2009 ICSE Workshop on Wikis for Software Engineering

(WIKIS4SE)

Vancouver, British Columbia, Canada
19 May 2009
Papers

1. An Effective Method for Keeping Design Artifacts Up-to-Date
   (Yochai Ben-Chaim, Eitan Farchi, Orna Raz)

7. Leveraging Semantic Data Wikis for Distributed Requirements Elicitation
   (Thomas Riechert, Thorsten Berger)

14. Wiki-Based Requirements Management for Business Process Reengineering
    (Luca Abeti, Paolo Ciancarini, Rocco Moretti)

25. SmartWiki: Support for High-Quality Requirements Engineering in a Collaborative Setting
    (Eric Knauss, Olesia Brill, Ingo Kitzmann, Thomas Flohr)

36. A Spatial Hypertext Wiki for Architectural Knowledge Management
    (Carlos Solís, Nour Ali, Muhammad Ali Babar)

47. Investigating Wikis for Software Engineering — Results of Two Case Studies
    (Eric Ras)

56. Software Organization Platform: Integrating Organizational and Individual Learning
    (Eric Ras, Sebastian Weber)

67. WikiDev 2.0: Web-Based Software Team Collaboration
    (Marios Fokaefs, Ken Bauer, Eleni Stroulia)

78. Role-Based Wiki for Reuse of Off-the-Shelf Components
    (Jingyue Li, Claudia Ayala, Reidar Conradi)

82. Interdisciplinary Collaboration Through Wikis in Software Development
    (Ammy Jiranida Phuwanartnurak)
