2009 4th IEEE International Conference Global Software Engineering

(ICGSE 2009)

Limerick, Ireland
13-16 July 2009
ICGSE 2009
Table of Contents

Welcome Message
Organizing Committee
Program Committees and Reviewers

Research Papers: Trust & Culture 1
Quality Indicators on Global Software Development Projects: Does "Getting to Know You" Really Matter? .................................................................3
  Olly Gotel, Vidya Kulkarni, Moniphal Say, Christelle Scharff, and Thanwadee Sunetnanta
Leveraging or Exploiting Cultural Difference? ...........................................................................8
  Valentine Casey
Knowledge Management in Distributed Software Development Teams - Does Culture Matter? .........................................................................................18
  Alexander Boden, Gabriela Avram, Liam Bannon, and Volker Wulf

Research Papers: Collaboration
A Coordination Risk Analysis Method for Multi-site Projects: Experience Report .................................................................31
  Matthew Bass, James D. Herbsleb, and Christian Lescher
A Survey on the State of the Practice in Distributed Software Development: Criteria for Task Allocation .................................................................41
  Ansgar Lamersdorf, Jürgen Münch, and Dieter Rombach
Investigating Decision Making Processes in Distributed Development Teams: Findings of a Comparative Empirical Study ........................................51
  Ban Al-Ani and David Redmiles
Exploring Collaboration Patterns among Global Software Development Teams .........................61
  Fatma Cemile Serce, Ferda-Nur Alpaslan, Kathleen Swigger, Robert Brazile, George Dafoulas, Victor Lopez, and Randy Schumacker
Research Papers: Architecture/Design

The Usefulness of Architectural Knowledge Management Practices in GSD .....................................................73
  Viktor Clerc, Patricia Lago, and Hans van Vliet
CAMEL: A Tool for Collaborative Distributed Software Design ......................................................................83
  Marcelo Cataldo, Charles Shelton, Yongjoon Choi, Yun-Yin Huang,
  Vytesh Ramesh, Darpan Saini, and Liang-Yun Wang
A Framework for Supporting the Software Architecture Evaluation Process in Global Software Development ..................................................................................................................93
  Muhammad Ali Babar

Research Papers: Trust & Culture 2

Descriptive Analysis of Fear and Distrust in Early Phases of GSD Projects ....................................................105
  Arttu Piri, Tuomas Niinimäki, and Casper Lassenius
Lessons Learned from a Workshop on Relationship Building ........................................................................115
  Jayakanth Srinivasan, Annika Löfgren, Christer Norström, and Kristina Lundqvist
In Strangers We Trust? Findings of an Empirical Study of Distributed Teams ..................................................121
  Ban Al-Ani and David Redmiles

Research Papers: Communications

Exploring Propinquity in Global Software Engineering ......................................................................................133
  Rafael Prikladnicki
How Technological Support Can Enable Advantages of Agile Software Development in a GSE Setting .................................................................143
  Kevin Dullemond, Ben van Gameren, and Rini van Solingen
Factors Affecting Audio and Text-Based Communication Media Choice in Global Software Development Projects ..........................................................................................153
  Tuomas Niinimäki, Arttu Piri, and Casper Lassenius
Quality in Global Software Development Projects: A Closer Look at the Role of Distribution ..........................163
  Marcelo Cataldo and Sangeeth Nambiar

Research Papers: Processes

Using Scrum in Global Software Development: A Systematic Literature Review .............................................175
  Emam Hossain, Muhammad Ali Babar, and Hye-young Paik
Selecting Locations for Follow-the-Sun Software Development: Towards a Routing Model ..........................185
  Christian Visser and Rini van Solingen
Using Scrum in Distributed Agile Development: A Multiple Case Study ....................................................195
  Maria Paasivaara, Sandra Durasiewicz, and Casper Lassenius
Research Papers: On- and Off-Shoring

Critical Success Factors for Offshore Software Development Outsourcing Vendors: A Systematic Literature Review ..............................................................207
Siffat Ullah Khan, Mahmood Niazi, and Rashid Ahmad

Management at the Outsourcing Destination - Global Software Development in India .................................................................217
Sadhana Deshpande and Ita Richardson

Offshoring Test Automation: Observations and Lessons Learned ..................................................226
Ilkka Tervonen and Timo Mustonen

Industry Practices Papers

Using a Real-Time Conferencing Tool in Distributed Collaboration: An Experience Report from Siemens IT Solutions and Services ...........................................239
Daniela Damian, Sabrina Marczak, Madalina Dascalu, Michael Heiss, and Adrian Liche

Experiences in Global Software Development - A Framework-Based Analysis of Distributed Product Development Projects ..................................................244
Michael T. Lane and Pär J. Ågerfalk

Linguistic Challenges in Global Software Development: Lessons Learned in an International SW Development Division ..................................................249
Benedikt Lutz

Experience with Training a Remotely Located Performance Test Team in a Quasi-agile Global Environment ..........................................................254
André B. Bondi and Johannes P. Ros

Improving Global System Development and Collaboration across Functions: Experiences from Industry ..........................................................262
Peter Faßbinder and Volker Henz

A Comparison of Team Performance Measures for Global Software Development Student Teams ..........................................................267
Kathleen Swigger, Fatma Cemile Serce, Ferda Nur Alpaslan, Robert Brazile, George Dafoulas, and Victor Lopez

Doctoral Symposium Papers

Global Requirements Engineering: Decision Support for Globally Distributed Projects ..........................................................277
Christian Lescher

Empirically-Based Decision Support for Task Allocation in Global Software Development Approaches ..........................................................285
Ansgar Lamersdorf

A Process Based Unification of Process-Oriented Software Quality Approaches ..........................................................285
Zádor Dániel Kelemen
Posters

How Urgent is Urgent? The Impact of Culturally-Based Temporal Perceptions on Virtual Teams ..........................291

Richard Egan, Marilyn Tremaine, Jerry Fjermestad, Suling Zhang, Allen E. Milewski, and Patrick O’Sullivan

Delegation in Global Software Teams: Leading or Managing? .........................................................293

Suling Zhang, Marilyn Tremaine, Allen E. Milewski, and Felix Köbler

Identification of Success and Failure Factors of Two Agile Software Development Teams in an Open Source Organization ..............................................................................................................295

Periklis Tsirakidis, Felix Köbler, and Helmut Krcmar

Dimensions of Collaboration in Global Software Engineering Teams: Explorations of 'Collaborative Technology Fit' ..............................................................................................................297

Tony Clear

Knowledge Management in Distributed Scientific Software Development .............................................299

Adel Taweel, Brendan Delaney, and Lei Zhao

REMIDI’09: Third International Workshop on Tool Support Development and Management in Distributed Software Projects

Global Sourcing of Software Development - A Review of Tools and Services .....................................303

Robert Martignoni

Analyzing Ontology as a Facilitator During Global Requirements Elicitation ........................................309

Gabriela N. Aranda, Aurora Vizcalino, and Mario Piattini

Process-Based Collaboration in Global Software Engineering ..........................................................315

Harald Klein, Andreas Rausch, and Edward Fischer

TAMRI: A Tool for Supporting Task Distribution in Global Software Development Projects ...............322

Ansgar Lamersdorf and Jürgen Münch

RepoGuard: A Framework for Integration of Development Tools with Source Code Repositories ..........328

Malte Legenhausen, Stefan Pielicke, Jens Rühmkorf, Heinrich Wendel, and Andreas Schreiber

Orchestration of Global Software Engineering Projects - Position Paper .............................................332

Christian Bartelt, Manfred Broy, Christoph Herrmann, Eric Knauss, Marco Kuhrmann, Andreas Rausch, Bernhard Rumpe, and Kurt Schneider
Empirical Experiences, Metrics and Tools for Project Management in Globally Distributed Software Development Projects

An Empirical Approach for the Assessment of Scheduling Risk in a Large Globally Distributed Industrial Software Project ................................................................. 341
Alberto Avritzer and Adailton Lima

Goal and Risk Factors in Offshore Outsourced Software Development from Vendor's Viewpoint .................................................................................................................... 347
Shareef Islam, Md. Mahbubul Alam Joarder, and Siv Hilde Houmb

Cultural Aspects of Global Requirements Engineering: An Empirical Chinese-German Case Study ........................................................................................................ 353
Patricia Shiroma Brockmann and Thomas Thaumüller

Researching Collaborative Technologies in Global Virtual Teams: Empirical Studies from an Interpretive Perspective .............................................................................. 358
Tony Clear

KNOWING: Knowledge Engineering in Global Software Development

Knowledge Management in the Global Software Engineering Environment ................................................................................................................................. 367
Ita Richardson, Miriam O’Riordan, Valentine Casey, Bridget Meehan, and Ivan Mistrik

Communication, Knowledge and Co-ordination Management in Globally Distributed Software Development: Informed by a scientific Software Engineering Case Study ................................................................................................................................. 370
Adel Taweel, Brendan Delaney, Theodoros N. Arvanitis, and Lei Zhao

A Novel Approach to Knowledge Sharing in Software Systems Engineering ............................................................................................................................................ 376
Sarah B. Lee and Sajjan G. Shiva

Do Architectural Knowledge Product Measures Make a Difference in GSD? ................................................................................................................................. 382
Viktor Clerc

Requirements Reasoning for Distributed Requirements Analysis Using Semantic Wiki ................................................................................................................................. 388
Peng Liang, Paris Avgeriou, and Viktor Clerc

Risks and Safeguards for the Requirements Engineering Process in Global Software Development ................................................................................................................................. 394
Alejandro López, Joaquin Nicolás, and Ambrosio Toval

Which Groupware Tool is the Most Suitable for this Group? ............................................................................................................................................ 400
Gabriela N. Aranda, Aurora Vizcaíno, and Mario Piattini

Author Index
