International Mine Water Conference 2009

Pretoria, South Africa
19-23 October 2009

# TABLE OF CONTENTS

## PLENARY

- **Strategic Planning for Water Resources in South Africa**
  
  J. A. Van Rooyen

- **The Evolution of Passive Mine Water Treatment Technology for Sulphate Removal**
  
  W. Pulles, R. Heath

- **Reliable Mine Water Technology**
  
  Adrian Brown

- **The Implementation of the Recently Developed Best Practice Guidelines for Water Resource Protection in the South African Mining Industry**
  
  R. Munnik, W. Pulles

- **INAP’s Global Acid Rock Drainage Guide and the Current State of Acid Rock Drainage Assessment & Management in South Africa**
  
  N. Bezuidenhout, R. Verburg, T. Chatwin, K. Ferguson

- **Evolution of Mine Water Management in the Highveld Coalfields**
  
  W. S. Mey, A. M. Van Niekerk

  
  K. A. Slatter, N. D. Plint, M. Cole, V. Dilsook, D. De Vaux, N. Palm, B. Oostendorp

## INTEGRATED WATER RESOURCES MANAGEMENT: ORAL

- **Coal Mining on the Highveld and its Implications for Future Water Quality in the Vaal River System**
  
  T. S. McCarthy, K. Pretorius

- **Long-Term Water Management in the German Mining District through the Understanding of the Subsurface Permeabilities**
  
  T. Rudolph, C. Melchers, W. G. Coldewey

- **Application of the HFEMC Method to an Abandoned Coalfield in Belgium: From Conceptualisation to Scenario Simulations**
  
  S. Wildemeersch, S. Brouyre, Ph. Orban, J. Couturier, N. Gardin, C. Dingelstadt, M. Veschkens, A. Dassargues

- **A Consolidated Approach to Implementing Best Practice Guidelines, Water Use Licence Conditions and Integrated Water and Waste Management Plans in the Mining Environment – Opportunities and Challenges**
  
  A. Owens, J. Burke

- **Mathematical Modelling Application for Optimisation of Utilisation of Mine Waters with High Uranium Concentrations from Flooded Mines**
  
  N. Rapantova, J. Zeman, D. Vojtek, A. Grmela, B. Michálek

- **Integrated Chemical, Radiological and Biological Monitoring for an Australian Uranium Mine – A Best Practice Case Study**
  
  D. R. Jones, C. Humphrey, R. Van Dan, A. Harford, K. Turner, A. Boithöfer

- **Impact of Former Uranium Mining on the Olsi Mine Area (Czech Republic) on the Water Ecosystems**
  
  H. Hudcová, M. Ručkošný, J. Badurová, J. Sova, R. Brezingová

- **Assessment of How Water Quality and Quantity will be Affected by Mining of the Waterberg Coal Reserves**
  
  D. Vermeulen, M. Bester

- **Short-Term Fluctuations in Heavy Metal Concentrations During Flood Events through Abandoned Metal Mines, with Implications for Aquatic Ecology and Mine Water Treatment**
  
  Patrick Byrne, Ian Reid, Paul J. Wood

- **Optimum Coal Mine Water Reclamation Project**
  
  V. E. Cogho, A. M. Van Niekerk

- **Handling Uncertainty in Water Resource Optimisation**
  
  J. A. Griffiths

- **Dewatering at the Capo Xavier Iron Open Pit Mine (Minas Gerais, Brazil)**
  
  R. Fernández Rubio, C. Grandchamp, M. Lobo De Rezende, D. Lorca Fernandez, A. Carlos Bertuchini
Anglo Platinum's Approach to Inter-Sectoral User Integration: The ORWRDP as Case Study ................................. 163
Bertus Bierman, Ilma Brink

A Water Resources Protection Method and its Application to Arid and Semi-Arid Mining Areas .................................. 172
Sun Yajun, Liu Yong, Wang Changshen, Xu Zhimin, Shao Feiyuan, Jiang Su

Groundwater and Mining in the Bushveld Complex ..................................................................................... 179
R. Tines, K. Withhäuser, B. Walters

Mine Water Reclamation and Re-Use - South African Experience ............................................................. 186
A. M. Van Nickerk

Potential Impact of Mining Activity on Xin'an Karst System, Shanxi, China ................................................ 195
C. S. Wang

INTEGRATED WATER RESOURCES MANAGEMENT: POSTER

Geochemical Assessment of the Potential Impact of Durban Navigation Colliery Dumps on the Environment, South Africa ........................................................................................................ 202
B. Zhao, P. Jacobs, F. Schwegler

The Development and Management of Water Related Technical "Partnerships" within the Debswana Diamond Mining Company ........................................................................................................ 209
M. C. Brook

Water Quality Consideration for Opencast Mining of the Molteno Coal Field, Indwe, Eastern Cape .............. 218
D. A. Cobban, J. N. Rossouw, K. Versfeld, D. Nel

Anthropogenic-Influenced Changes in a Groundwater Environment in Urbanised Area of Old Mining Activity (Tarnowskie Góry Region, Poland) ........................................................................... 229
A. Kowalczyk, A. J. Witkowski, K. Rubin

On-Site Measurement of Metals in Water Samples Taken from Nant Gwydyr and Llyn Gerionydd Using a Cogent Environmental PDV6000plus Metals Analyser .................................................. 230
M. Butterfield

WATER MANAGEMENT ISSUES IN OPEN PIT MINING: ORAL

The Economic Challenges of Dewatering at the Victor Diamond Mine in Northern Ontario, Canada ............. 236
L. C. Atkinson, P. G. Keeping, J. C. Wright

Effect of Fracture Permeability on Connectivity of Fracture Networks ......................................................... 244
T. Molebatsi, S. Galindo Torres, L. Li, D. Bringemeier, X. Wang

A Statistical Analytical Method to Assess the Potential for Worked Water Sharing between Mines .................. 252
C. J. Moran, D. Barrett, C. M. Cote

Mine Water Management in Modern African Mining Operations .............................................................. 257
M. L. Shelp, B. Upton, G. Zhan, U. Sibilski

WATER MANAGEMENT ISSUES IN OPEN PIT MINING: POSTER

Major Ion Chemistry, Solute Acquisition Processes and Quality Assessment of Mine Water in Damodar Valley Coalfields, India ......................................................................................... 262
A. K. Singh, G. C. Mondal, B. K. Tewary, A. Sinha

WATER MANAGEMENT ISSUES IN UNDERGROUND MINING: ORAL

Comparison of Designs for the Dewatering of Coal, Gold and Diamond Mines in Southern Africa .................. 272
K. L. Morton

Mine Water Management of Flooded Coal Mines in the Sydney Coal Field, Nova Scotia, Canada .................. 284
J. Shea

Rehabilitation and Construction Issues for Silvermines Abandoned Mine Area, Ireland .............................. 293
Richard Connelly

Grouting During the Driving of Drifts and Tunnels ......................................................................................... 303
Y. N. Spychak
WATER MANAGEMENT ISSUES IN UNDERGROUND MINING: POSTER

Application of DGT Samplers in Monitoring of Mine Waters of the Witwatersrand Goldfields, RSA ........................................ 309
H. A. Mengistu

Pregrouting during Deep Shaft Sinking .......................................................................................................................... 316
Y. N. Spychak

Underground Treatment of Flooded Fully Mechanized Mining Face ................................................................. 324
C. Yang, G. Li

WATER TREATMENT: ORAL

Is Irrigation with Coal-Mine Water Sustainable? ................................................................. 331
J. G. Annandale, Y. G. Beletse, R. J. Stirzaker, K. L. Bristow, M. E. Aken

Mechanisms Responsible for Particle Formation during Metal Sulphide Precipitation Processes ........................................ 337
T. P. Mokone, R. P. Van Hille, A. E. Lewis

Sediment Pond Removal of Precipitates from Neutralized Acid Rock Drainage ................................................. 345
Adrian Brown, Gary Goodrich, Timm Coner

Passive Treatment of Mine Water using Roughing Filters as a Pre-Treatment Option ........................................ 353
O. Nkwonta, G. M. Ochieng

ACTIVE MINE WATER TREATMENT: ORAL

Bio-Stabilization of Arsenic in Solid Wastes Obtained by Lime Treatment of Bioleaching Liquors ................................. 360
F. Battaglia-Brunet, C. Crozet, D. Morin

Treatment of Acid Mine Drainage using Magnesium Hydroxide .................................................................................... 365
V. Bologo, J. P. Maree, C. M. Zvinowanda

Removal of Uranium from Mine Water Using Ion Exchange at Driefontein Mine ................................................. 375
M. Botha, L. Bester, E. Hardwick

Optimising the Removal by B Subtilis and B Bacterium of Metals found Around Mining Areas: ................................. 385
E. Fosso-Kankeu, A. F. Mulaba-Bafubiandi, B. B. Mamba, L. Marjanovic, T. G. Barnard

Experience with Crystallisation as Sustainable, Zero-Waste Technology for Treatment of Wastewater ............................ 394
Andreas Giesen, Hennie Erwee, Rob Wilson, M. Botha, Stefan Fourie

Hydrotalcite Formation for Contaminant Removal from Mining Wastewaters ................................................................. 400
G. Douglas, L. Wendling, R. Pleyser

Operating and Maintenance Experience at the Emalahleni Water Reclamation Plant ................................................. 408
B. Button, I. Kahan, T. Naidu, P. Gunther

Freezing Your Brines Off: Eutectic Freeze Crystallization for Brine Treatment ......................................................... 424
J. Nathoo, R. Jivanji, A. E. Lewis

Mine Water Treatment Using Magnetite and Iron Ferrites ....................................................................................... 431
J. D. Navratil, A. C. Akin

Sustainable Purification of Mine Water Using Ion Exchange Technology ................................................................. 439
D. Howard, C. Grobler, R. E. G. Robinson, P. M. Cole

Zeotreat: Multifunctional Adsorbents for Metal and Sulphate Removal in Mining Wastewaters from Copper Industry, Chilean Case ......................................................... 446
C. Vidal, U. Broschek, G. Zuiga, L. Bravo

ACTIVE MINE WATER TREATMENT: POSTER

Role of PH on Sulphate Removal from Circumneutral Mine Water Using Coal Fly Ash ......................................................... 454
G. Madzivire, L. Petrik, W. Gitari, G. Balfour, V. R. K. Vadapalli, T. V. Ojumu

Sulphate Removal Results Using Barium-Carbonate and their Analysis for Reactor Synthesis ................................. 464
J. Mulopo, S. R. Motang, M. R Mashego, M. Moalusi

An Environment-Friendly Technology for Biological Sulphate and Sulphide Removal from Acid Mine Drainage ......................................................... 469
H. A. Greben, N. J. Sigama, V. Radebe, J. Wilsenach
PASSIVE MINE WATER TREATMENT: ORAL

Current Performance of Passive Treatment Systems in South Wales, UK ................................................................. 477
J. N. Geroni, D. J. Sapsford, A. Barnes, I. A. Watson, K. P. Williams

A South African Case Study on Sediment Control Measures with the Use of Silt Traps in the Coal Mining Industry ................................................................. 486
S. Ferreira, C. Waygood

More than Water Quality: Environmental Limitations to a Fishery in Acid Pit Lakes of Collie, South-West Australia ........................................................................... 496
C. D. McCullough, J. Steenbergen, C. Te Beest, M. A. Lund

The Use of Indigenous Grass Species as Part of Rehabilitation of Mine Tailings: A Case Study of New Union Gold Mine ........................................................................... 501
G. Mulugisi, J. R. Bumgo, F. A. Dacosta, C. Mazerengi

Biological Remediation of Low Sulphate Acidic Pit Lake Waters with Limestone pH Neutralisation and Nutrients ................................................................. 508
M. A. Lund, C. D. McCullough

Application of the Linear Flow Channel Reactor (LFCR) for the Removal of Sulphide from Semi-Treated Acid Mine Drainage (AMD) ........................................... 515
C.-L. Mack, S. Raja, W. Pulles, R. Muhlbaumer, R. Heath

Performance Evaluation of Two Reducing and Alkalinity Producing Systems for Coal Mine Drainage Remediation after Four Years of Operation ................................ 520
R. Matthies, A. P. Jarvis, A. C. Aplin

Dynamics of Arsenic in Constructed Wetland Treating Water from Flooding Shaft of an Abandoned Uranium Mine ........................................................................... 528
M. Mkandawire, A. Kächler, J. Förster, G. Pieplow, W. Pompe

Hydraulic Characterisation of a Constructed Wetland Used for Nitrogen Removal via a Dual-Tracer Test ................................................................. 536
B. S. Sherman, M. G. Trefry, P. Davey

Strategies for Managing Environmental Problems and Water Treatment in Mining ........................................................................... 545
R. Schwarz, A. Gerth, S. Morgenstern, A. Hehner

Verification of a Semi-Passive Microbially-Assisted Biotechnology for Large-Scale Treatment of Acid Mine Drainage ................................................................. 555
P. W. Wade

Water Quality and Metal Transport in Water-Covered Mine Tailings Deposits at Sulphide Ore Mines – In Situ Measurements and Modelling by DGT Samplers ................................................................. 562
Oddvar Røyset, Birger Bjerkeng, Eigil Iversen, Karl Jan Aanes

PASSIVE MINE WATER TREATMENT: POSTER

Bioprecipitation of Arsenic Sulphide at Low PH ........................................................................... 568
F. Battaglia-Brunet, D. Morin, S. Coulon, A. Burnol, A. C. Scheinost, C. Joulian

Biological Treatment of Mining Water Containing Arsenic: From Laboratory to Pilot Scale ................................................................. 576
A.-G. Guzennec, S. Touz, F. Battaglia-Brunet, D. Morin

Coalmine Water Treatment Technology by Natural Sand Ground System and Goaf ................................................................. 582
Y. Liu, Y.-J. Sun, Z.-M. Xu

Research and Development of Acid Mine Drainage Treatment Technology in Japan ........................................................................... 588
C. Nagai, H. Furuya, H. Asano

Bioremediation of Contaminated Water Sources with Sulphate-Reducing Bacteria ........................................................................... 594
D. G. Teclu, M. D. Laing, F. M. Wallis

MANAGEMENT OF BRINES AND SLUDGES: ORAL

MILAF: Integral Management of Arsenical Sludge, Treatment and Recovery of By-Products of Acid Waters from Smelter Plants ........................................................................... 602
Ulrike Broschek, C. Vidal, L. Bravo, G. Zuiga

Recovery of Sulphur from Waste Gypsum ........................................................................... 610
N. R. Mbhele, W. Van Der Merwe, J. P. Maree, D. Theron

Characterisation of Ranger Mine Water Treatment Sludge ........................................................................... 619
R. Pleysier, G. Douglas, M. G. Trefry, L. Wendling, F. Benn, A. Grabsch, C. Klaube
Seeding for Selective Salt Recovery During Eutectic Freeze Crystallization ....................................................... 627
D. G. Randall, J. Nathoo, A. E. Lewis

Investigating Factors that Affect Separation in a Eutectic Freeze Crystallisation Process ............................................. 635

Comparative Adsorption of Major Cations from Brines By Ion Exchange Processing Using Amberlite 252-RFH Resins and Amidoxime Fibres ................................................................. 642
Bongani N. Yalala, L. Petrik, G. Balfour, R. Vadapalli, Bruce A. Hendry

MANAGEMENT OF BRINES AND SLUDGES: POSTER

Evaporation Rates on Brine Produced during Membrane Treatment of Mine Water ...................................................... 651
P. Dama-Fakir, A. Toerien

Brine Remediation Using Fly Ash and Accelerated Carbonation .................................................................................. 656
G. N. Muriithi, M. W. Gitari, L. Petrik

Removal of Toxic Elements from Brine Using Zeolite Na-p1 Made from a South African Coal Fly Ash ......................... 665
N. M. Musyoka, L. Petrik, G. Balfour, N. Misheer, W. Gitari, B. Mabovu

3D Modelling of Brine Flow - A Case Study for a Flooded Salt Mine ........................................................................ 673
W. Rühaak, J. Luo, H.-J. G. Diersch

Treatment of Brines Using Commercial Zeolites and Zeolites Synthesized from Fly Ash Derivative ......................... 680
T. Sonqishe, G. Balfour, E. Iwouha, L. Petrik

MANAGEMENT AND REHABILITATION OF MINE RESIDUES: ORAL

Management of In-Situ Recovery (ISR) Mining Fluids in a Closed Aquifer System ...................................................... 688
D. Armstrong, B. Jeuken

Groundwater Clean-Up: Assessing Mining Impacts and Rehabilitation/Management Alternatives .............................. 698
S. J. W. Skinner

Reprocessing Kimberlite Tailings: A Swuare Contaminant Source in a Big Hole? ......................................................... 708
T. Harck, M. Peters, G. Hubert, L. Burger, L. Ochieng, T. Germishuyse

Hydrogeological Assessment of Seepage through the Antamina Tailings Dam – Antamina Copper/Zine Mine, Peru, South America ................................................................. 715
J. L. Levenick, W. Zawadski, A. Haynes, R. Manrique

A Review of the Current Strategy for Capping Mining Spoils ...................................................................................... 723
C. Waygood, S. Ferreira

Subaqueous Disposal of Sulphide Tailings – Reclamation of the Sherridon Orphan Mine Site, Manitoba, Canada .................................................................................................................. 731
D. Ramsey, J. Martin

MANAGEMENT AND REHABILITATION OF MINE RESIDUES: POSTER

Oxidative Breakdown of Acid Azo Dyes by MN Oxides ................................................................................................. 741
C. E. Clarke, K. L. Johnson

Birds Associated with the Tailings Storage Facility and Surrounds of a South African Gold Mine .................................. 743
Adrian Hudson, Henk Bouwman

Hydrogeochemical Characterisation of Waste Deposits from a Copper Mine .............................................................. 751
G. P. Moukodi, B. H. Usher, M. Surmon

MINE CLOSURE: ORAL

Uranium Pollution of Water Resources in Mined-Out and Active Goldfields of South Africa - A Case Study in the Wonderfonteinspruit Catchment on Extent and Sources of U-Contamination and Associated Health Risks ............................................................................................... 757
F. Winde

Decisions Support Related to the Management and Closure of Tailings Storage Facilities - Guideline for the Handling of Uncertainties in Model Predictions and Risk Based Decision Making ................................................................. 767
T. Germishuyse, N. Bezuidenhout

Estimating the Impact of Site Hydrogeology on Groundwater Liability, Closure and Rehabilitation .......................... 775
P. F. Labuschagne, C. Human
Development of a Novel Approach to Source Manipulation to be Applied at the Flooded Underground Uranium Mine at Königstein, Germany

U. Jenk, M. Paul, R. Schöpke

Hydrochemistry of Mine Water Discharges in the Abandoned Upper Bavarian Pitch Coal Mining District/Germany

C. H. Woltersdorfer

Dynamic Model of Long Term Geochemical Evolution of Mine Water after Mine Closure and Flooding

J. Zeman, M. Cerník, I. Šupíková

MINE CLOSURE: POSTER

Reforestation and Landscaping on Mine Tailings – A Step Forward in Mine Closure

O. Pollmann, L. Van Rensburg, C. Lange

Experience with Backfilling Underground Voids and Shafts during Mine Closure

Y. N. Spychak

GEOCHEMISTRY AND IMPACT PREDICTION: ORAL

The Hidden Dragon: Nitrate Pollution from Open-Pit Mines - A Case Study from the Limpopo Province, South Africa

Carin Bosman

Dynamic Up-Flow Percolation Tests - A Model for Mining Waste Leachate Generation

A. Turner, C. Braunagard, P. Worsfold, J. Rieuwerts, B. Williamson, H. Potter

A Surface Complexation Modelling Approach for Uranium (vi) Transport in Groundwater

J. A. Davis, S. P. Hyun, P. M. Fox, K. P. Hayes

Prediction of Seepage Emanating from a TSF in an Arid Climate

K. Govender, N. Bezuidenhout, A. Van Zyl, P. Rousseau

Isotopic Fingerprinting of Groundwater Nitrate Sources around Anglo Platinum’s RPM Mogalakwena Operation (Limpopo Province, South Africa)

C. Ihlenfeld, C. J. Oates, S. Bullock, R. Van Zyl

A Coupled Hydrodynamic-Geochemical Model of Meromictic Pit Lake Waldsee

S. Moreira, B. Boehrer, M. Schulze, J. Samper

Impact Prediction of the Reactivation of an Unused Tailings Dam

T. Harck, Bernadette Azzie, Caitrona Coyle, T. Germishuyse, R. Vadapalli, A. Van Zyl

Effects of Past Mining on the Quality of Water Resources in Sardinia

R. Ochieng, T. Harck, M. Peters

The Detection and Tracking of Mine-Water Pollution from Abandoned Mines Using Electrical Tomography

GEOCHEMISTRY AND IMPACT PREDICTION: POSTER

Impact of the Casargiu Mine Drainage (SW Sardinia, Italy) on the Mediterranean Sea

R. Ochieng, T. Harck, M. Peters

Origin of Sodium and its Applications to Mine Water Remediation and Reduction in the South African Coal Mine Environment

N. Malaza, B. Zhao

Influence of Mine Water PH on the Leach Characteristics and Structural Integrity of Two Backfill Products

S. R. Whyte, C. P. Fietze, V. R. K. Vadapalli
ENERGY EFFICIENCY IN MINE WATER MANAGEMENT: POSTER

Relationship between Renewable Energy from Low Enthalpy Mine Waters Stored in Polish Hard Coal Mines and Water Hazards in Active Coal Mines .......................................................... 927
  P. Bukowski

MANAGEMENT OF RADIOACTIVITY IN MINE WATER: POSTER

Post-Flooding Water Management at the Ronneburg Uranium Mine: Lessons Learned and Remaining Challenges .......................................................... 933
  M. Paul, D. Baacke, T. Metschies, W. Kuhn

ENVIRONMENTAL BEST PRACTICE GUIDELINES: POSTER

Implementing an Efficient Mine Water Monitoring and Management Program: Key Considerations ......................... 939
  Yolandi Bezuidenhout

Natural and Technological Risk Management by Private Insurance in Romania, Including Mining Related Disasters .......................................................... 947
  S. Mara, S. N. Vlad

Author Index
