Managing Limited Resources to Overcome Today’s Challenges
TABLE OF CONTENTS

Solid Expandable Technology for Zonal Isolation of Loss Circulation Formation: Case Study Shuaiba Formation ......................................................... 1
J. Ekpe, A. Alexeenko, J. Al-Thowaini, M. Emad, and R. Khanlarov

Breaking Records in North Kuwait Deep Gas Fields Drilling 16-in. Hole Sections at Greater Depths .................................................. 7
Mohammed Al-Saeedi, Meshal Al-Khalidy, Y.S. Mahesh, Ali Jaffar, Anthony Brown, and Maneesh Sharma

Drilling Wells With Narrow Operating Windows Applying the MPD Constant Bottom Hole Pressure Technology—How Much the Temperature and Pressure Affects the Operation’s Design ........................................ 22
M. Arnone and P. Vieira

Underbalanced Drilling Technology Adds Reserves and Enhances Ultimate Recovery ................................................................. 38
Salar Babajan, Shell Abu Dhabi, and Hani Qutob

Applying a New Systematic and Dynamic UBD Procedure Prevented Formation Damage, Wellbore Collapse and Improved Oil Production in Hassi Massoud Field .................................................. 48
Ali Berkhat, Khelifi Kartobi, Amine Mazouzi, and Okba Dhina, Hani Qutob, Naiem Barakat, Fudge Grayson, and Ayman Marei

Identification and Characterization of Producing Fractures in Naturally Fractured Reservoirs Using PIWD .................................................. 55
Ali Berkhat, Khelifi Kartobi, Mazouz M Cherif, Hani Qutob, and Naiem Barakat

Re-design of Casing Program Due to Enhanced Shale and Salt Stability ......................................................................................... 63
Luigi Moroni, Alain Denax

Specially Formulated Drilling Fluid Prevents Differential Sticking, Mud Losses, and Wellbore Instability in Oil and Gas Wells in Saudi Arabia .................................................. 71

From Fast Track to Fast Success - J4 Small Field Development Accelerates Performance

Improvement Process, Northwest Bintulu, Malaysia .................................................. 79
Trevor Spalding, M. Syazwan B Ahmad Shafei

The Use of High-Performance Spacers for Zonal Isolation in High-Temperature High-Pressure Wells .................................................. 90
G.D. Sarap, M. Sivanandan, S. Patil, A. P. Deshpande

Hank Rogers, Earl Webb, Jim Tilley, Brett Fears

Preventing Shallow Water Flow in North Sea Exploration Wells Possibly Exposed to Shallow Gas .................................................. 106
T. Landbo Opseth, B.T. Ribesen, T.N. Tran, A. Hinton, M. Laget, G. Lende, A. Saasen

Roles of Managed Pressure Drilling Technique in Kick Detection and Wellcontrol – The Beginning of the New Conventional Drilling Way .................................................. 116
Paco Vieira, Maurizio Arnone, Fernando Barragan

Best Practices and Lessons Learned From 15 Years of Experience of Cementing HPHT Wells in Italy .................................................. 126
F. Frittella, M. Babbo, A.I. Maffo

Dealing with the Challenges of UBD Implementation in Southern Iranian Oilfields .................................................. 132
Arash Shadravan, Mohammad Nabaei, Mahmood Amani

The Role of Multilateral Drilling Technology in Increasing Productivity in the Middle East Fields .................................................. 142
Abouzar Mirzaei Paiamand, B. D. Al-Anazi, Gk. A. Safian, J. Moghadasi

Pressurized Mud Cap Drilling Drastically Reduces Non-Productive Time in Soka Field, South Sumatera .................................................. 148
Michael Runtuwene, Sonny Suprihono, Dany Biza, Andy Eka Prasetia, Julmar Shaun Toralde, and Steve Nas

A Practical Approach to Evaluating Directional Drilling Performance .................................................. 155
Chinerehere O. Nkwocha

Advancements in Pressure Resistant Tool Joints for Intervention Riser, Under-Balanced Drilling, and Completion Applications .................................................. 173
Andrei Muravev, Michael J. Jellison, Barry J. Vinson

Deep Drilling Challenges in OIL’s Assam Field—A Case Study .................................................. 184
K.K. Borah and S.K. Mishra

Saudi Aramco RTOC, Collaborative, Safe and Effective Delivery of Wells From Start to Finish .................................................. 190
M.M. Khudiri, N.A. Naser, M.A. AlShehry, A.A. Nassir, and H.K. Mokhtar

A Unique Cement Slurry Overcoming Low Temperature, Shallow Water/Gas Flows in Deepwater Cementing .................................................. 202
Chengwen Wang, Ruixue Wang, Yuhan Bu, and Weidong Zhou
