Session 1A: Wireless Communication Technology (I)

1. A Performance Evaluation of an RC Polyphase Filter with Parasitic Elements
   Shunsaku MATSUNO, Wahyul Amien SYAFEI, Cosy MUTO, Masayuki KUROSAKI, Hiroshi OCHI
   (Kyushu Institute of Technology, Japan) ................................................................. 3

2. OFDM Channel Estimation based on Gaussian Radial Basis Function Interpolation
   M. Hoseinzade, K. Mohamedpour, S. M. H. Andargoli, H. Shokri. Razaghi (K.N. Toosi University of
   Technology, Iran) ........................................................................................................ 9

3. Behaviors of MIMO UWB-IR Transceiver for Statistical Wireless Channels
   Xu Huang (University of Canberra, Australia) .......................................................... 14

4. An Error Control Scheme of Hybrid ARQ Based on Conception of Plurality Voting
   Chia-Chin Ma (Chang Gung University, Taiwan), Hsin-Kun Lai (Chin Min Institute of Technology,
   Taiwan), Erl-Huei Lu (Chang Gung University, Taiwan) ............................................. 19

5. Orthogonal Pulse Design for UWB Systems with Timing Jitter
   Wilaiporn Lee (King Mongkut’s University of Technology North Bangkok, Thailand), Somchai
   Jitapunkul (Chulalongkorn University, Thailand) ...................................................... 22

6. DP4T CMOS Transceiver Selection for MIMO Systems
   Theera Mekanand, Thanakorn Bumrungkitjaroen, Duangrat Eungdamrong (Thammasat University,
   Thailand) ................................................................................................................... 28

Session 1B: Mobile Communications (I)

1. A Study on Optical Wireless Train Communication System using Mobile Object Tracking
   Technique
   Masato Hiruta, Masao Nakagawa, Shinichiro Haruyama, Shoichi Ishikawa (Keio University, Japan) 35

2. A Cognitive MAC for VANET based on the WAVE Systems
   Seung-eun Chung, Joon Yoo, Chong-kwon Kim (Seoul National University, Korea) ............ 41

3. Supporting Scalable Multiparty Session in P2P based Mobile Instant Messaging
   Yen-Wen Lin (National Taichung University, Taiwan), Li-Su Kuo (National Chiayi University, Taiwan)
   .................................................................................................................................... 47
4. Design of Multi-thread based Scheme in a Flash Translation Layer
Jin-Tae Kim, Dong-Geun Shin (Sungkyunkwan University, Korea) ............................................ 52

5. A New Strategy to Implement Security in an Area using Picocell Base Transceiver Station
S.H. Shah Newaz, Jong Min Lee (Information and Communications University, Korea), Sarwar Jahan,
M.R. Amin (East West University, Bangladesh), JunKyun Choi (Information and Communications
University, Korea) .............................................................................................................. 56

Session 1C: Next Generation Network Technology (I)

1. Internetworking Circuit and Connectionless Networks
Xiuduan Fang, Malathi Veeraraghavan (University of Virginia, USA) ................................. 63

2. NGN Deployment Model for Customized Multimedia Ring Service (CMR)
Heechang Chung, Byun-Ik Choi, Sun-Moo Kang, Yeong ro Lee (National Information Society Agency,
Korea) ................................................................................................................................. 69

3. Cross-Layer QoS Architecture for 4G Heterogeneous Network Services
Jiann-Liang Chen, Ming-Chiao Chen (National Taiwan University of Science and Technology, Taiwan),
Shih-Wei Liu, Jyun-Yu Jhuo (National Dong Hwa University, Taiwan) ........................................... 73

4. ID/LOC Separation Network Architecture for Mobility Support in Future Internet
Nakjung Choi, Taewan You (Seoul National University, Korea), Jungsoo Park (ETRI, Korea), Taekyoung
Kwon, Yanghee Choi (Seoul National University, Korea) .............................................................. 78

5. A Modified Genetic Algorithm for the Optimization of Aggregated Multicast
Hua Wang, Zuquan Ge, Chaoying Yu, Shanwen Yi (Shandong University, China) ...................... 83

6. Cache Server and White List Filtering for the Second Life
Fumikazu Iseki, Moo Wan Kim, Takahiro Uchiyama, Kiho Moon (Tokyo University of Information
Sciences, Japan) .................................................................................................................... 89

Session 1D: RFID & USN Technologies (I)

1. An Application of Wireless Sensor Network to realize Ground Truth
Moo Wan Kim, Kwang Sik Kim (Tokyo University of Information Sciences, Japan) ..................... 97

Networks
Min Chen (University of British Columbia, Canada), Xuedong Liang (University of Oslo, Rikshospitalet
University Hospital, Norway), Victor Leung (University of British Columbia, Canada), Ilangko
Balasingham (Rikshospitalet University Hospital, Norwegian University of Science and Technology,
Norway) .................................................................................................................................... 102

3. Quality of Service (QoS) Classes for Ubiquitous Sensor Networks
A.Koucheryavy (ZNIIS, Russia), A.Prokopiev (JSC Ubitel, Russia) ................................................ 107
4. Inkjet Printed Paper Based Quadrate Bowtie Antennas For UHF RFID Tags
Yasar Amin (Royal Institute of Technology-KTH, University of Oulu, Sweden, Finland), Satu Prokkola (University of Oulu, Finland), Botao Shao, Julius Hållstedt, Hannu Tenhunen, Li-Rong Zheng (Royal Institute of Technology-KTH, Sweden) ................................................................. 109

5. Global Healthcare Monitoring System using 6lowpan Networks
Dhananjay Singh (Dongseo University, Korea), U.S. Tiwary (Indian Institute of Information Technology, India), Hoon-Jae Lee (Dongseo University, Korea), Wan-Young Chung (Pukyoung National University, Korea) ................................................................. 113

Session 1E: Systems & Software Engineering (I)

1. Experiences of Risk Enhanced Value Assessment in a Software Company
Pasi Ojala (Oulu University of Applied Sciences, Finland) ........................................... 121

2. Advanced Designer-Oriented System in VR Environment
HaDong Kim, Byung-Mo Han, Jong Namgung, Dong-Sik Shin (CGWave, Inc., Korea), Hyo-Gun Yoon, Malrey Lee (Chonbuk National University, Korea), Yong-Tae Won (Mokpo National University, Korea), Kyu-Sik Lee (KyungBuk College, Korea) ................................................................. 126

3. Towards Contextual Information Based-Approach to Support Software Reuse System
Hend Ben Hadji, Ho-Jin Choi (Information and Communications University, Korea) ........................................ 132

4. Security Policy Modeling Using Z Notation for Common Criteria Version 3.1
Junkil Park, Jin-Young Choi (Theory and Formal Methods Laboratory, Korea) ..................... 137

5. Integrating Physical Programming to Information Security System Management
Pauline Kongsuwan, Sangmun Shin (Inje University, Korea) ........................................... 143

Session 1F: Network Management, Operation and Maintenance (I)

1. Effective High Speed Traffic Replay Based on IP Space
Dung PHAM VAN, Marat ZHANIKEEV, Yoshiaki TANAKA (Waseda University, Japan) .......... 151

2. QoS Control in Service Delivery in IMS
Muhammad Shoab Siddiqui, Riaz Ahmed Shaikh, Choong Seon Hong (Kyung Hee University) .... 157

3. Research on Survivability in Multi-service-based Multi-domain Optical Networks
Zhao Ji-hong (Xi’an Jiatong University, Xi’an Institute of Posts & Telecommunications, China), Mao Hong-bao, Qu Hua (Xi’an Institute of Posts & Telecommunications, China) ........................................ 161

4. Fast Traffic Anomalies Detection using SNMP MIB Correlation Analysis
Dong Cheul Lee, Byungjoo Park, Ki Eung Kim, Jae Jin Lee (KT, Korea) ................................... 166

5. Exploring the Correlation between P2P Applications and Network Architecture
Chang-Sheng Chen, Ta-Chung Liu, Chun-Hsien Su (National Chiao Tung University, Taiwan) .......... 171
Session 2A: Wireless Communication Technology (II)

1. **Matched Filter Implementation on FPGA for Integrand Code Using a Real-valued Shift-orthogonal Finite-length Sequence**
   Takahiro Matsumoto, Shinya Matsufuji (Yamaguchi University, Japan) ........................................ 179

2. **Gain-Bandwidth Adjusting Technique of A 36.1 GHz Single Stage Low Noise Amplifier using 0.13μm CMOS Process**
   S. M. Shahriar Rashid, Sheikh Nijam Ali, Apratim Roy, A. B. M. H. Rashid (Bangladesh University of Engineering & Technology, Bangladesh) ................................................................. 184

3. **Adaptive Loading in HF Communications**
   Xudong Chen, Shuzheng Xu (Tsinghua University, China) ................................................................. 189

4. **Performance Study of Wireless Universal Serial Bus Transmission System**
   Heng-Te Li, Hao-Yu Chan, Chia-Wei Chao, Wen-Piao Lin (Chang Gung University, Taiwan) .......... 193

5. **A Modified Design of Slot Ring using E-Shape**
   Pongchompoo R., Santitewagul V., Eungdamrong D. (Thammasat University, Thailand) ............. 196

Session 2B: Mobile Communications (II)

1. **SIP Deployment in Integrated Mobile Ad Hoc Networks: Centralized and Quasi-Decentralized Approaches**
   Kirill Balov, Kyoji Kawagoe, Toshikazu Nishimura (Ritsumeikan University, Japan) ................. 203

2. **Application Framework for Multi Platform Mobile Application Software Development**
   Yoonseok Choi, Jin-Seok YANG, Jaewon Jeong (POSTECH, Korea) ........................................... 208

3. **Improved Frequency Channel Borrowing and Locking Algorithm in Cellular Mobile Systems**
   Do Huu Tri (Post and Telecommunication Institute, Vietnam), Vu Duy Loi (Centre of Information Technology Office of Central Committee of Vietnam Communist Party, Vietnam), Ha Manh Dao (Institute of Information Technology, Vietnam) ........................................ 214

4. **B-PMIPv6: PMIPv6 with Bicasting for Soft Handover**
   Ji-In Kim, Seok-Joo Koh (Kyungpook National University, Korea), Nam-Seok Ko (ETRI, Korea) ... 218

5. **Sending Pictures by SMS**
   Mohammad Shirali-Shahreza, Sajad Shirali-Shahreza (Sharif University of Technology, Iran) ...... 222

Session 2C: Next Generation Network Technology (II)

1. **A Method for Performing Connection Admission Control in DiffServ Networks**
   Nguyen Hong Son, Le Huu Lap (Post and Telecom Institute Technology, Vietnam) ...................... 227

2. **Performance Enhancement in Future PON and Mobile Convergence Networks**
   Seung-Hee Lee, Jae Gwan Kim, Min-Ho Kang (Information and Communications University, Korea) 233
3. Handover between Macrocell and Femtocell for UMTS based Networks
   Mostafa Zaman Chowdhury (Kookmin University, Korea), Won Ryu, Eunjun Rhee (ETRI, Korea),
   Yeong Min Jang (Kookmin University, Korea) ................................................................. 237

4. A Study on IEEE 802.21 MIH Frameworks in Heterogeneous Wireless Networks
   Moon Kim, Tae-wook Moon, Sung-joon Cho (Graduate School of Korea Aerospace University, Korea)
   ........................................................................................................................................ 242

5. A Statistical Service Composition Approach based on Hidden Hierarchy Markov Model
   Hao Yang, Hui Xu (GuangDong Electric Power Institute, China), Ying Zhang (Beijing University of Posts
   & Telecommunications, China) ..................................................................................... 247

Session 2D: RFID & USN Technologies (II)

1. Object Identification for Ubiquitous Networking
   Gyu Myoung Lee (Institute TELECOM SudParis, France), Jun Kyun Choi (Information and
   Communications University, Korea), Noel Crespi (Institute TELECOM SudParis, France) .......... 255

2. Effects of Antenna Polarization on RSSI based Location Identification
   Mark Barralet, Xu Huang, Dharmendra Sharma (University of Canberra, Australia) ............. 260

3. Dynamic Prediction Clustering Scheme for Mobile Sensor Node of Sensor Network
   Environment
   YOUNB-BOK CHO, YOON-SU JEONG, SANG-HO LEE (Chungbuk National University, Korea) .. 266

4. WSN Research Activities for Military Application
   Md.Asdaque Hussain, Pervez khan, Kwak kyung Sup (Inha University, Korea) ................... 271

5. Extension of Wireless Sensor Network by Employing RoF-based 4G Network
   Monir Hossen, Byung-Jun Jang, Ki-Doo Kim, Youngil Park (Kookmin University, Korea) .......... 275

Session 2E: Systems & Software Engineering (II)

1. A Practical Case Study of Scenario Analysis for RFID System Implement
   Kuo-shien Huang, Shun-ming Tang (National Yunlin University of Science and Technology, Taiwan) 281

2. Defining Reference Architecture for NTIS Development
   Heeseok Choi, Chulsoo Lim, Jaesoo Kim (KISTI, Korea) ..................................................... 284

3. A Study on Software Component Selection Methods
   Syed Ahsan Fahmi, Ho-Jin Choi (Information and Communications University, Korea) .......... 288

4. Personalized Virtual Machine based on User's Schedule Event
   Kyuchang Kang, Jeunwoo Lee (ETRI, Korea), Hoon Choi (Chungnam National University, Korea) 293

5. Building a Semantic Model of a Textual Document for Efficient Search and Retrieval
   Enkhbold Nyamsuren, Ho-Jin Choi (Information and Communications University, Korea) ....... 298
Session 2F: Network Management, Operation and Maintenance (II)

1. A Validity Tester for Active Measurement Tools
   Myrvin YAP, Marat ZHANIKEEV, Yoshiaki TANAKA (Waseda University, Japan) .................................. 305

2. An Integrated Security Mechanism for Network Coding Combining Confidentiality and Integrity
   Ji-yong Park, Mi-sun Ryu (Information and Communications University, Korea), Eui Suk Jung, Dong-Min Seol (ETRI, Korea), Hong-shik Park (Information and Communications University, Korea) .............. 311

3. An Adaptive Wrapper Algorithm for File Transfer Applications to Support Optimal Large File Transfers
   Alireza Ghobadi, C. Eswaran, Nithiapidary Muthuvelu, Ian K.T. Tan (Multimedia University, Malaysia), Yong Lee Kee (Intel Technology Sdn. Bhd., Malaysia) ................................................................. 315

4. A Hyper-cube Based Modified Spanning Tree Protocol for VLANs
   Moosa Ahmadi, Abbas Ali Mohammad Zamani (Islamic Azad University Najafabad Branch, Iran) ...... 321

5. Distributed Mixed Protection Mechanism for Dynamic Traffic in WDM Optical Networks
   Chen-Shie Ho (Oriental Institute of Technology, Taiwan), Kuo-Cheng Chiang (VaNung University, Taiwan) .......................................................................................................................... 325

Session 2G: Poster Session (I)

1. Correlation Analysis of MIMO Subchannels in LOS Environments
   Jongho Kim, Young-Keun Yoon (ETRI, Korea) ................................................................. 335

2. Performance Analysis of Distributed Cooperative Spectrum Sensing for Underlay Cognitive Radio
   Myung Keun Yoon, Ki Hwan Lee, Ju Bin Song (Kyung Hee University, Korea) ......................... 338

3. UWB Antenna with Frequency Diversity Characteristics using PIN-diode Switches
   Sang Won Yoon, Le Huu Truong, Hyun Seok Lee (Dongguk University, Korea), Eunice J. Park (Daewon Foreign Language High School, Korea), Hyung Moo Park, Jin Koo Rhee, Hyun Chang Park (Dongguk University, Korea) .............................................................. 344

4. A Study on the Efficient Promotion of USIM-related Services in Korea
   Jeong-Tae Kim (ETRI, Korea) .................................................................................. 347

5. A Mechanism of Resource Control in TOCF(Transport Overlay Control Function) Architecture for IPTV Service in NGN
   Yangjiung Kim, Eungkyu Kim, Ilyoung Chong (Hankuk University of Foreign Studies, Korea), Jinkyeong Hwang (KT, Korea) ................................................................................................................. 350
6. Identification of RFID Tags in Dynamic Framed Slotted ALOHA
   Okkyeong Bang, Sunghyun Kim, Hyuckjae Lee (Information and Communications University, Korea) .......................................................... 354

   Sung-Chul Jung, Hyoung-Kee Choi (Sungkyunkwan University, Korea) ····················································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································································

| **20. Cluster Adaptation Method to Enhance Performance of Filtering Scheme in Sensor Networks** |
| Byung Hee Kim, Soo Young Moon, Hae Young Lee, Chung Il Sun, Tae Ho Cho (Sungkyunkwan University, Korea) | 411 |

| Youhee Choi (ETRI, Korea), Heeseok Choi (KISTI, Korea), MoonKyun Oh (ETRI, Korea) | 417 |

| **22. Design Service for OSS based on the SOA and TMForum NGOSS** |
| Kisang Ok, Daniel Wonkyu Hong, Byungdeok Chung (KT, Korea) | 423 |

| **23. Dynamic Maintenance Method of Timing Synchronization for Soft Handover** |
| Hyoungwon Kwak, Poongup Lee (Sungkyunkwan University, Korea), Abhishek Roy (Samsung Electronics, Korea), Navrati Saxena, Jitae Shin (Sungkyunkwan University, Korea) | 428 |

| Jiho Kim, Minhyun Lee, Ohyoung Song (Chung-Ang University, Korea) | 432 |

| **25. The Resource Management Method for Providing VoIP Service with Guaranteed QoS in BeC** |
| Sang Kwon Kim, Dong Hyeon Lee, Kyu Ouk Lee (ETRI, Korea) | 436 |

| **26. A Dual-PTZ-camera System for Visual Tracking of a Moving Target in an Open Area** |
| Hsien-Chou Liao, Wei-Yi Chen (Chaooyang University of Technology) | 440 |

| **27. Rateless Erasure Resilient Codes for Content Storage and Distribution in P2P Networks** |
| Saejoon Kim, Seunghyuk Lee (Sogang University, Korea) | 444 |

| **28. A Simple Passive Protection Structure in a Ring-Type Hybrid WDM/TDM-PON** |
| Dong-Min Seol (ETRI, Korea University of Science and Technology, Korea), Eui-Suk Jung (ETRI, Korea), Byoung-Whi Kim (ETRI, Korea University of Science and Technology, Korea) | 447 |

---

**Session 3A: Wireless Communication Technology (III)**

| **1. Performance of RSCC-QPSK-OFDM System with Phase Error and Perfect Compensation in Rayleigh Fading Channel** |
| Said M. Elnoubi, Shawki Shaaban (Alexandria University, Egypt), Sherif Samir A. Elbadawy (Air Defense College, Egypt) | 453 |

| **2. Single Carrier Transmission with Frequency Domain Equalization (SC/FDE) System with a PAPR of Unity** |
| Tufik Buzid (Erlangen-Nuernberg University, Germany), Mario Huemer (Alpen-Adria-University Klagenfurt, Austria) | 459 |

| **3. Design Bottlenecks of TC & TM Spread Spectrum Links in UAVs** |
| M.R. Tarihi, M.Shafiee Neyestanak (Communication Research Center, Iran) | 463 |

| **4. Multiuser Detections for TH-UWB Systems with M-ary PPM** |
| Szu-Lin Su, Wen-Jun Lin, Yi-Ching Pan, Yung-Chuan Lin (National Cheng Kung University, Taiwan) | 468 |
5. Double Pole Four Throw CMOS Switch in a Transceiver of MIMO Systems  
   Piya Mekanand, Duangporn Puttadilok, Duangrat Eungdamrong (Sirindhorn International Institute of Technology, Thailand) 472

6. A Low Complexity MSK-Based M-ary Cyclic Shift Keying Transceiver for Direct Sequence Spread Spectrum System over Multipath Fading Channels  
   Juinn-Horng Deng, Shu-Min Liao (Yuan Ze University, Taiwan), Gau-Joe Lin (Chung-Shan Institute Science & Technology, Taiwan) 475

Session 3B: Mobile Communications (III)

1. Scaled SLM for PAPR Reduction of OFDM Signal in Impulsive Noise Channel  
   Jea Sun Lee, Jin Young Kim (Kwangwoon University, Korea) 483

2. Cyclic Delay Diversity with Linear Precoding Technique adopted in OFDM Systems  
   Bing Hui, KyungHi Chang (Inha University, Korea) 487

3. Analysis of Uplink Capacity and Coverage in TD-SCDMA Systems  
   Jeong Gon Kim (Korea Polytechnic University, Korea), Sung-Moon Shin (ETRI, Korea) 493

4. A Novel Robust Fault Tolerant Scheme for Hierarchical AAA in Mobile Networks  
   Li Wang, Mei Song, Yi Man, Yong Zhang, JunJia Wang, Junde Song (Beijing University of Posts and Telecommunications, China) 498

5. Two Dimension Channel Estimations with Reduced Pilot Arrangements for OFDM Systems  
   Sangjun Bae, Yoonho Jang (Inha university, Korea), Sunkyung Shin (ETRI, Korea), Zhao Chengshi, Kyoungsup Kwak (Inha university, Korea) 503

6. Power Management of Multi-radio Mobile Nodes using HSDPA Interface Sensitive APs  
   Hyunho Park, Junghoon Jee, Changmin Park (ETRI, Korea) 507

Session 3C: Next Generation Network Technology (III)

1. A Unified Distributed Directory based Service Delivery Architecture for Metro Ethernet Networks  
   Ravi Kumar Buregoni (Infosys Technologies Ltd., India) 515

2. The Aggregation of Multicast Tree State Information with Delay-Bandwidth Constraints  
   Hong-yu Hu, Hui-mei Lu, Yuan-da Cao, Si-min Rao (Beijing Institute of Technology, China) 521

   H. Raei, M. Tabibzadeh, B. Ahmadipoor (University of Yazd, Iran), S. Saei (Shiraz University, Iran) 526

4. A Perfect-Hashing Scheme for Fast IP Lookup  
   Yun-Zhao Li (National University of Defense and Technology, Southwest Electronics and Telecommunication Technology Research Institute, China) 531
5. Themes4BPEL: An Efficient Aspect-oriented Web Service Composition Design Approach
Ying Zhang, Hao Yang, Junliang Chen, Xiangwu Meng (Beijing University of Posts & Telecommunications, China) ................................. 534

Session 3D: RFID & USN Technologies (III)

1. Efficient K-coverage Grouping Scheduling in Wireless Sensor Networks
Meng-Chun Wueng, Han-Pei Lin, Shyh-In Hwang (Yuan Ze University, Taiwan) .................. 543

2. Stochastic Coverage Analysis of Wireless Sensor Network with Hybrid Sensing Model
Subodh Pudasaini, Sangman Moh, Seokjoo Shin (Chosun University, Korea) ....................... 549

3. A Novel Service Architecture for Personalized Context Aware Services
Jaeyong An, Sangheon Pack, Sunshin An (Korea University, Korea), Minsu Kim, Youngki Jeon (Samsung Electronics, Korea) ............................................. 554

Cong Tran-Xuan, Van-Hiep Vu, Insoo Koo (University of Ulsan, Korea) .................. 560

5. Energy-efficient Node-level Compression Arbitration for Wireless Sensor Networks
Beihua Ying, Wei Liu, Yongpan Liu, Huazhong Yang, Hui Wang (Tsinghua University, China) .... 564

Session 3E: Systems & Software Engineering (III)

1. An Approach to Concurrent Development of Device Drivers and Device Controller
Edson B. Lisboa, Luciano Silva, Thiago Lima, Igino Chaves, Edna Barros (Federal University of Pernambuco, Brazil) ......................................................... 571

2. Software Component Reusability Measure in Component Grid
Seungwon Lee, Ho-Jin Choi (Information and Communications University, Korea) ............. 576

3. Activity Time Collection and Analysis through Temporal Reasoning
Ahmad Ibrahim, Ho-Jin Choi (Information and Communications University, Korea) .......... 579

4. Analysis of Ontology Development Methodology based on OTK and CMMI Level 4
Sang Hun Lee, Ho-Jin Choi, Sukyoung Kim (Information and Communications University, Korea) ................................. 585

5. Z-Miner: Noise Filter In Mining Frequent Access Patterns
Zhu Xudong, Meng Xiaoxuan, Xiao Wenshu, Ke Jian (Chinese Academy of Sciences, Graduate University of the Chinese Academy of Sciences, China), Xu Lu (Chinese Academy of Sciences, China) ............................................................... 591
Session 3F: Communication Network Topology & Planning (I)

1. Influence of Schematic Network Topology Models over Real Physical Networks
   Jose M. Gutierrez, Tahir Riaz, Jens M. Pedersen, Ole B. Madsen (Aalborg University, Denmark) 599

2. An Analytic Model for Spanning Tree based Routing Methods
   Changjin Suh (Soongsil University, Korea), Zhen Luo (Soongsil University, Shenyang Institute of Aeronautical Engineering, Korea, China), Do-yeon Kim, Bheom-soon Joo (ETRI, Korea) 605

3. Selection of Backup LSPs in MPLS Network based on QoS
   Arash Dana (Islamic Azad University, Iran), Ahmad Khademzadeh (Iran Telecommunication Research Center, Iran), Hesam Hoseinzadeh (Islamic Azad University, Iran) 611

4. The New Torus Network Design based On 3-Dimensional Hypercube
   Woo-seo Ki, Hyeong-Ok Lee, Jae-Cheol Oh (Sunchon National University, Korea) 615

5. Network Congestion Control Algorithm with Cooperation between Edge and Core Routers
   Lingyun Lu, Yang Xiao (Beijing Jiaotong University, China), Seok Woo, Kiseon Kim (GIST, Korea) 621

Session 4A: Wireless Communication Technology (IV)

1. Applying the Time-To-Live Parameter in On Demand Route Caching in MANETs
   Spanakis Emmanouil, Apostolos Traganitis (University of Crete, Greece) 629

2. An Enhanced V-blast MIMO System using Joint Source and Channel Coding
   Lydia Sari, Gunawan Wibisono, Dadang Gunawan (University of Indonesia, Indonesia) 635

3. A Robust and Energy Efficient Cooperative Spectrum Sensing Scheme in Cognitive Radio Networks
   Yue Wang, Chunyan Feng, Zhimin Zeng, Caili Guo (Beijing University of Posts and Telecommunications, China) 640

4. Research on Implementation of OFDM Burst Packet Transmission on Software Radio Platform of FPGA
   Liu Liu, Tao Cheng, Qi Xiaoyu, Qiu Jiahui (Beijing Jiaotong University, China) 646

   Md. Abdur Razzaque, Choong Seon Hong (Kyung Hee University, Korea) 651

6. Packet Scheduling to Support Both of Real-time and Non-real-time Services
   Eunyoung Lee, Hyung-Kun Park (Korea University of Technology and Education, Korea) 654
Session 4B: Mobile Communications (IV)

1. A Management Service for P2P Content over MANets
   Marcelo H. Vithof, Altair O. Santin, Luiz A. de Paula Lima Jr. (Pontifical Catholic University of Paraná, Brazil) .............................................................. 661

2. The Effects of Energy-balancing on Multipaths by Packet Allocating in Ad Hoc Networks
   Chen Ni, Chanheum Park, Dongxue Jin, Jaeill Kim, Chonggun Kim (Yeungnam University, Korea) ................................................................. 667

3. Water Filling Algorithm for the Throughput Improvement of FH-OFDM System
   Xiupei Zhang, Heung-Gyoon Ryu (Chungbuk National University, Korea) .......................................................... 673

4. Performance Analysis of Routing Protocols in Mobile Ad-hoc Networks under Group Mobility Environment
   In-Ho Yeo, Yong-Won Kim, Jong Myung Rhee (Myongji University), Hyun-A Kim, Hyo-Sik Yang (Sejong University) ........................................... 677

5. Voice Communication over GGSN/SGSN
   Ahmad Ali Habeeb (Accenture Services Private Ltd., India), Mohammed A Qadeer (Aligarh Muslim University, India), Shamshir Ahmad (Computer Sciences Corporation, India) ............................................ 682

Session 4C: Next Generation Network Technology (IV)

1. Networks Interoperability
   A. Koucheryavy (ZNIIS, Russia) ................................................................. 691

2. Resource Allocation and Admission Control based on Flow Congestion Probability in MPLS Networks
   Yan Jiangzhou, Liu Zengji (Xidian University, China) .............................................. 694

3. Copy Number based Multicast Scheduling Algorithm in Broadband Banyan Network
   YoungHwan Kwon, Jun Kyun Choi, Soohyung Kim (Information and Communications University, ETRI, Korea) ........................................ 698

4. IPv6 over Broadcasting Networks: Convergence, Trial and Large-scale Application
   Jun Zhang (Chinese Academy of Sciences, Inner Mongolia University, Graduate University of Chinese Academy of Sciences, China), Xin-min Ye (Inner Mongolia University, China), Zhijun Xu (Chinese Academy of Sciences, Inner Mongolia University, Graduate University of Chinese Academy of Sciences, China), Jing Liu (Chinese Academy of Sciences, Graduate University of Chinese Academy of Sciences, China), Jun Li (Chinese Academy of Sciences, China) ................................................. 702

5. Architecture and Service Scenario for Multi-media Voice among BcN Operators
   Kyu Ouk Lee, Soon Seok Lee (ETRI, Korea) ...................................................... 707
Session 4D: RFID & USN Technologies (IV)

1. Integrated Wireless Access Point Architecture for Wireless Sensor Networks
   Ying-Chen Chen, Chi-Cheng Chuang, Ray-I Chang, Jia-Shian Lin, Te-Chih Wang (National Taiwan University, Taiwan) .......................................................... 713

2. Efficient Mining of Association Rules from Wireless Sensor Networks
   Syed Khairuzzaman Tanbeer, Chowdhury Farhan Ahmed, Byeong-Soo Jeong, Young-Koo Lee (Kyung Hee University, Korea) .................................................. 719

3. A Localization Algorithm using Space Information for Indoor Wireless Sensor Networks
   Hojae Lee, Sanghoon Lee (Yonsei University, Korea), Yeonsoo Kim, Hakjin Chong (KT, Korea) .... 725

4. Relative Location Estimation of Vehicles in Parking Management System
   Mohammad Shaifur Rahman, Youngil Park, Ki-Doo Kim (Kookmin University, Korea) ............... 729

5. A Priority-based Pattern Matching Location Algorithm for Wireless Sensor Networks
   Jia-Shian Lin, Chi-Cheng Chuang, Ray-I Chang, Ying-Chen Chen, Te-Chih Wang (National Taiwan University, Taiwan) .......................................................... 733

Session 4E: Telematics Technology

1. Development of a Telematics Service Framework for Open Services in the Heterogeneous Network Environment
   Deuk-Woo Lee, Hong-Koo Kang, Dong-Oh Kim, Ki-Joon Han (Konkuk University, Korea) .......... 741

2. Development of a Common Vehicle Router Platform for Multiple ITS Applications and Communication Media
   Junghyung Kim, Joonghyup Ko (Kyungbong Co., Ltd., Korea), Sung-Ho Oh (KRIHS, Korea), Ji hyeon Yoon (Kyungbong Co., Ltd., Korea) ........................................... 748

3. Efficient Discovery Technique of Distributed KML Data in Mobile Ad Hoc Network
   Tadanobu Tsunoda, Kaoru Sezaki (The University of Tokyo, Japan Science and Technology Agency, Japan) .......................................................... 751

4. Attention based Driving Event Simulator for Telematics Environment
   Daesub Yoon, Jongwoo Choi, Kyongho Kim, Hyunsuk Kim (ETRI, Korea), N. Hari Narayanan (Auburn University, U.S.A.) ........................................... 757

5. An Automatic Camera Calibration Method using GPS-enabled Mobile Device
   Hsien-Chou Liao, Hong-Jih Wu (Chaoyang University of Technology, Taiwan) .................... 760
Session 4F: Communication Network Topology & Planning (II)

1. Application of Code Average Method for GSM Coverage Prediction in Different Environment
   Mohd Nazrul Hanif Nordin, Masru Laili Mursidi, Zabidah Saleh (Telekom Research & Development Sdn Bhd, Malaysia) ................................................................. 767

2. A study on Architecture of CDN(Content Delivering Network) with Content Re-distribution Function
   Moo-Kyung Sung, Chi-Moon Han (Hankuk University of Foreign Studies, Korea) ............... 772

   Sergio Labeaga, Jens Myrup Pedersen, José Manuel Gutiérrez López, M. Tahir Riaz, Ole Brun Madsen (Aalborg University, Denmark) ................................................................. 778

4. Reliable Data Delivery for Relay-based Overlay Multicast
   Sung-Hei Kim, Chang-Kyu Lee, Shin-Gak Kang (ETRI, Korea) ............................................. 782

5. An Immune Algorithm for the Optimization of Aggregated Multicast
   Hua Wang, Zuquan Ge, Fangji Zhu, Chaoying Yu (Shandong University, China) ................. 786

Session 4G: Poster Session (II)

1. Interface Selection for Power Management in UMTS/WLAN Overlaying Network
   Mostafa Zaman Chowdhury, Yeong Min Jang, Choong Sub Ji, Sunwoong Choi (Kookmin University, Korea), Hongseok Jeon, Junghoon Jee, Changmin Park (ETRI, Korea) ...................... 795

2. Self-Interference Cancellation Method based on V-BLAST in MIMO System
   Eun-Ji Yoo, Chang-Bum Jo, Ji-Eun Hwang, Young-Sun Kim, Sang-Woong Bae, So-Youn Park, Dae-Ho Woo, Youn-Shik Byun (University of Incheon, Korea) ................................. 800

3. Data Delivery with End-to-end QoS Guarantee in Tactical Network Interconnected with Wireless Ad-hoc Network and Heterogeneous Networks
   Hye-Lim Koo, Byeong-hee Roh (Ajou University, Korea), Young-Keun Park (KUBIX, Korea), Sang-Eon Kim, Yu-Seon Kim (KT, Korea) ................................................................. 804

4. Efficient Flooding Scheme Based on Regular Polygonal Tiling in Wireless Ad Hoc Networks
   In Hur, Trong Duc Le, Hyunseung Choo (Sungkyunkwan University, Korea) ....................... 810

5. Point-and-Click Provision in User-centric ROADM Management System
   Eun-Young Cho, Young-Hwa Kim, Kwangjoon Kim, YouHyeon Jeong (ETRI, Korea) .......... 815

6. Low Complexity Video Enhancement of Video Phone Calls with a Limited Mobile Terminal’s Capability
   Sungho Lee, Jungyoup Yang, Byeungwoo Jeon (Sungkyunkwan University, Korea) .......... 819

7. Novel Patching Mechanism by Using Multi-homing
   Seung Hyun Jeon, Jong Min Lee (Information and Communications University, Korea), Eun-Young Cho (ETRI, Korea), Jun Kyun Choi, Soo Hyung Kim (Information and Communications University, Korea) .................................................................................................................................................................................. 823
8. The Offloading of Socket Information for TCP/IP Offload Engine
   Sunwook Kim, Chanho Park, Seongwoon Kim (ETRI, Korea), Yongwha Chung (Korea University, Korea) ................................................................. 826

   Taehyun Kwon, Eun-Young Cho, Byungjoon Lee, InSang Choi, Seung-Hyun Yoon, Hyung-Seok Chung, YouHyeon Jeong (ETRI, Korea) ........................................ 832

10. A Design for Passive RFID System on a Chip
    Chan-won Park, Gil-young Choi, Jong-suk Chae (ETRI, Korea), Bo-gwan Kim (Chungnam National University, Korea) ........................................... 836

11. HyPO: A Peer-to-Peer based Hybrid Overlay Structure
    Haesun Byun, Meejeong Lee (Ewha Womans University, Korea) ................................................................. 840

12. The Efficient Initial Signal Detection Technique Using Multi-level Threshold Values in MB-OFDM UWB Systems
    Kwibeom Han, Seongjoo Lee (Sejong University, Korea) ...................................................................................... 845

13. A Study on IEEE 802.15.4 based Factory Automation System in Wireless Network
    Hye-Rim Lee, Il-Young Moon (Korea University of Technology and Education, Korea) ........................................ 851

14. A Real-time Observation Scheme for UMTS Networks
    Jeong-Je Cho, Nak-Po Kim (KTF, Korea) ................................................................. 855

15. Improved AODV Routing Protocol for Wireless Sensor Network based on ZigBee
    Yu-Doo Kim, Il-Young Moon (Korea University of Technology and Education, Korea) ............................................. 859

16. LBS Convergence Agent for Interoperability between LBS Platforms
    Jiho Kim, Jungyu Lee, Ohyoung Song (Chung-Ang University, Korea) .............................................................. 863

17. Analysis of the Vehicle Information for the Economical and the Ecological Driving Pattern
    Jongwoo Choi, Daesub Yoon, Kyungho Kim, Hyunsuk Kim (ETRI, Korea) .................................................. 867

18. UML Design of Vehicular Communication Service
    SungDae Jung, SangSun Lee (Hanyang University, Korea), KyeongSoo Han, HyunSeo Oh, Dong Young Kwak (ETRI, Korea) ...................................................... 870

19. PTP Interworking 802.15.4 using 6LoWPAN
    Keunsol Kim (University of Science and Technology, ETRI, Korea), Seung-Woo Lee, Dae geun Park, Bhum Cheol Lee (ETRI, Korea) .............................................................. 873

20. A 2^n Matrix Hypercube Graph: A Graph With Edges of Hypercube Improved by a half
    Hyun Sim, Hyeong-Ok Lee, Jae-Cheol Oh (Sunchon National University, Korea) .................................................. 877

21. OPeN (Overlaid Personal Network) - A Novel Approach of Sharing Personal Resources
    Juyoung Park, Young Il Choi (ETRI, Korea) ................................................................. 883

22. Telnet-based Transport Control
    Kang Woon Hong, Won Ryu (ETRI, Korea), Jun Kyun Choi (Information and Communications University, Korea) ................................................................. 887
23. A Study on the Third Phase Plan for Establishing BcN in KOREA
Hyong-Soon Kim (National Information Society Agency, Korea), Jae-Nam Lim (Seoul National University of Technology, Korea), Myungwon Song (National Information Society Agency, Korea), Eunyoung Lee (Dongduk Women’s University, Korea) ................................................................. 890

Seung-heui Jeong, Chang-heon Oh (Korea University of Technology and Education, Korea) .......... 895

Chulgyu Kang, Hyunjae Lee, Changheon Oh (Korea University of Technology and Education, Korea)
........................................................................................................................................ 901

Session 5A: Wireless Communication Technology (V)

1. Improve Efficiency of Ad Hoc Networks with MIMO Communication and Cross Layer MAC Design
Ehsan Soleimani Nasab, Mehrdad Ardebilipour (K.N.Toosi University of Technology, Iran) .......... 907

Xu Huang, Shirantha Wijesekera, Dharmendra Sharma (University of Canberra, Australia) .......... 913

3. Outage Probability of Opportunistic Decode-and-Forward Relaying with Co-Channel Interferences
Jung-Bin Kim, Dongwoo Kim (Hanyang University, Korea) ............................................................ 919

4. Robust Null Extension for Two-Dimensional Array Antenna
Jeich Mar, Chi-Cheng Kuo, Shin-Ru Wu, Hsiao-Sheng Wang, You-Rong Lin (Yuan-Ze University, Taiwan) .................................................................................................................. 923

5. Beamforming with Quantized Feedback to Increase Diversity of Relay Channels
Ebru S. Toker, Özgür Oruç, Mehmet E. Çelebi (Istanbul Technical University, Turkey) ............... 927

Session 5B: Mobile Communications (V)

1. A Novel Hierarchical Joint Call Admission Control-HJCAC for Multi-service Heterogeneous Wireless Networks
Jiajia Wang, Mei Song, Hao Zhuang, Li Wang, Yong Zhang (Beijing University of Posts and Telecommunications, China) ................................................................. 935
2. **L3 Mobility Support in Large-scale IP-based Sensor Networks (6LoWPAN)**
   Myung-Ki Shin, Hyoung-Jun Kim (ETRI, Korea) ............................................................. 941

3. **Mobile Services: Trends and Evolution**
   Jahangir Dadkhah Chimeh (Iran Telecommunication Research Center, Iran) ......................... 946

   Beongku An, Joo Sang Lee (Hongik University, Korea), Nam-Soo Kim (Cheongju University, Korea)
   ................................................................................................................................. 949

5. **The Proposed Improvement 3-Layer Mobility Management Scheme for Wireless Mesh Networks**
   Tran Cong Hung, Le Phuc, Nguyen Ngoc Duy, Do Ngoc Thuy Quynh, Le Quoc Cuong (Posts & Telecommunications Institute of Technology, Vietnam), Boo Keum Jung, Yoohwa Kang (ETRI, Korea)
   ................................................................................................................................. 953

**Session 5C: Mobile Internet (I)**

1. **A Unified Session Control Protocol for IPTV Services**
   Shannugalingam Sivasothy, Gyu Myoung Lee, Noel Crespi (Institute TELECOM SudParis, France)
   ................................................................................................................................. 961

2. **Factors Affecting the Switching Intention of IPTV Subscribers**
   Jaeheung Yoo, Junkyun Choi, Soohyung Kim, Jinhong Yang (Information and Communications University, Korea) ................................................................. 966

3. **Low-Complexity Entirely-Overlapped Parallel Decoder Architecture for Quasi-Cyclic LDPC Codes**
   Weizhi Lu, Piming Ma (Shandong University, China) .............................................................. 969

4. **A Seamless Layer-2 Handover Scheme for Mobile WiMAX based Wireless Mesh Networks**
   Min Kim (Kwangwoon University, Korea), Il-kyeun Ra (University of Colorado Denver, U.S.A.), Ji-sang Yoo, Dong-wook Kim, Hwa-sung Kim (Kwangwoon University, Korea) ....... 974

5. **A Low Complexity Cell Search Method for IEEE 802.16e OFDMA Systems**
   Yung-Chuan Lin, Szu-Lin Su, Shao-Yuan Wu (National Cheng Kung University, Taiwan) ........ 980

**Session 5D: RFID & USN Technologies (V)**

1. **A Content-aware Fridge based on RFID in Smart Home for Home-Healthcare**
   Hanshen Gu, Dong Wang (Shanghai Jiaotong University, China) ............................................. 987

2. **Virtual Overlay for Service Classification & Discovery in Wireless Sensor Networks**
   Saad Ahmed Munir, Xie Dongliang (Beijing University of Posts & Telecommunications, China), Chen Canfeng, Jian Ma (Nokia Research Center, China) ........................................ 991
3. **Accurate Modeling for Predicting Cryptography Overheads on Wireless Sensor Nodes**  
Wei Liu, Beihua Ying, Huazhong Yang, Hui Wang (Tsinghua University, China) .......................... 997

4. **Mining Association Rules for RFID Data with Concept Hierarchy**  
Younghhee Kim, Ungmo Kim, Myungsook Jung (Sungkyunkwan University, Korea), Woojun Kang  
(Korea Christian University, Korea), Youngju Noh (Chungnam Cheongyang College, Korea) ....... 1002

5. **Service Discovery in Wireless Sensor Networks: Protocols & Classifications**  
Saad Ahmed Munir, Xie Dongliang (Beijing University of Posts & Telecommunications, China),  
Chen Canfeng, Jian Ma (Nokia Research Center, China) .................................................. 1007

Session 5E: Multimedia and Internet Systems, and Services (I)

1. **An Automated Method based on Second Order Moment for Defect Extraction in Photomask Images**  
Jihee Choi, Sheng Yang, Hong Jeong (POSTECH, Korea) ...................................................... 1015

2. **4-views Display System Which Enables to View from Any Direction for Group Work on Life Review Activity**  
Mitsuru Okumura, Kunio Sakamoto (Konan University, Japan), Shusaku Nomura (Nagaoka University of Technology, Japan), Tetsuya Hirotomi, Kuninori Shiwaku, Masahito Hirakawa (Shimane University, Japan) ......................................................... 1019

3. **The Ontology for a Multi-Sensory Media Service**  
Seungwon Oh, Minsoo Hahn (Information and Communications University, Korea) ............ 1025

4. **Improved MB-Layer Rate Control for H.264/AVC**  
Kan Chang, Aidong Men, Juan Luo (Beijing University of Posts and Telecommunications, China) ... 1031

5. **A Method to Reduce the Decoding Complexity of the Binary (89, 45, 17) Quadratic Residue Code**  
Wen-Ku Su, Pei-Yu Shih, Tsung-Ching Lin, Trieu-Kien Truong (I-Shou University, Taiwan) .......... 1035

Session 5F: Information Security Technology (I)

1. **Design of Lock-Keeper Federated Authentication Gateway**  
Feng Cheng, Christoph Meinel (Hasso Plattner Institute (HPI), University of Potsdam, Germany) .... 1041

2. **Method of Countering Unsolicited IP Applications using Lists**  
So Young Park, Sung Hei Kim, Shin Gak Kang (ETRI, Korea) ............................................. 1047

3. **Improving the Security of McEliece-Like Public Key Cryptosystem based on LDPC Codes**  
Masumeh Koochak Shooshtari, Mahmoud Ahmadian (K. N. Toosi University of Technology, Iran),  
Ali Payandeh (Malek Ashtar University of Technology, Iran) ........................................... 1050
4. **Vulnerability Analysis and Patches Management using Secure Mobile Agents**  
Pasquale Stirparo (Royal Institute of Technology, Sweden), Muhammad Awais Shibli (Royal Institute of Technology, NUST School of Electrical Engineering and Computer Science, Sweden, Pakistan), Sead Muftic (Royal Institute of Technology, Sweden)  

5. **Detecting VoIP-specific Denial-of-Service using Change-Point Method**  
Hongli Zhang (Beijing Institute of Technology, Inner Mongolia Normal University, China), Zhimin Gu, Caixia Liu, Tang Jie (Beijing Institute of Technology, China)

### Session 6A: Wireless Communication Technology (VI)

1. **Transmitter Design for MISO Downlink with Peak Power Constraint**  
Ihn-Jung Baik, Sae-Young Chung (KAIST, Korea)

2. **Optimization of MAPSK**  
Xudong Chen, Huazhong Yang (Tsinghua University, China)

3. **Wireless Network Synchronization for Multichannel Multimedia Services**  
Yonghwan Bang, Jongpil Han, Kyusang Lee (Information and Communications University, Korea), Jongwon Yoon, Jinoo Joun (Sangmyung University, Korea), Sungbo Yang (Hyundai Motor Co., Korea), June-Koo Kevin Rhee (Information and Communications University, Korea)

4. **Performance Analysis Of An OFDM Wireless Communication System with Convolutional Coding**  
Kazi Mostaq Ahmed (Stamford University, Bangladesh), Satya Prasad Majumder (Bangladesh University of Engineering & Technology, Bangladesh), B. K. M. Mizanur Rahman (United International University, Bangladesh)

5. **A Compact Internal Antenna for Wireless USB Dongle Application**  
Yeonsik Yu, Youngki Lee, Soonyong Lee, Jaehoon Choi (Hanyang University, Korea)

### Session 6B: Mobile Communications (VI)

1. **An Approach for Seamless Integration of QoS and Mobility for Wireless Mobile Networks**  
Osvaldo Gonsa (Panasonic Research Center Germany, Germany), Shintaro Uno (Huawei Technologies Japan, Japan), Moo Wan Kim (Tokyo University of Information Sciences, Japan), Kwangsik Kim (Samsung Telecommunications Japan, Japan)

2. **Physical Layer Verification for 3GPP LTE (FDD)**  
Sung-Won Kim, Kun-Yong Kim (Agilent Technologies, Korea)

3. **Design of Messenger Oriented P2P Framework in Mobile Ad-hoc Networks**  
Qin Jiancheng, Sun Bin (Beijing University of Posts and Telecommunications, China)

4. **Downlink Time Switched Transmit Diversity System with ARQ Scheme**  
Cha-Eul Jeon, Ri-A Ma, Jun-Ho Baek, Seung-Hoon Hwang (Dongguk University, Korea)
5. The Application of Smart Antennas in TD-SCDMA
   Xiangdong Jia (Nanjing University of Posts and Telecommunications, Northwest Normal University),
   Haiyang Fu, Xiong Liu (Nanjing University of Posts and Telecommunications, China) .......................... 1109

Session 6C: Mobile Internet (II)

1. Real Time Video Streaming over Heterogeneous Networks
   Mohammed A Qadeer, Rehan Ahmad, Mohd Siddique Khan, Tauseef Ahmad (Aligarh Muslim University, India) .......................... 1117

2. Adoption of IPTV under the Convergence of Broadcasting and Telecommunications
   Imsook Ha, Jaeheung Yoo, Jinkyun Choi (Information and Communications University, Korea),
   Sanggug Jong (KT, Korea), Soohyung Kim (Information and Communications University, Korea),
   Youngmin Chin (KT, Korea) ........................................................................................................ 1123

3. A Simple Compensation Algorithm for VoIP Services in IEEE 802.16e System
   Hongxia Zhang, Jufeng Dai (Tianjin University, China) ................................................................. 1128

4. Network-based Fast Handover for IMS Applications and Services
   Sang Tae Kim, Seok Joo Koh (Kyungpook National University, Korea), Kyoung-Hee Lee (ETRI, Korea)
   .......................................................... 1133

5. A Low Complexity Method of Initial Ranging for IEEE 802.16e OFDMA Systems
   Yung-Chuan Lin, Szu-Lin Su, Hsin-Chih Wang (National Cheng Kung University, Taiwan) ................. 1137

Session 6D: RFID & USN Technologies (VI)

1. Location Aware Public/Personal Diversity of Information Services based on Embedded RFID Platform
   Ming-Shen Jian (Shu-Te University, Taiwan), Shu Hui Hsu (International Megatrend Smart Technology Ltd., Taiwan) .......................... 1145

2. MAC Hurdles in Body Sensor Networks
   Sana Ullah, Pervez Khan (Inha University, Korea), Young-Woo Choi, Hyung-Soo Lee (ETRI, Korea),
   Kyung Sup Kwak (Inha University, Korea) ......................................................................................... 1151

3. An Agent-based Routing Algorithm with Low Overhead for Mobile Sinks in Wireless Sensor Networks
   Jae-Wan Kim (SOLiD Technologies, Korea), Doo-Seop Eom (Korea University, Korea) ................. 1156

   Weidong WANG, Yue-Xian ZOU, Guangyi SHI, Yuesheng ZHU (Shenzhen Graduate School of Peking University, China) .......................................................... 1160
5. **A Reliable Topology for Wireless Sensor Networks**
   Ali Tufail (Ajou University, Korea), Syed Ali Khayam (NUST, Pakistan), Gargi Bag, Ki-Hyung Kim, Seung-Wha Yoo (Ajou University, Korea), Arshad Ali (NUST, Pakistan) 1164

Session 6E: Multimedia and Internet Systems, and Services (II)

1. **Electronic Invisible Code Displaying System for Group Work on Life Review Activity**
   Tomofumi Yamanari, Kunio Sakamoto (Konan University, Japan), Shusaku Nomura (Nagaoka University of Technology, Japan), Tetsuya Hirotomii, Kuninori Shiwaku, Masahito Hirakawa (Shimane University, Japan) 1169

2. **Robust Fast Belief Propagation for Real-time Stereo Matching**
   Intae Na, Junghun Choi, Hong Jeong (POSTECH, Korea) 1175

3. **Fast Mode Decision for P-Slices in H.264/AVC Based on Probabilistic Learning**
   Xinxin Zhou, Chun Yuan, Chunhua Li, Yuzhuo Zhong (Tsinghua University, China) 1180

4. **A Non-Photorealistic Motion Generation System**
   JiHyung Lee, BonKi Koo (ETRI, Korea), Jung-Ju Choi (Ajou University, Korea), Chi Jung Hwang (Chungnam National University, Korea) 1185

5. **A Study on Wireless Transmission System for Full-Spec HDTV**
   Masayuki KUROSAKI, Yuya HIRATA, Masateru MATSUO, Wahyul Amien Syafei, Baiko SAI (Kyushu Institute of Technology, Japan), Yoshimitsu KUROKI (Kurume National College of Technology, Japan), Akio MIYAZAKI (Kyushu Sangyo University, Japan), Hiroshi Ochi (Kyushu Institute of Technology, Japan) 1189

Session 6F: Information Security Technology (II)

1. **Injecting Trust to Cryptographic Key Management**
   Gökhan Bal (Goethe-University, Germany), Andreas U. Schmidt, Nicolai Kuntze (Fraunhofer Institute for Secure Information Technology, Germany) 1197

2. **Cryptanalysis And Improvement on Remote User Mutual Authentication Scheme with Smart Card**
   Razi Arshad, Nassar Ikram (National University of Sciences and Technology, Pakistan) 1202

3. **P2P Attack Taxonomy and Relationship Analysis**
   Xiaowen Yue, Xiaofeng Qiu, Yang Ji, Chunhong Zhang (Beijing University of Posts and Telecommunications, China) 1207

4. **An Improved RC6 Algorithm with the Same Structure of Encryption and Decryption**
   Gil-Ho Kim, Jong-Nam Kim, Gyeong-Yeon Cho (Pukyong National University, Korea) 1211
5. Adaptive Image Watermarking Scheme in Contourlet Transform using Singular Value Decomposition
Shao-min Zhu (China Electric Power Research Institute, China), Jian-ming Liu (State Grid Information & Telecommunication Co., Ltd., China) ................................................................. 1216

Session 6G: Poster Session (III)

1. CDMA Coded Power Control over Rayleigh Fading
   Sangho Choe (The Catholic University of Korea, Korea) ............................................ 1225

2. A New Detection Method for MIMO Systems with Differently Modulated Layers
   JungHyun KIM, Seungjae Bahng, Youn-Ok PARK (ETRI, Korea) ................................. 1228

   Pyung-Joo Park, Sung-Min Choi, Dong-Hee Lee, Byung-Seub Lee (Korea Aerospace University, Korea) 1233

4. A CMOS Single Chip Receiver with RF Front-End and Baseband Processor for Band-III T-DMB/DAB Applications
   Seong-do Kim (ETRI, Korea), Seung-hyeub Oh (Chungnam National University, Korea) 1238

   Sangjin Jeong, Myung-Ki Shin, Hyoung-Jun Kim (ETRI, Korea) ................................. 1242

6. Referential Software Architecture of Integrated Graphic System for Mobile Handset Devices
   Kyung Hee Lee, Sangyoon Lee, Haesook Jun (ETRI, Korea), Kwan-jong Yoo (Chungnam National University, Korea) ................................................................. 1245

7. Design of a Collaborative Filtering System for Classifying Harmful Contents
   Wonjae Lee (ETRI, Korea) ....................................................................................... 1249

8. A Service Availability-aware Construction of Profitable Service Overlay Network
   HyunYong Lee, JongWon Kim (GIST, Korea) .............................................................. 1252

9. Interoperability and Anonymity for ID Management Systems
   Hosung Jo (Hanyang University, Korea), Hwanjin Lee, Kilsoo Chun (Korea Information Security Agency, Korea), Heejin Park (Hanyang University, Korea) .................................................. 1257

10. A Study of Management Interface for Cluster System Integrity
    Jae Deok Lim, Jeong Nyeo Kim (ETRI, Korea), Choel Hoon Lee (Chungnam National University, Korea) ................................................................. 1261

11. Session Transfer Mechanism Considering Capabilities of Target Access Network
    Joo-Chul Lee, Young-II Choi (ETRI, Korea) .............................................................. 1265

12. A Study on Internet Telephony Service for Enhanced Emergency Services
    Iljin Lee, Ok Jo Jeong, Wook Hyun, ShinGak Kang (ETRI, Korea) ............................ 1269

26. **Design of an Internal Planar Monopole Antenna for WUSB Dongle Application**  
Youngki Lee, Yeonsik Yu, Soonyong Lee, Jaehoon Choi (Hanyang University, Korea)  

27. **Two-hop Relay Technique using STBC and Simple Coding Algorithm in Wireless Fading Relay Channels**  
Yoonho Jang, Sangjun Bae (Inha University, Korea), Sunkyung Shin (ETRI, Korea), Kyungsup Kwak (Inha University, Korea)  

28. **Inter-ACR Fast Handover Mechanism for IPv6 based WiBro System**  
Min-Sik Shim, Min Kim (Kwangwoon University, Korea), Il-kyeun Ra (University of Colorado Denver, U.S.A.), Dong-wook Kim, Ji-sang Yoo, Hwa-sung Kim (Kwangwoon University, Korea)  

29. **A Location based Routing Protocol in Mobile Sensor Networks**  
Kihyun Kim, Jeongbae Yun, Jangkyu Yun, Byeongjik Lee, Kijun Han (Kyungpook National University, Korea)  

---

**Session 7A: Wireless Communication Technology (VII)**

1. **Analysis of the Four-horn Monopulse for LEO Satellite Tracking using the Exact Model**  
Jafar Nateghi, Leila Mohammadi, G.R. Solat (Iran Telecommunication Research Center, Iran)  

2. **Polynomial Predistortion Technique for PA Non-linearities using IDLA Scheme**  
Zong Qiang Li (Engineering College of Armed Police Force, China)  

3. **A Hybrid Carrier Synchronization Scheme for PSK Burst-mode Communication Systems**  
Seong-Bok Park, Dhong-Woon Jang (Agency for Defense Development, Korea)  

4. **Multi-Wideband Rectangle-triangle Antenna With a Taper Line for Feeding**  
Mamdouh Gouda (Misr University for Science & Technology, Egypt), Adel Abdin (Shorouk Academy, Egypt)  

5. **A Low Complexity Joint Parameter Estimation Scheme for Carrier Frequency Offset and I/Q Imbalance**  
Leonardo A. Lanante Jr., Ryuta Imashioya, Masayuki Kurosaki, Hiroshi Ochi (Kyushu Institute of Technology, Japan)  

---

**Session 7B: Mobile Communications (VII)**

1. **Optimal Fixed-point Design of Traffic Channel for M-WiMAX Mobile Modem ASIC**  
JongHun Kim, YuPeng Wang, KyungHi Chang (Inha University, Korea), NamHoon Park (ETRI, Korea)  

2. **The Three-layered Group Key Management Architecture for MANET**  
Sun Bin, Yu Bin (Beijing University of Posts and Telecommunications, China)  

3. **Understanding the User Acceptance of Multimedia Messaging Services**  
Ho Kyoung Shin, Kyung Kyun Kim, Ki Won Lee (Yonsei University, Korea)  

**4. RAAM: Routing Algorithm using Ant Agents for MANETs**

**5. Factors Influencing Adoption of Korean 3G Mobile Services: The Role of Relative Advantages, Facilitating Condition and Adoption Barriers**
Moon-Koo Kim, Jong-Hyun Park (ETRI, Korea), Jong-Hyun Paik (TTA, Korea) 1392

### Session 7C: Mobile Internet (III)

**1. An Identification of Correlation between Network QoS and Video Quality Index for IPTV Service**
Jaehyung Bae, Hong-Shik Park, Young Min Chin, Han-Choon Park (Information and Communications University, Korea) 1399

**2. Interconnecting Multi-Vendor Multi-Hop WLAN and Internet via Hotspot**
Akihisa Matoba (Hewlett-Packard Japan, Ltd., Japan), Moo Wan Kim (Tokyo University of Information Sciences, Japan) 1403

**3. A Study on Efficiency Improvement of Doherty Amplifier using LDMOS FET for WiMax Networks**
Hyukyong Kwon, Chae up Yoo, Min-su Kim, Younggoo Yang (Sungkyunkwan University, Korea) 1406

**4. FFRDV: Fastest-Ferry Routing in DTN-enabled Vehicular Ad Hoc Networks**
Danlei Yu, Young-Bae Ko (Ajou University, Korea) 1410

**5. QoS based Provisioning Vertical Handover between IEEE 802.11 and 802.16**
Min Jong Kim, Sang Woo Son, Byung Ho Rhee (Hanyang University, Korea) 1415

### Session 7D: Optical Networking Technology (I)

**1. Performance Evaluation of Medium Access Control Methods in Light Trail Networks**
Yukinobu Fukushima, Kota Tanaka, Tokumi Yokohira (Okayama University, Japan) 1421

**2. Blind Estimator of Multiple Optical Signals with a Detection Matrix**
Anhong Dang (Peking University, China) 1426

**3. Thermally Stable Polymeric Waveguide using UV-curable Epoxy Resins for Optical Printed-circuit Board**
Do-Won Kim (Information and Communications University, Korea), Seung Ho Ahn, In-Kui Cho (ETRI, Korea), Dong-Min Im, Shirazy Md. Shorab Muslim, Hyo-Hoon Park (Information and Communications University, Korea) 1430
4. Performance Analysis of an All-optical Wavelength Converter based on Cross-phase Modulation (XPM) in DSF Fiber
Mostafa Jannatul Ferdows (United International University, Bangladesh), S.P. Majumder
(Bangladesh University of Engineering & Technology, Bangladesh) .......................... 1433

5. E/O Module Integrated with Combined Tx/Rx and Mux/Demux for Optical Interconnection
Nga T.H. Nguyen, Trong-Hieu Ngo, Tae-Woo Lee, Hyo-Hoon Park (Information and Communication University, Korea) ........................................................................................................ 1436

Session 7E: Multimedia and Internet Systems, and Services (III)

1. QoS Scheduling Considering Flow for Assured Service in Different Networks
Tadasuke Minagawa, Tetsushi Ikegami (Meiji University, Japan) ......................... 1443

2. A Multi-Level Metadata Structure for Image Archiving
Hyowon Kim, Yongik Yoon (Sookmyung Women's University, Korea) .................. 1449

3. Efficient Improvement for Adaboost based Face Detection System
Pufeng Wu (Xi'an Jiaotong University, China), Hongzhi Liu, Xixin Cao, Jing Liu, Zhonghai Wu (Peking University, China) ................................................................. 1453

4. Content-aware and Network-adaptive Video Streaming of a Ubiquitous Middleware
EUN-SEOK RYU, HAE-SUN JUNG (Korea University, Korea), YONG-WOO LEE (University of Seoul, Korea), HYUCK YOO, CHANG-SUNG JEONG, SUNG-WON AHN (Korea University, Korea) 1458

5. Decoding Golay Code by Direct Solution of the Error Locator Polynomial
Pei-Yu Shih, Wen-Ku Su, Tsung-Ching Lin, Trieu-Kien Truong (I-Shou University, Taiwan) 1462

Session 7F: Information Security Technology (III)

1. MagicNET: Security Architecture for Creation, Classification, and Validation of Trusted Mobile Agents
Muhammad Awais Shibli (Royal Institute of Technology, NUST School of Electrical Engineering and Computer Science, Sweden), Sead Muftic (Royal Institute of Technology, Sweden) 1467

2. Establishment of Cross-layer Trust Model for Ad Hoc Networks
Yuan Bai (Liaoning University of Technology, Beijing University of Posts and Telecommunications, China), Zhongying Bai (Beijing University of Posts and Telecommunications, China) 1472

3. A Novel Secure Distributed Disk System
Jie Lin, Yunliang Zhang, Zhiyong Tan, Yiqi Dai (Tsinghua University, China) 1476

4. Network Threat Assessment based on Attribute Recognition
Jiaquan Si, Qiang Zhang, Dapeng Man, Kaizhuo Wang, Wu Yang (Harbin Engineering University, China) ............................................................... 1482
5. Design and implementation of Vector Quantizer for a 600bps Vocoder Based on MELP
Fateme Khalili, Mehrdad Ardebilipour (K.N.Toosi University of Technology, Iran), Hossein Sameti
(Sharif University of Technology, Iran) .......................................................... 1487

Session 8A: Wireless Communication Technologies (VIII)

1. Research on the Number of Independent Beam Produced by a Set of Smart Antennas
Xiangdong Jia (Nanjing University of Posts and Telecommunications, Northwest Normal University,
China), Haiyang Fu, Laiqiang Zhao (Nanjing University of Posts and Telecommunications, China) • 1493

2. Switched-mode BLAST Technique for MIMO Communications
Mohamed M. A. Moustafa (Akhbar El Yom Academy, Egypt) .................................................. 1499

3. A Novel Superframe for Cognitive Radio in HR-WPAN
Byunghwa Lee, Jilong Li, Honggil Lee, Ick-So Lee, Kijun Han (Kyungpook National University,
Korea) ................................................................................................................. 1503

4. System Design and Performance Analysis of Layered MIMO OFDM and MC-CDMA
Communication Systems
Sami Ahmed Haider, Khalida Noori (National University of Sciences and Technology, Pakistan) • 1509

5. Error Probability Performance for Multi-hop Decode-and-Forward Relaying over
Rayleigh Fading Channels
Vo Nguyen Quoc Bao, Hyung Yun Kong (University of Ulsan, Korea) ............................................ 1512

Session 8B: Mobile Communications (VIII)

1. Modify AODV for MANET/INTERNET Connection through Multiple Mobile Gateways
YU Bin, SUN Bin (Beijing University of Posts and Telecommunications, China) .................. 1519

Kwang-Soo Jang, Hyo-Sik Yang (Sejong University, Korea), Jong-Myung Rhee (Myongji University,
Korea) .................................................................................................................. 1524

3. Bidirectional Decision Feedback Equalization for CDMA System with Low Spreading Factor
Junhui Zhao (Beijing Jiaotong University, Macau University of Science and Technology, China),
Hua Li (Shandong University, China), Dongming Wang (Southeast University, China) ................... 1529

4. High Speed VLC System based on Turbo-Coded OFDM Scheme
Sung Wan Koo, Jae Sung Park, Jin Young Kim (Kwangwoon University, Korea) ....................... 1534
5. Effect of Channel Estimation Error on the Performance of Interleave-Division Multiple Access Systems

Xingzhong Xiong (University of Electronic Science and Technology of China, Sichuan University of Science & Engineering, China), Jianhao Hu, Feng Yang, Xiang Ling (University of Electronic Science and Technology of China, China) ................................................................. 1538

Session 8C: Mobile Internet (IV)

1. A Power Assignment Mechanism for OFDM-based Underwater Acoustic Communication System

Chin-Feng Lin, Zhen-Xiang Shi (National Taiwan-Ocean University, Taiwan), Shung-Hyung Chang (National Kaohsuing Marine University, Taiwan) ................................................................. 1545

2. Analysis of Subscribers’ Usages and Attitudes for Video IP Telephony Services over NGN

IlKwon Cho (National Information Society Agency, Korea), Koji OKAMURA (Kyushu University, Japan), MyungWon Song, YoungRo Lee (National Information Society Agency, Korea) .............. 1549

3. The Impact of RTS/CTS Frames on TCP Performance in Mobile Ad hoc-based Wireless LAN

Neeraj Poudyal (Korea Aerospace University, Korea), Ha Cheol Lee (Yuhan University, Korea), Byung Seub Lee (Korea Aerospace University, Korea), Youngjoon Byun, Eric Yiching Tao (California State University, USA) ................................................................. 1554

4. A Routing Metric for Load Balance in Wireless Mesh Networks

Sooyeol Yang, Youngmi Baek, Junhyung Kim, Keuchul Cho, Kijun Han (Kyungpook National University, Korea) ................................................................. 1560

Ilhom Karimov, Miradham Kamilov, Eunyong Park, Jungwook Song, Heemin Kim, Sunyoung Han (Konkuk University, Korea) ................................................................. 1566

Session 8D: Optical Networking Technology (II)

Tomohiro YOKOHAMA, Tetsuo TSUJIOKA (Osaka City University, Japan) ......................... 1575

Tony Tsang (Hong Kong Polytechnic University, Hong Kong) ............................................. 1580

3. A 1.2-V 10-Gb/s Highly CPD Isolated and Bandwidth Enhanced Optical Receiver in 0.13-μm CMOS Technology

W. S. Oh, K. Park, K. W. Min, H. S. Son, Y. S. Lee (Korea Electronics Technology Institute, Korea) ................................................................. 1586
4. Optical and Higher Layer Performance Monitoring in Photonic Networks: Progress and Challenges
M. S. Islam (Institute of Information and Communication Technology, Bangladesh), S. P. Majumder (Bangladesh University of Engineering and Technology, Bangladesh) 1591

5. A Novel Technique for Optical Header Multiplexing using Coded Frequency Division Multiplexing in Optical Packet Switching Networks
Md. Dulal Hossain, Jae Jeung Rho, Junghoon Moon (Information and Communications University, Korea) 1597

Session 8E: Multimedia and Internet Systems, and Services (IV)

1. Low Cost Blur Image Detection and Estimation For Mobile Devices
Jaeseung Ko, Changick Kim (Information and Communications University, Korea) 1605

2. A Novel Substream Extraction for Scalable Video Coding over P2P Networks
Chunhua Li, Chun Yuan, Yuzhuo Zhong (Tsinghua University, China) 1611

3. Activity Replay System using Mixed Reality Technology for Inspection of Ways of Group Work on Reminiscence Therapy
Yuuki Matsumoto, Kunio Sakamoto (Konan University, Japan), Shusaku Nomura (Nagaoka University of Technology, Japan), Tetsuya Hirotomi, Kuninori Shiwaku, Masahito Hirakawa (Shimane University, Japan) 1616

4. Unsupervised Object of Interest Discovery in Multi-view Video Sequence
Thanaphat Thummanuntawat, Wuttipong Kumwilaisak (King Mongkut’s University of Technology, Thailand), Jatuporn Chirrungrueng (National Electronics and Computer Technology, Thailand) 1622

5. Modified Decoding of Binary Quadratic Residue Codes by Using Euclidean Algorithm
Pei-Yu Shih, Wen-Ku Su, Tsung-Ching Lin, Trieu-Kien Truong (I-Shou University, Taiwan) 1628

Session 8F: Information Security Technology (IV)

1. A Table-driven Approach for IP Traceback based on Network Statistic Analysis
Wei-Tsung Su (Aletheia University, Taiwan), Yi-Hsun Chuang, Zong-Bing Wu, Yau-Hwang Kuo (National Cheng Kung University, Taiwan) 1633

2. Trust-based Anonymity Framework for Wireless Mesh Networks
Muhammad Shoaib Siddiqui, Riaz Ahmed Shaikh, Choong Seon Hong (Kyung Hee University, Korea) 1638

3. Digital Video Watermarking in 3-D Ridgelet Domain
H. Khalilian, S. Ghaemmaghami, M. Omidyeganeh (Sharif University of Technology, Iran) 1643
4. A Novel Audio Scrambling Algorithm in Variable Dimension Space
Huan. Li (Xi’an Jiaotong University, Dongguan University of Technology, China), Zheng. Qin, Liping. Shao (Xi’an Jiaotong University, China), Bin. Wang (Dongguan University of Technology, China)  • 1647

5. A New Scalar Multiplication Method Suitable For Hyperelliptic Curve Cryptosystems
Chen Xiao-e (Hainan Normal University, China), You Lin (Hangzhou Dianzi University, China)  • 1652

Session 8G: Poster Session (IV)

1. A Design of System Integrating a Personalized Yellow Page Service and a Interactive Video Application Service
Sung Jin Hur, Sung Joo Kang, Wan Choi (ETRI, Korea)  ......................................................... 1661

2. Home-to-Home Media Streaming System based on Adaptive FastReplica
Taein Hwang, Hojin Park (ETRI, Korea), Jin Wook Chung (Sungkyunkwan University, Korea)  • 1665

3. Content-based Video Copy Detection Using Spatio-temporal Compact Feature
Joosub Kim (University of Science and Technology, Korea), Jeho Nam (ETRI, Korea)  .......... 1667

4. A Study on Migration Scheme for a Mobile Trusted Module
Dong-Wan Kang (Soonchunhyang University, Korea), Sung-Ik Jun (ETRI, Korea), Im-Yeoung Lee (Soonchunhyang University, Korea)  ................................................................. 1672

5. Identity Data Security System for the Digital Identity Wallet
Daeseon Choi, Jonghyuk Roh, Seunghyun Kim, Seunghun Jin (ETRI, Korea) ...................... 1678

6. Improved Intermediate Performance of Rateless Codes
Saejoon Kim, Seunghyuk Lee (Sogang University, Korea) ....................................................... 1682

Jae Sung Park, Jin Young Kim (Kwangwoon University, Korea) ............................................. 1687

8. Signalling Architecture and Protocols for the Next Generation Network
Hyeong Ho Lee (ETRI, Korea)  ................................................................................................ 1691

9. Adaptive GTS Allocation Scheme to Support QoS and Multiple Devices in 802.15.4
Yong-Geun Hong, Hyoong-Jun Kim (ETRI, Korea), Hee-Dong Park (Korea Nazarene University, Korea), Do-Hyeon Kim (Cheju National University, Korea)  .................................................. 1697

10. Interactive Control Platform for IPTV Service in the IMS Environment
Jinhong Yang, Hyojin Park (Information and Communications University, Korea), Sang Gug Jong, Sang Hong Lee (KT, Korea), Jun Kyun Choi, Soohyung Kim (Information and Communications University, Korea) ......................................................... 1703

11. WDM/TDMA Hybrid-PON : Wx-PON system
Jea-Hoon Yu, Byoung-Whi Kim (ETRI, Korea), Nam Kim (Chungbuk National University, Korea)
.......................................................................................................................... 1707
12. The Method of Auto Exposure Control for Low-end Digital Camera
SangHyun Park (Sungkyunkwan University, Korea), GyuWon Kim (Samsung Electro-mechanics co., ltd., Korea), JaeWook Jeon (Sungkyunkwan University, Korea) ................................................................. 1712

13. A Case Study of Unknown Attack Detection against Zero-day Worm in the HoneyNet Environment
Ikkyun Kim, Daewon Kim, Byunggo Kim, Yangseo Choi, Seongyong Yoon, Jintae Oh, Jongsoo Jang (ETRI, Korea) ................................................................. 1715

Jin-Oh Jeon, Su-Hwan Park, Min-Sup Kang (Anyang University, Korea) ................................................................. 1721

15. Implementation of H.264 Transcoding & Selective Encryption of Bit Stream
Seong-Yeon Lee, Kwang-Seok Moon, Min-Sup Kang (Anyang University, Korea) ................................................................. 1725

16. Inter-Domain Routing based on Link State Information for End-to-End QoS Guarantee
Tae-iL Kim, Hae-Won Jung (ETRI, Korea), Min Young Chung (Sungkyunkwan University, Korea), Seong-IL Jin (Chungnam National University, Korea) ................................................................. 1729

17. Digital and Modular Design Scheme based on education theory in RPG Learning Game
Shu Hui Hsu (International Megatrend Smart Technology Ltd., Taiwan), Ming-Shen Jian (Shu-Te University, Taiwan) ................................................................. 1733

18. A Case Study of Context-aware Personalized Services on IMPACT Platform: AdsonMap Services
Kisoon Sung, Aekyung Moon, Yongil Choi (ETRI, Korea) ................................................................. 1738

19. Quasi-Orthogonal Space-Time Block Codes based on Single Symbol Decoding for Four Transmit Antennas
Jae-Sun Jeong, Su-Bin Park, Chang-Bum Jo, Eun-Ji Yoo, Youn-Shik Byun (University of Incheon, Korea) ................................................................. 1742

Myung Kie Baek, Jin Young Kim (Kwangwoon University, Korea) ................................................................. 1746

Byeong-Thaek Oh, Sang-Bong Lee, Ho-Jin Park (ETRI, South Park) ................................................................. 1751

22. Reactive and Reliable Neighbor Discovery Protocols in Wireless Networks
Woosuk Cha, Pyeong-Soo Mah (ETRI, Korea) ................................................................. 1755

23. Local Customer Internetworking in Passive Optical Networks
JaeGwan Kim, YongJun Seo, YongGyu Lee, YongHyub Won, MinHo Kang (Information and Communications University, Korea) ................................................................. 1759

24. Design of Effective Anti-Malware System for Mobile Industrial Devices based on Windows CE
Sung-Keun Lee, Wook-Jeon Jae (Sungkyunkwan University, Korea) ................................................................. 1762
25. Automatically Learning Robot Domain Ontology from Collective Knowledge for Home Service Robots
   Dongyeop Kang, Eugene Seo, Sookyung Kim, Ho-Jin Choi (Information and Communications University, Korea) ........................................... 1766

26. Fast Handover Scheme using Temporary CoA in Mobile WiMAX Systems
   Jeong Sup Lee, Sam Yeul Choi, Young Ik Eom (Sungkyunkwan University, Korea) ............... 1772

27. Symmetry Structured SPN Block Cipher Algorithm
   Gil-Ho Kim, Jong-Nam Kim, Gyeong-Yeon Cho (Pukyong National University, Korea) ........... 1777

28. Video Segmentation Algorithm using Threshold and Weighting based on Moving Sliding Window
   Won-Hee Kim (PuKyong National University, Korea), Tae-Il Jeong (TongMyong University, Korea), Jong-Nam Kim (PuKyong National University, Korea) ........................................... 1781

29. A Comparison of Network Neutrality Debates between US and South Korea
   Byungcho Kim (Hankuk University of Foreign Studies, Korea) ........................................... 1785

Session 9A: Wireless Communication Technology (IX)

1. Performance of Wireless Optical Communication Systems using DPSK Modulation
   Song Gao, Anhong Dang, Hong Guo (Peking University, China) ........................................... 1793

2. On the Closed-form Ergodic Capacity of MIMO Rayleigh Channels
   S. M. Humayun Kabir, Van-Su Pham, Giwan Yoon (Information and Communications University, Korea) ........................................... 1797

3. Combined Mechanism using both ARQ and Scheduling for Efficient Transmission in OFDMA System
   Youngsang Cho, Jitae Shin (Sungkyunkwan University, Korea) ........................................... 1800

4. On the Use of QC-LDPC Code for Data Transfer using Short and Medium Block Length
   Mohammad Rakibul Islam, Jinsang Kim (Kyung Hee University, Korea) ................................... 1804

5. Optimizing Spectrum Sensing Parameters for Local and Cooperative Cognitive Radios
   Ayman A. El-Saleh (Universiti Kebangsaan Malaysia, Multimedia University, Malaysia), Mahamod Ismail, Mohd Alauddin Mohd Ali (Universiti Kebangsaan Malaysia, Malaysia) ........................................... 1810

Session 9B: Digital Home Technology

1. An Integration Platform for Developing Context-aware Applications based on Context Reasoning and Service Automation Techniques
   Po-Cheng Huang, Cheng-Yi Chien (National Cheng Kung University, Taiwan), Kuan-Rong Lee (Kun Shan University, Taiwan), Yau-Hwang Kuo (National Cheng Kung University, Taiwan), Ming-Zoo Wu (Institute for Information Industry, Taiwan) ........................................... 1819
2. An Implementation of Bluetooth Service Application on the Peer-to-Peer based Virtual Home Platform
Moon-Ok Choi, Shin-Yuk Kang, Il-Woo Lee, Ho-Jin Park (ETRI, Korea) 1824

3. ISS: The Interactive Smart Home Simulator
Tam Van Nguyen, Deokjai Choi (Chonnam National University, Korea) 1828

4. Message Management in Home Networking based on XML
Zhongming Wang (Jianghan University, China) 1834

5. Heterogeneous Service Location Service Architecture based on OSGi Technology
Min-Xiou Chen (National Dong Hwa University, Taiwan), Tze-Chin Tzeng (ChungHua University, Taiwan) 1838

Session 9C: Mobile Internet (V)

1. Enhancing Adaptive Control in VoIP by Characterizing Congestive Packet Loss
Boonchai Ngamwongwattana, Anuwat Sombun (National Electronics and Computer Technology Center, Thailand) 1847

2. A Study on Network Media-aware Scheduling for Robust P2P Streaming
Yong-Hyuk Moon, Jae-Hoon Nah (ETRI, Korea), Chan-Hyun Youn (Information and Communications University, Korea) 1852

3. Embedded WiMAX-based Vehicular Router for Telematics Computing
Jiann-Liang Chen (National Taiwan University of Science and Technology, Taiwan), Yao-Chung Chang, Yu-Shan Lin (National Taitung University, Taiwan), Hsien-Wen Du (National Dong Hwa University, Taiwan) 1857

4. Service Differentiation with the Adjustment of Remaining Backoff Time in IEEE 802.11 Wireless LAN
Ki-tae Hong, Byeong-hee Roh (Ajou University, Korea) 1863

5. Mobility Management: A Proactive QoS-Aware Proxy MIP with improved Handover Latency for End-to-End QoS provisioning in a Proxy MIP domain
Brownson Obaridoa Obele, Minho Kang (Information and Communications University, Korea) 1867

Session 9D: Optical Networking Technology (III)

1. A New Hybrid Optical Network Design Consisting of Lightpath and Burst Switching
Yeshuang Wang, Sheng Wang, Shizhong Xu, Xiufeng Wu (University of Electronic Science and Technology of China, China) 1873
2. Performance Limitations of WDM Optical Transmission System Due to Cross-phase Modulation in Presence of Chromatic Dispersion
M. A. Khayer Azad, M. S. Islam (Bangladesh University of Engineering and Technology, Bangladesh) .......................................................... 1877

3. Bidirectional Optical Transceiver with Automatically Directional Controlling Function
Trong-Hieu Ngo, Nga T.H. Nguyen, Tae-Woo Lee, Hyo-Hoon Park (Information and Communications University, Korea) ........................................................................ 1882

4. Performance Analysis of Successive Interference Cancellation with Modified Quadratic Congruence and Hadamard Codes for Optical CDMA
Tawfig Eltaif (Universiti Kebangsaan Malaysia, Malaysia), Hossam M. H. Shalaby (Alexandria University, Egypt), Sahbudin Shaari (Universiti Kebangsaan Malaysia, Malaysia), Mohammad M. N. Hamarsheh (Arab American University, Palestine) .......................................................... 1885

5. Technological Aspects of the Triple Play Service on Fixed Access Networks
A. Nikitin (NW Telecom, Russia), V. Pyattaev (LONIIS, Russia), B. W. Kim (ETRI, Korea) ......................................................... 1890

Session 9E: Multimedia and Internet Systems, and Services (V)

1. Intra-Frame Error Concealment using Pixel Alignment and Directional Interpolation
Adisorn Sirikhram (Rajamangala University of Technology Krungthep, Thailand) ................................................. 1897

2. Facial Expression Classification using Eigen-components of Principal expressions
Wilfred Onyango Odoyo, Geum-Boon Lee, Jung-Jin Park, Beom-Joon Cho (Chosun University, Korea) ......................................................... 1903

3. Clustering Metadata Servers for Extremely Scalable and Reliable Services
Keun-Tae Park, Myung-Hoon Cha, Young-soo Min, Young-Kyun Kim, Han Namgoong (ETRI, Korea) ......................................................... 1907

4. On the Minimum Weights of Binary Extended Quadratic Residue Codes
Wen-Ku Su, Pei-Yu Shih, Tsung-Ching Lin, Trieu-Kien Truong (I-Shou University, Taiwan) ................................. 1912

5. Automatic Record Generating System for Support of Group Work on Reminiscence Therapy
Tomonori Otsuka, Kunio Sakamoto (Konan University, Japan), Shusaku Nomura (Nagaoka University of Technology, Japan), Tetsuya Hirotomi, Kuninori Shiwaku, Masahito Hirakawa (Shimane University, Japan) ........................................................................ 1914

Session 9F: Information Security Technology (V)

1. Researches on Secure Proximity Distance Defending Attack of Finger Table based on Chord
Jie Li, Xiaofeng Qiu, Yang Ji, Chunhong Zhang (Beijing University of Posts and Telecommunications, China) ........................................................................ 1923
2. Improvement to a Semi-fragile Watermarking Scheme against a Proposed Counterfeiting Attack
Hossein Kourkchi, Shahrok Ghaemmaghami (Sharif University of Technology, Iran) .......................... 1928

3. A Wavelet-based Blind JPEG Image Steganalysis using Co-occurrence Matrix
Han Zong, Fenlin Liu, Xiangyang Luo (Information Science and Technology Institute, China) ...... 1933

4. The Design of an RFID Security Protocol for Saving in DB Transaction Costs
Kwang-Jin Paek, Pyeong Soo Mah, Chang Wook Lee (ETRI, Korea), Ui-Sung Song (Busan National University of Education, Korea) ................................................................. 1937

5. Implementation and Optimization of Wavelet Modulation in Additive Gaussian Channels
R. Niazadeh, S. Nassirpour, M.B. Shamsollahi (Sharif University of Technology, Iran) ............. 1940

Session 10A: Wireless Communication Technology (X)

1. Towards Robustness in Multiband/Multiuser IR-UWB: Overcoming Unknown NBI via FEC and Subband Scheduling
Hessam Moussavinik, Sang-Seon Byun (Norwegian University of Science and Technology, Norway), Ilango Balasingham (Norwegian University of Science and Technology, Rikshospitalet University Hospital, Norway) ................................................................. 1947

2. Analysis of the Conical Tracking Technique in LEO Satellite Stations
Jafar Nateghi, Leila Mohammadi, G.R. Solat (Iran Telecommunication Research Center, Iran) ...... 1950

3. Performance Analysis of UWB Systems with Non-Binary Turbo Code in Multi-User Environments
Eun Cheol Kim, Jin Young Kim (Kwangwoon University, Korea) .................................................. 1954

4. Quantization Based Fast Equalization In Decision Directed Mode
Abhishek D Joshi, Nam Ik Cho (Seoul National University, Korea) ............................................. 1959

5. Wireless Mesh Network OAM Architecture
Malaz Kserawi, Sangsu Jung, June-Koo Kevin Rhee (Information and Communications University, Korea) .................................................................................................................. 1963

Session 10B: IT Service Technology (I)

1. Reliable Multicast Protocol Adopting Hierarchical Tree-based Repair Mechanism
Lakshmi Prasad Saikia (National Institute of Technology-Silchar, India), Kattamanchi Hemachandran (Assam University-Silchar, India) ................................................................. 1969

2. Extraction of Lip Movement Image Signals from Successive Image Frames
Eung-Kyeu Kim (Hanbat National University, Korea), Soo-Jong Lee (ETRI, Korea) ......................... 1974
3. New Algorithm for 2D Barcode Detection
Elmoustava Ouldbarikalla (Orange France, France), Wadih Sawaya (TELECOM Lille1, France),
Yves Delignon (Institut TELECOM-TELECOM Lille1, France), Bertrand Pladeau (Orange France,
France) ................................................................. 1979

4. Spot Detection of Complex Regions by Accumulated Gradient in Two Dimensional
Electrophoresis Images
Mi Ae Kim, Young Woo Yoon (Yeungnam University, Korea) ........................................ 1982

5. A Study of the Adoption of Self-service Technologies by Consumers in Convenience Stores
Dong-Her Shih (National Yunlin University of Science & Technology, Taiwan), I-Ching Chen
(National Yunlin University of Science & Technology, ChungChou Institute of Technology, Taiwan),
Shueh-Cheng Hu (Providence University, Taiwan) ........................................ 1986

Session 10C: E-Commerce and M-Commerce (I)

1. Student’s Mind-map of using an E-Learning System: an IQA Interview Approach
Su-Sui Lin (National Yunlin University of Science and Technology, Hsiuping Institute of Technology,
Taiwan), Kwoting Fang (National Yunlin University of Science and Technology, Taiwan) ........ 1993

2. Examining the Usage of Feedback Vibration in Nintendo DS Handheld Game Console
Mohammad Shirali-Shahreza, Sajad Shirali-Shahreza (Sharif University of Technology, Iran) .... 1997

3. A QoS-oriented Management Framework for Reconfigurable Mobile Mashup Services
Huiyang Xu, Meina Song, Xiaoxiang Luo (Beijing University of Posts and Telecommunications,
China) ........................................................................ 2001

4. How Different in Cultural Acceptance of Tutoring Robots Serving Augmented Reality?
Jeonghye Han (Cheongju National University of Education, Korea), Eunja Hyun, MiRyang Kim
(SungKyunKwan University, Korea), Hyekyung Cho (Hansung University, Korea), Takayuki Kanda
(ATR Intelligent Robotics and Communication Labs, Japan), Tatsuya Nomura (Ryukoku University,
Japan) ................................................................. 2006

5. A Generic Model for NFC-based Mobile Commerce
Hsu-Chen Cheng (Chinese Culture University, Taiwan), Jen-Wel Chen (National Taiwan University,
Taiwan), Tain-Yow Chi (Chinese Culture University, Taiwan), Pin-Hung Chen (National Taiwan
University, Taiwan) ................................................................. 2009

Session 10D: Digital Broadcasting Technology (I)

1. A Frequency Offset Estimation Scheme for a T-DMB Software Baseband Receiver
Byungjik Keum, Moohong Lee, Jeong Han Jeong, Kyungsu Ko, Suhyun Cha, Young Serk Shim,
Hwang Soo Lee (KAIST, Korea) ................................................................. 2017
2. Development of Personalized DMB Services and System
Hyun-Cheol Kim, Han-Kyu Lee, Jin-Woo Hong (ETRI, Korea) .................................................. 2023

3. An Intra Prediction Skip Scheme based on SATD and Motion Vector Magnitude Features in H.264/MPEG-4 Part 10 AVC
Yunsik Jung, Unkyung Pahk, Taeyoung Na, Munchurl Kim (Information and Communications University, Korea) ................................................................. 2027

4. Performance Improving Schemes for mmWave WPAN MAC Protocol
S. Mehta, K. S. Kwak (Inha University, Korea) ................................................................. 2032

5. Essential of Digital Dividend Review
Kwon, He Sun (Korea Radio Promotion Agency, Korea) .................................................. 2036

Session 10E: Multimedia and Internet Systems, and Services (VI)

1. Secure Overlay Multicast Infrastructure for P2P-based IPTV Service
Hyeokchan Kwon (ETRI, Korea), Sangchoon Kim (Kangwon National University, Korea), Jaehoon Nah (ETRI, Korea) ................................................................. 2041

2. An Automatic Image Browsing Technique for Small Display Users
Muhammad Abul Hasan, Changick Kim (Information and Communications University, Korea) ⋯ 2044

3. A Bidirectional Haptic Communication Framework and an Authoring Tool for an Instant Messenger
Youngiae Kim (Information and Communications University, Korea), Heesook Shin (ETRI, Korea), Minsoo Hahn (Information and Communications University, Korea) ................................................................. 2050

4. Video Activity Analysis based on 3D Wavelet Statistical Properties
M. Omidyeganeh, S. Ghaemmaghami, H. Khalilain (Sharif University of Technology, Iran) ⋯ 2054

5. Content-based Image Identification System with Hierarchical Scheme
Jaekyong Jeong (Sungkyunkwan University, Korea), Hyeongyong Jeon, Chijung Hwang (Chungnam National University, Korea), Byeungwoo Jeon (Sungkyunkwan University, Korea) ⋯ 2059

Session 10F: Distributed Computing Technologies (I)

1. A Super-Metascheduler-based Approach for Integrating Multiple Heterogeneous Grids
Hyung-Jun Choi, Eunsung Kim, Yoonki Lee, Heon Y. Yeom (Seoul National University, Korea), Dukyun Nam, Soonwook Hwang (KISTI, Korea) ................................................................. 2065

2. Achieving Higher Dependability by Integrating Replication with DNS Dispatching in the Web-server Cluster Systems
Mohd Isa Awang, Zarina Mohamad, Ahmad Nazari Mohd Rose, Aznida Hayati Zakaria, Wan Suryani Wan Awang (Universiti Darul Iman Malaysia, Malaysia) ................................................................. 2071
3. Virtual Machine Migration in Self-managing Virtualized Server Environments
Jong-Geun Park, Jin-Mee Kim (ETRI, Korea), Hoon Choi (Chungnam National University, Korea), Young-Choon Woo (ETRI, Korea) ................................................................. 2077

4. On Tackling Free-Riders in P2P Networks
Brownson O. Obele, Augustine I. Ukaegbu, Minho Kang (Information and Communications University, Korea) ................................................................. 2084

5. A Grid Portal for Monitoring of the Urban Environment using the MSU
Phil Doo Hong (Seoul Grid Center, Meritz Financing Group, Korea), Yong Woo Lee (Seoul Grid Center, Korea) ................................................................. 2090

Session 11A: Wireless Communication Technology (XI)

1. Agent based Low Loss Low Delay Handover Scheme for SIP Communication – The Case for UDP Traffic
Vu Truong Thanh, Yoshiyori Urano (Waseda University, Japan) .......................... 2099

2. Ranging Code Collision Probability in OFDMA based BWA Network
Anup Thapa, Subodh Pudasaini, Seokjoo Shin (Chosun University, Korea) ........... 2103

3. A Fast Geometric Decoding Algorithm for MIMO Systems
Z. Y. Shao, S. W. Cheung, T. I. Yuk (The University of Hong Kong, Hong Kong) .... 2108

4. The Impact of Antenna Array on Outage Performance of Cooperative Dual Hop Relay Network
Ahasanun Nessa, M Sanaullah Chowdhury, Kyung Sup Kwak (Inha university, Korea) ......... 2112

5. An Overview of Medium Access Control Protocols with Multi-antennas for Wireless Ad-hoc Networks
Zhi-Qiang Yao (South China University of Technology, Xiang Tan University, China), Meng-Gang Sheng (Xiang Tan University, China), Jun-Xun Yin (South China University of Technology, China) ...... 2117

Session 11B: IT Service Technology (II)

1. Korean POI Word Segmentation and Tagging for Speech Interface In-vehicle Navigation System
Euisok Chung, JiHyun Wang, Yun-Keun Lee (ETRI, Korea) .................................. 2125

2. Syntactic and Semantic English-Korean Machine Translation using Ontology
Eugene Seo, Il-Sun Song, Su-Kyung Kim, Ho-Jin Choi (Information and Communications University, Korea) ................................................................. 2129

3. A Call Processing Scheme for Number Portability of Wibro-VoIP by using NPSS
Young Sic Jeong, Chang Min Park (ETRI, Korea) .................................................. 2133
4. Banknote and Coin Speaker Device for Blind People
   Adisorn Sirikham, Werapon Chiracharit, Kosin Channongthai (King Mongkut’s University of
   Technology Thonburi, Thailand) .................................................................................................................. 2137

5. Cluster Head Selection for Homogeneous Wireless Sensor Networks
   Andrey Koucheryavy (ZNIIS, Russia), Ahmed Salim (Telecommunications University, Russia) ........................... 2141

Session 11C: E-Commerce and M-Commerce (II)

1. A Model of Emotional Interactions based on Affective Cognitive Algorithm
   Dongmei Yu, Jian’an Fang, Yuping Zhou, Peiying Zhao (Donghua University, China) .................. 2149

2. Acceptance Factors of Social Shopping
   You Rie Kang, Cheol Park (Korea University, Korea) .................................................................................. 2155

3. Issues of Interoperability in E-Governance System and its impact in the Developing
   Countries: A Nepalese Case Study
   Manish Pokharel, Jong Sou Park (Korea Aerospace University, Korea) .................................................. 2160

4. Development and Application of an Efficient Ubiquitous Teaching and Learning Model
   Kil Hong Joo, Sang Hong Kim (Gyeongin National University of Education, Korea) ......................... 2165

5. E-Government Challenges in Least Developed Countries (LDCs): A Case of Cambodia
   Sinawong Sang, Jeong-Dong Lee, Jongsu Lee (Seoul National University, Korea) .............................. 2169

Session 11D: Digital Broadcasting Technology (II)

1. Metadata Archiving Function for Personalized DMB System
   HeeKyung Lee, Han-Kyu Lee, Jin Woo Hong (ETRI, Korea) ................................................................. 2179

2. Reducing Bandwidth Allocation Delay in a DVB-RCS Network using Bayesian Neural
   Network
   Golsa Moayeripour, Amirhossein Aghakhani, Meisam Nesary Moghadam, Hassan Taheri
   (Amirkabir University of Technology, Iran) .............................................................................................. 2185

3. Implementation of Real Time DMB Encryption on Mobile Environment for Contents
   Protection
   Yong-Jae Jeong, Kwang-Seok Moon, Jong-Nam Kim (Pukyong National University, Korea) .................... 2191

4. A Ka Band Multi-satellites Wimax System
   Chin-Feng Lin, Shin-Hua Chen, Jin-De Zhu (National Taiwan-Ocean University, Taiwan) ...................... 2195

5. A Fully Integrated CMOS Low-IF Mobile-TV Tuner for Band-III T-DMB/DAB
   Applications
   Seong-do Kim (ETRI, Korea), Seung-hyeob Oh (Chungnam National University, Korea) ...................... 2199
Session 11E: Web Technology

1. *WPCC: A Novel Web Proxy Cache Cluster*
   Zhaolei Duan, Zhimin Gu, Xiaoguang Ding (Beijing Institute of Technology, China) 2205

2. *Hierarchical Planning through Operator and World Abstraction using Ontology for Home Service Robots*
   Dongyeop Kang, Ho-Jin Choi (Information and Communications University, Korea) 2209

3. *Efficient Mining of Utility-based Web Path Traversal Patterns*
   Chowdhury Farhan Ahmed, Syed Khairuzzaman Tanbeer, Byeong-Soo Jeong, Young-Koo Lee (Kyung Hee University, Korea) 2215

4. *An Adaptable Question-answer System using Match of Multi-sphere Knowledge*
   Su-Kyoung Kim (Information and Communication University, Korea), Ki-Hong Ahn (Hanbat National University, Korea), Ho-Jin Choi (Information and Communication University, Korea) 2219

5. *Adaptive focused Crawler based on Tunneling and Link Analysis*
   Xiaoming Zhang, Zhoujun Li, Chaojian Hu (Beihang University, China) 2225

Session 11F: Distributed Computing Technologies (II)

1. *Standard-based Virtual Infrastructure Resource Management for Distributed and Heterogeneous Servers*
   Young-Woo Jung, Jin-Mee Kim, Seung-Jo Bae, Kwang-Won Koh, Young-Chun Woo (ETRI, Korea), Sang-Wook Kim (Kyungpook National University, Korea) 2233

2. *Research on District Partitioning in P2P Network*
   Cuibo Yu, Xuerong Gou, Yang Ji (Beijing University of Posts and Telecommunications, China) 2238

3. *Design of a Hierarchical Global Scale Cluster System*
   Okgee Min, Hakyoung Kim (ETRI, Korea), Taeck-Geun Kwon (Chungnam National University, Korea) 2241

4. *Distributed Activity Recognition using Key Sensors*
   A. M. Jehad Sarkar, Kamrul Hasan, Young-Koo Lee, Sungyoung Lee, Salauddin Muhammad Salim (Kyung Hee University, Korea) 2245

5. *Quality-Context based SOA Registry Classification for Quality of Services*
   Youngkon Lee (Korea Polytechnic University, Korea) 2251

Session 11G: Poster Session (V)

1. *Test Method by Each Part for Wireless Transmitter and Receiver System*
   Seung-Chul Shin, Gwang-Yeol You, Tae-Soon Choi, Si-Hoe Kim (Agilent Technologies, Korea) 2261

2. *Two-Step Recommendation based Personalization for Future Services*
   Aekyung Moon, Hyunghwan Kim, Kisoong Sung, Young-il Choi (ETRI, Korea) 2268
3. Consideration of Supporting the Multimedia Emergency Services in VoIP
   Okjo Jeong, Il-Jin Lee, Shin-Gak Kang (ETRI, Korea) ........................................ 2273

4. Online Shopping Behavior Model: A Literature Review and Proposed Model
   Soo Yeon Chung, Cheol Park (Korea University, Korea) ..................................... 2276

5. A Study on Development of a Framework for Provisioning G4C Services through IPTV
   Jaeheung Yoo, Jinhong Yang, Junkyun Choi, Soohyung Kim (Information and Communications University, Korea) ................................................................. 2283

6. Scene Change Detection Algorithm on Specific Movie
   Myoung-Beom Chung, Il-Ju Ko (Soongsil University, Korea), Dae-Sik Jang (Kunsan University, Korea) ................................................................. 2286

7. Management of Remote Facilities through a Ubiquitous Grid Middleware
   Huck Han, Heonyoung Yeom (Seoul National University, Korea), Haesun Jung (Korea University, Korea), Yongwoo Lee (University of Seoul, Korea), Changsung Jeong (Korea University, Korea), Shingyu Kim, Young-jin Yu (Seoul National University, Korea) ................................................ 2291

8. Direction of Arrival Estimation using Weighted Subspace Fitting with Unknown Number of Signal Sources
   Cheol-Sun Park, Jun-Ho Choi, Jong-Won Yang, Sun-Phil Nah (Agency for Defense Development, Korea) ................................................................. 2295

9. A Simple and Accurate Approximation for the Sum Rate of Zero Forcing Dirty Paper Precoding with Greedy User Selection
   Seunghun Jang, Jeong-Wook Seo, Dong Ku Kim (Yonsei University, Korea) .................. 2299

10. Evergreen: A Fault-tolerant Application Streaming Technique
    Won-Young Kim (ETRI, Korea), Ji-hoon Choi (UniInfo, Korea), Jeong-Min Shim (TestMidas, Korea), Wan Choi (ETRI, Korea) ................................................................. 2302

11. Multiple Object Tracking for Fall Detection in Real-Time Surveillance System
    Young-Sook Lee, HoonJae Lee (Dongseo University, Korea) .................................... 2308

12. Artifact-Resistant Design of a Wrist-type Heart Rate Monitoring Device
    Chan-kyu Park, Jo-chan Sohn, Jae-hong Kim (ETRI, Korea), Ho-jin Choi (Information and Communications University, Korea) ................................................................. 2313

13. Basic Sequence Search by Hashing Algorithm in DNA Sequence Databases
    Sing-Hui Toh, Hoon-Jae Lee, Kyeong-Hoon Do (Dongseo University, Korea) ............. 2317

    Alka Gautam, Hoon Jae Lee (Dongseo University, Korea), Wan-Young Chung (Pukyong National University, Korea) ................................................................. 2321

15. Middleware for Ubiquitous Healthcare Information System
    Mangal Sain, HoonJae Lee (Dongseo University, Korea), Wan-Young Chung (Pukyong National University, Korea) ................................................................. 2325
Eun Cheol Kim, Jin Young Kim (Kwangwoon University, Korea) ........................................ 2329

17. Realization of Grid Mobile Middleware System based on Improved Intelligent Scheduling Algorithm  
Seok Young Hong, Dong Ryeol Shin (Sungkyunkwan University, Korea) ......................... 2333

18. P2P Based Private Broadcasting DRM System  
Jungsoo Lee (ETRI, Korea) ........................................................................................................ 2337

Joonyoung Jung, Jeunwoo Lee (ETRI, Korea), Daeyoung Kim (Chungnam National University, Korea) .................................................. 2340

20. Evaluation of Interleaved Source Coding over Memoryless Binary Erasure Channel  
Jin Young Lee (ETRI, Korea), Hayder Radha (Michigan State University, USA), Jeong Ju Yoo (ETRI, Korea) ................................................................. 2346
