14th World Congress on Intelligent Transport Systems 2007

Beijing, China
9-13 October 2007

Volume 1 of 7

# TABLE OF CONTENTS

## VOLUME 1

**PENNSYLVANIA TURNPIKE COMMISSION (PTC) FOG DETECTION, TRAVELER INFORMATION AND DYNAMIC TRAFFIC CONTROL SYSTEM PTC FOG WARNING SYSTEM (FWS)**

Joerg Rosenbohm, Bruce Littleton, Lou Cortelazzi

................................................................................................................................. 1

**REGIONAL COLLABORATION: A MODEL FOR SUCCESSFUL ITS IMPLEMENTATION IN PORTLAND, OREGON**

.................................................................................................................................................................. 9

Robert L. Bertini, Jonathan Makler, Max Coffman

**511 - A NATIONAL TRAVEL INFORMATION SYSTEM**

.................................................................................................................................................................. 17

James L. Wright

**BUILDING PLANNING AND OPERATIONS ANALYSIS TOOLS ON AN ARCHIVED ITS DATA PLATFORM: WHO ARE THE USERS?**

.................................................................................................................................................................. 25

Robert L. Bertini

**BUILDING PUBLIC TRANSPORT INFORMATION SERVICES FOR DOWNSTATE NEW YORK TRAVELERS AND OPERATORS**

.................................................................................................................................................................. 33

Zhijun Qiu, Bin Ran

**MISSISSIPPI STATE UNIVERSITY STARKVILLE CAMPUS TRAFFIC SIMULATION STUDIES**

.................................................................................................................................................................. 48

Li Zhang, Zhijian Gou, Tomas D. White, Guanghua Zhang

**INTEGRATING DYNAMIC VEHICLE PROBE DATA INTO AN ADVANCED TRAFFIC MANAGEMENT SYSTEM**

.................................................................................................................................................................. 56

Ryan D. Lamm, Steven J. Sproatfske

**AN NTCP-COMPLIANT NEXT-GENERATION TRAFFIC CONTROL SYSTEM FOR NEW YORK CITY**

.................................................................................................................................................................. 67

Zhavori Yang, Robert Rausch

**FLEXBUS: AN ITS-ENABLED PUBLIC TRANSPORT SERVICE FOR CENTRAL FLORIDA**

.................................................................................................................................................................. 77

Carol L. Schweiger, Santosh K. Mishra, Doug Jamison

**VEHICULAR APPLICATIONS USING LOCAL PEER GROUP ARCHITECTURE**

.................................................................................................................................................................. 84

Toshiro Hikita, Ryokichi Onishi, Wai Chen, Jasmine Chennikara-Vargese

**USING A SERVICE-ORIENTED ARCHITECTURE TO IMPLEMENT INTELLIGENT TRANSPORTATION SYSTEM (ITS) APPLICATIONS**

.................................................................................................................................................................. 92

Chih-Tong Tang

**TRAFFIC MODEL PLANNING FOR PROACTIVE EMERGENCY EVACUATION**

.................................................................................................................................................................. 104

Edmond C. Chung

**WIRELESS VEHICULAR SAFETY SYSTEMS: SPECIALIZED TEST PLATFORM SUPPORTS APPLICATION EVALUATION**

.................................................................................................................................................................. 112

Aaron Weinfelder, Sue Graham

**INTEGRATING SYSTEMS ENGINEERING INTO THE PROJECT DEVELOPMENT PROCESS**

.................................................................................................................................................................. 128

Robert S. Saffie, Manny S. Insignares, Patrick Chan

**ITS TOPICS IN THE U.S. DOT FHWA’S EXPLORATORY ADVANCED RESEARCH PROGRAM**

.................................................................................................................................................................. 134

Gene M. McHale, Steven B. Chase

**OPERATION LEAPFROG: HOW THE 3RD WORLD CAN GET TO THE WORLD’S BEST TRAFFIC SAFETY ON THE BACKS OF THE 1ST**

.................................................................................................................................................................. 148

Al Gallon

**APPLICATION OF A MAP-MATCHING ALGORITHM IN A GEOSPATIAL ENVIRONMENT TO SUPPORT INFRASTRUCTURE MANAGEMENT SYSTEMS**

.................................................................................................................................................................. 159

Henry H. Ng, Scotti Stewart, Rick Yeung, Nicholas Day

**DINAMICALLY SYNTHESIZING AND ANALYZING DATA GATHERED FROM ADVANCED TRAFFIC MANAGEMENT SYSTEMS**

.................................................................................................................................................................. 167

Steven W. Dellenback, Stephen R. Johns

**USING ITS TECHNOLOGIES TO IMPROVE THE STATE-OF-THE-ART IN AUTONOMOUS VEHICLES**

.................................................................................................................................................................. 175

Habib Shamshkou, Anush Nejad, Cyrus Minoofar

**INTERSTATE 80 - INTEGRATED CORRIDOR MOBILITY PROJECT, FIRST APPLICATION OF COMPREHENSIVE ACTIVE TRAFFIC MANAGEMENT SYSTEM IN CALIFORNIA**

.................................................................................................................................................................. 180

Zhijun Qiu, Bin Ran

**SAMPLE SIZE REQUIREMENT FOR CELLULAR PROBE TRAFFIC MONITORING SYSTEM**

.................................................................................................................................................................. 189

Zhijun Qiu, Bin Ran

**APPLY CELLULAR NETWORK DATA TO DETECT FREEWAY TRAFFIC STATE USING VIRTUAL SENSOR NETWORK**

.................................................................................................................................................................. 196

Zhijun Qiu, Bin Ran

**RESEARCH & DEVELOPMENT OF FUTURE WIRELESS VEHICLE SAFETY COMMUNICATION (VSC) SYSTEMS USING AN INTERACTIVE SIMULATION PLATFORM**

.................................................................................................................................................................. 202

Roger Berg, Jason Hunzinger, Hidehiko Akatsuka, Hideaki Suzuki

---

**TABLE OF CONTENTS**

**VOLUME 1**

**PENNSYLVANIA TURNPIKE COMMISSION (PTC) FOG DETECTION, TRAVELER INFORMATION AND DYNAMIC TRAFFIC CONTROL SYSTEM PTC FOG WARNING SYSTEM (FWS)**

Joerg Rosenbohm, Bruce Littleton, Lou Cortelazzi

................................................................................................................................. 1

**REGIONAL COLLABORATION: A MODEL FOR SUCCESSFUL ITS IMPLEMENTATION IN PORTLAND, OREGON**

Robert S. Saffie, Manny S. Insignares, Patrick Chan

**ITS TOPICS IN THE U.S. DOT FHWA’S EXPLORATORY ADVANCED RESEARCH PROGRAM**

.................................................................................................................................................................. 134

Gene M. McHale, Steven B. Chase

**OPERATION LEAPFROG: HOW THE 3RD WORLD CAN GET TO THE WORLD’S BEST TRAFFIC SAFETY ON THE BACKS OF THE 1ST**

.................................................................................................................................................................. 148

Al Gallon

**APPLICATION OF A MAP-MATCHING ALGORITHM IN A GEOSPATIAL ENVIRONMENT TO SUPPORT INFRASTRUCTURE MANAGEMENT SYSTEMS**

.................................................................................................................................................................. 159

Henry H. Ng, Scotti Stewart, Rick Yeung, Nicholas Day

**DINAMICALLY SYNTHESIZING AND ANALYZING DATA GATHERED FROM ADVANCED TRAFFIC MANAGEMENT SYSTEMS**

.................................................................................................................................................................. 167

Steven W. Dellenback, Stephen R. Johns

**USING ITS TECHNOLOGIES TO IMPROVE THE STATE-OF-THE-ART IN AUTONOMOUS VEHICLES**

.................................................................................................................................................................. 175

Habib Shamshkou, Anush Nejad, Cyrus Minoofar

**INTERSTATE 80 - INTEGRATED CORRIDOR MOBILITY PROJECT, FIRST APPLICATION OF COMPREHENSIVE ACTIVE TRAFFIC MANAGEMENT SYSTEM IN CALIFORNIA**

.................................................................................................................................................................. 180

Zhijun Qiu, Bin Ran

**SAMPLE SIZE REQUIREMENT FOR CELLULAR PROBE TRAFFIC MONITORING SYSTEM**

.................................................................................................................................................................. 189

Zhijun Qiu, Bin Ran

**APPLY CELLULAR NETWORK DATA TO DETECT FREEWAY TRAFFIC STATE USING VIRTUAL SENSOR NETWORK**

.................................................................................................................................................................. 196

Zhijun Qiu, Bin Ran

**RESEARCH & DEVELOPMENT OF FUTURE WIRELESS VEHICLE SAFETY COMMUNICATION (VSC) SYSTEMS USING AN INTERACTIVE SIMULATION PLATFORM**

.................................................................................................................................................................. 202

Roger Berg, Jason Hunzinger, Hidehiko Akatsuka, Hideaki Suzuki
ALGORITHM FOR AUTOMATIC CALIBRATION OF TRAFFIC MONITORING CAMERAS. .......................................................... 210
Daniel J. Benhammouda

DEVELOPMENT OF A PRACTICAL ON-LINE COORDINATED VARIABLE SPEED ADVISORY SYSTEM FOR WORK ZONES .......................................................... 216
Eil Kwon

VEHICLE INFRASTRUCTURE INTEGRATION: FINDINGS OF THE ECONOMIC ANALYSIS OF DEPLOYMENT IN THE AUTO CAPITAL OF THE WORLD ........................................ 221
Kanwar Rajendra, Gregory Krueger, Kim Hill, Debra Menk, Sean McAllinden, Sabir Baswan

ATIS WEB STANDARDS AND WEB SERVICES .......................................................... 231
Richard D Chylinski

EVALUATION OF TRAFFIC PROBE DATA PROCESSING ALTERNATIVES .......................................................... 236
Steven E Shladover, Tom M. Kuhn

USING WIRELESS COMMUNICATIONS AS A COMPLEMENT TO IN-VEHICLE COMMUNICATION TECHNOLOGIES .......................................................... 245
Leon Hong

INTELLIGENT TRANSPORTATION SYSTEMS FOR NEW YORK CITY TRANSIT: DEVELOPMENT OF ADVANCED TECHNOLOGIES AND REAL TIME TRAVELER INFORMATION SERVICES .......................................................... 251
Andrew Bata

BENCHMARKING TRAVEL TIME ESTIMATES .......................................................... 261
J. D. Margulici, Xuegang Ban

USING ITS TECHNOLOGIES TO OVERCOME ADVERSE WEATHER .......................................................... 269
Edmond C Chang

ENHANCE TOLL ROAD OPERATIONS WITH TRAVELER INFORMATION .......................................................... 279
Zhong Wang, Khuli Persaud, C. Michael Walsum

IMPLEMENTING EVENT MANAGEMENT AND PERFORMANCE MEASURE REPORTING IN A DISTRIBUTED TMC ENVIRONMENT USING CENTER-TO-CENTER .......................................................... 291
Steven W Dellenback, Robert W Heller

VEHICLE INFRASTRUCTURE INTEGRATION (VII): NATURALISTIC DATA NEEDS .......................................................... 299
Peter F. Sweatman, Gregory D. Krueger

MOVING COMMERCIAL TRUCKS FROM TELEMATICS TO VII .......................................................... 316
John Woodrowffe, Peter Sweatman, Ralph Robinson

PARSONS TRAFFIC AND TRANSIT LABORATORY (PARSONS T2 LAB) .......................................................... 324
Meng Li, Wei-Bin Zhang, Kun Zhou, Kai Leung, Sonja Sun

STUDY OF INTEGRATED CORRIDOR MANAGEMENT FOR SAN FRANCISCO BAY AREA INTERSTATE 880 CORRIDOR ................................................................................. 332
Wei-Bin Zhang, Steve Shladover, Irene Li, Meng Li, Erik Alm, Jeff Ban, Radiah Victor, Albert Yee, Alan Chow, Sean Nozari, Cyrus Minooftp, Bijan Yarjani, Tina Spencer, Patricia Broadbent, Vassili Alexiadis, Tarek Hatata, Anush Nejad, Habib Shamskhou

A RETROSPECTIVE OF THE 1997 NAHSC DEMONSTRATION IN SAN DIEGO AND PROSPECTS FOR AUTOMATED HIGHWAY SYSTEMS .......................................................... 338
Wei-Bin Zhang

A MOBILE LIGHTING MEASUREMENT SYSTEM .......................................................... 346
Haaguo Zhou, Bijan Behzadi, Fatih Pirinciccioglu, Peter Hsu

SIGNAGE AND LIGHTING CONFIGURATION DESIGN FOR BUS SAFETY .......................................................... 354
Haaguo Zhou, Stephanie Bromfield, Amy Datz

INNOVATIVE PEDESTRIAN SAFETY IMPROVEMENT RESEARCH ON US 19 IN PINELLAS COUNTY .......................................................... 362
Haaguo Zhou, Damien Miller, Peter Hsu

MOTORIST ATTITUDES TOWARDS TRAVEL TIME INFORMATION ON I-66 .......................................................... 370
Brian Benson

A REGIONAL CONCEPT OF TRANSPORTATION OPERATIONS FOR METROPOLITAN DETROIT .......................................................... 410
Richard Beaubien

APPROACHES TO THE PROBLEM OF PREDICTIVE TRAVEL TIMES .......................................................... 421
Erhan Kartaltepe, Steven W. Dellenback, Joshua S. Johnson

CELLULAR-BASED TRAFFIC DATA COLLECTION TECHNOLOGIES - PERFORMANCE AND LIMITATIONS .......................................................... 428
Ofer Avital

MARKET-BASED TRANSPORTATION TECHNOLOGY DIFFUSION .......................................................... 431
John Friar, Joseph M. Giglio

ENVIRONMENTAL BENEFITS OF ITS: GROWING VEHICLE USAGE AND THE ROLE OF TECHNOLOGY .......................................................... 442
Marcus Bowman

DESIGN AND MANAGEMENT OF FLEXIBLE TRANSPORTATION NETWORKS THROUGH THE USE OF INTELLIGENT TRANSPORTATION SYSTEMS (ITS) .......................................................... 450
Joshua McConnell, Joseph Sussman

EVALUATING THE IMPACT OF DRIVER BEHAVIOR ON TRAFFIC FLOW AND SAFETY IN FREEWAY WORK ZONES .......................................................... 458
Kevin Heaslip, Chuck Louisell, John Collura

EVALUATION OF SPEED ESTIMATION BY FLOATING CAR DATA WITHIN THE RESEARCH PROJECT

DMOTION ........................................................................................................................................................................1366

HOTWAVE - HIGHWAY OPERATIONAL TEST IN WIRELESS ACCESS TO VEHICLES ENVIRONMENT ......................1343
Bernd Rainer, Peter Meckel, Rudolf Ball

INDOOR LOCALISATION FOR DISABLED PEOPLE: ASK-IT PROJECT .................................................................1351
Simon Edwards, Hannah Bryan, Jurgen Wagner

EVALUATING ROAD SAFETY EFFECTS OF DRIVER ASSISTANT SYSTEMS USING INSTRUMENTED VEHICLE AND DRIVING SIMULATOR ..........................................................1359

SAFETY EFFECTS OF CO-OPERATIVE INTELLIGENT VEHICLE SAFETY SYSTEMS ......................................................1366
Risto Kalmalu, Pirikko Rama, Anna Schirokoff, Niina Sihvola

NEW SOLUTIONS FOR TRAFFIC INFORMATION EXCHANGE .....................................................................................1372
Bjorn Ekland

DATA FUSION TECHNIQUES FOR TRAFFIC STATE ESTIMATION - DINO WITHIN DMOTION ..............................1380
Daniel Schmidt, Bernhard Friedrich, Florian Weichenmeier

AN ENVIRONMENTAL SENSOR SYSTEM FOR ROAD NETWORKS: MESSAGE PROJECT ..............................................1386
Simon Edwards, Hannah Bryan, Jurgen Wagner

EIMPACT: IMPACT ASSESSMENT OF IN-VEHICLE SAFETY SYSTEMS ..............................................................1394
Kerry M. Malone, Isabel R. Wilmink, Martijn Van Noort, Gerdien A. Kluinder

DMOTION - PUBLIC-PRIVATE STRATEGY MANAGEMENT .........................................................................................1402
Torben Hilgers, Frank Offermann

THE PROCESS OF MEASURING AND VALIDATING BUS STOP LOCATION DATA FOR THE IBUS

PROJECT AT LONDON BUSES .....................................................................................................................................1410
Steve Robinson, Felice Radillo

MOBILE SPEED ENFORCEMENT IN DENSE TRAFFIC - NEW DEVICES AND A CORRESPONDING REFERENCE SYSTEM .........................................................................................................................1418
Frank Jaeger, Matthias Fischer, Manfred Kallenbach

DEVELOPING AND ASSESSING ENVIRONMENTALLY FRIENDLY TRAFFIC MANAGEMENT ..................................1426
Isabel R. Wilmink, Frans J. Op De Beeck

REAL TIME DECISION SUPPORT SYSTEM FOR THE ROUTING OF DANGEROUS GOODS VEHICLES .................1434
A. J. Patrinos, V. Emmanouilidis, N. Vayios, D. Tsouvaras, E. Bekarlis

RECENT TRIALS OF ACOUSTIC+VIDEO TRAFFIC SENSORS ......................................................................................1442
Jean-Hubert Wilbrod

TO MEET TOMORROW’S DEMANDS FOR MLFF TOLLING - INCLUDING VALUE ADDED SERVICES -
ISO CALM ACITIVE BI-DIRECTIONAL HIGH SPEED COMMUNICATION-WILL BE THE KEY ..........................1447
Josef Grassauer, Michael Nost, Guido Peters, Christoph Stockl

PROJECT MESSAGE .........................................................................................................................................................1452
Andy Rooke, Rana Ilgaz

OPEN TRAFFIC SYSTEMS - AN EXTENSIBLE MIDDLEWARE FOR DISTRIBUTED TRAFFIC MANAGEMENT SYSTEMS ..............................................................................................................................................1460
Daniel Bullmann, Hannfried Albrecht, Thilo Schon

DATA EFFICIENCY AND PRIVACY ASPECTS OF ADVANCED PROBE VEHICLE SYSTEMS ........................................1468
Martin Hauschild

THE LOCROSS PROJECT OF GIS ITS BRETAGNE: STATUS AND PERSPECTIVES ...............................................................1476
Francois Peyret, Cyril Ray, Fabrice Comblet, Jean-Marie Bonnin, Yvon-Marie Le Roux

THE BENEFITS OF METEOROLOGICAL INFORMATION FOR TRANSPORT - A REVIEW AND CASE STUDIES .................................................................................................................................................................1485
Risto Oorni, Raine Hautala

HANDOVER LOCATION DATA ACCURACY FOR TRAVEL TIME ESTIMATION IN GSM AND UMTS .....................1492
David Gundlegard, Johan M Karlsson

GNSS BASED ELECTRONIC TOLL COLLECTION SYSTEM OF GUARANTEED PERFORMANCES .............................1500
Miguel Angel Martinez-Olague, Joaquin Commen-Schormann

EFFECTIVE INFORMATION RESOURCES CREATE NEW OPPORTUNITIES FOR ITS APPLICATIONS ......................1508
Lars-Erik Stallkranz

INTERSECTION SAFETY - RESULTS OF THE EC-PROJECT INTERSAFE .........................................................................1516
Kay Fuenstenberg, Bernd Roessler

TURIN: FROM PIONEER TRAFFIC MANAGEMENT SOLUTIONS TO THE INNOVATIVE “ACCESS RIGHTS” CONTROL SYSTEM .................................................................................................................................1522
Gianluca Giannotti, De Canton, Paolo D’Angelo

ON EFFECTIVE WAYS OF PREPARING THE INTRODUCTION OF ROAD TOLLS - IS THE DUTCH MARKET CONSULTATION PROCESS ON ROAD CHARGING SYSTEMS A SILVER BULLET FOR THE PREPARATION OF LARGE ITS INVESTMENTS ALL ACROSS EUROPE? ..........................................................................................................................1530
Michael C. Blum, Andreas Weber

MARE NOSTRUM VMS LONG DISTANCE CORRIDOR: CHECKING THE COMPREHENSION OF INTERNATIONAL ALPHANUMERIC FORMULATIONS FOR DISTANCE AND LENGTH .....................................................................................................................1538
Alberto Ambrosi, Antonino Lucas, Maria Teresa Blanch, Ana Cabrejas, Christophe Desnoysselles, Gilberto Tognoni, Nicolas Schwab, Mathieu Lisbonis, Rafael Conte, Hans Remeijer
VOLUME 3

AN ON-LINE APPROACH BASED ON MICROSCOPIC TRAFFIC SIMULATION TO ASSIST REAL TIME TRAFFIC MANAGEMENT ........................................................................... 1546
M. Delgado, G. Funes, D. Garcia, A. Torday, J. Barcelo

VEHICULAR AD HOC AND GRID NETWORKS: DISCUSSION, DESIGN AND EVALUATION ................................................................................. 1555
Rashid Mehmood, Maziar Nekovee

EM2P: THE EMMA MIDDLEWARE SOLUTION TO THE ITS OF THE FUTURE ................................................................................................. 1563
Pedro Jose Marron, Manuel Serrano, Antonio Marques

THE MARKET INTRODUCTION OF ADVANCED DRIVER ASSISTANCE SYSTEMS .............................................................................. 1571
Werner Huber, Martin Koenig, Christian Metzger

TRAFFIC GUIDANCE .................................................................................................................. 1579
Andy J Griffiths, Phillip Proctor, Scott Jeary, Faber Maunsell

MEASURING SYSTEM PERFORMANCE OF ROAD USER CHARGING SCHEMES .............................................................................. 1587
Andrew T. W. Pickford

LOW COST CCTV ........................................................................................................................... 1597
Bob Freeman, Robert Lynch

EVALUATION OF ROAD USER CHARGING SYSTEMS: THE SWEDISH CASE ............................................................................................. 1602
Martin Boldt, Bengt Carlsson, Paul Davidson, Markus Fiedler, Jan A. Persson

IS MY VEHICLE LIABLE? COMPLEXITY AND CHARGING PARAMETERS IN EUROPE ........................................................................ 1610
Andrea Felix, Robert Ven

AKTIV - A GERMAN RESEARCH INITIATIVE IN COOPERATIVE SYSTEMS ....................................................................................................... 1618
Michael Ortgiese, Walter Scholl

IMPLEMENTING THE NATIONAL ROADS TELECOMMUNICATIONS SERVICES PROJECT: TECHNOLOGY MIGRATION ON A NATIONAL SCALE ........................................................................................................ 1626
David Threlfall, David Ruby

DRIVING HABITS AND TRANSPORT TELEMATICS APPLICATIONS .............................................................................................................. 1635
Pasi Sauna-Aho, Juuli Sauna-Aho

SPECIFYING THE PICTURE QUALITY OF DIGITAL CCTV TRANSMISSION SYSTEMS .............................................................................. 1643
Robert P Lynch

DELIVERING A CCTV PUBLIC ACCESS AND MEDIA BROADCAST TRAFFIC INFORMATION SERVICE .......................................................................................................................... 1651
Philip J Rowley, Damian Morris, Paul Whitehead

DMOTION - TRAVEL TIME AND LOS ESTIMATION ON SLIP ROADS AS A PART OF AN INTEGRATED ROUTE GUIDANCE SYSTEM ............................................................................ 1656
Michael Duestervold

CENTRAL LONDON CONGESTION CHARGING: DISTANCE BASED CHARGING TRIALS ......................................................................................... 1664
Jeremy Evans, Dan Firth

CENTRAL LONDON CONGESTION CHARGING: WESTERN EXTENSION EARLY RESULTS .............................................................................. 1667
Jeremy Evans, Dan Firth

REAL TIME ROUTE ANALYSIS BASED ON FLOATING CAR TECHNOLOGY ........................................................................................................... 1671
Juergen Zapicke, Martin Reinthaler

DEVELOPMENT OF A SOFTWARE TOOL TO LEARN USER PREFERENCES FOR PERSONALISED ROUTE GUIDANCE .......................................................................................................................... 1678
Kyounga Park, Michael G. H. Bell, Ioannis Kaparias, Heidrun Belzner

UTILISATION OF ITS FOR IMPROVED TRAFFIC SAFETY IN SWEDEN AND MALAYSIA ........................................................................... 1686
Eva Schelin

TRAFFIC MONITORING USING SYNTHETIC APERTURE RADAR ......................................................................................................................... 1695
Steffen Sachandt, Hartmut Range, Michael Eineder, Aleksander Kotevsky, Steffen Hinz

AN EVALUATION OF AUTOMATIC IDENTIFICATION SYSTEMS FOR INLAND WATERWAYS ........................................................................... 1703
Kees Koster, Anne Tip, Ben Kleiss, Ivo Ten Broeke

IMPLEMENTATION ECALL: VEHICLE EMERGENCY COMMUNICATION ................................................................................................................................. 1708
N/A

MULTIMEDIA TRAINING TOOL FOR DRIVERS’ TRAINING ON IN-VEHICLE ADAS/IVIS ......................................................................................... 1716
Stein Nikolaou, Evangelos Beksaris

AUTOMATIC PREVENTION AND ENFORCEMENT OF INTERDISTANCE VIOLATIONS IN ROAD TUNNELS ......................................................................................................................... 1720
Luc Manchon

ACTIVE RFID TECHNOLOGY FOR ROAD USER SCHEMES ................................................................................................................................. 1726
Luc Manchon

PERFORMANCE REQUIREMENTS AND TESTING METHODS OF CELLULAR-BASED TRAFFIC MONITORING TECHNOLOGIES: BASED ON A CASE STUDY OF CELLINT’S TRAFFICSENSE ......................................................................................... 1730
Ofer Avni

THE CHALLENGE OF ROAD TOLLING AND TRAFFIC INFORMATION SERVICES ................................................................................................................................. 1733
Wolfram Tuchscheerer

TRAFFIC ENFORCEMENT IN THE DIGITAL AGE ................................................................................................................................. 1741
Robert Steer
