2010 8th Asian-Pacific Symposium on Information and Telecommunication Technologies

(APSITT 2010)

Kuching, Malaysia
15 – 18 June 2010
## TABLE OF CONTENTS

- **Developments of Strategies for VCHS-type Queuing Systems** ................................................................. 1  
  S. Nogami, S. Shinmizu
- **Mobile Multiple Polling to Allow High-bit-rate Packet Transfer for Fast Terminals** .................................................. 7  
  T. Yamada, P. T. Hoa
- **Dynamic IP-VPN Architecture with Secure IPsec Tunnels** ............................................................................. 13  
  K. Ishimura, T. Tamura, S. Mizuno, H. Sato, T. Motono
- **Extracting User Posting Behavior Using HTTP Flow** .................................................................................. 18  
  R. Sakurada, T. Moriya, J. Akahani
- **IPsec-GW Redundancy Method with High Reliability** .................................................................................. 24  
  A. Kuboniuwa, T. Tamura, Y. Haruta, Y. Wada, T. Satou, T. Motono
- **Anonymous Communications with Cyclic Knot Routes** .............................................................................. 29  
  M. Okamoto
- **Evaluation of Diffusion Approximation for the G/G/1 Queuing Model** ......................................................... 33  
  Y. Nonaka, S. Nogami
- **Seamless Vertical Handover Management for VoIP Over Intermingled IEEE 802.11g and IEEE 802.16e** ............. 39  
  M. Nishwar, S. Kashihara, Y. Taenaka, K. Tsukamoto
- **Study on the Relationship Among Multiple Websites Using Access Log Analysis** ........................................ 45  
  D. Waski, S. Nogami
- **Compact Fan-out Adaptor for Optical Component Packaging by a New Jacket Removing System**  
  with a CO₂ Laser.................................................................................................................................................... 51  
  Y. Katsuyama, K. Ikashima, R. Sougen, O. Koyama, M. Yamada
- **Study on Congestion Reducing in the Theme Park** .................................................................................. 57  
  Y. Ohtani, S. Sawada, S. Nogami
- **An Ontology Construction Algorithm for Network Robot Control Services** .............................................. 63  
  K. Matsuo, M. Shimokura, T. Ohta, K. Takami
- **Power Aware Routing and Clustering Scheme for Wireless Sensor Networks** ....................................... 69  
  S. Momma, T. Mikoshi, T. Takenaka
- **Lightpath Route Management System for IP-over-CWDM Networks with ROADMs** ...................................... 75  
  R. Zahilah, Y. Ogino, S. Nishihama, M. Nooruzzaman, O. Koyama, Y. Katsuyama
- **Effect of Web-based healthcare System on Behavior Modification** .......................................................... 81  
  K. Fujimura, M. Shiraiishi, Y. Maeda, M. Itoh
- **Multi-lobe Directional Transmission for Network Coding in Multi-rate Ad Hoc Networks** ...................... 87  
  T. Furukawa, M. Bandai, H. Yomo, S. Ohama, T. Watanabe
- **Determining Threshold Values for Monitoring Percentile of Packet Transfer Delay**  
  T. Okuyama, K. Ori.............................................................................................................................................. 92
- **Dynamic Scaling Method of uTupleSpace Data-sharing Mechanism for Wide Area Ubiquitous Network** .......... 98  
  Y. Arakawa, K. Kashihwagi, T. Nakamura, M. Nakamura, M. Matsuo
- **Implementation of Packet Transport System Using MPLS-TP Technologies** ........................................ 104  
  T. Oishi, M. Tukase, K. Sakamoto, H. Endo
- **DoS Attack Countermeasures in NGN Using Private Security Policy** ...................................................... 110  
  Y. Okada, Y. Nishihkawa, N. Sato
- **Proposal of a Zone Disjoint Multi-path Routing for Ad Hoc Networks** ....................................................... 116  
  K. Abarada, N. Okazaki, M. Park
- **Efficiently Indexing with Offset Bitmaps for Huge Sets of Slightly Disordered Sensor Data** ..................... 120  
  T. Yamazaki, T. Inoue, H. Sato, N. Takahashi, J. Takagi, M. Minami
- **The Effect of Headset and Earphone on Reducing Electromagnetic Radiation from Mobile Phone**  
  Towards Human Head ............................................................................................................................................ 126  
  D. A. A. Mat, F. Kho, A. Joseph, K. Kipli, S. Sabhni, K. Lian, A. Syaheda, W. Murzuki
- **Design of User-oriented Contents Communicator on Personal Communication Platform (PCPF)** ....  
  O. Mizuno, Y. Tomita, Y. Tada, K. Fukami, M. Shimomura, K. Takahashi
- **Design and Development of Cost-effective Automatic Location Identification for Campus Monitoring** ........ 138  
  W. A. W. Z. Abidin, A. K. Orhman, K. H. Ping, T. Masri, N. Zamhari
- **Development of the Experimental Platform for Evaluating HMI in Cooperative Collision Warning System** ................................................................................................................................. 143  
  K. T. Hong, T. Ideguchi, T. Xuejun, T. Okuda
Enhanced QoS Based Routing in IPv6 Ad Hoc Network

Performance Analysis of Optical Atmospheric Turbo-coded 2.D CDMA Systems with PPM Signaling

Application and Environment

Finding Optimal Energy-saving Operations in Home Network System Based on Effects Between Appliances and Environment

Enhanced Compression Scheme for High Latency Networks to Improve Quality of Service of Real-time Applications

A Path-based Traffic Control Method for Green Networks

Some Characteristics of Bursty Packet Loss in M/G/1/K Queues

Symbolic Device for Short-range Wireless Pairwise Communication

Robustness of the Internet at the AS Level by DDoS Attack

New Architecture for a VPN On-demand Interconnection System

Accuracy Evaluation and Inaccuracy Screening in PC-based Delay Variation Measurements

Gateway Architecture for Zigbee Sensor Network for Remote Control Over IP Network

Ultra High Speed Calculation Method for Link Bandwidth Design Considering Failures

Validating Packet Origin Using External Route Information

A Statistical Analysis Method for Detecting Mass Call Spam in SIP-based VoIP Service

White Space Devices, Future of Content Based Services

Studies on C2 and its Effects on Free Space Optical Communication Systems

Optimization of Perceptual Conditions for Air-conditioning Systems with Aisle Capping Method

A Comprehensive Overview of Vehicular Ad Hoc Network Evaluation Alternatives

A Novel Scheme Based on Dropped-packet Information to Restrict Pulsing Denial-of-service Attacks

Recognition Method of Behavioral Pattern by Sequential Learning for Life Logs

Trial of Wireless Sensor Network to Collect Field Data

Enhanced Compression Scheme for High Latency Networks to Improve Quality of Service of Real-time Applications

Organization Structure Analysis Based on an Affiliation Network, and Verification of its Effectiveness

Finding Optimal Energy-saving Operations in Home Network System Based on Effects Between Appliances and Environment

Performance Analysis of Optical Atmospheric Turbo-coded 2.D CDMA Systems with PPM Signaling

Enhanced QoS Based Routing in IPv6 Ad Hoc Network
Mashing up Multiple Logs in Home Network System for Promoting Energy-saving Behavior ................................................. 307
H. Igaki, H. Seto, M. Fukuda, M. Nakamura

Efficient RFID Tag Placement Framework for in Building Navigation System for the Blind ........................................... 313
W. S. Mooi, C. T. Eng, N. H. B. N. Zulkifli

A Survey on Utilization of Data Mining for Childhood Obesity Prediction ................................................................. 319
M. H. B. H. Adnan, W. Husain, F. Damanhoori

A Neural Network Approach Towards Reinforcing Smart Home Security ................................................................. 325
C. C. Teoh, C. T. Eng

Efficient Load Balancing for Bursty Demand in Web Based Application Services via Domain Name Services .......................................................... 330
M. L. Chin, C. T. Eng, M. I. Bandan

A Method for Controlling Search in a Pure P2P File Sharing Network ................................................................. 334
H. Nakazawa, M. Yoshida, S. Ohzahata, A. Nakao, K. Kawashima

IP Multicast Traffic Monitoring System with IPFIX/PSAMP ........................................................................... 340
S. Kashima, A. Kobayashi

A Wavelet-based Anomaly Detection for Outbound Network Traffic ........................................................................... 346
K. Limthong, P. Watanapongse, F. Fukuda

Applying Device Discovery Methods for Home Network Management ........................................................................... 352
T. Tanaka, S. Moriwaki, K. Ooto

Measuring P2P Network Topology Through Geo-location-aware Distributed Crawlers .................................................. 358
P. Putra, A. Nakao

A Modeling Method of Access Network for Resource Reservation and Admission Control of NGN ........................................ 364
K. Tanida, H. Nakamura

A Case Study of Identity Federation Single Sign on Service and Issues of its Operations ................................................. 369
K. Horikawa, K. I. Shimada, K. Yabe, K. Moriyasu, H. Suzuki

Performance Evaluation of iSCSI-APT (iSCSI with Automatic Parallelism Tuning) on SINET3 with Layer-1 Bandwidth on Demand Service .......................................................... 375
H. Ohsaki, J. Kittananun, F. Inoue, Y. Nomoto, M. Imase

Proxy-based Multicast Congestion Control for Ad Hoc Networks ........................................................................... 381
Y. Yamamoto, H. Itsumi, M. Yamamoto

Multi-class Scheduling Technique Using Dual Threshold ........................................................................................................... 387
A. A. A. Rahman, K. Seman, K. Saadan

Inferring Success of Online Development Communities: Application of Graph Entropy for Quantifying Leaders’ Involvement .............................................................................................. 392
S. Tsugawa, H. Ohsaki, M. Imase

Dynamic IP-VPN Architecture for Cloud Computing ......................................................................................................... 398
H. Hata, Y. Kamizuru, A. Honda, T. Hashimoto, K. Shimizu, H. Yao

A Study on the Requirements of Accountable Cloud Services and Log Management ......................................................... 403
S. Nakahara, H. Ishimoto

Enhanced TERAOKYO Learning System Providing Multi-point Remote Interactive Lessons ........................................... 409
Y. Nishiiuchi, N. Matsuuchi, T. Mendori, K. Shimamura

A Transmission Range Adjustment Algorithm to Avoid Energy Holes in Wireless Sensor Networks ............................ 413
V. Tran-Quang, T. Miyoshi

Ad Hoc Network Service with Relay Reward and its Routing Performance ........................................................................... 419
T. Fujii, K. Yamori, Y. Tanaka

Failure Prediction Method for Network Management System by using Bayesian Network and Shared Database .......................................................................................................................... 425
E. Harahap, W. Sakamoto, H. Nishi

A LIVE Image Transmission System for Dome Theaters ........................................................................................................... 431
K. Kaneko, N. Ohta

Evaluation of a Server-based Traffic Engineering Architecture Suitable for Large-scale MPLS Networks .................................................. 437
K. Matsui, M. Kaneda, K. Matsuda

Evaluation of a Wake-up Wireless Module with Bloom-filter-based ID Matching ......................................................... 443
S. Ishida, T. Takiguchi, S. Saruwatari, M. Minami, H. Morikawa
