American Concrete Institute

Internal Curing of High-Performance Concretes: Laboratory and Field Experiences

Session at the ACI Fall Convention 2007

ACI Special Publications Series SP-256

October 14-18, 2007
Fajardo, Puerto Rico

Printed from e-media with permission by:
Curran Associates, Inc.

Some format issues inherent in the e-media version may also appear in this print version.
DISCUSSION of individual papers in this symposium may be submitted in accordance with general requirements of the ACI Publication Policy to ACI headquarters at the address given below. Closing date for submission of discussion is March 2009. All discussion approved by the Technical Activities Committee along with closing remarks by the authors will be published in the July-August 2009 issue of either the ACI Structural Journal or the ACI Materials Journal depending on the subject emphasis of the individual paper.

The Institute is not responsible for the statements or opinions expressed in its publications. Institute publications are not able to, nor intended to, supplant individual training, responsibility, or judgment of the user, or the supplier, of the information presented.

The papers in this volume have been reviewed under Institute publication procedures by individuals expert in the subject areas of the papers.
# TABLE OF CONTENTS

**SP-256—1**
Autogenous Control of Autogenous Shrinkage

A. Durán-Herrera, N. Petrov, O. Bonneau, K. Khayat, and P.-C. Aïtcin

**SP-256—2**
Internal Curing Study with Intermediate Lightweight Aggregate

W.A. Pyc, M.A. Caldarone, D. Broton, and D. Reeves

**SP-256—3**
Pre-soaked Lightweight Fine Aggregates as Additives for Internal Curing in Concrete

Y. Wei and W. Hansen

**SP-256—4**
Internal Curing—Real World Ready Mix Production and Applications: A Practical Approach to Lightweight Modified Concrete

V.H. Villarreal

**SP-256—5**
The Influence of Internal Curing on Basic Creep and Autogenous Shrinkage

M. Lopez, L.F. Kahn, and K.E. Kurtis

**SP-256—6**
Internal Curing of Concrete Paving: Laboratory and Field Experience

T. Friggle and D. Reeves

**SP-256—7**
Internal Curing and Microstructure of High-Performance Mortars

D.P. Bentz and P.E. Stutzman

**SP-256—8**
Evaluating High Absorptive Materials to Improve Internal Curing of Concrete

N. Delatte, D. Crowl, E. Mack, and J. Cleary

**SP-256—9**
Effect of Blended Cements on Effectiveness of Internal Curing of HPC

D. Cusson
