Some format issues inherent in the e-media version may also appear in this print version.
**TABLE OF CONTENTS**

**VOLUME 1**

Submission #6: Hierarchical Composition Heuristic for Sequence Dependent Scheduling Problems ................................................................. 1  
Ceyhun Ozgur, Kenneth Dunning, Lihui Bai

Submission #7: Strategic Orientations of Manufacturing Organizations in the European Market: Evidence from Portugal .......................................................... 7  
Carlos F. Gomes, Mahmoud Yasin, Joao Verissimo Lisboa

Submission #10: Chance Constrained Programming for Security Analysis and Portfolio Management ............................................................. 13  
Hari P. Sharma, Dinesh K. Sharma, R.K. Jana

Submission #12: Why Experience May Not Matter in Data Warehousing: The Role of Expertise ................................................................. 19  
Richard J. Goeke, Robert H. Faley, Kevin E. Dow, Alan A. Brandyberry

Submission #14: Correlates of Retail Store Loyalty: An Empirical Study ................................................................................................. 25  
Ugur Yavas, Emin Babakus

Submission #17: Factors affecting the Satisfaction of China's Mobile Services Industry Customer ......................................................................... 29  
Su-Chao Chang, Chi-Min Chou

Submission #18: Importance of Region in Marketing Wine to US Consumers ......................................................................................... 35  
Thomas S. Atkin, Janejira Sutanonpaiboon, Ray Johnson

Submission #20: An Industry-Based Perspective of Maintenance Operations in Maquiladoras .................................................................. 41  
Shad Dowlatshahi

Submission #21: Reverse Logistics Systems and Inbound and Outbound Transportation Systems ........................................................................ 47  
Shad Dowlatshahi

Submission #22: Value System Specification: Defining and Classifying Types of Organizational and Interorganizational Research ......................................................... 52  
Lloyd M. Rinehart, John Mello, Duke Leingpibul

Submission #29: The Relationship of Integration and Automation Under an Uncertain Environment: A SEM Model ................................................................. 58  
Qiang Tu, Kun Liao, Yulong Li

Submission #31: E-commerce Strategies: An Exploratory Research Based in the Value Creation Process ............................................................................. 64  
Pedro Marcelo

Submission #32: When More Isn't Necessarily Better: Conceptualization and Use of the Experience Construct in IS Research .............................................................................. 70  
Miguel I. Aguirre-Urretas, George M. Marakas

Submission #33: Obstacles to Economic Development Within the ICT Industry: an Examination of Trends Over Time at an Expanded Regional Level .............................................................................. 76  
James M. Henson

Submission #35: Pre-processing Method with Surrogate Constraint Algorithm for the Set Covering Problem ................................................................. 82  
Yaquan Xu
Submission #36: Prioritizing Decisions using Chainwise Group Comparison
Steven K. Sherman

Submission #37: Implementing Activity-Based Costing (ABC) to Measure Profitability on a Commercial Loan Portfolio
Mehmet C. Kocakulah, Aaron Wood

Submission #39: Sourcing from China: A Study of Australian Firms
Jeff Wang, Damien Power, Danny A. Samson, Prakash J. Singh

Submission #40: Additive Efficiency Decomposition in Two-Stage DEA
Joe Zhu, Yao Chen, Wade D. Cook, Ning Li

Submission #41: Toward Generating the Efficient Frontiers for Non-Concave Preferences of the Negotiators
Joao S. Neves, Behnam Nakhai

Submission #44: Predicting Stock Returns for the Frankfurt Stock Market
Jeffrey E. Jarrett

Submission #46: The Timing and Industry Picking in Taiwan Stock Market – the Application of Momentum Strategy
Ying Fen Fu, Hui-Ching Liu, Cheng Mei-Hsing

Submission #47: Value Stream Management: Empirical Evidence on Lean Organizational Structures
Peter Haug

Submission #48: A Decision Support System for New Product Sales Forecasting
Ching-Chin Chern, Ka Ieng Ao Ieong, Ling-Ling Wu, Ling-Chieh Kung

Submission #49: A Method for Locating and Sizing Project Time Buffers
Robert Bregman

Submission #51: A Study of Service Trends in Physical Therapy Practices
Ruggiero S. Canizares, Timothy M. Bergquist

Submission #52: The Moderating Effect of Trust between e-Procurement Adoption and e-Marketplace Participation on Firm Performance
Hsinghsin Chang, Youchuan Tsai, Powen Fang

Submission #53: The Impact of E-Procurement, Information Sharing, Partner Relationship, and Supply Chain Integration on Supply Chain Performance
Hsinghsin Chang, Youchuan Tsai, Jong Chao Yeh

Submission #54: A Use of DEA-Discriminant Analysis to Measure Corporate Performance of Japanese Manufacturing Industry: An Influence of R&D Expenditure on Corporate Value
Mika Goto, Yusuke Omi, Toshiyuki Sueyoshi

Submission #56: "How to Make it Happen": Process Improvements in the Book Publishing Industry
Beate Klingenberg, David J. Gavin

Submission #57: The Impacts of User-Generated Video Content to the Internet and Telecommunication Business
Chengqi Guo, Jongtae Yu

Submission #59: An Empirical Study on Affective Commitment and Enjoyment in Technology Mediated Learning
Yujong Hwang
Submission #60: The Impact of Information Technology on Worldwide Healthcare Costs .................. 197
Gordian Ndubizu, Bay Arinze, Yongtao (David) Hong

Submission #61: A Comparison of Procedures to Schedule Groups of Jobs in a Flowshop to Minimize Total Tardiness ............................................................... 203
Jeffrey E. Schaller

Submission #62: A Systematic Approach to Improving Patient Safety: The Patient Safety Chain Model ............................................................... 209
Kathleen L. McFadden, Stephanie C. Henagan, Charles R. Gowen III

Submission #68: Are Accounting Curricula Fair and Balanced? ............................................. 215
Lakshmi Tatikonda, Olesya M. Savchenko

Submission #72: Efficient and Inefficient Composites in the U.S. Domestic Property-Casualty Insurance Industry .................................................. 221
Peter M. Ellis

Submission #73: Sports Involvement, Gender, and Goofing Off at Work Among Future Chinese and U.S. Managers .................................................. 227
Wayne H. Decker, Thomas J. Calo, Hong Yao

Submission #75: Design of Individuals and Moving Range Charts ........................................ 233
Neil B. Marks, Timothy C. Krehbiel

Submission #77: David and Goliath in the ERP Battle – Future? ............................................ 239
Gyu C. Kim, Marc J. Schniederjans

Submission #79: Statistics of Sports: A Pedagogical Tool .................................................... 245
Reza D. Noubarry

Submission #80: A Decision Framework for Outsourcing Tasks to Offshore Vendors ................. 251
Michael G. Wells, Lee D. Cornell

Submission #81: Project Maverick Internships: A University’s Onshore Alternative to Offshore Outsourcing .................................................. 257
Michael G. Wells, John R. Olson

Submission #82: Finding Determinants Affecting Online Education Effectiveness in terms of Learning Satisfaction and Application Performance ................... 263
Jeong-Wook Kim, Kyung Hoon Yang, Kichan Nam, Sung Tae Kim

Submission #83: Heuristic Factory Planning Algorithm for Advanced Planning and Scheduling ............................................................... 269
Ling-Chieh Kung, Ching-Chin Chern

Submission #84: Heuristic Relief Transportation Planning Algorithm for Emergency Supply Chain Management ............................................................... 275
Ching-Chin Chern, Yu-Lin Chen, Ling-Chieh Kung

Submission #85: Collaboration Partners, Networks, and Performance of Entrepreneurial Team ............................................................... 281
Ming-Chao Wang

Submission #87: Ambiguity in Measures of Qualitative Dispersion ......................................... 287
John Dickinson

Submission #88: The Use of Activity Based Costing in Calculating Mortgage Loan Servicing Expenses ............................................................... 289
Mehmet C. Kocakulah, Marvin Albin, Jim Bartlett

Submission #90: Naddor's Heuristic- Development and Results ............................................. 295
Ibrahim Kurtulus
Submission #91: Use of Strategic Planning in Transitional Economies ..................................................301
   Alev M. Efendioglu, Tugba Karabulut

   Douglas N. Hales, Satya S. Chakravorty

Submission #94: E-Learning Satisfaction Factors ................................................................................313
   Oyku Isik

Submission #95: Factors Influence on Success Mass Customization ..................................................319
   Wai Kwan Lau

Submission #96: Predicting Employee Awareness of Firm Objectives from Strategic Alignment Maturity ................................................................................................................325
   Deb Sledgianowski

Submission #98: Can the Balanced Scorecard help a Real World Business Improve? .........................331
   Gus Gordon, Mary Fischer

   Cheon-Pyo Lee

Submission #103: Is There a Relationship between Sustainability Reporting and Organizational Performance? An Examination of Corporate Performance Indicators ...........................................343
   Petros Christofi, Seleshi Sisaye

Submission #104: IT Offshore Outsourcing: A Russian Outlook ..........................................................349
   Alexander I. Mechitov, Helen M. Moshkovich

Submission #105: Allocating and Pricing Service Capacity over Time in a Competitive Environment ..........................................................................................................................355
   Hongkai Zhang, Hani I. Mesak

Submission #106: Implementation of Biometric Payment Technology in Organizations .......................361
   Chang-tesh Hsieh, Binshan Lin, Yen Nguyen

   Shad Dowlatshahi

Submission #108: Optimal Determination of Service Capacity for Systems with Sensitive Arrival Rate ..........................................................................................................................373
   Parag Dhumal, Vikas Agrawal

Submission #109: A Psychologically Plausible Goal-Based Utility Function ........................................379
   Grandon Gill

Submission #110: A Study of Two-Factor Authentication Against Online Identity Theft .........................385
   Seungjae Shin, Jack Tucci, Jungwoo Ryoo, Jerry Cunningham

Submission #113: The Role of E-Service Quality and Information Quality in Creating Web Site Loyalty .............................................................................................................................391
   Ann M. Pearson, Suresh K. Tadisina, Chris Griffin

Submission #114: Fusion Product Design: A Market Offering Perspective .............................................397
   Yuwen Chen, Janice E. Carrillo, Assoo Vakharia, Peter Sin

Submission #116: A First Course in Service Systems Engineering .........................................................403
   Dana M. Johnson, Leonard J. Bohmann, Kris Mattila, Nilufer Onder, John W. Sutherland
Submission #117: An Examination of Strategic Effectiveness in the Context of Strategic Groups: A Structural Equation Modeling Approach
Carlos F. Gomes, Mário G. Augusto, Mahmoud Yasin

Submission #118: Applicability of Different Capacity Planning Methods: Practical Implications from Contingency Theory
Antti Tenhiala

Submission #121: Optimal Contract Design in a Dominant-Retailer Supply Chain Under Asymmetric Information and Disruptions
Pin Zhuang

Submission #122: The Impact of Internal Marketing Mechanism on Knowledge Sharing Motivation and Knowledge Sharing Behavior
Shyh-Rong Fang, Shih-Chieh Fang, Ming-Chung Chuang

Submission #123: Using Analytic Hierarchy Process to Evaluate Organizational Innovativeness in High-Tech Industry
Ming-Ten Tsai, Shuang-Shii Chuang, Wei-Ping Hsieh

Submission #125: Is there Cultural Bias in Supply Chain Management Theories? An Empirical Assessment
Mark Pagell, Murat Kristal, Chwen Sheu

Submission #126: A Comparison of the Coefficient of Predictive Power, the Coefficient of Determination and AIC for Linear Regression
Francis A. Méndez Mediavilla, Frank G. Landram, Vivek Shah

Submission #127: The Relationship Between Organizational Structure and Integration: The Effects on Manufacturing Performance
Rafael Teixeira, Xenophon A. Koufteros, David Peng, Roger G. Schroeder

Submission #131: The Service Quality Model and the Challenges of Six Sigma in Services
Behnam Nakhai, Joao S. Neves

Submission #134: Supply Chain Inventory Policies for Bi-Level Demand: A Simulation Study
P. S. Sundararaghavan, Udayan Nandkeolyar, Parag Dhumal

Submission #135: The New Media Technologies: An Overview and Framework for Study
Linda Weiser Friedman, Hershey Friedman

Submission #137: College Curriculum and Incremental Change: A Longitudinal Case Study
Vipin K. Agrawal, Vijay K. Agrawal, Larry W. Hughes, Donald Carpenter

Submission #138: An Empirical Investigation of the Universality of Stakeholder Prescription
Chanchai Tangpong, Tony R. Johns, Jin Li

Submission #139: A Pilot Study of Factors that Influence Undergraduate Students’ Opinions of IT Ethics
Kathleen K. Molinar, Marilyn G. Kletke, Rohit Rampal

Submission #140: Enhancing Decision-Making and Facilitating Problem Solving By Organizing Data and Information and Preventing Information Chaos
Nabie T. Conteh, Charles J. Pineno

Submission #141: An Exploratory Study on Sustaining Supply Chain Integration
Abirami Radhakrishnan, V. Sridharan, Douglas N. Hales

Submission #169: Forecasting Product Returns for Production Planning and Control in Remanufacturing
Toyin Clottey, Rajesh Srivastava

Submission #171: Design for Sustainability: Product Development Tools and Life Cycle Economics
Rajesh Srivastava, D. David Johnson

Submission #172: Integrating the Business Curriculum: International Company of the Year
Joanne M. Tucker, Sarah Bryant Bower

Submission #174: The Public Accountability of State and Local Government Will Be Enhanced with an Improved Financial Statement Classification System
Judith Anne Kamnikar, Edward G. Kamnikar, Keren H. Deal

Submission #176: A Non-Aggregate: Anonymizing Data Using Sequential Aggregation
Sanjay Bapna, Aryya Gangopadhyay, Abirami Radhakrishnan

Submission #178: Sourcing Partner Selection for Manufacturer in a Make-to-Order Supply Chain
Jinfeng Yue, Yu (Amy) Xia, Thuhang Tran, Bintong Chen

Submission #181: Application of the Set-Covering Model for the Minimum Cost Transportation Problem
Jae D. Hong, Ki-Young Jeong

Submission #182: Service Quality Perceptions and Customer Satisfaction in Fast-food Restaurants in China
Hong Qin

Submission #183: Weblog Attraction: Enjoyment Accompanied by Sense of Presence
Yoonhyuk Jung

Submission #185: Measuring the Performance of Processes Using Cost of Quality
Alireza Lari

Submission #186: A Framework for Inventory Management in Supply Network
Qiannong Gu, John K. Visich

Submission #188: Measuring General Risk Propensity in Business Decisions
Kuo-Ting Hung, Chanchai Tangpong

Submission #189: A Methodology for Determining Best Practice Strategies to Maximize University Research Income Under Quality Assessment Funding Regimes
Miles G. Nicholls, Barbara J. Cargill

Submission #190: Using Workload Models to Enhance University Research Performance
Barbara J. Cargill, Miles G. Nicholls

Submission #192: Electronic Collaboration in Buyer-Supplier Relationships: Influence and Trust as Relational Drivers
SaJeong Choi, Ilsang Ko

Submission #193: Interrelationships Between Team Dynamics, Concurrent Engineering Teams, Product Development Time and Organizational Performance
Anant Ravindra Deshpande

Submission #195: An Assessment Into the Drivers of E-business Adoption Within the Australian Pharmaceutical Supply Chain: An Institutional Theory Perspective
Vikram Bhakoo, Anrik S. Sohal
Submission #196: Development of Statistical Quality Control: Evolution or Revolution? .......................... 700
  Muhammad M. Hossain

VOLUME 2

Submission #197: Knowledge Coordination in Open Source Software Development Teams: A Transactive Memory System Perspective .......................................................... 706
  Xiaogang Chen, Glenn Dietrich

Submission #199: Airlines in India - A Strategic Analysis ................................................................. 712
  Nat Natarajan, V. Sridevi

Submission #201: Random Yield Supply Chain With a Yield Dependent Secondary Market ................................................................. 718
  Yuanjie He, Jiang Zhang

Submission #202: Project Flip: An Interactive Case/Exercise in Managing Uncertainty ........................................... 724
  Janelle Heineke, Larry Meile, Linda Boardman Liu, Jane Davies

Submission #203: A Path Dependent Perspective of the Transformation to Lean Production ................................................................. 728
  Patricia Deflorin, Maike Scherrer-Rathje

Submission #204: Peter and Elaine Moss: Franchisees ............................................................................. 734
  Ross Malaga

Submission #205: An Empirical Assessment of a Structural Equation Model of Residents’ Attitudes for Sustainable Tourism Development: A Case Study of Oahu, Hawaii ........................................ 740
  Kimberly J. Lottig, Lisa Marie Assante, Hsing Ivan Wen

Submission #206: A Canonical Analysis of Intentional Information Security Breaches by Insiders .................................................................................................................. 746
  Jordan D. Shropshire

Submission #209: A Tale of Three Classes: Case Studies in Course Complexity ........................................... 752
  Grandon Gill

Submission #211: E-Service Loyalty: Scale Development and Initial Validation ........................................... 758
  Samar I. Swaid, Rolf T. Wigand

Submission #214: A New v-SVM Model for Classification ......................................................................... 764
  Gitae Kim, Chih-Hung Wu, Yoon-Sung Jung

Submission #219: Understanding Information Technology Configuration in Business Diversification: A Political View .................................................................................................. 770
  Tao Hu, Xihui Zhang, Mark L. Gillenson, Rong Ma

Submission #222: Life Lessons Using Technology: Helping (Underrepresented Minority) Freshmen Get Ahead Before They Have Even Started .............................................. 776

Submission #223: Average-Free Statistics with Sports Applications ......................................................... 782
  Farzad Noubary, Reza D. Noubary

Submission #227: Change-Point Estimation for Gaussian Sequences ......................................................... 788
  Stergios B. Fotopoulos, Venkata K. Jandhyala, Elena A. Khapalova

Submission #229: A Literature Review and Areas for Future Academic Research in New Product Development in Supply Chain Management ......................................................... 794
  Lynn Fish, Wayne C. Forrest
Submission #230: Internal Supply Chain Integration in Product/service Development: Propositions Contrasting Manufacturing and Service Firms
David J. Dobrzykowski, Mark A. Vonderembse

Submission #231: Success Breeds Success: Why Accounting Course Prerequisites Matter
William Bealing, Richard L. Baker, A. Blair Staley

Submission #233: Change-point Analysis for Stochastic Systems with Poisson Inputs
Stergios B. Fotopoulos, Elena A. Khapalova, Venkata K. Jandhyala

Submission #235: Multi-Group LISREL Analysis of Gender and E-shopping Experience Effects on e-Purchase Process
Kee-Sook Lim, Jeen-Su Lim

Submission #237: Impact of the Internet Health Care Quality Information on Hospital Performance
Jeen-Su Lim, Kee-Sook Lim

Submission #238: Time Value of Perfect Information In a Two Period Consumption Choice Model
Niyazi O. Bakir

Submission #240: Examining the Long-Term Value of an Organization’s Software Development Competence
Jeff Crawford, Kiku Jones, Lori N. K. Leonard

Submission #241: The Efficacy of a Situational Approach on Increasing Security Awareness of General Users in Different Cultures
Charlie C. Chen, R.S. Shaw, B. Dawn Medlin

Submission #245: The Impact of the Online Channel on Retailer’s Performances: An Empirical Evaluation
Peter G. Zhang, Yusen Xia

Submission #246: Profiling Brazilian IS/IT Professionals and Their Hierarchical and Decision Levels Within an Organization
Maisa M. Silva, Ana Paula Cabral Costa

Submission #248: Modeling Antecedents and Outcomes of Mentoring for Successful Professional Women
John M. Miller, Jo Ann M. Duffy, Miguel R. Olivas-Lujan, Silvia I. Monserrat, Suzy Fox, Ann Gregory, Terri R. Lituchy, Betty Jane Punnett, Neusa Maria Bastos F. Santos

Submission #250: Hedge Fund Compensation Competition Under Asymmetric Information
Fei Pan, Hui Zhao, Kwei Tang

Submission #252: A Bounded Rationality Model of Investment Distortion in Emerging and Volatile IT Sectors
S. Ghosh

Submission #253: Development and Validation of Learning Capability Construct in IOS Supply Chain Network Context
Xiao Li, Anand S. Kunnathur, T. S. Ragu-Nathan, Thawatchai Jitpaiboon

Submission #256: Exploring the Mediating Role of Entrepreneurial Activity in Predicting “National Wealth”
Arun Madapusi, Derrick D’Souza

Submission #257: A Model of Virtual Community Knowledge Exchange Intentions: Perceived Network Structure, Self-Efficacy and Individual Motivations
Kyung Woo Kang, Seung Kyoon Shin
Submission #258: Sustainability in the Built Environment: Factors and a Decision Framework ................................................................. 895
    Joseph Sarkis, Laura M. Meade, Adrien Presley

Submission #260: A Quality and Partnering-Based Supplier Integration Model for Improving Customer Satisfaction ................................................................. 901
    Kanchan Das, Merwan B Mehta, Scott Dellana

Submission #261: Assessment: A Comparison of Three Approaches ................................................................. 907
    Janet Renwick, Charles B. Foltz

Submission #262: The Effect of Evaluation Mode and Attribute-Task Comparability on the Validity of Conjoint Analysis: A Guideline for the Strategic Selection of Conjoint Analysis ................................................................. 913
    Jae J. Lee, Junhong Min, Madhav Segal

Submission #264: Capitalizing on Purchasing Development and Complexity to Achieve Strategic Supplier Leverage ................................................................. 919
    Gary L. Stading, Jeff Adams, Ralph G Kauffman

Submission #269: Project Selection, Measurement, and Success: A Balanced Scorecard Approach ................................................................. 925
    Kevin M. Devine, Timothy J. Kloppenborg, Priscilla M. O’Clock

Submission #271: Introducing a Meta-Modeling Knowledge Management Layer in the Enterprise Information Architecture – A New Approach to Architecture Management ................................................................. 927
    Rashmi Malhotra

Submission #273: The Role of Franchising as Organizational Form: A Systems Perspective ................................................................. 933
    John Davies

Submission #274: Using DEA to Examine Efficiency of National Transportation Systems ................................................................. 941
    Jack C.P. Su, Mary Margaret

Submission #275: Analyzing The Financial Services Industry Using Data Envelopment Analysis ................................................................. 947
    Rashmi Malhotra, D.K. Malhotra

Submission #277: Perception Gaps Between the Customer, Employee, and Executive in Banking Service Quality ................................................................. 953
    Minjoon Jun, Shaohan Cai

Submission #279: Stock Replenishment Through an Unreliable Supply Channel ................................................................. 958
    Esmail Mohebbi

Submission #280: Process Preponderance in Service Supply Chains: A Field Study ................................................................. 964
    Shashank Rao Suresh, Thomas J. Goldsby

Submission #285: Achieving Collaborative Advantage and Firm Performance Through Supply Chain Collaboration ................................................................. 970
    Mei Cao, Qingyu Zhang, Mark A. Vonderembse, T. S. Ragu-Nathan

Submission #286: Using Tangible and Intangible Performance Measures to Determine Organizational Readiness to Implement Quality Improvement Programs in Service Operations ................................................................. 976
    Rhonda L. Hensley, Kathryn Dobie

Submission #288: Achieving Build-to-order Supply Chain Capability Through Supplier Partnership Practices Driven by Supply Chain Alignment ................................................................. 982
    Kun Liao, Mark A. Vonderembse, T. S. Ragu-Nathan
Submission #290: Solving One-Center Planar Location Problems with Barriers by Geometric Method Over Convex Domains
Yunwei Cui, Xingxing Zu

Submission #291: An Empirical Investigation on Collective Multilateral Trust Toward Innovative Technology Acceptance: A Study of Mobile Banking
Xin Luo, J. P. Shim, Anil Gurung, Qinyu Liao, Somasheker Akkaladevi

Submission #292: Developing a Value-Driven Hierarchy of Multi-Channel Shopping
Cheng-Chieh Hsiao, HsiuJu Rebecca Yen, Eldon Y. Li

Submission #293: Towards A Mobile Community Based Middleware for Spontaneous Interaction
Vijayan Sugumaran, Shriram Raghunathan, Vivekanandan Kanniappan

Submission #294: Crossing the Boundary of a Sporting Life: Off-Field Indiscretions, On-Field Penalties – A Case of Moral Emotions and Moral Governance
John Davies

Submission #297: Using Control Charts to Examine Revenue Generation
Jeffrey D. Stueland, Fazel Hayati

Submission #298: An Empirical Study on Comparison of Work Efforts in Various Stages of IS Software Developmental Projects between Offshored and Non-offshored Projects
Kallol K. Bagchi

Submission #299: Shared Leadership Network: A Cooperative Pattern in Knowledge-Based Teams
Jiefang Li, HaiBo Wang, Chunhua Chen

Submission #302: Using the New Media to Transform a University from a Teaching Organization to a Learning Organization
Linda Weiser Friedman, Hershey Friedman

Submission #303: Bertrand’s Paradox and Distribution of Lines
Jinchang Wang

Submission #305: Economic Number of Servers in Large Service Systems
Farzaneh Fazel, Ahmad Fakheri

Submission #306: An Exploration of the Relationship Between Satisfaction With Organizational Rewards and an Individual’s Tendency to Report Perceived Dysfunctional Budget Behavior of Others
Mary K. Collins

Submission #307: Profit-maximizing Inventory Model with Imperfect Production, Imperfect Inspection and Sales Return
Seung Ho Yoo, DaeSoo Kim, Myung-Sub Park

Submission #309: Enhancing Understanding of Business Processes through ERP Education
Purnendu Mandal, J. W. Saputro, Angappa Gunasekaran

Submission #310: The Effects of Leader Motivating Language Use on Worker Decision Making
Milton Mayfield, Jacqueline Mayfield

Submission #311: The Role of Leader Motivating Language in Employee Absenteeism
Jacqueline Mayfield, Milton Mayfield

Submission #312: The Antecedents of ERP Adoption: Using Secondary Data
Woosang Hwang, Jungsik Jeong, Udayan Nandkeolyar
Submission #313: Developing a Scale to Measure Creative Environment Perceptions: A Questionnaire for Investigating Garden Variety Creativity

Milton Mayfield, Jacqueline Mayfield

Submission #314: Defining Lean Accounting: Understanding the Impact of Cost Accounting System Design on Lean Management

Robert Hutchinson

Submission #320: Estimating Required Contingency Funds for Construction Projects Using Multiple Linear Regression

Alfred E. Thal Jr., Jason J. Cook, Edward D. White III

Submission #323: Patterns of IT Resource Adaptation in an E-Commerce Project: A Genetic Algorithm Simulation Attempt

Tod A. Sedbrook, Karen L. Fowler

Submission #325: What Factors Can Lead to Classroom Satisfaction in Online Classes?

Chuleeporn Changchit, Tim P. Klaus

Submission #328: Diversification-Performance: Analyzing the Relationship from the Learning School Perspective

Ramesh Dangol, Sushil K. Sharma, Nazim Ahmed

Submission #329: The Comparative Study of Mass Customization: SME(s) Vs. LE(s)

Thawatchai Jitpaiboon, Mark A. Vonderembse, T. S. Ragu-Nathan, Xiao Li

Submission #330: On the Problem of Selecting Categories and Model Subsets in Decision Trees

Eric S Kyper, Jeffrey E. Jarrett, Rodrigo Joseph Lievano

Submission #331: Cliques and Structural Holes in Collaborative Endeavors

Yan Cimon, Louis Hébert

Submission #332: Sustainability: A New Lean Principle

Gene Fliedner

Submission #333: Tactical IT-Business Alignment: Aspects and Outcomes

Sufian Qrunfleh, Monideepa Tarafdar

Submission #334: The Effect of Non-Linear Delay Costs on Workforce Mix

Donald E. Simmons

Submission #335: Trade Press Articles vs. Refereed Proceedings Articles: Quantifying the Lag Time for Publication of Information Technology Articles Between the Two Venues

Alan Chmura, Zuopeng (Justin) Zhang, Peter M. Roberts

Submission #338: Profitability and Curvilinearity: A Study of Product and International Diversification

Ernest H. Hall Jr., Jooh Lee, Da-Hsien Bao

Submission #340: A Regional Health Information Organization

Haidong Liu, Alice Woods

Submission #344: Using the Analytic Hierarchy Process to Assess Relative Stringency of State and Federal Water Quality Regulations

Joshua M. Duke, Rhonda Aull-Hyde, Matthew T. Lee

Submission #346: Integration of the Business Performance Management Framework and the Malcolm Baldrige National Quality Award Framework to Address Enhanced Competitiveness

Muhammad M. Hossain, Victor R. Prybutok
Submission #347: The Impact of Presentation Order on SERVQUAL Dimensionality ........................1189
Robert E. Miller, Bill Hardgrave, Thomas W. Jones

Submission #348: A Service-Design of IT Infrastructure ..............................................................1195
Pratim Datta, Marvin D. Troutt, David Booth, Murali Shanker

Submission #349: An Empirical Examination of the Linkage Between Organizational Culture, Process Management, and Performance .........................................................1201
Janine L. Sanders, Kevin Linderman, Roger G. Schroeder

Submission #351: Car Lube Operations ......................................................................................1207
Narendar Sumukadas

Submission #352: Residuals Control Charts and LAV Regression ....................................................1213
Joanne S. Utley, J. Gaylord May

Submission #353: Remanufacturing in Decentralized Supply Chains with Uncertain Yield ........1219
Samar K. Mukhopadhyay, Huafan Ma

Submission #354: The Associative Database in Support of Lean and Agile Database Design ..........1225
Richard L. Jenson

Submission #356: Market Liquidity Provision for On-Demand Computing ................................1231
Zhiling Guo

Submission #357: A Model for the Representation of Mobility of University Students on the Italian Territory .........................................................................................1237
Andrea Genovese, Giuseppe Bruno

Submission #359: An Active Learning Case with Student Perceptions for an Introductory Financial Accounting Course Considering Environmental Issues ........................................1243
Judith A. Sage, Lloyd G. Sage

Submission #360: A “Systemic” View of ERP System Deployments .............................................1249
Arun Madapusi, Grant Miles

Submission #364: Column Generation for Identical Subproblem ..................................................1255
Frank B. Parng

Submission #365: Using an Innovative Pedagogical Approach to Create and Enhance Intrinsic Motivation to Stimulate Learning .................................................................1261
Siew H. Chan, Laurie E. Hays, Pailin Trongmateerut

Submission #367: Moderating Effects of Task Type on Knowledge Sharing in a Virtual Team .....................................................................................................................1267
Linwu Gu, Jianfeng Wang

Submission #368: Determination of State Probabilities for M/M/s Queuing Models .......................1273
Ahmad Fakheri, Farzaneh Fazel

Submission #369: An Algorithm for Decomposing Mixed Market Hotel Data and Its Relation to Revenue Management .................................................................1279
Christopher M. Keller, John F. Kros

Submission #370: Treatment of Missing Data in Information Systems Research-A Meta Analysis ...............................................................................................................1285
Erastus Karanja

Submission #372: RFID and ERP Implementation in the Food Supply Chain: Issues, 2008 State of the Industry and Best Practices .................................................................1291
Lynn Fish
Submission #374: Consistency of Strategic and Operational Benchmarking Performance Measures in Traditional and Just-in-Time Companies ................................................................. 1297
Mohammad Z. Meybodi

Submission #377: ASYMPTOTIC Theory for the Maximum Likelihood Estimate of the Change-Point Under Contiguity .................................................................................. 1303
Stergios B. Fotopoulos, Li Tan, Venkata K. Jandhyala

Submission #378: Market Entrant Characteristics and Incumbent Reactions to Market Entry ................................................................................................................................. 1309
Fahri Karakaya, Peter Yannopoulos

Submission #379: Firm Competitiveness Through Supplier Responsiveness and Supplier Partnerships ....................................................................................................................... 1315
Ashish A. Thatte, Thawatchai Jitpaiboon

Submission #382: Risk Management for Cost Reduction in the Maintenance Phase of Software Projects ................................................................. 1321
Fengkun Liu, Marvin D. Troutt, Laura Lin

Submission #384: Student-Created Screen Capture Videos as a Part of Information Systems Science Course: Collaborative Learning in the Spirit of Youtube .............................................. 1327
Pekka Makkonen

Submission #385: The Moderating Roles of Traditionality and Leader Behavior Distance of Relationship Between Positive Leader Reward Behavior and Employee Outcomes ................................................................. 1333
His-An Shih, Tso-Jen Chen

Submission #386: A Stochastic Financial Simulation Model: The Case of Exporting an MBA Program ....................................................................................................................... 1339
Ohn A. Stocker, Conrado M. Gempesaw, Kliment Nachkov

Submission #389: Integration Methodologies and Performance in Japanese and American Product Development ........................................................................................................ 1349
Bill Johnson, Roberto Filippini

Submission #392: Entrepreneurial Orientation and the Performance of Service Business ................................................................. 1355
Seong Bae Lim

Submission #394: An ISMS Approach to Examining Corporate IT Governance ....................................................................................................................... 1361
Heath Raymond, J. Michael Tarn, Muhammad A. Razi, Bernard Han

Submission #396: A Proposed Study and Analysis of User Perceptions of Biometric Acceptance ....................................................................................................................... 1367
Mark Schmidt, Debjani Das, Vijay Kumar, Ernst Bekkering

Evelyn H. Thrasher, Terry A. Byrd

Submission #398: Opinions on the Ethics of Tax Evasion: A Comparative Study of Utah and New Jersey ....................................................................................................................... 1374
Robert W. McGee, Sheldon R. Smith

Submission #404: Second Thoughts About Offshoring ....................................................................................................................... 1380
Patricia A. Nodoushani, Omid Nodoushani, Patricia A. Nodoushani

Submission #406: Adopting Proactive Environmental Practices: The Influence of Stakeholders and Size ....................................................................................................................... 1392
Nicole Darnall, Irene Henriques, Perry Sadorsky
Submission #408: Ten Years of Internet in China: A Meta Analysis ..............................................................1397
Weitao Shen, Hong Zhan, Yue Zhang

Submission #410: The Strategic Agility of Information Systems Outsourcing ........................................1403
Charlie C. Chen, Jeremy Fox

Submission #412: Distance Learning and Technologies: Opportunities and Challenges .....................1409
Manying Qiu

VOLUME 3

Submission #413: Parallel Classrooms: A Case Study of the Interaction between On-line and Face-to-face Teaching ..................................................................................................................1415
Kenneth R. MacLeod

Submission #415: An Archetype Pattern Driven Approach to Ontology Development in Health Care Information Systems ...........................................................................................................1421
Wullianallur Raghupathi, Amjad Umar

Submission #417: The Design of One-Sided Triangular Tests for a Proportion ........................................1427
Thomas P. McWilliams

Submission #418: Integrated Digital Health Systems Design: A Service-Oriented Soft Systems Methodology ..................................................................................................................................1435
Wullianallur Raghupathi, Amjad Umar

Submission #420: The Effect of Motivation and Conflict Escalation on Decision Making: A Vignette Analysis ........................................................................................................................................1441
Dewey Todd, Craig A. Hill, Peter G. Zhang

Submission #421: An Empirical Investigation of Factors Influencing Web-Based Electronic Commerce Use – A Supply Chain Perspective ...................................................................................................1447
Carlo A. Mora-Monge, S. Subba Rao, Marvin E. González, Gioconda Quesada, Henry Quesada

Submission #423: Developing a Gap Analysis Instrument to Measure Perception Differences in Globally Dispersed Software Teams: A Narrative ..........................................................................................................................1453
Richard W. Egan, Jerry Fjermestad, Marilyn Tremaine, S. Roxanne Hiltz, Allen E. Milewski, Suling Zhang, Lori Wattrous-deVersterre

Submission #425: The Impact of Virtual Queues for Amusement Parks .........................................................1472
Heather Lutz

Submission #426: The Electrical Utility Industry: A Study of Ecological and Technical Tradeoffs .........................................................................................................................................................1478
Joseph Sarkis, James Cordeiro

Submission #427: Economic Design of On-Line Inspection Procedures with Directional Information .........................................................................................................................................................................1484
Young H. Chun

Submission #428: Perceptions of Security and Privacy When Using Mobile Communication Systems ..........................................................................................................................................................................................1490
Cheon-Pyo Lee, Xin Luo, Merrill Warkentin

Submission #430: The Impact of RFID-based Traceability System on Perceived Competitive Advantage in the Food Industry .....................................................................................................................1496
Yumi Park, Cheon-Pyo Lee

Submission #432: A Policy-based Access Control Mechanism for RFID Information Services ........................................................................................................................................................................1502
Zang Li, Chao-Hsien Chu, Wen Yao
Submission #433: Analysis After Output II - Decision Trees ................................................................. 1508
Kenneth R. MacLeod

Submission #434: Leveraging Complex Event Processing for RFID Applications: A Case Study in Hospitals ................................................................................................................................. 1514
Wen Yao, Chao-Hsien Chu, Zang Li, Tracy Mullen

Submission #437: Focus on Function: Assessing Information and Communication Technology in Order to Create Value in the Lodging Industry ................................................................. 1520
Daniel T. Norris, Daniel J. Connolly

Submission #438: An Analysis of Activity-Based Costing Project Implementations .................................................. 1526
H. Michael Chung, M. B. Khan

Submission #439: Winning Back Trust in E-Business .................................................................................. 1532
Anil Singh, Aakash Taneja, George A. Mangalaraj

Submission #440: Price Discounts for Increased Profitability Under Partial Backordering ............................................. 1538
David W. Pentico, Matthew J. Drake

Submission #441: Empirical Evidence of RFID Impacts on Supply Chain Performance ........................................ 1544
John K. Visich, Suhong Li, Basheer M. Khumawala, Pedro M. Reyes

Submission #442: Combining Active Learning Techniques and Productivity Projects to Improve Student Performance in Production and Operations Management Classes: An Exploratory Study ................................................................................................................................. 1550
Queen E Booker, Claudia H. Pragman, Fred L. Kitchens, Carl M. Rehman Jr.

Submission #443: Schedule Stability’s Moderating Effects on the Impact of Manufacturing Flexibility .......................................................... 1556
Gregory D. DeYong, Kyle Cattani, Barbara B. Flynn, F. Robert Jacobs

Submission #445: IS Outsourcing: Its Quality and Risk Issues .......................................................................... 1562
David C. Chou, Amy Y. Chou

Submission #446: Establishing the Need for Measurement Invariance in Information Systems Research: A Step-By-Step Example Using Technology Acceptance Research .................................................. 1568
Michael E. Ellis, Miguel I. Aguirre-Urreta, Wenyong N. Sun, George M. Marakas

Submission #448: Effective Knowledge Management in Collaborative Software Development ........................................... 1574
Mojgan Mohtashami, Fadi P. Deek

Submission #449: the Key Antecedents of Service Offshore Outsourcing: Research Model Derived from Outsourcing Literatures .......................................................... 1589
Mark Yang, Jeen-Su Lim

Submission #450: Structuration of E-Business: Virtual Organizational Transformation ............................................. 1595
James J. Lee, Paarin Katerattanakul, Ted Lee, Bandula Jayatilaka, Soongoo Hong, Ben B. Kim

Submission #451: Uncovering Volatility Persistence in the Japanese Government Bond Futures Market Using High-frequency Returns .................................................................................................................. 1601
Weihua Shi

Submission #452: Performance Consequences of Supplier Certification .............................................................. 1607
Richard Martin, Alan Cannon

Submission #457: Online Social Networks: Why Privacy is a Thing of the Past ..................................................... 1613
Aaron M. French, Merrill Warkentin

Submission #458: The Paradoxical Effects of Feedback and Reward on Decision Performance .......................................................... 1619
Siew H. Chan, D. Veena Parboteeah, Steve Sutton, Lee J. Yao
Submission #460: Assessment of Decision Factors That Affect Forecasting Accuracy In Revenue Management
Leslie M. Bobb, Emre A. Veral

Submission #461: Reducing Load Damages in Supply Chain Strategy: A Case Study
Ike C. Ehie

Submission #462: The Roles of Advanced Manufacturing Technologies Usage in Mediating Supplier Integration and Manufacturing Competitive Capabilities Relationship
Oanh T.K. Tran, Paul C. Hong

Submission #464: Implementing a Project Management Office (PMO) at the F&L Childrenswear Distribution Center
Catherine T. Fitzgerald, Bingguang Li, Miles Davis

Submission #465: A Comparison of Four Methods for Forecasting Lumpy Demand
Somnath Mukhopadhyay, Adriano O. Solis, Rafael Gutierrez

Submission #466: Controlling Computer Use Behaviors Through Provisioning Systems: When All Else Fails!
Gregory Earl Truman

Submission #467: Factors Affecting the use of WebCT by Professors in the Dillard College of Business Administration at Midwestern State University
Jermaine J. Jean-Pierre, Charles R. Johnston

Submission #469: Clinic No-Shows and Overbooking: Reflections and New Directions in Appointment Yield Management
Linda R. LaGanga, Stephen Lawrence

Submission #470: A Customer Driven Curriculum for International Business Major
Marvin E. Gonzalez, Gioconda Quesada, James D. Mueller, Rene Mueller

Submission #473: A Service Oriented Architecture for Improving E-Business Competitiveness
Fen Wang, Xinbao Wang

Submission #474: Socio-Organizational Aspects of Information Systems Security: A Review
Sumana Sharma, Long Li, Manoj Thomas

Submission #475: Offshore Systems Development: Factors Affecting Success
Gerald R. DeHondt II, Deborah Knapp

Submission #476: Business Value of IS Security Quality: The Effect of Data Breaches on the Market Value Firms
Andrew S. Borchers, Sung-Hee Park, Jeffery S. Smith

Submission #477: The Role of Power in Service Quality, Purchase Intentions and Purchase Actions
Daisy Wang, Suresh K. Tadisina

Submission #478: E-file Adoption: The Impact of Diffusion Innovation and Online Trust
Lemuria D. Carter, Ludwig Christian Schaupp

Submission #480: Applying a Modified Delphi Approach to Determine the Current State of the Concept of Knowledge
Jean-Baptiste Faucher, André M. Everett

Submission #483: A Pure Integer Programming Strategy with Aggressive Solution Space Reduction for Strategic Lot Size Optimization with Multiple Parallel and Serial Workstations
Lars F. Maaseidvaag, Thomas Knowles
Submission #485: An Extensible and Configurable Course Management System Design with Content Sharing, Quality Control, and Creative Incentive .................................................................173
  Michael Y. Yuan, Roger Williams

Submission #487: Knowledge-Base Architecture for Models Translation .........................................................174
  Paul Weist, Omar F. El-Gayar, Surendra Sarnikar

  Rajeev Sawhney, Christopher J. Piper

Submission #489: How Duration of Wait, Provision of Explanation, and Service Process Stage, Impact Perception of Waiting Time and Service Evaluation? .................................................................176
  Teresa K. Betts, Suresh K. Tadisina

Submission #490: Supply Chain Coordination with Warranty for Additive Demand .............................................176
  Wan-ting Hu

Submission #491: An Ontology-Based Approach for Representing Decision Models: Prospects and Limitations .........................................................................................................................176
  Omar F. El-Gayar, Amit Deokar, Nazim Taskin, Ruba Aljafari

Submission #492: Sensitivity Analysis of the MSAE Regression Result: Post-optimality Analysis of the LHS Coefficients ..................................................................................................................177
  John F. Wellington

Submission #493: Can Students Pass the Test: Should We Use Student Subjects in Operations Management Research .........................................................................................................................178
  Xiaowen Huang, Thomas F. Gattiker, Joshua L. Schwarz

Submission #494: Modeling the Benefits of Drop-Shipping in a Supply Chain with Price-Dependent Demand .................................................................178
  Yunfang Feng, Wei-yu K. Chiang

Submission #495: Pricing Strategy of Property Rights on Virtual Good in Second Life ........................................179
  Dan Ke, Li Chen

Submission #496: Throughput Time Distortion on Quality Variability and Quality Loss in a Supply Chain .........................................................................................................................180
  Zhen Li, Richard E. White

Submission #497: Five-Step Sequence for Successful Projects in Teaching Lean Production .........................180
  Farouq A. Alhourani

Submission #498: Success Factors in Production Outsourcing: A Conceptual Foundation .................................181
  Mary J. Meixell, George N. Kenyon

Submission #499: On the Solution of a Discrete Bilevel Programming Problem in Biofuel Production ...........182
  Xiangrong Liu, Hande Benson

Submission #501: Determining an Individual’s Concept of Privacy .................................................................182
  Tabitha L. James, Jennifer L. Ziegelmayer, Quinton J. Nottingham

  Kwasi Amoako-Gyampaha, Moses Acquaah, Jayanth M. Jayaram

Submission #504: A Case Study of Service Oriented Architecture Implementation and Governance ................183
  Alexander Coppola, Suhong Li
Submission #505: Cross-Training Productivity and Robustness in Labor Scheduling Environments ................................................................. 1839
Fred F. Easton
Submission #507: A Cross-Cultural Examination of Consumer Wait Time Perception: Russia and the USA................................................................. 1845
Kristie K. Seawright, Scott E. Sampson, Benjamin Wanamaker
Submission #509: How Personality Affects Time Control Over E-Mail Use: The Mediating Process................................................................. 1851
Eugenia Y. Huang, Sheng Wei Lin
Submission #510: Monte Carlo Simulation of Stochastic Transition Times in a Single-line, Multi-product Dairy For Projection of Efficient Safety Stock Levels ................................................................................................................................. 1857
Virginia M. Miori, Brian W. Segulin
Submission #511: On Extending Critical Chain: A Model for Managing Projects Proactively ................................................................. 1863
Atul Agarwal, Andrew S. Borchers
Submission #512: Integer Solutions to the Newsvendor Problem with Pricing: Rounding Errors and Comparison with a Discrete-Solution Model................................................................................................................................. 1869
Craig M. Sorochuk, John Wilson
Submission #513: What Do Course Evaluations Tell Us? ................................................................................................................................. 1875
Patti Collett
Submission #514: Collaborating College IT Education with High Schools: An Empirical Study................................................................................................................................. 1885
Thomas Rienzo, Bernard Han
Dothang Truong, Mohammad Bhuiyan
Submission #518: Organizational Slack and IT Innovation Adoption in SMEs................................................................................................................................. 1898
Jaume Franquesa, Alan A. Brandyberry
Submission #520: Level Scheduling of Large Composite Parts ................................................................................................................................. 1904
Christopher Kelly, Eric O. Olsen, Manocher Djassemi
Submission #522: Performance of Virtual Teams in Globally Distributed Software Development: The Mediating Role of Leadership ................................................................................................................................. 1910
Ashraf Shirani
Submission #523: An Balanced Scorecard Prototype in a State Department of Transportation ................................................................................................................................. 1916
Bih Ru Lea, David Hall
Submission #524: Improving Student Learning with Individualized Homework Assignments ................................................................................................................................. 1922
Victor L. Berardi
Submission #525: Development of a Value Increasing Model for Mobile Learning ................................................................................................................................. 1926
June Wei, Binshan Lin
Submission #527: Teaching Statistical Process Control Charts: “Beat the Experts” Prediction Exercise ................................................................................................................................. 1932
Stephen Hill
Submission #528: Total Compensation of Information Technology Managers ................................................................................................................................. 1938
Lai C. Liu, Kai Koong, Binshan Lin
Submission #529: Wearable Computing as Next Interaction Technology and Its Value for Virtual Team ................................................................. Jongtae Yu, Chengqi Guo

Submission #531: Optimal Design of Online Auctions: A Critical Review of Existing Literature ....................................................................................... Zhen Li, Ching-Chung Kuo

Submission #532: Implementation of Virtualization in the Enterprise ................................................................................................................................. Edward T. Chen

Submission #533: Factors Affecting e-mail Usage: An Empirical Study ................................................................................................................................. Solomon O. Ogara

Submission #538: Flexible Grading: An Analysis of Student Preferences for Grading Purposes .............................................................................................. Sharon Ford, Lisa Sandifer, Jennifer L. Ziegelmayer

Submission #541: Wildfires Plus Rain Equals Erosion: How Are These Disaster Losses Treated for Tax Purposes? ........................................................................ Steven Gill, Nathan Oestreich, James E. Williamson

Submission #542: Mono-Measurement of Qualitative Constructs ................................................................................................................................. Bijan Mashaw

Submission #543: The Effect of Global Manufacturing Competitive Factors on Global Manufacturing Efficiencies ........................................................................ Dennis Krumwiede, Artur Swierczek, Teri Peterson

Submission #544: A Holistic Approach in Implementing and Sustaining TQM Programs .................................................................................. Pui-Mun Lee

Submission #545: The Status of Entrepreneurship Education in Colleges and Universities in Sub-Saharan Africa .................................................................................. Jean Kabongo

Submission #546: The Impact of Magazine Credibility and the Degree of Information Processing on Advertising Effectiveness ........................................................................ Sung-Woo Bae, Hae-Yeon Choi

Submission #548: Span of Integration and Firm Performance ................................................................................................. Vijay R. Kannan, Keah Choon Tan

Submission #550: Estimating the Future Rate of Poisson Events after Removing Certain Variables: Applications to Software Reliability ........................................................................ Matthew D. Lindsey, Robert J. Pavur, Kellie Keeling

Submission #553: A Conceptual Assessment of Absorptive Capacity through the Lens of Diversity .............................................................................................. Willie Edward Hopkins, Michael A. Gross, Shirley A. Hopkins

Submission #554: Strategies for Learning: Reconceptualizing the Strategy-Environment-Performance Relationship Through a Knowledge-Based Perspective ........................................................................ Vishnu V. Vinekar

Submission #558: Using a Virtual World to Provide Real World Decision Support ................................................................................................. Daniel J. Power, Susan Wurtz
Submission #559: What Do Convention Managers Really Need to Know?: A Qualitative Analysis

Kelly V. Phelan

Submission #568: Towards a Framework of Code Familiarity and Students’ Ethical Decision Making in E-Learning Programs

Michelle Ramim

Mayur S. Desai, Kiran J. Desai

Submission #577: Towards an Implementation Success Model of a Centralized Identification System at a NASA Center

Yair Levy, Theon L. Danet

Submission #581: The Influence of Supplier Development on Buyer-supplier Relationships

Carol Prahinski, W. C. Benton, Ying Fan

Submission #595: The Effect of Information Technology Steering Committees on Perceived IT Management Sophistication in Hotels

Cihan Cobanoglu, Baker M. Ayoun, Daniel J. Connolly

Submission #615: A Model for Scheduling Projects Under Penalty and Reward Arrangements

Joel Jolayemi

Submission #631: A Model for E-Collaboration in the Supply Chain

Hulya Julie Yazici, Elias T. Kirche, Walter Rodriguez, Dahai Guo

Submission #963: Strategies for Removal of the Federal Budget Deficit and Payoff of the National Debt: Analytical and Simulation Studies

James R. Burns, Balaji Janamanchi, Andrew Wolfe

Yinan Qis, Min Zhang, Xiande Zhao

Submission #1087: A Multiple Criteria Approach to Assigning Classes for an Executive MBA Program

Ronald Klimberg, Kevin J. Boyle, Anthony Costanzo, Gerard Campagna, Christopher Matthews

Submission #1089: Evaluation of Individual Contributions to Executive MBA Team Performance Using Analytic Hierarchy Process

Virginia M. Miori, Ronald Dufresne

Submission #1105: Evaluation of Three Techniques of Parameter Estimation

Kenneth Lawrence, Sheila M. Lawrence
