2007 1st International Conference on Digital Society

(ICDS 2007)

Guadeloupe, French Caribbean
2-6 January 2007
First International Conference on the Digital Society
ICDS 2007 Program

Preface
ICDS Advisory Committee
ICDS Technical Program Committee
EKNOW 2007 Technical Program Committee
TELEMED 2007 Technical Program Committee

TELEMED1

Digitized Bio-physical Therapy of Skin .................................................................001
V. Resl, M. Leba, A. Lojek, M. Číž, P. Hyršl, L. Palko, and I. Rampl

Quality of Service in Telemedicine .................................................................005
Priyadarsi Nanda and Rohan C. Fernandes

Smart Homecare System for Health Tele-monitoring .............................................011
Peter Leijdekkers, Valérie Gay, and Elaine Lawrence

TELEMED2

Use of Smart Phone Technologies to Offer Easy-to-Use and Cost-Effective Telemedicine Services .................................................................016
A. Holopainen, F. Galbiati, and K. Voutilainen

A Practical Synthesis of Dynamic Role Settings in Telecare Services ......................021
Ying Liu and Jean Bacon

Wireless Technologies and Architectures for Health Monitoring Systems ....................027
Doan B. Hoang

EKNOW

Business Process Modeling and Requirements Modeling .................................033
Heinrich C. Mayr, Christian Kop, and Daniela Esberger

An Ontological Model for Knowledge Management through Concept Composition ..........037
Maryam Tayefeh Mahmoudi, Kambiz Badie, and Kourosh Neshatian

Automatic Acquisition of Translation Knowledge Using Structural Matching between Parse Trees .................................................................043
Werner Winiwarter

A Multi-attribute Decision Support Model for Learning Management Systems Evaluation......049

Tanja Arh and Borka Jerman Blažič

ICDS1

Longitudinal Study of Mobile Technology Adoption: Evolution at Work .........................054
Elaine Lawence and Michael Er

PocketPad: Using Handhelds and Digital Pens to Manage Data in Mobile Contexts..........061
Emory Al-Imam and Edward Lank

Preliminary Level Cardiac Abnormality Detection Using Wireless Telecardiology System.....067

How to Combine the Online Community with Ask the Expert System in a Health Care Site – A Comparison of Online Health Systems Usage.................................................................072
Asa Smedberg

ICDS2

New Approach for Cellular Network Improvement..........................................................076
Stanislav Milanovic

Incorporating Clusters into Hybrid P2P Network................................................................081
Ertao Lv, Zhenhua Duan, Jian-Jun Qi, Yang Cao, and Zhuo Peng

HP2P: A Hybrid Hierarchical P2P Network.....................................................................086
Zhuo Peng, Zhenhua Duan, Jian-Jun Qi, Yang Cao, and Ertao Lv

On Burst Loss in Optical Burst Switched Networks with Hot Potato Deflection Routing ......091
Stein Gjessing

ICDS3

Enhanced e-Services through Partnerships - Increasing the Value of Public Infrastructure Investments .................................................................097
Lasse Berntzen

Improving International e-Customs - The European ITAIDE Initiative ..............................102
Eveline van Stijn, Niels Bjørn-Andersen, Liana Razmerita, and Helle Zinner Henriksen
An Approach for Backbone Upgrading Technology Selection Based on Techno-economic Evaluation Model

Borka Jerman-Blazič and Tomaž Turk

The Need for a Customer-centric Approach for Services Development and Operation in the Brazilian Telecommunications Market

Luiz Faro and Edison Spina

ICDS4

High Performance Seamless Channel Transition Video-Broadcasting Scheme

Yong Wang, Junzhong Gu, Kai-Zhong Jiang, and Zi-Cheng Li

A Proposed Approach for Quality of Experience Assurance for IPTV

Marcio Nieblas Zapater and Graça Bressan

Improvement of Accuracy of 3D Structure Reconstruction from Interlaced Video Sequence

Ichiro Yuyama, Yuta Takano, Masami Sobata, Yoko Seki, Hiroshi Hasegawa, and Yu Watanabe

A Phase-Based Self-Tuning Algorithm for Reconfigurable Cache

Manman Peng, JiaGuang Sun, and Yuming Wang

ICDS5

SEI-Tur: A System Based on Composed Web-Service Discovery to Support the Creation of Trip Plans

Ulrich Schiel, Cláudio de Souza Baptista, Ana Carolina de Jesus Maia, and Fabio Gomes de Andrade

Long Term Trusted Archive Services - Trusted Archive Service Based on Long-Ter Archive Protocol and Evidence Record Syntax

Aleksej Jerman Blazic

Enabling Privacy in Pervasive Computing Using Fusion of Privacy Negotiation, Identity Management and Trust Management Techniques

Aleksej Jerman Blažič, Kajetan Dolinar, and Jan Porekar

ICDS6

New Solutions for Cell Phone Detection

Hong Du, Dali Zhu, and Degang Sun
On Smart-Care Services: Studies of Visually Impaired Users in Living Contexts ....................162
Ying Liu, Jean Bacon, and Roger Wilson-Hinds

Software Licensing: A Classification and Case Study .............................................................168
Sathiamoorthy Manoharan and Jesse Wu

Tracking Observations: Using Handhelds and Computers for Classroom Observation Logging..172
Hashi Bai, Greydon Buckley, Mark Howard, and Edward Lank
