# TABLE OF CONTENTS

## WORKSHOP: ASSET MANAGEMENT—DIFFERENT PERSPECTIVES

**Developing a Long Term Pipeline Monitoring Program**
Gregory J. Henry, Brian Long
- Page 1

**Using GPS to Improve Data Collection on the Prairie Waters Pipeline**
T. Roode, Larry Rector, Mark P. Smith
- Page 11

## INFRASTRUCTURE ASSESSMENT/MONITORING I

**Acoustic Fiber Optic Monitoring, How it is Changing the Remaining Service Life of the Water Authority’s Pipelines**
John J. Galleher Jr., Mark Holley, Myron Shenkiryk
- Page 21

**Continuity Testing of the Rampart and Homestake Pipelines**
Lawrence F. Catalano, Randy Parks, Tom Vidmar
- Page 30

**Use of Acoustic Monitoring Data for PCCP Condition Assessment**
Graham E. B. Bell, Peter Paulson, John J. Galleher Jr., Cliff Moore
- Page 45

**Assessing 380km of PCCP Using Acoustic Monitoring - A Comparison of Technologies**
A. Lenghi, O. Essamin, K. Elgalbati, M. Wrigglesworth
- Page 55

**Unmanned RFTC Inspection of Large Diameter Pipe**
Allison Psutka, Xiangjie Kong
- Page 67

**Comparison of RFTC and P-Wave Tests Performed on the Rampart 54-inch PCCP Raw Water Pipeline**
Lawrence F. Catalano, Brian Mergelas, Mark Holley
- Page 75

**WSSC Reliability Management**
John Marshall, Rudy Loera, Paul Fisk
- Page 86

**In Situ Strength and Condition Assessment of PCCP Pipe**
Paul Fisk, John Marshall
- Page 98

**Phased Condition Assessment Program for a Challenging Condition Assessment Project on a 13 mile, 36-inch PCCP Effluent Main**
Michael Higgins, Cherly Braun, Edward Padewski III
- Page 107

**Video and Sonar Inspection Guides Rehabilitation of the Coronado Transbay Sewer Force Main**
Elmer Alex, Marc Solomon, Ed Walton, Maggie Witt, Jason Gornall
- Page 117

**Coming Down the Pipeline: Asset Management of PCCP Conveyance Systems**
Roberts McMullin, Joe Hill, Craig Smith, Jonathan Chow
- Page 129

**Liquid Assets: The Story of Our Water Infrastructure System Produced by WPSU - Penn State Public Broadcasting**
Sunil Sinha, Tom Keiter
- Page 141

**The Need to Proceed Condition Assessment of 60-inch PCCP in Houston, Texas**
James Crook, Gregory J. Henry
- Page 151

**96-inch Sewer Replacement or Renewal: A Case History**
Terry McArthur
- Page 160

**Optimizing an Asset Through Cleaning and Inspection: The Miramar Trunk Sewer**
Martha B. Santana, Carlos Barberena, Jafeth Baez
- Page 170

**Most Pipeline Failures Can Be Prevented by Proper Inspection**
Kenneth K. Kienow, Karl E. Kienow
- Page 182

**Several Failures of a 16-inch PVC Transmission Main within 12 Years**
Robert E. Beamer, Donald R. Kendall, Andrew Romer
- Page 198

**The Riverdale Outlet Sewer Replacement A Case Study in Auger Boring and Cured-in-Place Pipe**
William Elledge
- Page 210

**Condition Assessment for Aging Water Transmission Pipeline and Implementation of Replacement Priorities**
Stephen Romney, Wayne Winsor
- Page 215

**Evaluation of Non-destructive Methods for Condition Assessment of Culverts and Their Embedment**
Chenguang Yang, E. Allouche
- Page 227
Key Elements in Establishing a Successful Sewer and Inspection Assessment Program, the City of La Mesa
Greg Humora, Hamed Hashemian, Jennifer Chen, Carmen Kasner .............................................................. 236
In-service Inspection of Wastewater Force Mains ......................................................................................... 249
