2009 Eighth International Conference on Mobile Business

(ICMB 2009)

Dalian, China
27-28 June 2009
Track A: Emerging Theories on Mobile Business

The Effect of Online-to-Mobile Trust Transfer and Previous Satisfaction on the Foundation of Mobile Banking Initial Trust .................................................................1
Shan Chu and Lu Yao-bin

Mobile Task Characteristics and the Needs for Mobile Work Support: A Comparison between Mobile Knowledge Workers and Field Workers ..................................................7
Yufei Yuan and Wuping Zheng

Track B: Mobile Business Models, Strategies, and Value Creation

Understanding the Adoption of Mobile Data Services: Differences among Mobile Portal and Mobile Internet Users .....................................................................................12
Dimitrios C. Karaiskos, Panos Kourouthanassis, Panagiota Lantzouni,
George M. Giaglis, and Christos K. Georgiadis

A Strategic Analysis Reference Model for Mobile Middleware Technology Providers ..............................................................18
Antonio Ghezzi

Smart Phones and Their Substitutes: Task-Medium Fit and Business Models .................................................................24
Mads Bødker, Greg Gimpel, and Jonas Hedman

Competition in the Swedish Cellular Industry: Nobody Cares about Older People .....................................................30
Ibrahim Kholilul Rohman and Erik Bohlin

Value Networks: Scenarios on the Mobile Content Market Configurations .................................................................35
Antonio Ghezzi, Filippo Renga, and Marcelo Cortimiglia

Congestion Taxes and Mobile Technology - The Stockholm Case .................................................................41
Björn Rosengren

A Comparative Study on the Assessment of Personal Credit in Uncertain Environments ........................................46
Qi Ruikua, Yang Deli, and Hu Runbo
An Extended TAM for Analyzing Adoption Behavior of Mobile Commerce ..........................................................52
Quan Sun, Chunlei Wang, and Hao Cao

Future Scenarios for Local Area Access: Industry Structure and Access Fragmentation ........................................57
Timo Smura and Antti Sorri

Dynamic Impact Factors of Customer Lifetime Value: An Empirical Study of M-Zone .............................................64
Rong Liu and Jiayin Qi

A Stage Model for Evaluation of New Mobile Business Services ........................................................................70
Antti Peltomäki, Petri Hallikainen, and Virpi Kristiina Tuunainen

Sub-culture-driven Mobile Internet Business Models .........................................................................................76
Toshihiko Yamakami

Analyzing Mobile Business Model: Case of M-Zone in China .............................................................................82
Jiang Yu, Jing Hua Li, and Ping Gao

Analyzing and Categorization of the Business Model of Virtual Operators ..........................................................87
Key Pousttchi and Yvonne Hufenbach

Track C: Innovative Mobile Applications, Services, and Case Studies

A Study of the Factors Affecting the Adoption of Mobile Instant Messaging in China ............................................93
Yulong Ke and Wenli Li

Mobile Business Application Based on J2ME and Web Services .........................................................................99
Wu Yueliang

An Embedded TOP System for m-Commerce User Authentication ..................................................................104
Dong-Her Shih, Ding-Yu Kao, and Jui-Chi Shen

A Two-Year Analysis of Students’ Learning Experience Using Interactive SMS in the Classroom .....................110
Eusebio Scornavacca

Customer Satisfaction and Loyalty of Mobile Services .......................................................................................115
Zhahua Deng, Jinlong Zhang, Ling Zhao, Yaobin Lu, and K. K. Wei

Presentation Effects of Mobile Advertising - Product Categories and Advertising Formats Fit ........................120
Ching-Chang Lee

Critical Success Factors of Mobile Commerce Adoption: A Study Based on the System Life Cycle and Diamond Model ..................................................................................................................126
She-I Chang, Tien-Cheng Peng, Yu-Chung Hung, I-Cheng Chang, and Wei-Hsi Hung

Resource Sharing Behavior in a Socialized Peer-to-Peer Internet Environment .................................................131
Hsiang-Yuan Hsueh, Jing-Shihuan Hua, Shi-Ming Huang, and Hartmut J. Will

Development and Applications of Wireless Group Support Systems in Mobile Business ..................................137
Shin-Yuan Hung, Chia-An Tsai, and Pei-Jeng Dai

Location-Based Services for Emergency Management: A Multi-stakeholder Perspective .....................................143
Anas Aloudat, Katina Michael, and Roba Abbas
