Offshore Technology Conference 2004

(OTC 04)

Houston, Texas, USA
3-6 May 2004

Volume 1 of 3

ISBN: 978-1-61567-971-3
TABLE OF CONTENTS

Volume 1

The Benefits of Using Internal Plastic Coatings on Chrome Tubulars ................................................................. 1
Robert S. Lauer

Cost-Effective Sand Control Operations Play Key Role in Revitalizing Mature Gas Field ........................................... 6
Giuseppe Ripa, Angelo Ligrone, Angelo Zamparini, Marco Sportelli, S. P. Mathis, Antonio Conte

Newbuild FPSO Corrosion Protection - A Design and Operation Planning Guideline .............................................. 14
Adrian Macmillan, Karl Peter Fischer, Henning Carlsen, Oystein Goksoyr

Best Practices and Lessons Learned in Open Hole Horizontal Gravel Packs Offshore Brazil ............................... 25
Rodrigo Farias, Alfredo Mendez, A. Calderon

Wash Pipe Or No Wash Pipe? That is The Question ................................................................................................. 43
Francisco Pineda, Bryce Traweek, James Curtis

An Integrated Approach for Gas Dispersion, Gas Explosion and Structural Impact Analysis for an Offshore Production Platform on the Dutch Continental Shelf ................................................................. 47
W. Kornorffer, D. Schaap, A. M. A. Van Der Heijden, N. H. A. Versloot

Offshore LNG Terminals: Sunk or Floating? ........................................................................................................... 55
Wim Van Wijngaarden, Hein Oomen, Jos Van Der Hoorn

Corrosion Resisting Liners - The Results of an Investigation into Plastic Lining of Pipelines for Corrosive Hydrocarbon Service ............................................................................................................ 71
Steve Groves, Shreekant Mehta, Leo De Mut

Conceptual Comparison of On-Platform Versus Onshore Gas Dehydration ............................................................ 78
Ronna T. Unga, Paula R. Innan

Mad Dog Project: Regulatory Approval Process for the New Technology of Synthetic (Polyester) Moorings in the Gulf of Mexico ...................................................................................................................... 84

Turning High Resolution Geophysics Upside-down: Application of Seismic Inversion to Site Investigation and Geohazard Problems .............................................................................................................. 90
I. W. Hamilton, B. Hartley, C. Angheluta, A. Digby

Monitoring of Sand Deposition in Subsea Separators ............................................................................................... 99
Klas G. Eriksson, Eivind Kirkedam

New Calibrated Design Code for Plate Anchors in Clay ........................................................................................... 108
Rune Dahlberg, Knut O. Ronold, Pal J. Strom, Jan Mathisen

Reeling of Pipes With Thick Insulation, A Simple New Calculation Procedure ....................................................... 117
Gautam Chaudhury

Concrete Offshore LNG Terminals - A Viable Solution and Technical Challenges .................................................. 126
Dajiu Jiang, Ge Wang, Brett C. Montaruli, Kenneth L. Richardson

A Two-Layer Paraffin Deposition Structure Used To Improve The Assessment of Laboratory and Field Observations .................................................................................................................................. 135
Peter Toma, John Ivory, Gerard Korppany, Mario De Rocco, Chris Goss, Larry Holloway, Jamal Ibrahim, Ismail Omar

Field Confirmation of CFD Design for FPSO-mounted Separator ........................................................................... 145
Chang-Ming Lee, Mark Legg, John Byeseda

Defining, Measuring, and Calculating the Properties of Fiber Rope Deepwater Mooring Lines ................................. 151
John F. Flory, Stephen P. Banfield, D. J. Petruska

Offshore Salt Caverns Enable a "Mega" Sized LNG Receiving Terminal ................................................................. 165
M. M. McCall, J. F. Davis, M. H. Krekel

Floating LNG Production Facility .............................................................................................................................. 176
Trygve Johannes Lund, Finn Wichstrom, Ray Pepperell

Bayu-Undan Substructure Foundations: Geotechnical Design and Analysis ............................................................ 180
S. R. Neubecker, C. T. Erbrich

Bayu-Undan Substructure Foundations: Conception, Design & Installation Aspects ............................................... 192
M. A. Sims, B. J. A. Smith, T. Reed

Measured Horizontal Capacity of Suction Caissons ................................................................................................. 201
Richard A. Coffman, Rami M. El-Sherbiny, Alan F. Rauch, Roy E. Olson

Improving Oil Production Using Smart Fields Technology in the SF30 Satellite Oil Development Offshore Malaysia ........................................................................................................................................... 211
P. M. Bogaert, W. Yang, H. C. Meijers, J. C. M. Van Dongen, M. Konopczynski

Don Smith

Rogue Wave Impact on Offshore Structures

Gunther Clausa, Kajta Stutz, Christian Schmittner

Application of Advanced Composite Materials for Offshore Jacket Mudmats

G. N. Fryett

VIV Modeling of Bare and Suppressed Risers

Li Lee, Don W. Allen

High-Strength Aluminum Alloys for Deepwater Riser Applications

M. Geffgat, N. Gribtsou, A. Podrazhansky, B. Vygodsky, V. Tikhonov, V. Chizhihkov

Performance Comparisons of Helical Strakes for VIV Suppression of Risers and Tendons

Don W. Allen, Dean L. Hennings, Li Lee

Design and Conversion of FPSO Mystras

T. Terstra, G. Schouten, L. Ursini

Semisubmersible Based Dry Tree Platform with Compliant Vertical Access Risers

Chris Mungall, Kevin Haverty, Shankar Bhat, David Andersen, Indranil Sarkar, Jack Wu, Nils Martensson

Alan W. Niederodora, Christopher Reed, Himangshu Das, Daniel Orange, J. Hooper

Design Standard for Concrete LNG Terminals Offshore

Knut Waagaard

Developing HP/HT Landing String Technologies

A. J. Dick, R. Cassells

New Technologies Enhance Operational Efficiency in Difficult Gravel-Pack Operations

Everaldo Lima, Rob Pounds, Gustavo Ribeiro Borin, Alexandre Zacarias

Na Kika Completions Overview: Challenges and Accomplishments

New Technique Using Superconducting Magnetic Separation to Remove Oil From Water

Hisashi Isogami, Akira Mochizuki, Susumu Harada

Trinidad's First Multilateral Well Successfully Integrates Horizontal Openhole Gravel Packs

Delano Lougheide, Krishna Latchman, Elred Anthony, Travis Cavender, Denar Flores, Vishnu Ramsook

Coral and Estrela do Mar: The Development of a Marginal Field in Brazil

Ricardo B. Portella, Heitor A. De Souza Lima, Carlos Roberto Guimaraes, James Nascentes Munksgaard

Aquifer Gas Injection Offers an Alternative for Handling Associated Gas Produced from Deepwater Fields

Yanlin Qian, Robert A. Wattenbarger, Stuart L. Scott

An Efficient Alternative to Control Sand Production in Horizontal Wells in Block-16 of Ecuador

Hernan Sanchez, Tito F. Sampedro, Robert Penaaranda, Manuel Loli, Jose G. Flores, Keith Moyse, Carlos Iriira

Offshore LNG Transfer - A New Flexible Cryogenic Hose for Dynamic Service

Joel Aron Witz, Matthew Vernon Ridolfi, Gerard Anthony Hall

Offshore LNG Transfer, a Practical System Based on Proven Oil Transfer Principles

Vaughan Humphreys, Nicholas Jones

Evaluating a Concept of Using Distributed Optical Fiber Temperature and Strain Sensor for Continuous Monitoring of Casing and Completion Mechanical Deformation in Intelligent Wells

X. Li, Tom Parker, Mahmoud Farhadiroushan, David Blacklaw

Lessons Learned from Integrated Analysis of GOM Drilling Performance

A. W. Iyoho, R. A. Meize, K. K. Millheim, M. J. Cramrine

Design and Installation of the Valhall Piggyback Structures

Torstein Alm, Richard O. Snell, Kevin M. Hampson, Arne Olausen

The Appraisal and Development Plan for the Heavy Oil Jubarte Field, Deepwater Campos Basin, Brazil

Marcio F. C. Bezerra, Carlos Pedroso Jr., Antonio C. C. Pinto, Carlos H. L. Bruhn

The Internal Corrosion Integrity Strategy on the Development of New Offshore Production Areas in Brazil

Pedro Altoe Ferreira, Marcia F. C. Bezerra, Roberto Loschiavo

An Overview of More than One-Hundred-Twenty Horizontal Gravel Packing Operations In Campos Basin

L. C. C. Marques, A. Calderon, C. M. Chagas, L. H. C. Fernandes, C. A. Pedroso, L. F. Neumann, J. D. H. Rocha,
L. C. A. Paixao, V. P. Barbosa, A. Z. I. Pereira

Advanced Electrostatic Internals in the 1st Stage Separator Enhance Oil/Water Separation and Reduce Chemical Consumption on the Troll C Platform

Erik A. Wolff, Trond L. Knutsen
The Scarab/Saffron Fields Development, Subsea System ................................................................. 493
Wael F. Ellabity, Hugh Davis, Mohamed Gaber, Mostafa Helal

VIV Response of a Long Flexible Cylinder in Uniform and Linearly Sheared Currents .................. 498
M. A. Tognarelli, S. T. Stocum, W. R. Frank, R. B. Campbell

Flow-Induced Vibration of a Long, Flexible, Straked Cylinder in Uniform and Linearly Sheared Currents ........................................................................................................ 510
W. R. Frank, M. A. Tognarelli, S. T. Stocum, R. B. Campbell, S. Balasubramanian

Life and Damping Characteristics of Bare and Straked Cylinders at Riser Scale Reynolds Numbers ........................................ 518
Z. J. Ding, S. Balasubramanian, R. T. Lokken, T-W. Yung

Flutter Instability in Riser Fairings ........................................................................ 527
S. T. Stocum, Z. J. Ding, W. R. Frank, M. R. Cox

Advancement of Spar VIV Prediction .................................................................................. 540

Development, Testing & Application of High Fatigue Performance Riser Joints ......................... 546
Carl Baxter, Patrick Bostier, Chris Caldoell, Jim Halley

Mechanized Pipe Handling in the Gulf of Mexico Correlates to Safety Performance Improvements ................................................ 556
Holger Kinzel, Mike Hayes

Wellbore Pressure Boosting Enhances Recovery from Natural Gas Wells ......................... 566
J. E. N. Liley, P. H. J. Verbeek

HT/HP Pipe-in-Pipe Snaked Lay Technology - Industry Challenges ................... 574
J. Hooper, E. Maschner, T. Farrant

Reliability by Design - HP/HT System Development .................................................. 589
Dave Harrold, Eric Ringle, Michael Taylor, Scott Timte, Frank Wabnitz

NACE MR0175-2003 Impact on API 6A Equipment and Customers .................................. 600
S. C. Smith, J. D. Dufour, E. S. Wehner

A High Resolution Seismic Study in the Gulf of Mexico ................................................ 607
Richard Salter, Nick Moldoveanu, Paul Hultschi, Dianna Shelander

Satellite Environmental Monitoring of Oil Spills in the South Gulf of Mexico .......... 618
Arturo Mendoza, Fernando P. Miranda, Karen Bannerman, Oscar Lopez, Miguel Herrera

Compact Subsea Separation System with Integrated Sand Handling .............................................. 625
Rune Fantofj, Toine Hendriks, Robert Chin

The Development and Application of HT/HP Fiber-Optic Connectors For Use On Subsea Intelligent Wells: Part 2 ................................................................................................. 634
Perry Wright, Stewart Barlow

Integrated Structural and Safety Engineering for Fire and Blast Design - Case Studies and Lessons Learned ................................................................. 640
Adnan Hossain, Ann Meek, Alistair Warwick

Thermal Discharge Recovery For Offshore LNG Port Pelican Terminal ....................... 648
Michael A. Collins, Roland B. Borie

A New Method for the Design of Laterally Loaded Anchor Piles in Soft Rock ... 656
C. T. Erbrich

Study of Chain Slippage for Embedded Anchors .................................................. 668
S. R. Neubecker, M. P. O'Neill

An Efficient Wellstream Booster Solution for Deep and Ultra Deep Water Oil Fields .......... 677
Eivind Birkeland, Jo Jernsletten, Geir Olsen, Jan Gunnar Waalhann, Knut Nyborg

Low Cycle Fatigue in HP/HT Flowlines .............................................................................. 688
C. H. Luk, Xinhai Qi, Tai-Jun Wang, Mark Brunner

A DP-FPSO as a First-Stage Field Development Unit for Deepwater Prospects in Relative Mild Environments ................................................................. 696
Leen Poldervaart, Bram Van Cann, Jaap-Harm Westhuis

Mechanics of Heat Loss in Dry Tree Top-Tensioned Risers ................................................. 705
Y. Doreen Chin, Xuegeng Wang

Use of Computational Fluid Dynamics to Investigate the Impact of Cold Spots on Subsea Insulation Performance ................................................................. 713
Stephane Taxy, Eric Lebreton

How to Provide Relevant Data for the Prediction of Long Term Behavior of Insulation Materials Under Hot/Wet Conditions ...................................................... 718
Dominique Choqueuse, Angele Chomard, Pierre Chauchot

Gel Based Materials for High Insulation and Long Cool Down Time in Deep Water ........................................ 724
Marc Bonnissel, Valerie Ozoux, Stephane Couprie, Angele Chomard

Aerogel Insulation For Deepwater Reelable Pipe-in-Pipe ................................................. 730
Sylvain Denniel, Chris Blair

Offshore Morocco

Physical Characteristics and Impact of Mass Transport Complexes on Deepwater Jetted Conductors

Observations and Numerical Modeling of Debris Flows in the Na Kika Basin, Gulf of Mexico
Case Study: The Falcon Field (EB 579/623), Northwestern Gulf of Mexico

Addressing the Challenges in the Placement of Seafloor Infrastructure on the East Breaks Slide--A High Mobility of Subaqueous Debris Flows and the Lubricating-layer Model

Deposition in a Hazard Assessment Model of Mass Transport Complexes

A Video is Worth a Thousand Words: Ten Years of Laboratory Experiments on Subaqueous Gravity Flows and the Insights Gained Into Their Flow and Deposition

Shallow Water Effects On Low-Frequency Wave Excitation of Moored Ships

Single Point Mooring System for an Offshore LNG Import Terminal

Seismic Expression of the Cenozoic Mass Transport Complexes, Deepwater Tarfaya-Agadir Basin, Morocco

Elastic Attribute Generation From 3 Points Elastic Inversion

New Tools for Geohazards - Combining Reservoir Evaluation Tools and Seismic Geomorphology to Improve the Interpretation of the Shallow Section

Techno-Economic Evaluations of Deepwater Marginal Field Developments

Systematic Riser Design Methodologies for Concurrent Engineering of Fast-Track Offshore Projects

Full Field and Early Production in Ultra-Deep Water: The 'DP-FPSO' and 'DP-EFPSO' Concepts

20,000 psi Frac Applications using Composite Bridge Plugs

Towards the Expandable Reservoir Completion: The Case for Open-hole Completions

Design Aspects of SPM LNG Terminals in Shallow Water

Hydrodynamic Aspects Of Gravity Based Structures In Shallow Water

Single Point Mooring System for an Offshore LNG Import Terminal

Shallow Water Effects On Low-Frequency Wave Excitation of Moored Ships

The Influence of Passing Ships on Ships moored in Restricted Waters

Global Analysis of Shallow Water FPSOs

Multiple Riser System for Shallow Water

Techno-Economic Evaluations of Deepwater Marginal Field Developments

Systematic Riser Design Methodologies for Concurrent Engineering of Fast-Track Offshore Projects

Alpine Field Simultaneous Angle Dependent Inversion

Elastic Inversion of Seismic Data for Properties of Hydrated Sediments

New Tools for Geohazards - Combining Reservoir Evaluation Tools and Seismic Geomorphology to Improve the Interpretation of the Shallow Section

Elastic Attribute Generation From 3 Points Elastic Inversion

Stratigraphy and Geomorphology of Deep-Water Mass Transport Complexes Based on 3D Seismic Data

Seismic Expression of the Cenozoic Mass Transport Complexes, Deepwater Tarfaya-Agadir Basin, Morocco

Importance of Mass Transport Complexes in the Quaternary Development of the Nile Fan, Egypt

Relationships Between Sediment Mass-Failure Modes and Magnitudes in the Evolution of the Scotian Slope, Offshore Nova Scotia

Timing and Extent of Submarine Landslides in Southern California

A Video is Worth a Thousand Words: Ten Years of Laboratory Experiments on Subaqueous Gravity Flows and the Insights Gained Into Their Flow and Deposition

Deposition in a Hazard Assessment Model of Mass Transport Complexes

High Mobility of Subaqueous Debris Flows and the Lubricating-layer Model

Addressing the Challenges in the Placement of Seafloor Infrastructure on the East Breaks Slide--A Case Study: The Falcon Field (EB 579/623), Northwestern Gulf of Mexico

Observations and Numerical Modeling of Debris Flows in the Na Kika Basin, Gulf of Mexico

Physical Characteristics and Impact of Mass Transport Complexes on Deepwater Jetted Conductors and Suction Anchor Piles
Mass Transport Complex: Musing on Past Uses and Suggestions for Future Directions
Paul Weimer, Craig Shipp

Special Sessions on Petrotechnical Visualization A Point of (3D) View on Visualization
James A. Thomson, Manuel N. Poupon

Seafloor and Shallow Subsurface Examples of Mass Transport Complexes, Offshore Brunei
T. A. McGilvery, Geoffrey Haddad, D. L. Cook

Post Mortem Failure Assessment of MODUs During Hurricane Lili
B. P. Malcolm Sharples, Charles E. Smith, Robert G. Bea

Eugene Island 322 'A' Drilling Platform Decommissioning After Hurricane Lilli.
S. J. Defranco, J. T. Fitzhugh, H. A. Locke, P. E. O'Connor, T. J. Straub, D. J. Morehan

Hurricane Lili's Impact on Fixed Platforms and Calibration of Platform Performance to API RP 2A
F. J. Puaskar, A. P. Ka, R. E. Sheppard

Performance of Deepwater Floating Production Facilities during Hurricane Lili
Alberto Morandi, John A. Mercier, Robert G. Bea

An Update on API RP 2A Section 17 for the Assessment of Existing Platforms

Hindcast of Winds, Waves and Currents in Northern Gulf of Mexico in Hurricane Lili (2002)
Vincent J. Cardone, Andrew T. Cox, Knut A. Lasaeter, David Szabo

Technology Assessment of Deepwater Anchors
Clarence J. Ehlers, Alan G. Young, Jen-Hwa Chen

Experimental and Theoretical Studies of Deep Penetrating Anchors
C. D. O'Loughlin, M. F. Randolph, M. Richardson

Suction Caisson Response Under Sustained Loop Current Loads
E. Chukey, J. S. Templeton III, M. F. Randolph, R. Phillips

Shear Strength Along Inside of Suction Anchor Skirt Wall in Clay
Knut H. Andersen, Hans Petter Jostad

Centrifuge Model Tests on Anchor Piles for Tension Leg Platforms

The Peaking of Oil: Reality or Simply a Myth?
Matthew R. Simmons

Timing is Everything: The Information Crisis on Future Oil Supply
Bob Williams

Scientific (and Unscientific) Petroleum Supply Forecasting
Michael C. Lynch

The Iron Grip of Depletion
J. Zagar, C. J. Campbell

Well Logs and Rock Physics in Seismic Reservoir Characterization
Joel Walls, Jack Dvorkin, Matt Carr

Reservoir And Elastic Property Prediction Away From Well Control
Kyle T. Spikes, Jack Dvorkin

General Elastic Inversion, Orange Basin Case Study
T. B. Berge

Simultaneous AVO Inversion for Accurate Prediction of Rock Properties
Kim Gunn Maver, Klaus Bolding Rasmussen

Does Our Prestack Data Support the Assumptions of Prestack Imaging and Inversion?
Rodney Calvert

Integration of Time-Lapse Seismic and Production Logging Data: Jotun Field, Norway
David H. Johnston, Wences P. Gouveia, Arne Solberg, Morten Lauritzen

Assessing 4D, New Wonder Tool, Or More Work Needed?
Rodney Calvert

Seismic on Demand - First Experiences From Valhall
Olav Barkved, Jan Kommedal, Dave Howe, Arnfinn Baerheim

Interpreting 4D Seismic Response to Changes in Effective Pressure with Rock Physics Modeling
Brackin A. Smith, F. David Lane

Seismic Reservoir Surveillance in the Alba Field, UK North Sea
Peter Nevill, Patrick Condon, Paul Mattson

Measuring and Improving Time-Lapse Seismic Repeatability
Phil Christie, Stephen Pickering, Ed Kragh

4D Time-Lapse Studies and Reservoir Simulation to Seismic Modeling
Dave Davies, Kim Gunn Maver

A Perspective on the Evolution of Processing Seismic Primaries and Multiples
Arthur B. Weglein
From Removing to Using Multiples
A. J. Berkhout, D. J. Verschuur ................................................................. 2275

The Impact Of Field Survey Characteristics On Surface-Related Multiple Attenuation
Bill Dragoset, Ian Moore, Clement Kostov .................................................. 2283

Fast Deterministic Designature/Demultiple Of 2D and 3D 4C-OBS Data
Lasse Amundsen, Borge Arntsen, Hans Aronsen, Are Oxen, Geir Richardsen, Mark Thompson 2293

Multiple Attenuation Using an Apex Shift Radon Transform
Daniel Trad, Neil Hargreaves, Bruce Verwest, Richard Wombell .................. 2298

True 3D Data-driven Multiple Removal: Acquisition & Processing Solutions
Roald Van Borselen, Bob Hegge, Michel Schouten ................................. 2307

Deep water case histories - SRME / HR Radon / Diffracted Multiple Attenuation
Pierre Hugonnet, Danny Hardouin, Paul Leccacq ...................................... 2318

Technology Commercialization; Trends and Strategies for Commercializing E&P Technologies
Art J. Schroeder Jr. .............................................................................. 2327

The Agbami Project: A World Class Deepwater Development
H. D. Hollister, J. J. Spokes .................................................................... 2337

Well Count Optimization Incorporating a Wide Range of Uncertainties for the Deepwater Agbami Field
G. M. Narahara, J. J. Spokes, D. Brennan, G. Maxwell, M. Bast .................. 2351

Issues in the Use of Seismic Data at Agbami Field, Offshore Nigeria
David L. Grimes, Ronald M. Cupich, David M. Angstadt, Alan R. Leeds ....... 2368

Application of Risk-Based Design Relative to Health, Environment, and Safety
Iain J. Haughtie .................................................................................. 2379

Agbami Project Subsea Facilities Design Development
David J. Knight, Brian R. Ferrier, John A. Holbrook, Peter E. Norris ......... 2388

Agbami Field Development Concept Selection: Evaluating Facility and Field Development Alternatives in an Environment of Significant Subsurface Uncertainty
Kendall C. Reynolds, D. Brennan, John Spokes, Lars Seeberg ............... 2397

Application of Experimental Design in Selecting a Development Plan for the Agbami Field
J. J. Spokes, M. A. Owede, E. P. Ginger, G. M. Narahara, Olav Haga, Julio Gontijo 2408
