# TABLE OF CONTENTS

SPE 129600 Managed Pressure Drilling in Rub Al-Khali Empty Desert: Case Study Sarah-Qasim Formations ......................................................... 1
  Joseph Eke, Andrey Kompanstev, Jamal Al-Thuwaini, Raid Bu-Khamseen, Mohammad Emad, Yuri Belousov

SPE/IADC 130308 Deepwater Riserless Mud Return System for Dual Gradient Tophole Drilling ..................... 10
  Dave Smith, Warren Winters, Brian Tarr, Robert Ziegler, Ikshandar Riza, Malik Faisal

SPE/IADC 130309 Variable Rate UBD Production Data Facilitates Reservoir Characterization ...................... 32
  George Stewart, Sunil Lakshminarayanan, Jaime Villatoro, Said Boulalti

SPE/IADC 130311 Successful Use of Real Time Dynamic Flow Modelling to Control a Very Challenging Managed Pressure Drilling Operation in the North Sea .............................................. 44
  Knut Steinar Bjorkevoll, Svein Hovland, Ingvill Barr Aas, Elin Vollen

SPE/IADC 130312 A Simplified and Highly Effective Method to Identify Influx and Losses During Managed Pressure Drilling Without the Use of a Coriolis Flow Meter .............................................. 55
  Don Reitsma

SPE/IADC 130313 Managed Pressure Drilling Brings Added Value to Production Casings Cementing Operations Increasing Success Rates and Quality in HPHT Fractured Narrow Window Wells ................................................................. 71
  Juan Carlos Beltran, Corrado Lupi, Fernando Gallo, Hromogues Duno, Leiro Medina

SPE/IADC 130314 Underbalanced Drilling Challenges in a High-POur-Point Oil Reservoir in Sepanjang Island, Indonesia .................................................................................................................. 79
  Tommyukit Kitamura, Hassan Zaki, Kitos Akbar, Fulbert B. Palou, Julius Ceazar E. Sosa, Julmaurna Shun S. Toralde, Steve Nas

SPE/IADC 130316 Managed Pressure Drilling in the Gulf of Thailand Enables Talisman to Optimize Drilling and ECD Management and Avoid Losses in Depleted Reservoirs .................................................. 92
  Hapizuddin Mangor, Peter Jones, Paul Fredericks, Greg Garcia

SPE/IADC 130317 Overcoming Drilling Challenges in Northwest China Using an Innovative MPD Technique ................................................................................................................................. 110
  Scott McMillan, Wen Hua An, Yao Ming Zhang, Zhi Xiong Xu, Randy Lovorn, Jenny Ospina, Saad Saeed

SPE/IADC 130318 Offshore Automated Managed Pressure Drilling in Fractured Basement Granite Reservoir: Case Study, Challenges and Solutions .................................................... 122
  Biswajit Chakraborty, Manoj Meghnani, M. Saravananakumar, Rashmi Priya Gupta, Deepanshu Chawla, Abdul Majeer Shaikh, Graham R. Boyce

SPE/IADC 130319 Experience and Results with a New Automated MPD System while Drilling and Cementing Liner in an Onshore Depleted Gas Field ......................................................... 128
  Paul Fredericks, Julio Montilha, Phil Vogelsberg

SPE/IADC 130320 Finding Gas Using Underbalanced Drilling in a Tight Reservoir ........................................... 140
  John Bowling, Raju Hazarika, Dieter Saloud

SPE/IADC 130324 Understanding Multiphase Flow Modeling for N₂ Concentric Nitrogen Injection Through Downhole Pressure Sensor Data Measurements While Drilling MDF Wells .......................................................................................................................... 150
  Juan C. Beltran, Corrado Lupi, Leiro Medina, Hromogues Duno, Fernando Gallo, Jose Tang, Jimmy Rojas, Efren Rodriguez, Hernán Méndez, Jorge Bedoya, Gustavo Puerto

SPE/IADC 130325 Experiences From Use of a Managed Pressure Drilling & ECD Management System During Drilling of a Challenging HPHT Well .................................................................................................................. 162
  Rolf Rommetveit, Sven Inge Hågbård, Christine Nordstrand, Knut S. Bjørkevoll, Mikkeld Fjeldheim, Steinar T. Håvardstien

SPE/IADC 130326 Assessment on the Performance of Hollow Glass Microspheres in Low Density Fluids for Workover Programs in Fractured Basement Reservoir at the White Tiger Oil Fields, Cuu Long Basin, Vietnam ................................................................. 171
  A. V. Ovcharenko, Jv Vietsovpetro; Melvin Devadass

SPE/IADC 130327 Flow Properties of Super Light Weight Completion Fluid for Perforation Cleanup During Underbalanced Condition ................................................................. 186
  Manawar Khali, Badrul Mohamed Jan, Abdul Aziz Abdul Ramon

SPE/IADC 130330 MPD Candidate Identification: To MPD or Not To MPD ..................................................... 198
  Sagar Nauduri, George H. Medley, Jerome J. Schubert

SPE/IADC 130562 First Under-Balanced Drilling Experience in AGOCO Sarir Field ........................................... 205
  Biltayib Musbah, M. Elhemry, Khulud M. Rahuma

SPE/IADC 130563 UBD or MPD: An Engineering Choice Based on Intent ................................................................. 212
  Kenneth P. Mallory, Sara Shavegi
