2009 IEEE International Conference on Vehicular Electronics and Safety

(ICVES 2009)

Pune, India
11-12 November 2009
# TABLE OF CONTENTS

## VEHICLE TO VEHICLE AND VEHICLE TO ROADSIDE NETWORKING

**Push-Pull Based Critical Information Gathering in Vanets: Multi Agent System Based Approach** ........................................ 1  
Mahabalesh Kakkasageri, Sunilkumar Manvi

**A Modified Multidimensional Scaling with Embedded Particle Filter Algorithm for Cooperative Positioning of Vehicular Networks** ................................................................. 7  
Mahmoud Efjatmaneshnik

**Toward Increasing the Localization Accuracy of Vehicles in VANET** ................................................................. 13  
Nabil Dravil, Otman Basir

**Haste Induced Behavior and VANET Communication** ................................................................. 19  
Brijesh Chaurasia, Shekhar Verma

**Priority Based NDS Data Scheduling Algorithm for Vehicle to Hotspot Communication** ................................................................. 25  
Anurag Shrivastava, Bhoomek Pandya, Uday Desai, Shabbir Merchant

## OTHER APPLICATIONS

**OCR-Based Chassis-Number Recognition Using Artificial Neural Networks** ................................................................. 31  
Parul Shah, Sunil Karamchandani, Taskeen Nadkar

**Quantification of GNSS Signals Accuracy: an Image Segmentation Method for Estimating the Percentage of Sky** ................................................................. 35  
Andrea Cohen, Cyril Meurie, Yassine Ruichek, Juliette Marais, Amaury Flancquart

**Worst Case Response Time Analysis for CAN Messages with Offsets** ................................................................. 41  
Lei Du

**Data Acquisition System for a 600cc Formula SAE Race Car** ................................................................. 46  
Shadab Khan, Siddharth Sonti

## OBJECT DETECTION AND TRACKING FOR ACTIVE SAFETY APPLICATIONS

**360°-Environment Sensing and Signal Processing for an Automotive Pre-Crash Application** ................................................................. 50  
Sebastian Zuther, Marc Muntzinger, Klaus Dietmayer

**Tracking in a Cluttered Environment with Out-of-Sequence Measurements** ................................................................. 56  
Marc Muntzinger, Michael Aeberhard, Frederik Sarholz, Florian Schroder, Sebastian Zuther, Klaus Dietmayer

**A Fixed Size Assumption Based Data Association Method for Coalescing Objects Tracking Using a Laser Scanner Sensor** ................................................................. 62  
Pawel Kmiotek, Yassine Ruichek

**Intersection Collision Avoidance Using Wireless Sensor Network** ................................................................. 68  
Jungsook Kim

**A Comprehensive Sensor System Framework for Vehicle Safety** ................................................................. 74  
Vijay Soni, Krishnan Kutty

**Unsupervised Learning of Motion Patterns of Rear Surrounding Vehicles** ................................................................. 80  
Brendan Morris, Mohan Trivedi

## DRIVER MONITORING AND BEHAVIOUR ANALYSIS

**Enhancing in-Vehicle Safety Via Contact Sensor for Stress Detection** ................................................................. 86  
Sanjay Patil, John Hansen

**Automated Updating of Camera Parameters for User-Friendly Driver Monitoring System** ................................................................. 91  
Tatsunori Hirata, Mikio Danno, Masahiro Miyaji, Haruki Kawanaka, Shoaib Bhuiyan, Koji Oguri

**Driver Assistance for ‘Keeping Hands on the Wheel and Eyes on the Road’** ................................................................. 97  
Cuong Tran, Mohan Trivedi

**Driver Intention Inference with Vehicle Onboard Sensors** ................................................................. 102  
Holger Berndt, Klaus Dietmayer

**Driver Evaluation Based on Classification of Rapid Decelerating Patterns** ................................................................. 108  
Atsumi Naito, Chiyomi Miyajima, Takanori Nishino, Northide Kitaoka, Kazuya Takeda
CONTROL APPLICATIONS

Digital Implementation of Fuzzy Logic Controller for Wide Range Speed Control of Brushless DC Motor ............................................................................................................................... 119
Shanmuga Sundram

Performance Comparison of PWM Inverter Fed IM Drive & BLDC Drive for Vehicular Applications .................. 125
Sachin Bharatkar, Sachin Bharatkar, Raju Yanamshetti

Model Based Analysis of a Heavy Commercial Vehicle with an Electropneumatic Brake Towards Antilock Braking Systems ................................................................. 130
Subhajit Mahanty, Shankar Subramanian

Enhancements in Vehicle Stability with Yaw Moment Control Via Differential Braking ........................................ 136
Dawei Pi, Nan Chen, Bing Jun Zhang, Guo Hua Zhong

A Novel Optimal Energy Management Strategy Based on Fuzzy Logic for a Hybrid Electric Vehicle ................. 141
Ahad Soltani Sarvestani

TRAFFIC MONITORING AND CONTROL

Parameterization of Traffic Flow Using Sammon-Fuzzy Clustering ............................................................................ 146
Jaidev Deshpande, Aditya Abhyankar

Microcontroller Based Automation of Electronic Variable Speed Governor ......................................................... 151
Murali Krishna Telaprolu, Varun Kondagunturi, Varun Sarma, Narasimha Rao Sadhu, Ratnakanth Kumara, Vinay Banda

Method for an Electronic Controlled Platooning System of Agricultural Vehicles ................................................. 156
Xi Zhang

HUMAN MACHINES INTERFACES

Assessment of Speech Dialog Systems Using Multi-Modal Cognitive Load Analysis and Driving Performance Metrics ............................................................................................................................... 162
Pinar Boyraz, Tristan Kleinschmidt, Hynek Boril, John Hansen

A Smart Mobility Solution for Physically Challenged ............................................................................................................. 168
Rajat Garg, Vineet Agrawal, Vikrant Gupta, Shirvam Nadarajan

A Robust Speech Biometric System for Vehicle Access ................................................................................................. 174
Sunil Kumar Kopparapu

Author Index
