Matrix Stimulation of Thick Carbonate Formation: High Rate Acid and CT Acid Treatments—A Case History ................................................................. 159
F.D. Rachmawati, R. Andika, T.M. Simanjuntak, A. Aimar, R. Wijaya, P. Abubakar

Lean Duplex Materials for Line Pipe Applications in Sweet and Slightly Sour Environments ........................................................................................................ 171
I. Rommerskirchen, S. Lemken, R. Hoffmann

Controlling Gas Channeling and Altering it to a Kind of Natural Gas Lift in an Iranian Offshore Oil Field .................................................................................... 182
M.D. Nezhad

Better Contracting in Oil & Gas Markets - Finding Mutually Acceptable Ways of Securing the Best Supply Chains in a Tight Market ............................................. 194
K. Nouwailati

Using Crystallized Superabsorbent Copolymer for Plugging High-Permeability Channeling and Vugular Communication ........................................................................ 199
P. Albidrez, E.D. Dalrymple, J. Vasquez, A.E. Adokpaye

Data Architecture of Real-Time Drilling and Completions Information at Saudi Aramco ............................................................................................................. 216
M.M. Khudiri, M.A. Shehry, J.D. Curtis

Downhole Fluid Analysis Integrating In situ Density and Viscosity Measurements - Field Test from an Oman Sandstone Formation ...................................................................... 224
M. Khalil, H. Rumhi, M. Randrianavony, K. Cig, O.C. Mullins, S. Godefroy

Utilization of Acoustic Logging Technology to Identify Failed Barriers in Offshore Wells .............................................................................................................. 233
F. Shnaib, P. Beaumont-Smith, T. Alagba, K.K. Nasr

Help Them Grow or Watch Them Go! ................................................................................................................................. 240
S.H. Qutob

Horizontal Well Performance Optimization using Linearized Inflow Control Devices .............................................................................................................. 244
D. Krinis, N. Al-Dawood, Y. Soremi

Managing Water and Gas Production Problems in Cantarell: A Giant Carbonate Reservoir in Gulf of Mexico .................................................................................... 251
T.S. Daltaban, A.M. Lozada, P.A. Villavicencio, F.M. Torres

A New Approach to Dealing With High Pressure Cemented Annulus in Re-Entry Wells .................................................................................................................. 270
J.A. Ashhab, N. Khan, D. Boyd

Combination of a Unique Stabilized Bi-Center Bit and Vibration Dampening Tool Improve Hole Opening Performances Through Interbedded Formations in Saudi Arabia .................................................................................................................. 275
J. Al Thuwaini, M. Emad, W. Mohamed, R. Chafai, A. Murdock

Solid Expandable Technology for Zonal Isolation of Loss Circulation Formation: Case Study Shuaiba Formation ................................................................................. 288
J. Ekpe, A. Alexeenko, J. Al-Thuwaini, M. Emad, R. Khanlarov

Managing a Successful Exploration Drilling Campaign in Saudi Arabia: A Case History .............................................................................................................. 294
J. Ekpe, A. Alexeenko, A. Zeid, B. Ahmed, G. Haddad
Specific Design Process Associated With Simulation Tools Improve PDC Bi-Centre Application Definition and Deliver Solution in Directional Environment ........................................ 299
M. Al-Umran, M. Al-Hameli, A. Al-Mumen, B. Cuilier, B. Boussa, P. Cortes, A. Dourfaye, H. Boussahba

Evaluation of Miscible and Immiscible Gas Injection in One of the Iranian Fields ............... 313
S. Delfani, A. Mortezapour, A.Q. Firouz, S.R. Shadizade

Interface Management .................................................................................................................... 326
R. Collins, R. Durham, R. Fayek, W. Zeid

New Technique to Cure Losses in UeR Formation in South Oman Field— A Case Study ......................................................... 336
S.K. Mahapatra, E. Stevenson, A. Al Fadhli

Application of Statistical Proxies to Speed Up Field Development Optimization Procedures ........................................................................................................ 342
J. Onwunalu, M. Litvak, L.J. Durlofsky, K. Aziz

Lessons Learned and Management Information used in the Successful Implementation of a Competence Assurance Process .................................................. 356
S. Al Matroushi, R. Kochanczyk, F. Baba-Ali, A.A. Mohammed, K. Al Shekali, J. Verkoelen, J. Dupuis

Novel Approach to High Water Cut Measurement in a Mature Oil Field .................................. 364
C. Sandau, J. Waddell, T. Berthelet

Well Design, Execution & Collaboration: An Operator’s Tool for the Planning and Drilling of a Deepwater Gulf of Mexico Well ......................................................... 371
J.L. Breidenthal, C.A. Ochterbeck

New Application of an Inline Separation Technology in a Real Wet Gas Field ..................... 379
A.A. Hamoud, A. Boudi, S.D. Al-Qahtani

Deployment of a Rotodynamic Multiphase Pump in a Remote Hilly-Terrain Oil Field in Saudi Arabia ........................................................................................................... 384
A.A. Hamoud, A. Boudi, S.D. Al-Qahtani, N. Al-Dayil

Multiphase Well Rate Measurements Applied to Reservoir Analysis .................................... 393
S. Tosic

TAML Level 3 Tri-lateral with Sand Control Application for Saudi Aramco ............................ 400
I. Refai, A. Assal, J. Fould, T. O'Rourke, M.H. Haque, N.S. Akram

Environmental Study for Two Gas Pipelines Through the Baltic Sea .................................... 411
J.R. Valeur, J.B. Larsen, N. Stroebaek

Field Development Plans Optimization by Modeling Fluids Flow Impact and Assessing Intelligent Wells on Reservoir Performance .............................................. 423
E. Elrafie, G.D. Al-Qahtani, M. Agil, A. Rincon, F-M. Colomar

A Successful Process for Embracing Uncertainty and Mitigating Risk - From Geological Understanding to Development Plan Optimization of a Saudi Complex Reservoir .................................. 440
E. Elrafie, I. Zabalza-Mezghani, T. Abbas, Y. Kozlov, R. Craghill

Improved Performance of Downhole Active Inflow Control Valves through Enhanced Design: Case Study ................................................................. 455

Evaluation of the Bitumen Intervals in a Carbonate Reservoir, Case Study in Abu Dhabi Onshore field, UAE ................................................................. 461
M. Haggag, A. Al-Yaaqoobi
Seismic and High-Resolution Sequence Stratigraphy of the Upper Cretaceous Simsima Formation, Onshore Abu Dhabi Oil Field, United Arab Emirates

Comparison of 3D VSP and High Resolution Surface Seismic Images for Improved Reservoir Monitoring and Characterization

SPE International Symposium & Exhibition on Formation Damage Control
T.K. Tarabzouni

Reservoir Rock Typing From Crest to Flank: Is There A Link?

Building a Deterministic 3D Model of Tar Mat deposits in a Carbonate Reservoir in a Geologically Consistent Manner: A Case Study from Offshore Abu Dhabi

Technology Enhancements for the Application of Magnetic Bearings in Critical Wet Sour Gas Applications
R. Gadangi, R. Wu, G. Chevallier, K. Weeber

Reconciling Production Decline With Reservoir Connectivity: Field Study
M. Khasanov, V. Krasnov, A. Petrov, M. Kelkar, A. Bahar

Harnessing the Information Mammoth… New advances in Data Management in Engineering IT
S. Gibbons

A Practical Guide for Identifying and Solving Air Cooled Heat Exchanger Performance Problems in the Field
M. Ellmer

Estimating Cementation Factor (m) for Carbonates Using Borehole Images and Logs
M. Akbar, J. Steckhan, M. Tamimi, T. Zhang

Prediction and Estimation of Capillary Pressure for Wettability and Wettability Variations Within Reservoir
M.N. Derahman, M.K. Zahoor

3D OBC Seismic Survey Parameters Optimization for a Carbonate Field Offshore Abu Dhabi, United Arab Emirates

Normalized and De-Normalized PVT Methodology for Black Oil Simulation
Y. Dabbour, I. Sener, M. Al Marzouqi

The Application of High Integrity Protection Systems to Prevent Topside Overpressure which Caused by Water Injection
J. Wang, W. Lili, L. Yonghao, Z. Yueping

HSE Management in a Drilling Environment
A. May, A. Moonen, S. Logan, J. Allinson

Challenges of Optimizing Oil Recovery of “Tight Carbonate” Reservoir Onshore Abu Dhabi Oil Field, United Arab Emirates
