Workshop on Computational Linguistics and Writing: Writing Processes and Authoring Aids 2010

Held at NAACL HLT 2010

Los Angeles, California, USA
6 June 2010

# Table of Contents

*Computational Linguistics in the Translator’s Workflow—Combining Authoring Tools and Translation Memory Systems*
  Christoph Rössener ................................................................. 1

*Scientific Authoring Support: A Tool to Navigate in Typed Citation Graphs*
  Ulrich Schäfer and Uwe Kasterka ............................................ 7

*Grammaticality Judgement in a Word Completion Task*
  Alfred Renaud, Fraser Shein and Vivian Tsang ............................ 15

*The Design of a Proofreading Software Service*
  Raphael Mudge ................................................................. 24

*A Toolkit to Assist L2 Learners Become Independent Writers*
  John Milton and Vivying S.Y. Cheng ......................................... 33

*Learning Simple Wikipedia: A Cogitation in Ascertaining Abecedarian Language*
  Courtney Napoles and Mark Dredze ......................................... 42

*Questions Worth Asking: Intersections between Writing Research and Computational Linguistics*
  Anne Ruggles Gere and Laura Aull ........................................... 51

*Exploring Individual Differences in Student Writing with a Narrative Composition Support Environment*
  Julius Goth, Alok Baikadi, Eun Young Ha, Jonathan Rowe, Bradford Mott and James Lester . 56

*The Linguistics of Readability: The Next Step for Word Processing*
  Neil Newbold and Lee Gillam .................................................. 65
