Proceedings of the

2008 Second International Conference on Future Generation Communication and Networking

13-15 December 2008 / Hainan, China
TABLE OF CONTENTS

FGCN 2008 INFORMATION

Distributed Collaborative Control Using Wireless Sensor and Actuator Networks ........................................1
  Xianghui Cao, Jiming Chen, Yang Xiao, Youxian Sun

C-NMSP: A High Performance Network Management Service Platform for Complex
  Event Processing ........................................................................................................................................5
  Ding Kun, Zhang Xiaoyi, Deng Bo

Joint Application and Network Defense against DDoS Flooding Attacks in the Future
  Internet ................................................................................................................................................9
  Roger Karrer, Ulrich Kuehn, Thomas Huehn

NetTopo: Beyond Simulator and Visualizer for Wireless Sensor Networks .............................................15
  Lei Shu, Chun Wu, Yan Zhang, Jiming Chen, Lei Wang, Manfred Hauswirth

A Clustering Head Selection Algorithm for Underwater Sensor Networks ...........................................19
  Chenn-Jung Huang, You-Jia Chen, I-Fan Chen, Kai-Wen Hu, Jia-Jian Liao, Dian-Xiu Yang

GMPR: A Greedy Multi-path Routing Algorithm for Wireless Sensor Networks ...................................23
  Sobhan Masoudi, AmirMasoud Rahmani, Arash Nasiri Eghbali, Ahmad Khademzadeh

A Kernel-Based Localization Approach in Wireless Sensor Networks ......................................................29
  Hao Wu, Jiming Chen, Chengqun Wang, Youxian Sun

An Interference Free Data Aggregation Protocol for Clustered Wireless Sensor Networks ....................33
  Lei Chen, Bao-Hua Zhao

A Hybrid Recommender Approach Based on Widrow-Hoff Learning .................................................38
  Lei Ren, Liang He, Junzhong Gu, Weiwei Xia, Faqing Wu

Universal Video Adaptation Model for Contents Delivery Using Focus-of-Choice Model ......................44
  Svetlana Kim, Yongik Yoon

Adaptive Top-k Query Processing in Intermittently Connected Networks ..............................................48
  Deng Bo, Zhang Hui, Ding Kun, Jiang Guoquan

Assessment and Open-Issues of the Load-Balanced Switching Architecture ........................................52
  Yury Audzevich, Yoram Ofek

A Voronoi Diagram Approach for Mobile Element Scheduling in Sparse Sensor Networks ....................60
  Ruiyun Yu, Xingwei Wang, Sajal K. Das

Geographic Routing in Wireless Multimedia Sensor Networks ............................................................66
  Lei Shu, Yan Zhang, Laurence T. Yang, Yu Wang, Manfred Hauswirth

An Improved Scheme for Delegation Based on Usage Control ............................................................72
  Yongming Jin, Jinjiang Ren, Huiping Sun, Suming Li, Zhong Chen

Simulation Results on Hierarchical Cell Structures .............................................................................77
  Ji Jun, Xiao Hong, Meng Xiang Ping, Xu Jan Ren, Zhao Jie Hong

Performance Modeling and Analysis of the Booting Process in a Transparent Computing
  Environment ........................................................................................................................................81
  Guanfei Guo, Yaxue Zhang, Yuechi Zhou, Laurence T. Yang, Li Wei, Pengwei Tian

A Density-Based Algorithm for Redundant Reader Elimination in a RFID Network ............................87
  Kun-Ming Yu, Chang Wu Yu, Zheng-Yi Lin

Dynamic Sleeping Algorithm Based on AHP for Wireless Sensor Networks ...................................868
    Yutang Min, Laurence T. Yang, Furong Wang, Wenqing Wang

433MHz Wireless Network Technology for Wireless Manufacturing .................................................874
    Dai Qingyun, Bao Hong, Liu Yihong, Liu Zexi, Zhou Ke, Wang Jin
Adaptive Multi-channel MAC Protocol for Dense VANET Using Directional Antennas ..........................879
Xu Xie, Furong Wang, Hao Wang, Kewei Li

FGCN 2008 WORKSHOPS SH 2008

Dynamic Threshold Multi-secret Sharing Scheme Using Elliptic Curve and Bilinear Maps ..................883
Shih-Jeng Wang, Yuh-Ren Tsai, Jian-Jihg Shen

Personalization in Smart Homes for Disabled People .................................................................889
Rachid Kadouche, Mounir Mokhtari, Sylvain Giroux, Bessam Abdulrazaq

Handling Activity Conflicts in Reminding System for Elders with Dementia ...............................894
Kejun Du, Daqing Zhang, Muzaaliff W. Musa, Mounir Mokhtari, Xingshe Zhou

Browsing of Large Video Collections on Personal Video Recorders with Remote Control Navigation Keys .................................................................900
Frode Eika Sandnes, Yo-Ping Huang, Yueh-Min Huang

Deriving Safety Properties for Home Network System Based on Goal-Oriented Hazard Analysis Model ..................................................................................906
Ben Yan, Masahide Nakamura, Ken-ichi Matsumoto

A Context-Sensitive Rule-Based Architecture for a Smart Building Environment ..........................915
John Herbert, John O’Donoghue, Xiang Chen

Environment Recognition Based on Human Actions Using Probability Networks ..........................919
Hiroshi Miki, Atsuhiro Kojima, Koichi Kise

Achieving Socio-technical Confidentiality Using Security Pattern in Smart Homes ..........................925
Pierre Busnel, Paul El-Khoury, Sylvain Giroux, Keqin Li

Discovering Inhabitant’s Context-Dependent Task with Case-Based Reasoning .............................931
Hongbo Ni, Xingshe Zhou, Daqing Zhang, Kejian Miao

The Aware Community ....................................................................................................................935
Howard Wactlar, Robert Walters, John Bertoty, Alex Hauptmann

Toward a Self-Configuration Middleware for Smart Spaces .............................................................941
Charles Gouin-Fallerand, Sylvain Giroux, Bessam Abdulrazaq, Mounir Mokhtari

Unobtrusive Assistant for Elders with Memory Decline ....................................................................947
Haipeng Wang, Xingshe Zhou, Tao Zhang

Quality of Service in the Home Network ........................................................................................951
Dan Jiang, Mo Li

BSBT 2008

A Study on the Development of Customer-Oriented u-City Service Model for u-City Business .................................................................955
Daesik Ko, Joonhong Park

The Study of Location Strategy for Bank’s Branch Network through the Analysis of Inter-regional Financial Transaction Network ........................................................................959
Jae Weon Hong, Won Eui Hong, Yoon Sik Kwak

The Development of Software Pricing Schemata and Its Application to Software Industry in Korea .................................................................................................965
Youngsik Kwak, Yunkyung Lee, Yoonsik Kwak
