Deep Gas Conference and Exhibition 2010

(DGAS 2010)

Manama, Bahrain
24-26 January 2010

<table>

<tbody>
<tr>
<td>SPE 88797 Can Rock and Fluid Characteristics Effect the Critical Gas Condensate Saturation (CCS), and Gas Condensate Relative Permeability? M. Al-Honi, Y. Zekri</td>
<td>1</td>
</tr>
<tr>
<td>SPE 122594 Well Test Analysis in Naturally Fractured Gas Condensate Reservoirs Below Dew Point Pressure A. M. Al-Baqawi, B. H. Al-Maliki</td>
<td>12</td>
</tr>
<tr>
<td>SPE 129588 The Technique of CO₂ Anticorrosive in Daqing’s Deep Gas Well Liu He, Gao Cunliang</td>
<td>28</td>
</tr>
<tr>
<td>SPE 129600 Managed Pressure Drilling in Rub Al-Khali Empty Desert: Case Study Sarah-Qasim Formations Joseph Ekpe, Andrey Kompanstev, Jamal Al-Thuwaini, Raid Bu-Khamseen, Mohammad Emad, Yuri Belousov</td>
<td>34</td>
</tr>
<tr>
<td>SPE 129637 Formation Damage through Aqueous Phase Trapping In Gas Reservoirs Abooez Jafar, Mohammad Rezaia, M. Moghadasi, M. Mashti</td>
<td>43</td>
</tr>
<tr>
<td>SPE 130139 New Technique for Calculation of Well Deliverability in Gas Condensate Reservoir S. Gerami, A. Sadeghi, M. Mashti</td>
<td>51</td>
</tr>
<tr>
<td>SPE 130154 Tight Ultra-deep Gas Field Production Optimisation – Development Optimisation and CO₂ Enhanced Gas Recovery Potential of the Schoenkirchen Uebertief Gas Field, Austria Severin Seckler, Gerhard Arzmutler, Torsten Clemens</td>
<td>60</td>
</tr>
<tr>
<td>SPE 130236 New High-Density Fracturing Fluid to Stimulate a High-Pressure, High-Temperature Tight-Gas Sandstone Producer Formation in Saudi Arabia Leopoldo Sierra</td>
<td>75</td>
</tr>
<tr>
<td>SPE 130261 Fluid Contact Determination in Tight Gas Reservoirs; Formation “B” Case Study, Sultanate of Oman Abd-Elmoula Ibrahim, Said Hasani, Jahwari Sultan</td>
<td>88</td>
</tr>
<tr>
<td>SPE 130282 Deep Gas Potential of Oshorone Bahrain Field Muhammad Nawaz Bugti, Abdul Nabi Muhkhtar, William Gaviria, Shastri Nimmagadda</td>
<td>97</td>
</tr>
<tr>
<td>SPE 130369 A Completions Road Map to Shale Play Development – A Review of Successful Approach Towards Shale Play Stimulation in the Last Two Decades Omkar Janipate, Bill Griesser, Kk Chong</td>
<td>107</td>
</tr>
<tr>
<td>SPE 130376 A Review of the Impact of the Use of Formate Brines on the Economics of Deep Gas Field Development Projects J. D. Downs</td>
<td>126</td>
</tr>
<tr>
<td>SPE 130527 Karan Field: Overcoming Drilling Challenges in Highly Fractured HP/HT Formations Magid A. Al-Ghamdi, Zaki Bagag, Ali Assyri, Eno Omimi</td>
<td>147</td>
</tr>
<tr>
<td>SPE 130615 Integration of NMR and Conventional Logs Data to Enhance the Accuracy of Porosity Calculation in Low Porosity/Low Permeability Gas Reservoirs - A Case Study of Sichuan Basin, China Liang Xiao, Zhi-Qiang Tao, Zhao-Nian Yang, Yan Jin</td>
<td>154</td>
</tr>
<tr>
<td>SPE 130641 Productivity Impact from Geochemical Degradation of Hydraulic Fractures Jim Weaver, Richard Rickman</td>
<td>160</td>
</tr>
<tr>
<td>SPE 130722 First Successful Tight Gas Reservoir Completion and Fracture Stimulation in Sarah Formation, Rub Al-Khali Empty Quarter of Saudi Arabia Raid Bu-Khamseen, Ayvat Khakimov, Leopoldo Sierra, Dustin Young, Mark Machala</td>
<td>173</td>
</tr>
<tr>
<td>SPE 130759 Saturation Calculation in Volcanic Reservoirs—A Case Study for Haer Jin in PetroChina Jilin Oilfield Liang Xiao, Jie ma, Xiao Zhao, Jiaqiang Zhu</td>
<td>199</td>
</tr>
<tr>
<td>SPE 130870 Oman, 2/34 Velocity Strings in Deep and Tight Gas Wells P. Goedemoed, F. A. Muselhi, A. Al Manji</td>
<td>205</td>
</tr>
<tr>
<td>SPE 130894 Successful Deployment of Multistage Fracturing Systems in Multilayered Tight Gas Carbonate Formations in Saudi Arabia Hasan Hussein Al-Imran, Stuart Wilson, Bryan Johnston</td>
<td>221</td>
</tr>
<tr>
<td>SPE 130899 Deep Sour Gas Reservoir Development and Challenges A. Abed, M. El Gohary, A. Abu Snaineh, M. Guettat, M. Ahmad, J. Lozano, M. Al Reyami</td>
<td>231</td>
</tr>
</tbody>
</table>
SPE 130902 Optimized Practices Followed in Testing & Completion of Deep Jurassic Exploratory Wells of KOC .......................................................... 238
S. Packirisamy, Haifa Al-Bader, J. R. Singh, Hamad Esmi Al-Bader

SPE 130905 Proppant Fracturing for Ultra-high Pressure Deep Gas Reservoir.................................................................................. 247
Yonghui Wang, Fuxiang Zhang, Xinghong Cheng, Jianxin Peng, Yongping Li, Mingguang Che

SPE 130913 Implementing Smart Solution for Controlling Water Cut in South Pars Gas Field from Environmental Point of View .................................................. 251
R. Rahimi, A. Tahami

SPE 130914 Jurassic Tight Carbonate Gas Fields of North Kuwait: Exploration to Early Development .......................................................................................................................... 260

SPE 130916 Understanding Fractures Through Seismic Data: North Kuwait Case Study .......................................................................................................................... 266
Srinivasa Rao Narhari, Abdul Latif Al-Kandari, Vijaya Kumar Kidambi, Samar Al-Ashwak, Bashir Al-Qadeeri, Chinnaya Pattuak

SPE 131063 A New Exploration Play for Saudi Arabia, the Rhuddanian Sandstone .......................................................... 273

SPE 131065 Tight Gas Exploration in Saudi Arabia .......................................................................................................................... 280
S. Hayton, C. J. Heine, B. Gratto

SPE 131095 Doubling the Middle East's Largest HPHT Rig Fleet – Case History of the Start-up of Six New 3000 HP Rigs in Kuwait .................................................................................................................. 287

SPE 131107 Optimizing Microemulsion/Surfactant Packages for Shale and Tight-Gas Reservoirs .................................................................................................................. 303
R. D. Rickard, Omkar Jaripatke

SPE 131123 Three Different Methods of Mapping the Characteristics of Induced Fractures Related to Both Hydraulic Frac and Production as Measured With Microseismic Array Technology from Observation Wells, Treatment Wells and in a Permanent Setting .................................................................................................................. 310
Nicholas Brooks, Graham Gaston, Jaime Rangel

SPE 131264 Discrete Element Simulation of Induced Damaged Zones in Perforation of Deep Gas Reservoirs .................................................................................................................. 320

SPE 131265 Thermomagnetic Analyses of the Permeability Controlling Minerals in Red and White Sandstones in Deep Tight Gas Reservoirs: Implications for Downhole Measurements .................................................................................................................. 330
Arfan Ali, David K. Potter

SPE 131268 How to Define a New Higher Strength Drill Pipe for Maximizing Safety .................................................................................................................. 338
Anne Sèvignon, Kamal El Bachiri, Arnaud Gateaud, Vincent Flores, Hervé Marchebois

SPE 131601 Rock Physical Properties Computed from Digital Core and Cuttings with Applications to Deep Gas Exploration and Development .................................................................................................................. 348
Guoping Li, Elizabeth Diaz, Amos Nur

SPE 131711 Field Application of Applying the Best Practice in Proppant Fracturing Shaly Sand Formation .................................................................................................................. 354

SPE 131718 Mechanical Earth Modeling Improves Drilling Efficiency and Reduces Non-Productive Time (NPT) .................................................................................................................. 363
Alireza Moazzeni, Mohammad Nabaei, Khalil Shbabzi, Arash Shadravan

SPE 131719 Uncertainty Analysis in Unconfined Rock Compressive Strength Prediction .................................................................................................................. 377
Mohammad Nabaei, Khalil Shbabzi, Arash Shadravan

SPE 131721 The Role of Resistivity Image Logs in Deep Natural Gas Reservoirs .................................................................................................................. 392
Paul Kalathingal, Robert Kuchinski

Richard Jones

SPE 131917 Stimulating Khuff Gas Wells with Smart Fluid Placement .................................................................................................................. 415

SPE 131960 Managed Pressure Drilling, the Impact of Correctly Applying the Technology and the Results Obtained After Drilling an Exploratory Well in a Deep Gas Reservoir of Saudi Arabia .................................................................................................................. 427
J. Al-Thawaini, M. Emad, I. Ketabchi, F. Torres, R. Russell, M. Arnone

SPE 131986 Simulating Model to Reduce Detrimental Acidizing in Tabnak Gas Field .................................................................................................................. 439
M Farrokhrouz, M R Asef
SPE 132003 Field Trials of a Novel Fiber-Laden Self-Diverting Acid System for Carbonates in Saudi Arabia ................................................................. 447
SPE 132015 Effective Ways to Avoid Barite Sag and Technologies to Predict Sag in HPHT and Deviated Wells ................................................................. 457
    Mohammad Reza Amighi, Khalil Shahbazi
SPE 132033 Integration of Conventional Logs, Core, Borehole Images, and 3D Seismic, A Rule of Geological Modeling in Tight Clastics Gas Deep Reservoirs, Oman ................................................................. 464
    Ashraf Farag, Hanaa Al Hasani, Sheikh Al Mughairi, Redha H. Al Lawati
SPE 132082 Estimation of Production Potential and Reserves of Jauf Gas Reservoir of Bahrain Field ................................................................. 486
    Ebrahim Al Owainati, Ali Al Muftah, K. Kumar, C. R. K. Murty
SPE 132084 Next Generation Technologies for Underbalanced Coil Tubing Drilling ................................................................. 494
    Anton Kozlov, Serve Frantzen, Thomas Gorges, Shaker Al Khamees, Julio C. Guzman, Anthony A Aduba, Thiago P. Da Silva
SPE 132086 Cement Considerations for Tight-gas Completions ................................................................. 501
    Robert Darbe, Kris Ravi
SPE 132090 Overcoming the Cementing Challenges in Deep Gas Environment ................................................................. 512
    Kris Ravi, Robert Darbe
SPE 132095 Development and Optimization of 12-in. PDC Bit for Powered Rotary Steerable Systems in Deep Gas Drilling in Saudi Arabia ................................................................. 518
    Saeed Al Reda, Abdullah Kubaisi, Khalid Nawaz, Mohammed Fouad Jamil, Octavio Alvarez, Baseem Qattawi, Jaywant Verma, Sukesh Ganda
SPE 132096 Breakthrough PDC Technology Used in Saudi Arabia Deep Gas Wells to Significantly Reduce Drilling Time ................................................................. 535
    Octavio Alvarez, Fouad Jamil, Bassem Qattawi, Akin O. Olorode
SPE 132097 Combined Capillary Pressure and Resistivity Index Measurements in Tight Gas Sands Using Vapor Desorption Method ................................................................. 548
    M. R. Dernaika
SPE 132151 Successful HPHT Application of Potassium Formate/Manganese Tetra-Oxide Fluid Helps Improve Drilling Characteristics and Imaging Log Quality ................................................................. 560
    M. J. Al-Saeedi, B. Al-Khayyat, D. Al-Enezi, A. Aslan, J. Luzardo, C. Carrera
SPE 132153 Long-lasting Experience In Environmental Protection During Sour Gas Reservoir Exploitation ................................................................. 571
    L. Hrncevic, K. Simon, Z. Kristafor, M. Malnar
SPE 132156 Finite Element Simulation of Downhole Stresses in Deep Gas Wells Cements ................................................................. 577
    A. Nabipour, B. Joodi, M. Sarmadivaleh
SPE 132157 New Generation of MWD, LWD, and Image Logging Opens New Possibilities for Data Acquisition and Evaluation in Deep gas Reservoirs ................................................................. 590
    Eric C. Malcore, Hani Qutob, Robert Kuchinski
SPE 132173 Hydraulic Fracturing Under Extreme HPHT Conditions: Successful Application of a New Synthetic Fluid in South Texas Gas Wells ................................................................. 597
    Gary P. Funkhouser, Jeremy Holitsclaw, Jay J. Blevins
SPE 132176 New 9½-in. HPHT Permanent Packer with New Back-Up System Provides North Sea Operator with Effective Solution for Damaged or Worn Casing ................................................................. 605
    Thomas Robb, Ernie Valentine
SPE 132329 Improved Permeability Modeling in a Saudi Arabian Deep Gas Reservoir Including Measurement Uncertainties ................................................................. 614
    David Forsyth
