SPE 123892 Investigation of Production Tubing Coupling Failures From a Suspended HPHT Well ........................................ 495
David J. Hills, Michael Eddy, Thierry Cassagne, John Ligertwood

SPE 123923 Harding Central—Achieving 74% Recovery .......................................................... 507
P. Zhang, S. Green

SPE 123924 Milling of Permanent Bridge Plug Successfully Performed on Wireline .......................................................... 512
Stephen Strugio, Oyvind Andersen, Ole Eddie Karlsten

SPE 123927 Sub-basalt Plays in the Rockall and Faroes-Shetlands Basins .......................................................... 522
I. Davison, Stefan Stasiuk, Peter Nutall, Paul Keane

SPE 123931 “Managing a Giant” 50 years of Groningen Gas .................................................................................. 527
Niels Dijkstra, Joris Steenbrink

SPE 123935 New Single-Trip, TAML Level 4, Multilateral Junction Technology Reduces Well Costs in Norwegian Sea Subsea Well—A Case History .......................................................... 544
Olle Balstad, Mark Glaser, Tage Heng

SPE 123949 Case Study: Successful Application of a Novel Conformance Treatment in an Extended Reach Horizontal Well in the AI Shaheen Field, Offshore Qatar .......................................................... 555

SPE 123955 An Overview to Applicability of Multilateral Drilling in the Middle East Fields .......................................................... 567
Abooez Marziac Paiamian, J. Moghadasi

SPE 123964 Jura Fast Track Project .......................................................... 578
Jerome Lesgent, Jimmy MacIntosh, Phil Simons

SPE 123979 Development of a Thin Low Permeability Gas Field With Spiralling Dual Lateral Horizontal Wells: The Halfdan Northeast Field .......................................................... 588
L.B. Christiansen, M.W. Jeppesen, P. van Lingen, M.H. Rod

SPE 124074 Contacting the Reservoir—Benefits of Horizontal Open-Hole Completions .......................................................... 603
Sean Yakeley, Ed Wood, Mark Knebel

SPE 124091 Designing a Comprehensive Methodology as an AVO Analysis for Light Hydrocarbon Exploration Based on a Case Study .......................................................... 607
R. Parvizi, G.H. Norouzi, F. Sahabi, M. Maleki, H. Hajiromhouri

SPE 124100 Mungo Platform: A New Wireless Retrofit Solution to Restore Real Time BHP / BHT Data After a Permanently Installed Monitoring System has Failed—A North Sea Case History .......................................................... 617
B.P. Champion, A. Strong, N. Moodie

SPE 124131 Computational Mechanics Based Workflow and Toolkit to Manage Deformable Reservoir Developments .......................................................... 627
T.G. Kristiansen

SPE 124150 Case Study of Down-hole Tool Development to Deploy Sand Screens in ERD Wells, Extending the Boundaries, Saving Opex, Reducing Risk and Improving Operational Efficiency .......................................................... 643
Doug Gillespie, Keith Bradford, Rod Elliot

SPE 124158 North West Hutton: Decommissioning the North UK’s Sea’s First Large Platform With a Fixed Steel Jacket: Topsides Removal .......................................................... 651
Chris R. Farrow, Glyn Harris, Jan Groot

SPE 124191 Estimating the Magnitude of Exhumation From 2D and 3D Seismic Velocity Datasets: A Case Study From Slyne Basin, Offshore Northwestern Ireland .......................................................... 663
F. Biancotto, R.J. Hardy, S.M. Jones

SPE 124228 Development of Subsea Safety Systems to Allow Well Testing In European Frontier Areas .......................................................... 678
Virgilio Gracia Soule, Colin Mackenzie

SPE 124229 Accelerating the Commercialization of Exploration Success by the Application of Discovery Driven Development Planning .......................................................... 683
C.T. Hopper

SPE 124233 Magnus: Utilisation of Conductor Sharing Wellhead Technology to Access Additional Hydrocarbons via a Slot-Constrained Platform .......................................................... 690
S.E. Hicks, A. Moore, M. Honey, I.R. Farmer, B. Smart, R. Ekseth, D. Brown

SPE 124237 Control and Safety System (ESD, F&G and PCS) Obsolescence, a Practical Solution for System Migration Taking Account of Aging Facilities While Maintaining Safety Standards .......................................................... 700
A. Koh, A. Macleod, M. Gallacher, J. Lewis
