IMEKO TC8 Workshop on Traceability to Support CIPM MRA and Other International Arrangements 2008

Torino, Italy
6-7 November 2008

ISBN: 978-1-61567-071-0
TABLE OF CONTENTS

PLENARY SESSION - Invited Lectures
Chairs: C. Ferrero, M. Sega, S. D’Emilio

Traceability is Not Always a Straight Line: the Non-conventional Ways of Traceability ........................................... 1
Marc Priel, Soraya Amarouche, P. Fisicaro

Establishing Traceability in Chemical and Biological Measurements and Sports Drug Testing .............................................. 21
R.I. Wielgosz, R. Kaarls

The Scientific Basis of Metrological Traceability of Measurement Results ................................................................. 75
Paul De Bièvre

PLENARY SESSION - Traceability: General and Statistical Concepts
Chairs: M. Priel, F. Pennecchi

Realization and Dissemination of Units in a Revised SI ............................................................... 94
Franco Cabiati, Walter Bich

About the Treatment of Systematic Effects in Metrology .......................................................................................... 102
Franco Pavese

Improper Input Quantity in a Measurement Model .............................................................................................. 110
J. Choi, G. Nam

Issues in Significance Testing .......................................................................................................................... 111
Giampaolo E. D’errico

F. Crenna, M. Panero, G.B. Rossi

PARALLEL SESSION - Traceability and Accreditation: Examples from Several Countries
Chairs: P. De Bièvre, S. Pinheiro de Oliveira

On the Need of Common Standards in Quantum Key Distribution Protocols ................................................................. 126
I.P. Degiovanni, M. Genovese

Traceability in the Spanish Metrological Framework ......................................................................................... 127
José A. Robles Carbonell, Belén Martín Blasco, José L. Manchado Trugillo, Nieves Medina

Traceability in Force Measurements to Centre and State Level Laboratories .......................................................... 135
K.K. Jain, H.N.P. Poddar, H. Kumar, S.S. Titus

PARALLEL SESSION - Traceability and Accreditation: Examples from Several Countries
Chairs: P. Bianco, J.A. Robles Carbonell

Traceability on Natural Gas Analysis in Brazil and South America: What is Going On? ........................................ 136
C.R. Augusto, C.C. Ribeiro, V.S. Cunha

Dissemination of Primary Gas Flow Standards ............................................................................................... 137
Harvey Padden

Management of Automatic Calibration Systems According to Quality Standards ........................................ 145
Alessio Carullo, Alessia Luoni
PARALLEL SESSION - Health and Environment
Chairs: R. I. Wielgosz, M. Belli

Food Safety: Education and Training for Metrology and Metrological Traceability.........................153
Antonio Menditto, Marina Patriarca, Paolo Stacchini, Michela Sega, Luca Cianti, Giovanni Munao,
Giancarlo Pistone, Marco Imberciadori, Enrico Rovarey

Metrological Traceability Chain for PCBs: I.N.Ri.M Activity.................................................................158
Michela Sega, Elena Amico Di Meane, Francesca Rolle

New Procedures for Radionuclide Impurity Determination and Traceability of Activity
Measurements of Short-lived Radiopharmaceuticals.................................................................164
M. Capogni, P. De Felice, A. Fazio

PARALLEL SESSION - Health and Environment
Chairs: G. Zappa, A. Menditto

Reference Materials for Environmental Monitoring..............................................................................172
M. Belli, P. de Zorzi

Traceability in Trace Metal Speciation: $^{119}$Sn and $^{201}$Hg Isotopically Labelled Compounds
As Reference Materials for the Determination of Butyltin Compounds and Methymercury
by Isotope Dilution Analysis................................................................................................................173
Jose Ignacio García Alonso, Pablo Rodríguez González, Giuseppe Centineo

Traceability Needs for Geometrical Identification of Form of Biobearings Working
Surfaces and Defect of Joint Cartilage.................................................................................................181
Andrzej Ryniewicz

PARALLEL SESSION - ROUND TABLE on "Accreditation and Accredited
Conformity Assessment Services as Means to Support the Diffusion and Consolidation
of the Metrological Culture and Practices in Modern Economies and Societies"
Chairs: L. Thione, M. Mosca
Participants: P. Bianco, A. Musa, D. Zangar, Y. Duan, A. Smargiassi, K. Katerinov

Ensuring Metrological Quality in Manufacturing and Service Processes ........................................189
Lorenzo Thione

Accreditation of Testing Laboratories................................................................................................193
P. Bianco

Tunisian Accreditation Council Tunac: Realisations and Perspectives..............................................194
D. Zangar

Metrology Infrastructure in China.......................................................................................................236
Duan Yuning, Gao Xiaoxun

Information on Coomet Activities (2007 – 2008)..............................................................................243
K. Katerinov

PARALLEL SESSION - ROUND TABLE on "Metrology and Traceability for Health"
Chair: M. Sassi
Participants: H. Parkes, M. Pimpinella, B. Güttler, P. Fisicaro

Diagnostics Effecting Measurement Comparability in Clinical Medicine......................................258
H. Parkes

Metrology for Medical Applications of Ionizing Radiation in the Framework of the EC-
EURAMET Research Projects........................................................................................................259
M. Pimpinella

</table>
Traceability Enhancement in Angle Measurement ................................................................. 421
  Vilnius Gediminas

PARALLEL SESSION - Health and Environment
Chairs: M. Sega, P. Fisicaro

Traceability of Absorbed Dose in Radiotherapy: from Primary Standard to Patient Treatment ................................................................. 429
  Loïc De Carlan, Didier Baltès, Jean-Marc Bordy, Josiane Daures, Frank Delaunay, Aimé Ostrowsky, Soizic Sorel

Uncertainty of Measurement by Monte-carlo Simulation and Metrological Reliability in the Evaluation Of Electric Variables of PEMFC and SOFC Fuel Cells ........................................... 437
  Sergio P. Oliveira, Adriana C. Rocha, Jorge T. Filho, Paulo R. G. Couto

Development and Metrological Management of a Photovoltaic-plant Monitoring System ............. 445
  Alessio Carullo, Alessia Luoni, Alessandra Neri, Ugo Grimaldi

PARALLEL SESSION - Traceability in Different Measurement Areas
Chairs: J. Choi, G. Wegener

Traceability of Electrical Quantities Obtained By Sampling ............................................... 452
  Umberto Pogliano

Traceability in Supercapacitor Measurements: Difficulties and Prospect ................................ 459
  V. Martynyuk

Traceability for Ballistics Signature Measurements in Forensic Science ......................... 460
  John Song, Theodore Vorburger, Susan Ballou, Li Ma, Thomas Renegar, Alan Zheng, Martin Ols

PARALLEL SESSION - Traceability in Different Measurement Areas
Chairs: G. Molinar, C. Ferrero

Pressure Controller for Primary Metrological Applications .......................................... 467
  Francesco Moro, Andrea Merlone, Piero Marcarino, Antonio Tiziani, Marco Dell’Isola, Giorgio Ficco, Salvatore Giunta

Metrological Traceability in Gas Analysis at I.N.Ri.M: Gravimetric Primary Gas Mixtures .......... 475
  Elena Amico Di Meane, Margherita Plassa, Francesca Rolle, Michela Sega

Weather Measurements Traceability: an Example at INRIM ............................................. 481
  Alice Meda, Andrea Merlone, Francesca Romana Pennechchi, Marina Sardi

POSTER SESSIONS

A1 Case History and Considerations on Proficiency Test Results Regarding Mechanical Tests ................................................................. 488
  Marco Casaril

A2 Characterization of One-axis Length Measuring Instruments ........................................ 498
  Roberto Bertozzi, Claudio Cribellati, Emanuele M. Barini

A3 Computer Calibration and Diagnostics System of Traveling Units for Traceability in Metrology ................................................................. 506
  Andrzej Ryniewicz, J. Gawlik

A4 Feasibility Study for the Development of a Toner-reference Material ................................ 507
  P. Carconi, R. Gatti, Alessia D’Alessio, Rita Di Bonito, Lucia Mosiello, G. Zappa, C. Zoani
A5 From the Flowsheet to the Worksheet. An Aid for Quantifying Uncertainty in Analytical Measurement
P. Carconi, R. Gatti, G. Zappa, C. Zoani
514

A6 Health and Environment: Use of INAA (Instrumental Neutron Activation Analysis) - and Certified Reference Materials at INRIM for Traceability and Quality Assistance
L. Bergamaschi, L. Giordani
515

A7 Measurement Method and Strategy of Evaluation of the Joint Shape and Articulation Surface Profile
Anna M. Ryniewicz, Andrzej Ryniewicz
516

A8 Providing Measurement Traceability to Wireless Sensor Networks in Museum Applications
Denis Smorgon, Vito Fernicola
524

A9 Role of National Physical Laboratory in Conducting Inter-laboratory Proficiency Testing Programme Amongst the Accredited Laboratories in India
A.K. Saxena, N. Garg, K.K. Jain, P.C. Kothari
530

A10 Scientific and Legal Metrological Organisation in Tunisia
S. Ghedamsi
531

A11 Some Considerations on Certification of Monoelemental Reference Solutions
R. Gatti, Paola Sangiorgio, G. Zappa, C. Zoani
532

A12 Torque Traceability Examination of Calibration Laboratories in Korea
Yon-Kyu Park, Min-Seok Kim, Jeong-Tae Lee, Ha-Young Lee, Dae-Im Kang
540

A13 Two Methods to Evaluate Combined Uncertainty
L. Yuhong, L. Qingzhong
548

B1 Experimental Tests in NITINOL
Marcos Motta De Souza, Wellington Santos Barros, Max Suell Dutra
549

B2 Expression of Result Uncertainty of Tensile Tests on Steel for the Reinforcing of Concrete According to M.D. 14th January 2008
M.C. Alessio, C. Bosco
555

B3 Improved Performance of Dead Weight Force Calibrator
K.K. Jain, H. Kumar, M. Kaushik
556

B4 Influence of Supercapacitor Transient on Measurement Accuracy
V. Martynyuk, V. Kosenkov, O. Shynkaruk
557

B5 Measurement Traceability at Italcement Group: a Direct Experience
P. Giardina, I. Tombini
558

B6 Measurement Uncertainty in Extensometer Calibration
Carlo Ferrero
559

B7 New Industrial Pressure Balances in Liquid Media Up to 120 MPa to Be Used for the Traceability of Pressure Measurements
M. Caravaggio, G. Molinar Min Beciet
567

B8 Report of the Italian Inter-laboratory Comparison of High DC Resistance on the Calibration of a10 MΩ and a 1GΩ Resistors
Flavio Galliana
575

B9 State of the Art of Uncertainty and Traceability Management in Italian NDT-laboratories
Ezio Trentini, Marco Casaril
583

B10 The Development of the New Inmetro's AC Voltage and Current Primary Standardization System Based on the PMJTC
E. Afonso, G. Borghi, R.P. Landim, R. Afonso Jr.
587
B11 The Equivalence in Accreditation: Robust or Standard Statistical Analysis of Interlaboratory Comparisons .......................................................... 595

Carlo Ferrero

B12 Traceability and Uncertainty Analysis in Volume Measurements ..................................................... 605

S. Lorefice

B13 Validation of a Novel Technique for the Measurement of the Refractive Index of a Prism by Means of Interlaboratory Comparison .......................................................... 615

M. Astrua, M. Pisani

ABSTRACTS

Technical Papers and Poster Abstracts .................................................................................................. 621

The National Organizing Committee
