for Service Accountability in SOA ................................................................. 397
Joe Zou, Christopher J. Pavlovski, Yan Wang

Design Support for Advanced Network Programming Applications .................................................. 403
Dionisis Adamopoulos

Data Messaging Based Approach for Web Service Composition ....................................................... 409
Nawal Guermouche, Boualem Benatallah, Claude Godart

Access Control for Human Tasks in Service Oriented Architecture ................................................. 415
Xin Wang, Yanchun Zhang, Hao Shi

SCPM: Facilitating Process-Centric Deployment in Enterprise System Implementation .................. 421
Qinhua Wang, Changrui Ren, Shao Bing, Jin Dong, Hongwei Ding, Wei Wang

An Amphibian Service-Oriented Agent Model for Cooperative Distributed Systems .................... 427
Ying Daisy Wang, Hamada Ghenniwa, Weiming Shen

SESSION 16: TRUST, PRIVACY AND SECURITY

A Trust and Risk Framework to Enhance Reliable Interaction in E-Commerce .................................. 433
Yan Li, Ming Zhao, Huiping Sun, Zhong Chen

Automated Trust Negotiation Based on Concurrent Zero-Knowledge for e-Business Applications ........ 439
Shangyuan Guan, Xiaoshe Dong, Yiduo Mei, Weiguo Wu, Zhengdong Zhu

Trust Routing Protocol Framework Based on Behavior Assessment for Wireless Sensor Networks .................................................. 445
Huanzhao Wang, Xinjian Zhai, Peijun Chen

Towards Practical Privacy Preserving Technology Adoption Analysis Service Platform ................. 451
Zongwei Luo

Detecting SYN Flooding Agents under Any Type of IP Spoofing ....................................................... 457
Dalia Nashat, Xiaohong Jiang, Susumu Horiguchi

Overview of Security Threats for Smart Cards in the Public Transport Industry ........................... 464
Konstantinos Markantonakis, Keith Mayes, Damien Sauveron, Ioannis G. Askoxylakis

SESSION 17: MOBILE AND PERVERSIVE COMMERCE- II

Supporting High Updates Disk-Based Index in Road Network ......................................................... 472
Liangxu Liu, Weimin Li, Yongming Guo, Jiajin Le

BlueStar: Managed Services for Enterprise Mobility ............................................................................ 478
Steve Mastroianni, David Bantz, Terrence Beuchner, Tom Chefalas, George Edwards, Dongjun Lan,
Gary Leonardi, Leslie Liu, Randy Moulic, Dennis G. Shea, Jinho Song, Drew Wyskida

User-Centered Design and Evaluation of WAP-Based Systems ......................................................... 483
Rahat Ipbal, Nazaraf Shah, Kuo-Ming Chao, Konstantian Karatsivi
SESSION 18: INDUSTRY EXPERIENCE AND APPLICATIONS - II

Strategic Co-operative R&D and Firm Performance in Emerging B2B E-Commerce ......................... 489
Jijiao Jiang, Jingwen Zhang

Cognition Change from Skype Internet Phone User by Qualitative Perspectives .......................... 495
Yung-Chih Yen, Chia-Chen Yen, Jih-Shih Hsu

A Web-based CMS/PDM Integration for Product Design and Manufacturing ............................ 501
Chia-Chen Yen, Chiaming Yen, Jih-Shih Hsu

AIR 2008 IEEE INTERNATIONAL WORKSHOP ON ADVANCES IN RFID

QTS ALOHA: A Hybrid Collision Resolution Protocol for Dense RFID Networks ....................... 506
Yan Xinqing, Yin Zhouping, Xiong Youlun

Surface Acoustic Wave Based Radio Frequency Identification Tags ............................................. 512
Lin Wei, Han Tao, Shui Yongan

Security of an RFID Protocol for Supply Chains ........................................................................... 517
Ton van Deursen, Sasa Radomirovic

Design and Analysis for RFID Authentication Protocol ................................................................. 523
Zhen Zhang, Shijie Zhou, Zongwei Luo

Research on Data Processing in RFID Middleware Based on Event-Driven ................................. 527
Yulian Fei, Gonglian Jin, Ruqi Wu

EM2I 2008 IEEE INTERNATIONAL WORKSHOP ON E-MARKETPLACE INTEGRATION AND INTEROPERABILITY

Ontological User Profiling on Personalized Recommendation in e-Commerce ................................. 531
Siping He, Meiqi Fang

A SOA-Based ARIS Model for BPR ............................................................................................... 536
Chen Li, Jiayin Qi, Huaying Shu

A New Credit Based Micropayment Scheme ............................................................................... 542
Fuqing Wang, Wei Dong, Yindong Ji

From Information Processing to Information Flow: Application to Consumer Mind ..................... 548
Sabah Al-Fedaghi

Research on Credit Evaluation Model and Algorithm for B2B e-Commerce ............................... 552
Chunhui Piao, Changyou Zhang, Xufang Han, Jing An

SOAIC 2008 IEEE INTERNATIONAL WORKSHOP ON SERVICE-ORIENTED APPLICATIONS, INTEGRATION AND COLLABORATION

SESSION SOAIC-1: SERVICE-ORIENTED APPLICATIONS AND INTEGRATION

IT and Business Integration through the Convergence of Virtualization, SOA and Distributed Computing ................................................................. 556
Jackson He, Enrique Castro-Leon
Applying Service-Oriented Architecture into an Augmented Reality E-business System

Rui Wang, Xiangyu Wang

Qos-aware Service Selection Under Consumer’s Reputation

Ping Wang, Kuo-Ming Chao, Chi-Chun Lo, Yinsheng Li

A Peer-to-Peer e-Market Organized within Mobile Devices Based on Distributed Services

Zhou Yu, Fang Zhiyuan, Li Ning

An Agent Based Wrapper Mechanism Used in System Integration

Chenguang Zhao, Qingshan Li, Meisheng Wang, Yingqiang Wang, Yuping Li

SESSION SOAIC-2: SERVICE-ORIENTED MODELING AND DEVELOPMENT

Verifying Service-Oriented Requirements Using Model Checking

Xiaoxia Cao, Huaikou Miao, Qingguo Xu

A Scripting Language Used for Defining the Integration Rule in Agent System

Hua Xing, Qingshan Li, Yingqiang Wang, Chenguang Zhao, Shaojie Mao, Guilin Zhang

A Service-Oriented Development Platform with Precise Service Discovery

Gang Liu, Xiaoyan Wu, Enmei Tang, Qianhui Liang, Yinsheng Li

Modeling and Analyzing Composite Semantic Web Service Using Petri Nets

Huaikou Miao, Tao He, Zhongsheng Qian

On Web Service Construction Based on REpresentation State Transfer

Jin Zhang, Feng-lin Li, Chi-Hung Chi

SOKM 2008 IEEE INTERNATIONAL WORKSHOP ON SERVICE-ORIENTED KNOWLEDGE MANAGEMENT

An Empirical Study of Information Service Quality Evaluation Factors System

Zhiyuan Fang, Huiyang Zhang, Kaiyin Huang, Yu Zhou

HAWK: A Focused Crawler with Content and Link Analysis

Xiaoyan Chen, Xin Zhang

A Wiki Service for Investment Knowledge Management

Toward Tourist Service Integration and Personalization with Semantic Web Services: A Case Study in Hong Kong

Ka Cheuk Wu, Dickson K.W. Chiu

BIMA 2008 IEEE INTERNATIONAL WORKSHOP ON BUSINESS INTELLIGENCE METHODOLOGIES AND APPLICATIONS

SESSION BIMA-1: BI METHODOLOGIES AND APPLICATIONS - I

Towards a Data Warehouse Contextualized with Web Opinions

Juan Manuel Pérez, Rafael Berlanga, Maria José Aramburu, Torben Bach Pedersen

A Framework for Business Data Analysis

Takashi Suenaga, Shoko Takahashi, Miho Saji, Junko Yano, Kei-ichiro Nakagawa, Jun Sekine
Bringing Business Objects into Extract-Transform-Load (ETL) Technology ................................................. 642
   Huong Morris, Hui Liao, Sriram Padmanabhan, Sriram Srinivasan, Phay Lau, Jing Shan, Ryan Wisnesky

An Integrated Use of CWM and Ontological Modeling Approaches towards ETL Processes................. 648
   Anh-Duong Thi Hoang, Binh Thanh Nguyen

SESSION BIMA-2: BI METHODOLOGIES AND APPLICATIONS-II

Ascertaining the Semantic and Linguistic Level of Perceived Risk in e-Business Interactions ................................................................. 654
   Omar Hussain, Elizabeth Chang, Tharam Dillon, Farookh Hussain

Seamless User-Interface for Business Intelligence .................................................................................. 659
   Jan Seeburger, Achim P. Karduck, Asarnusch Rashid

Business Process and Risk Models Enrichment: Considerations for Business Intelligence ...................... 663
   Amadou Sienou, Achim P. Karduck, Elyes Lamine, Hervé Pingaud

Modeling Online User Behavior ........................................................................................................... 667
   Alfredo Milani, Judith Jassó, Silvia Suriani

DKEEE 2008 IEEE INTERNATIONAL WORKSHOP ON DATA AND KNOWLEDGE ENGINEERING FOR E-SERVICE AND E-BUSINESS

SESSION DKEEE-1: E-BUSINESS MANAGEMENT ENABLING TECHNOLOGIES (LONG)

Efficient Algorithms for Selecting Optimal Data Collection Locations in Business Process Management .................................................................................................................. 673
   Yue Zhang, Kwei-Jay Lin

Ontology Evolution Issues in Adaptable Information Management Systems .............................................. 679
   Yinglin Wang, Xijuan Liu, Rongwei Ye

Research of Reflective Component Model Based on the Separation of Multidimensional Concerns ......................................................................................................................... 685
   Gang Xiao, Rongchun Ruan, Jiawei Lu, Fei Gao, Yuanming Zhan

SESSION DKEEE-2: MODELING IN SOA AND GRID ENVIRONMENT (SHORT)

Visualized Monitoring of Virtual Business Process for SOA ........................................................................ 691
   Tiejun Ou, Wei Sun, Changjie Guo, Jing Li

An Extended SOA Model for Customer-Centric E-Commerce .................................................................... 695
   Garyfallos Fragidis, Konstantinos Tarabanis

An Integrated Development Environment for Synthesising Web Services .............................................. 700
   Dionisios Adamopoulos

GMDBSCAN: Multi-Density DBSCAN Cluster Based on Grid ..................................................................... 704
   Chen Xiaoyun, Min Yufang, Zhao Yan, Wang Ping

Author Index
