# Table of Contents

## Volume I

**Preface**

Table of Contents Volume I  
Table of Contents Volume II

### Committees of the 25th ITTC

**The Advisory Council**  
1. Membership and Meetings  
2. Activities and Recommendation of the Advisory Council  
3. Officers for the 26th ITTC Advisory Council  

**The Executive Committee**  
1. Introduction  
2. Obituaries  
3. Committee Membership  
4. Committee Meetings  
5. Committee Decisions  

**The Resistance Committee**  
1. Introduction  
2. Resistance Committee Questionnaire  
3. Trends in Experimental Fluid Dynamics  
4. Scaling and Extrapolation Methods  
5. Trends in Computational Fluid Dynamics  
6. Validation of Prediction Techniques  
7. Facility Bias World Wide Campaign  
8. Design References and Optimization  
9. Far Field Waves and Wash  
10. Airwakes  
11. Recommendations  
12. References  

**The Propulsion Committee**  
1. Introduction  
2. Update the State-of-the-Art for Propulsion Systems Emphasising Developments Since the 2005 ITTC Conference  
3. Review ITTC Recommended Procedures  
4. Critically Review Examples of Validation of Prediction Techniques Identify and Specify Requirements for New Benchmark Data  
5. Review the Development and Progress in Unconventional Propulsors Such as Tip-rake, Trans-cavitating and Composite Propellers (Hydroelasticity and Cavitation Erosion Susceptibility Taken into Account

Appendix 8: List of Representatives (R), Members of Committees and Group (M) and Observers (O), Invited for the 25th ITTC 387
# Table of Contents

## Volume II

### Preface

Table of Contents Volume I

Table of Contents Volume II

**The Specialist Committee on Powering Performance Prediction**
1. Executive Summary 397
2. Introduction 397
3. Tasks Set from the 24th ITTC 398
4. Foreword 398
5. Powering Performance Prediction 398
6. Predicting Powering Margins 421
7. Resistance of High Speed Marine Vehicles 422
8. Conclusions and Recommendations 425
9. References 427
Appendix A: Data Sheets for Database of Model and Full Scale Trials 429

**The Specialist Committee on Uncertainty Analysis**
1. Introduction 433
2. Completed Procedures 435
3. Structure of the Report 435
4. Uncertainty Analysis 435
5. Repeatability versus Reproducibility 440
6. Inter-laboratory Comparison 444
7. Guide to the Expression of Uncertainty in Experimental Hydrodynamics 446
8. Instrument Calibration 449
9. Laser Doppler Velocimetry 452
10. Uncertainty Analysis for PIV Measurements 453
11. Uncertainty Analysis Procedures for Captive Model Tests 455
12. Free-Running Model Tests 458
13. Uncertainty in Water Properties 462
14. Conclusions 462
15. Recommendations 463
16. References 463

**Specialist Committee on Cavitation**
1. Introduction 473
2. Cavitation Survey 474
3. Cavitation Modeling 477
5. Multiphase Flow Cavitation Modeling 486
6. Rudder Cavitation 494
7. Waterjet Cavitation 499
# Table of Contents Volume II

8. Summary and Conclusion 503  
9. Recommendations 505  
10. References 505  

Appendix A: Unconventional Rudders and Rudders Behind Highly-Loaded Propellers 513  
Appendix B: Waterjet Cavitation Issues 517

## The Specialist Committee on Wake Fields
1. General 535  
2. Introduction 536  
3. Survey of Numerical Methods for prediction of Wake Fields at Model and Full Scale 537  
4. Review of Experimental Methods of Determining the Velocity Distribution in the Wake 543  
5. Development of Procedures for Measuring the Velocity Distribution in the Ship Wake at Model Scale 551  
6. Review and Update of the Existing Guidelines for the Simulation of the Wake Fields for Cavitation Testing 552  
7. Guidelines for the Use of PIV in Determining the Velocity Distribution in the Wake 553  
8. Recommendations to the Conference 555  
9. References and Nomenclature 556  
10. Literature Survey 560

## The Specialist Committee on Azimuthing Podded Propulsion
1. Membership and Meetings 563  
2. Recommendations of the 24th ITTC (Committee’s Tasks) 563  
3. Introduction 564  
4. State-of-the-Art 564  
5. Podded Propulsoor Tests and Extrapolation 567  
6. Guidelines on Extrapolation to Full-Scale 573  
7. Questionnaires 582  
8. Review and Analysis of Cavitation Behaviour of Podded Propulsors Under the Effect of Pod Steering Angle 586  
9. Special Applications for Podded Propulsion 594  
10. Technical Conclusions 599  
11. References 599

## The Specialist Committee on Stability in Waves
1. Introduction 605  
2. Prediction of Extreme Motions and Capsizing of Intact Ships 606  
3. Prediction of Dynamics of Damaged Ships 611  
4. Stability Safety Assessment 624  
5. Conclusions and Recommendations 632  
6. References and Nomenclature 633

## The Specialist Committee on Vortex Induced Vibrations Committee
1. General 641  
2. Review of the State of the Art 643  
3. Assessment of Prediction Methods 657  
4. Technical Conclusions 659  
5. References 660
