# TABLE OF CONTENTS

**Geosteering in a Complex Lithology Environment of Wara Sand Using the Multi-Function Logging While Drilling Tool in the Minagish Field of Kuwait** ................................................................. 1

T. El-Gezeery, F. Al-Saqr, A. Archibong, O. Oyeyemi, V. Chimirala

**A High-Resolution Chemostatigraphy Application in Carbonates – A Case Study in the Cretaceous Mishrif Reservoir, Minagish Field, Kuwait** ........................................................... 13

T. El-Gezeery, A. Hamim, R. Zereik, S. N. Hughes, C. Scheibe

**Saudi Aramco RTOC, Collaborative, Safe and Effective Delivery of Wells From Start to Finish** ................................................................. 29

M. M. Khudiri, N. A. Naser, M. A. Al-Shahry, A. A. Nassir, H. K. Mokhtar

**Inaccessible Drilling Targets and Completions Operation Made Possible by the Alleviation of Excessive Torque and Drag** ................................................................. 41

T. P. Long, J. E. McCormick, M. A. Frilot

**Laboratory Investigation on the Effect of Water Injection Process on Rock Structure and Permeability Reduction** ................................................................. 52

S. Abbasi, M. Tavakkolian, A. Shahrabadi, G. P. Oskui

**Laboratory Investigation of Asphaltene Precipitation Problems During CO2/Hydrocarbon Injection Project for EOR Application in Kuwaiti Reservoirs** ................................................................. 65

G. P. Oskui, M. A. Jumaa, W. A. Abuhamid

**Screening Potential Production Technologies for the Lower Fars Heavy Oil Asset in Kuwait** ................................................................. 76

G. P. Oskui, A. Al-Naqi, M. B. Dussault

**An Investigation on Gas Injection for Storing Gas and Increasing Well Productivity in One of Iranian Gas Fields** ................................................................. 97

**Hydrate Problems in Gas Lift Production: Experiences and Integrated Inhibition** ................................................................. 106

A. Nengkoda, H. Reerink, A. Hase, J. Prasetyo, S. Purwono

**Comparison Study of Models for Calculating Absolute Permeability Using Nuclear Magnetic Resonance Imaging Log Technology in Tight Sandstone Gas Zones** ................................................................. 114

**Foam Assisted Enhanced Oil Recovery at Miscible and Immiscible Conditions** ................................................................. 126

R. Farajzadeh, A. Andrianov, P. L. J. Zitha

**Implementation of Real-time Gas-lift Optimization in Dubai Offshore Fields** ................................................................. 142

F. Shnaib, M. S. Nadar, N. McAlonan

**First Worldwide Application of Fiber Optic Enabled Coiled Tubing with Multilateral Tool for Accessing and Stimulating a Trilateral Oil Producer, Saudi Arabia** ................................................................. 147

A. Al-Zain, R. Said, S. Gambar, S. Al-Drweesheh, K. Al-Shahrani, J. Jacobsen

**A Novel Method to Construct Capillary Pressure Curves by Using NMR Log Data and Its Application in Reservoir Evaluation** ................................................................. 154

**Oil Fields Scale Deposition Prediction Methodology** ................................................................. 162

M. I. Refaei, K. Al-Kandari

**Meeting the Challenges of Planning a Thermal Pilot for Ratqa Lower Fars Heavy Oil Field** ................................................................. 178

T. Sanyal

**Investigation of Cyclic Water Injection after Polymer Flood in Xing4-6 Field, Daqing** ................................................................. 196

P. Gao, Y. Feng, X. Zhang, F. Luo

**Studies of Effluent Water Quality for the Enhancement of Oil Recovery in North Kuwait** ................................................................. 206

**Depositional Environment and Controls on Porosity Development and Distribution, in the Late Albanian Maaddud Formation, Sabiriyah and Raudhatain Fields, Kuwait, as Input to a Geocellular Model** ................................................................. 221

L. Britton, J. Keay, M. May

**Deterministic versus Stochastic Discrete Fracture Network (DFN) Modeling, Application in a Heterogeneous Naturally Fractured Reservoir** ................................................................. 227

M. Tavakkoli, M. Mohammadsadeghi, A. Shahrabadi, M. Rezaei, S. Khajooee, R. Malakooti, M. S. Beidokhti

**Advances in Wireline Conveyed In-situ Reservoir Stress Testing Measurements: Case Studies from the Sultanate of Oman** ................................................................. 236

K. Cig, A. S. Al-Mandhari, S. M. El-Msallati, L. Qobi
Numerical Investigation of Condensate Banking in the North Kuwait Jurassic Gas Condensate Reservoirs ................................................. 250
Closing the Loop between Volumetric and Material Balance Estimates – Naturally Fractured Carbonates .................................................. 264
Application of Differential Evolution as a New Method for Automatic History Matching ................................................................. 272
Y. Hajizadeh, M. Christie, V. Demyanov
Effect of Carbonate Heterogeneity on Core-Log Integration .......................................................... 285
R. M. MacDonald, D. G. Kersey, T. Zhang, M. Akbar, W. Mousa
Flow Unit Thickness and Permeability Evaluation in Horizontal Wells Using Logging While Drilling and Wireline Formation Tester Transient Data ................................................................. 300
K. Cig, C. Ayan, S. Al-Mahrooqi, K. Al-Shamsi
Effect of Surfactant Addition, Temperature, and Solvent Conditions on Functional Microgels for Enhanced Oil Recovery Applications ................................................................. 309
N. Al-Manasir, A. L. Kjøniksen, K. Zhu, B. Nyström
Evaluating Effect of Different Operational Parameters on Increasing Performance of Condensate Stabilizing Process in Gas Plants (Case Study) ................................................................................................................................. 316
B. Karimkhani, Z. Khorrami
Maximizing Coiled Tubing Reach during Logging Extended Horizontal Wells Using E-line Agitator ......................................................... 324
Fracture Geometry Characterizations through Physical Modeling ......................................................... 335
W. H. Al-Bazzaz, F. Al-Tarkait, M. Al-Attar
Two Stages Cutting Structures of Bi-center PDC Bit Provides Two Phases of Destroying Volume of the Rock, Results Faster Penetration Rate through Deep Section of Carbonates Formation in Kuwait ......................................................... 345
Hendrazid, M. Behbehani, M. D. Al-Khaldi, A. Esmail
Inflow Performance of Cyclic Steam Stimulation using Horizontal Well .............................................................................................................. 355
Z. Wu, S. Vasantharajan, M. El-Mandouh, P. V. Suryanarayana
Application of Horizontal Wells for Injection or Production During Polymer Flood Processes ......................................................... 370
K. S. Lee
Planning Miscibility Tests and Gas Injection Projects for Four Major Kuwaiti Reservoirs ................................................................. 380
M. Al-Ajni, O. Alomair, A. Elsharkawy
Temperature Logging in Russia: Development History of Theory, Technology of Measurements and Interpretation Techniques ................................................................. 400
R. A. Valliullin, A. S. Ramazanov, R. F. Sharafutdinov
Analytical and Numerical Study of Consolidation Effect on Time Delayed Borehole Stability During Underbalanced Drilling in Shale ................................................................................................................................. 418
M. A. Islam, P. Skalle, A. B. M. O. Faruk, B. Pierre
Parameter Study of Gas Condensate Flow in Naturally Fractured Reservoirs ................................................................................................................................. 438
E. Hajim, M. Jamiolahmady, M. Sohrabi
Real-Time Imaging and Monitoring of Drilled-Cuttings Averting ‘Drillstring Stuck-Ups’ ................................................................................................................................. 451
P. S. Limkar
3D Geological Modeling of a Tight Naturally Fractured Carbonate Reservoir as an Input to Reservoir Simulation – A Case Study from North Kuwait Jurassic Fields ................................................................................................................................. 460
Selection of Proper Criteria in Flow Behavior Characterization of Low Tension Polymer Flooding in Heavy Oil Reservoirs ................................................................................................................................. 469
B. Y. Jamaloei, R. Kharrat, F. Ahmadloo
Deep Marrat Carbonate Reservoir Development and Production Challenges in Dharif Field of West Kuwait ................................................................................................................................. 489
N. Dakshinamurthy, T. A. Saliam, N. K. Verma, W. Al-Khamees
New Approaches for Analyzing Transient Pressure from Oil and Water Two-Phase Flowing Reservoir ................................................................................................................................. 499
S. Zheng, W. Xu
Carbon Dioxide (CO2) Miscible Flooding in Tight Oil Reservoirs: A Case Study ................................................................................................................................. 524
A. Arshad, A. A. Al-Majed, H. Maneourar, A. Muhammadain, B. Mhawaa
Core Scale Fracture Characterisation in Deviated Wells Aid Multiple Jurassic Reservoir Development in Minagish Field, West Kuwait ................................................................................................................................. 536
N. K. Verma, A. Al-Shamali, E. Al-Mayyas, M. Dasma, W. Al-Khamees
Gas Utilization – The KOC Approach ................................................................................................................................. 543
A. E. Al-Adwani, F. A. Al-Ghanem, V. Singhal
