IADC/SPE 128166 Case History: Deepwater Drilling Campaign on the Norwegian Continental Shelf in 2008 and 2009: A Success Story

Stan Haagland Cruickshank, Erik G. Kirkemo, Glenn Gabrielsen, Oystein Hovdæn, Reino Tommy Tryland, Roy Marker

IADC/SPE 128175 Mono Diameter Expandable Drilling Liner Applications in Deepwater Drilling

Nitesh Kumar, Roy Marker, Rune Cornelussen, Erik G. Kirkemo, Erik Ronneberg

IADC/SPE 128185 Improved Accuracy of Borehole Positioning in Horizontal Wells

Brett Lawrence, Tanja Mojsin, Michael Strachan

IADC/SPE 128190 Drilling Deep in Deep Water: What It Takes to Drill Past 30,000 ft

Crispin Chatar, Riaz Israel, Andre Cantrell

IADC/SPE 128191 Selecting Drilling Technologies and Methods for Tight Gas Sand Reservoirs

N. Pilisi, Y. Wei, S. A. Holditch

IADC/SPE 128192 Overcoming a Difficult Salt Drilling Environment in the Gulf of Mexico: A Case Study

Crispin Chatar, Sushil Mohan, Mark Imler

IADC/SPE 128193 Unusual Underwater Pile Driving in “Iceberg Alley” off Newfoundland, Canada

David Harris, Paul G Adams, Doug Bell

IADC/SPE 128194 Successful Application of RSS in a Highly Nitrified Mud System

Clint Chase, Syed Hammad Zafar

IADC/SPE 128196 First Year Performance Review for 6th-Generation Drillship

Mike Davis, John Banks, Barry Rainnie

IADC/SPE 128197 Novel Selection Tool Enables Scientific Approach to Matched Assemblies

Steve Barton, Andy Murdock, Ryan Gee

IADC/SPE 128201 Evaluation of Precision Drilling Super Single Performance

Griffin Harold

IADC/SPE 128203 Effect of Bicenter Bit-BHA Design on BHA Behavior

Jennifer Taylor, Reisha R. Bouska, Mike McKenty, Roger Silva, Ernest Prochaska

IADC/SPE 128211 High Frequency Downhole Dynamic Measurements Provide Greater Understanding of Drilling Vibration in Performance Motor Assemblies

Andrew D. Craig, Rachel Goodship, David R. Shearer

IADC/SPE 128217 Wellbore Positions Obtained While Drilling by the Most Advanced Magnetic Surveying Methods May Be Less Accurate than Predicted

Roger Ekseth, John Weston

IADC/SPE 128219 Spud to Reservoir—With Casing while Drilling (CwD)/Polycrystalline Diamond Compact (PDC) Drill-out Technology Using an Automated Drilling Rig

R. T. Gussinklo, B. A. Hepp, D. Swart, J. H. Wingate

IADC/SPE 128222 High Performance and Reliability for MPD Control System Ensured by Extensive Testing

John-Morten Godhavn, Kjetil Arne Knudsen

IADC/SPE 128223 Hardware-In-the-Loop Simulations Used as a Cost Efficient Tool for Developing an Advanced Stick-Slip Prevention System

Åge Kyllingstad, Pål Jacob Nessjøen

IADC/SPE 128225 Managing Circulation Losses in a Harsh Drilling Environment: Conventional Solution vs. CHCD Through a Risk Assessment

S. Masi, C. Molaschi, F. Zausa, J. Michelez

IADC/SPE 128226 Self-Healing Cement System - A Step Forward in Reducing Long-Term Environmental Impact

S. Le Roy-Delage, A. Comet, A. Garnier, J. L. Presles, H. Bulté-Loyer, I. U. Rodriguez

IADC/SPE 128234 The Automated Drilling Pilot on Statfjord C

IADC/SPE 128243 Case Study—Field Implementation of Automated Torque-and-Drag Monitoring for Maari Field Development

M. Niedermayr, J. Pearse, M. Banks, G. Thonhauser, P. Zoellner

IADC/SPE 128249 Characterization of Sampling While Drilling Operations

S Villareal, J Pop, F Bernard, K Harms, A Hoefel, A Kamiya, P Swinburne, S Ramshaw

IADC/SPE 128251 Improved Drilling Performance Brings New Life to Colombia’s Oldest Oil Field

Pablo Bonilla, Lizeth Alejandra Castillo

IADC/SPE 128253 Continuous Motion Rig: A Step Change in Drilling Equipment

Mads Grinrod

IADC/SPE 128262 Elimination of Errors in Cement Displacement Volumes and Plug Bump-Plug Indicator System

John Gradishar, Brad Michael Groesbeck
IADC/SPE 128266 An Experimental and Numerical Approach to the Prediction of Collapse Resistance for Expandable Tubulars .......................................................... 537

IADC/SPE 128276 Behavior and Shape of Gas Kicks in Well Bores .................................................. 545
H. F. Spoerker, T. Tuschi

IADC/SPE 128285 Automation of Mud-Pump Management: Application to Drilling Operations in the North Sea .......................................................... 552
Eric Cayeux, Benoît Daireaux, Erik Wolden Dvergnes

IADC/SPE 128286 Automation of Drawworks and Topdrive Management to Minimize Swab/Surge and Poor-Downhole-Condition Effects .................. 565
Eric Cayeux, Benoît Daireaux, Erik Wolden Dvergnes

IADC/SPE 128288 Drilling Efficiency and Rate of Penetration – Definitions, Influencing Factors, Relationships and Value ........................................ 578
Graham Mensa-Wilmot, Jospeh Harjadi, Sheldon Langdon, Jay Gagneaux

IADC/SPE 128296 Novel Applications of Drilling Simulators in Student Recruitment, Teaching and Research Programs .................................................. 591
R. M. Ahmed, J. R. Smith, V. B. Bohorquez, W. L. Koederitz

IADC/SPE 128299 Gyro Guidance Techniques and Telemetry Methods Prove Economical in Onshore Multi-Well Pad Drilling Operations in the Piceance Basin .......................................................... 606
Travis Garza, James Winberg, Trevor Woolridge, Ezra North, Keith Beattie

IADC/SPE 128302 Innovative Use of Plug-and-Abandonment Equipment for Enhanced Safety and Efficiency .......................................................... 614
Delaney Olstad, Philip O’Connor

VOLUME 2

IADC/SPE 128304 Well Integrity Monitoring & Analysis Using Distributed Acoustic Fiber Optic Sensors .............................................................................................................................................. 621
John Hull, Lance Gosselin, Kevin Borzel

IADC/SPE 128311 Liner Drilling Technology as a Mitigation to Hole Instability and Loss Intervals: A Case Study in the Gulf of Mexico .................................................................................................................................. 628
S. Rosenberg, Deepak M. Gala, Wei Xu

IADC/SPE 128314 Multilateral Wells Reduce CAPEX of Offshore, Subsea Development in Australia’s Northwest Shelf .................................................................................................................................. 636
Brett Lawrence, Mike Zimmerman, Andy Cuthbert, Steven Fipke

IADC/SPE 128316 Deepwater Drilling Challenges Demonstrate Learning Curve with New Connection Technology .................................................................................................................................. 647
Sheldon Langdon, John Connor, R. Brett Chandler, Michael J. Jellison

IADC/SPE 128317 Design Techniques for Reducing Toughness Related Cutter Issues in Carbonate Formations .................................................................................................................................. 666
Ryan W. Weeden, Justin Whipple

IADC/SPE 128328 Comprehensive Studies of Aluminum Drillpipe .................................................................................................................................. 679
V. S. Tikhonov, M. Ya. Gelfgat, Curtis Cheatham, Alex Adelman

IADC/SPE 128329 Proven Methods and Techniques to Reduce Torque and Drag in the Pre-Planning and Drilling Execution of Oil and Gas Wells .................................................................................................................................. 690
Jaergen Maehs, Steve Renne, Brian Logan, Nerwing Diaz

IADC/SPE 128366 Power of Design: Solid Expandable Installation Sets Multiple New Records in Deepshelf HP/HT Well .................................................................................................................................. 700
Jay Nylund, Sarah Flaming, Kristaq Mitrushi

IADC/SPE 128405 Salinity-Based Pump & Dump Strategy for Drilling Salt with Supersaturated Fluids .................................................................................................................................. 707
T. J. Akers

IADC/SPE 128424 Evaluation of Alternative Initial Responses to Kicks Taken during Managed Pressure Drilling .................................................................................................................................. 719
Majid Davoudi, John Rogers Smith, Bhavin M. Patel, Jose E. Chirinos

IADC/SPE 128425 Nonproductive Time (NPT) Reduction Delivered Through Effective Failure Investigations .................................................................................................................................. 734
Brad L. Hubbard, Shabib J. Kadri, Michael J. Crottinger, James E. Griffith, Eric Van Oort

IADC/SPE 128432 Vertical Riser Handling with a Knuckle Boom Crane .................................................................................................................................. 746
Fred Sondre Hagen, Tommy Talberg Kaare, Kristiansen Narve
IADC/SPE 128442 Anchor Handling and Rig Move for Short Weather Windows During Exploration Drilling
Ardal Saasen, Michael Simpson, Bjorn Thore Ribesø

IADC/SPE 128458 Asymmetric Vibration Damping Tool - Small Scale Rig Testing and Full Scale Field Testing
Ian Forster, Alastair Macfarlane, Robert Donnie

IADC/SPE 128461 Successful Application of Dual Lateral Junction Technology to Develop a Marginal Gas Field in the Carboniferous Area of the UKCS Southern North Sea
A. J. Hatch, S. P. Rainer, R. Simmonds

IADC/SPE 128477 20KSI BOP Stack Development
Melyn F. Whitby, John E. Kotula

IADC/SPE 128481 Well Completion Applications for the Latest-Generation Low-Viscosity Sensitive Passive Inflow Control Device
Elmer R. Peterson, Martin P. Coronado, Luis A. Garcia, Gonzalo A. Garcia

IADC/SPE 128486 New Cutter Technology Redefining PDC Durability Standards for Directional Control: North Texas/Barnett Shale
Ryan Baker, Yuelin Shen, John Zhang, Scott Robertson

IADC/SPE 128520 Real-Time Well Tool Face Information Reduces Directional Uncertainty and Risks in Difficult Sidetracks in Gulf of Suez
Thomas B. Hove, Mohamed Faroak, Mohamed Darwish, Wilhelm Koroletz, Ahmed Ismail, Amin Moustafa, Gerald Heisig

IADC/SPE 128575 Understanding the Contribution of Primary Stability to Build Aggressive and Efficient PDC Bits
Danielle M. Fusselier, Chaitanya R. Vempati, Jack Oldham, Suresh G. Patel

IADC/SPE 128648 Drilling a Challenging HPHT Well Utilizing an Advanced ECD Management System with Decision Support and Real Time Simulations
Rolf Rommetveit, Sven Inge Odegard, Christine Nordstrand, Knut S. Bjerkevoll, Pierre Cerasi, Hans Martin Helset, Mikkel Fjeldheim, Stein T. Håvardstein

IADC/SPE 128685 Successful Development and Field Qualification of a 9-5/8 in and 7 in Rotary Steerable Drilling Liner System that Enables Simultaneous Directional Drilling and Lining of the Wellbore

IADC/SPE 128700 Fully Automated Pipehandling System on a 6th Generation Drilling Vessel
Kjell Rohde, Tore Berg, Tom Yost, Steinv Ove Aanesland, Gregers Kudsk

IADC/SPE 128712 Utilizing an Engineered Particle Drilling Fluid to Overcome Coal Drilling Challenges
Sabine Zeitlinger, Fred Dupriest, Ryan Turton, Hayden Butler, Hong Wang

IADC/SPE 128716 Well Delivery Process: A Proven Method to Improve Value and Performance While Reducing Costs
John P. De Wardt

IADC/SPE 128720 Williston Basin – A History of Continuous Performance Improvements Drilling Through the Bakken
Alejandro Djurisic, Adrian Binnion, Anthony Taglieri, Jim Thompson, Mathias Menge, Curtis Fleischhacker, James Hood

IADC/SPE 128728 Wellbore Stability in Fractured Rock
Steinar Ottesen

IADC/SPE 128734 Large-Volume Cement Squeezes as Cost-Effective Solutions for Severe-Loss Zones
Devendra Aigu, Loran Galey, Myles Barrett, Mike Humphries

IADC/SPE 128741 Hybrid Bits Offer Distinct Advantages in Selected Roller Cone and PDC Bit Applications
Rolf Pessier, Michael Damschen

IADC/SPE 128753 Controlled Pressure Drilling (CPD) Candidate Screening Methodology, An Update
Jaime Villatoro, Saïd Boustali, Kevin Schmigel, Martijn Van Galen, Sunil Lakshmivarayanan

IADC/SPE 128767 Decoupling Stick-slip and Whirl to Achieve Breakthrough in Drilling Performance
Sean Xiuping Wu, Luis Paez, Uyen Partin, Mukul Agnihotri

IADC/SPE 128789 Bending Tool Face Measurements While Drilling Delivers New Directional Information, Improved Directional Control
Gerald Heisig, John D. Macpherson, Fadi Mounzer, Christian Linke, Mark Jenkins

IADC/SPE 128859 Pressure Transmission in Gelled Drilling Fluids in Deepwater Environments

IADC/SPE 128865 RCM Principles Provide Predictive Asset Maintenance Benefits, Cost Savings
Frank Breland, James Guy, Max Masters, Nathan Kinert, Ashe Menon
IADC/SPE 129090 Mesophase Spacer Designs Raise the Bar for Casing and Riser Clean-up in Deepwater Applications ................................................................. 1261
Lirio Quintero, Chad Christian, Thomas A. Jones
IADC/SPE 129125 Drilling Riser VIV – Fact or Fiction? ................................................................. 1272
Michael A. Tognarelli, Mike Campbell, Dhyan Deka
