2009 International Conference on Games and Virtual Worlds for Serious Applications

(VS–GAMES 2009)

Coventry, United Kingdom
23-24 March 2009
# TABLE OF CONTENTS

## SESSION 1: FULL PAPERS

### EDUCATION

- **A Model of Motivation Based on Empathy for AI-Driven Avatars in Virtual Worlds**
  - Genaro Rebolledo-Mendez, Sara de Freitas, Alma Rosa Garcia Gaona
  - Page 1

- **Emotionally Responsive Robotic Avatars as Characters in Virtual Worlds**
  - Stuart Slater, David Burden
  - Page 8

- **Extending the Reference Method for Game Production: A Situational Approach**
  - Archontoula Amanatiadou, Inge van de Weerd
  - Page 16

- **The Implementation of Team Based Assessment In Serious Games**
  - Liz Boyle, Fiona Hancock, Matt Seeney, Laz Allen
  - Page 24

- **Using Player and World Representation Techniques from Computer Games to Improve Student Engagement**
  - Darryl Charles, Therese Charles, Michael McNeill
  - Page 32

- **Developing an Evaluation Methodology for Immersive Learning Experiences in a Virtual World**
  - S. de Freitas, G. Rebolledo-Mendez, F. Liarokapis, G. Magoulas, A. Poulouvasilis
  - Page 39

### ENVIRONMENT AND SMART BUILDINGS

- **An Automated Modeling Method for Multiple Detail Levels of Real-Time Trees**
  - Charalampos Koniaris, Athanasios Gaitatzes, Georgios Papaioannou
  - Page 47

- **ContextKing: Virtual Kingdoms in Real Life**
  - Johan Koolwaaij, Martin Wibbels, Sebastian Böhm, Marco Luther
  - Page 55

- **An Investigation of Visual Attention in FPS Computer Gameplay**
  - Charlotte C. Sennersten, Craig A. Lindley
  - Page 62

- **Serious Games for Training Occupants of a Building in Personal Fire Safety Skills**
  - Luca Chittaro, Roberto Ranon
  - Page 70

- **Prototyping a Context-Aware Framework for Pervasive Entertainment Applications**
  - Stelios Papakonstantinou, Vesna Brujic-Okretic
  - Page 78

### HEALTH

- **Using a Task Modeling Formalism in the Design of Serious Games for Emergency Medical Procedures**
  - Alberto Cabas Vidani, Luca Chittaro
  - Page 86

- **Serious Games for Upper Limb Rehabilitation Following Stroke**
  - James William Burke, Michael McNeill, Darryl Charles, Philip Morrow, Jacqui Crosbie, Suzanne McDonough
  - Page 94

- **A Sensory Gate-Ball Game for the Aged People and its User Interface Design**
  - Jung-A Kim, Kyung-Kyu Kang, Hyeon-Roc Yang, Dongho Kim
  - Page 102
Evaluation of an Immersive Learning Programme to Support Triage Training ................................................................. 108
Steve Jarvis, Sara de Freitas

OTHER TOPICS

Second Life Information Desk System Using Instant Messaging and Short Messaging Service Technologies .............................................................................................................. 114
Sérgio Valério, Jean Pereira, Leonel Morgado, Pedro Mestre, Carlos Serôdio, Fausto de Carvalho

It’s Talk, But Not as We Know It: Using VoIP to Communicate in War Games ................................................................. 122
John Halloran

Fast Vehicle Crash Modelling for Games ............................................................................................................................. 130
Jian Chang, Jian J. Zhang, Rehan Zia

A Pervasive Augmented Reality Serious Game ............................................................................................................................. 137
Fotis Liarokapis, Louis Macan, Gary Malone, Genaro Rebolledo-Mendez, Sara de Freitas

SESSION 2: SHORT PAPERS

EDUCATION

Cross-Disciplinary Approaches for Developing Serious Games in Higher Education ................................................................. 145
Pauline Rooney, K.C. O’Rourke, Greg Burke, Brian MacNamee, Claudia Igbrude

Erik D. Van der Spek, Pieter Wouters, Herre van Oostendorp

Manubuild Construction Site Training Simulator for Offsite Manufacturing ............................................................................................................................. 154
Panagiotis Petridis, Wafaa Nadim, Stephen Bowden, Jack Goulding, Mustafa Alshawi

The Perception of Gaming in Higher Education: Gaming Habits of University of Ulster Staff ............................................................................................................................................................. 158
Richard Beggs, Philip O’Neill, Karen Virapen, Sylvia Alexander

Exploring Game Leadership and Online Game Community ............................................................................................................................. 162
YeiBeech Jang, SeoungHo Ryu

Tabletop Prototyping of Serious Games for ‘Soft Skills’ Training ............................................................................................................................. 166
Conor Linehan, Shaun Lawson, Mark Doughty

Towards the Development of an Interactive 3D Coach Training Serious Game ............................................................................................................................. 170
Christos Gatzidis, Keith Parry, Emma Kavanagh, Amanda Wilding, Darrell Gibson

The Avatar and the Player: Understanding the Relationship beyond the Screen ............................................................................................................................. 174
Alison Gazzard

Design of a Mobile Mathematics Creativity Laboratory for Contemporary Learners ............................................................................................................................. 178
Peter Charles Samuels

Interactive Storytelling for Children Education ............................................................................................................................. 182
Chiara Evangelista, Marcello Carrozzino, Veronica Neri, Massimo Bergamasco
CULTURAL HERITAGE & OTHER TOPICS

Burgomaster and Pedro - A Pervasive Multi-Player Game for Rural Tourism.................................................. 186
   Michael Schmitz, Mohammad Mehdi Moniri

Machine Ethics for Metaverse Gambling: No Stake in a $24m Market?...................................................... 190
   Anna Vartapetian Samlasi, Lee Gillam

SESSION 3: POSTERS

Creative Agents and Triggers (CAT) Game Design Method: For Crisis Communication.............................. 194
   Cate Dowd

Multi-modal Learning and Assessment in Second Life with Quiz HUD ....................................................... 196
   Peter Russell Bloomfield, Daniel Livingstone

A Framework for the Development of Online, Location-Specific, Expressive 3D Social Worlds......................... 198
   David John, Christos Gatzidis, Fotis Liarokapis, Anthony Boucouvalas, Vesna Brujic-Okretic

Collaborative Web-Browsing in a Virtual World ................................................................................................. 200
   Malcolm Crowe, Daniel Livingstone

SESSION 4: KEYNOTE

Level of Realism for Serious Games ................................................................................................................. 202
   Alan Chalmers, Kurt Debattista
