49th Annual Meeting of the Institute of Nuclear Materials Management 2008

Nashville, Tennessee, USA
13-17 July 2008

Volume 1 of 4

# TABLE OF CONTENTS

## Volume 1

The First Half Century and Beyond ................................................................. 1  
*W. Tobey*

William H. Tobey Remarks to the INMM "National Roles and Responsibilities in Global Nuclear Security" ................................................................. 14  
*W. Tobey*

The Path Ahead for Safeguards ..................................................................... 21  
*M. Weber, M. Williams*

The World Institute for Nuclear Security (WINS) - From Concept to Reality ................................................................. 33  
*R. Howsley*

Alpha Detector Pixelization Effects on NMIS Imaging ............................... 39  
*B. R. Grogan, P. A. Hausladen, S. M. McConchie, J. T. Mihalczo, J. A. Mullens*

Development of a Software Framework that Provides Flexible Sensor Fusion .................................................................................. 46  
*T. Pierce, D. Adams*

Ensuring Nuclear Security in Japan: Policy and Activities of Japan Atomic Energy Commission ................................................................. 54  
*K. Naito*

Measurement of the Plutonium Weight in a Melting Furnace at CEA Bruyeres Le Chatel (France) ................................................................. 62  
*R. Oddou, J. Chevillon, H. Schoech, M. Vincent*

The U.S. Support Program to IAEA Safeguards - 2008 ................................ 64  
*S. Pepper*

What Determines the Extent of National Reliance on Civil Nuclear Power? .................................................................................. 72  
*P. Nelson, C. Sprecher*

To Bespoke or Not To Bespoke? That is the Question ................................. 80  
*A. Swindells*

Use of the COMPASS Model ..................................................................... 88  
*A. Wilson*

Technical Accomplishments of Phase II of the Advanced Transparency Framework* ................................................................. 93  
*V. Cleary, G. Rochau, C. Mendez, K. McFadden*

Analysis of Contemporary Publications on Problems of Radioecology of the Urals Region ................................................................. 101  
*A. Lipilina*

*D. Saltiel, T. Drennen, W. Kamery*

The U.S. Highly Enriched Uranium Disposition Program ................................ 116  
*S. Sanders, R. George*

Advances in Low Level Uranium and Plutonium Isotope Mass Spectrometry Using Multiple Ion Counting and Filament Carburization .................................................................................. 123  
*S. Richter, A. Alonso-Munoz, R. Jakopic, H. Kuehn, Y. Aregbe, R. Wellum*

A System to Provide Early Warning of Human and Vehicle Intruder Activity .................................................................................. 130  
*B. Norman, D. Adams*

Safeguards Approach to the MACTOR KN-400 Type Dry Storage at the Wolsung Facility ................................................................. 136  
*S. Park, J. Shin, K. Yeo*
